3. Notwithstanding any other rights to redeem the Certificates prior to the Maturity Date in accordance with these Terms and Conditions, the Certificates shall be terminated automatically and redeemed on an Automatic Early Redemption Date at the Automatic Early Redemption Amount per Certificate if on the Valuation Date directly preceding the relevant Automatic Early Redemption Date the Reference Price of each Underlying is equal to or above the Barrier with respect to the relevant Valuation Date.

4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to the provisions contained in § 10.

§ 7 ADJUSTMENTS

1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to adequately account for the economic effect of the Adjustment Event or the Extraordinary Event on the Certificates and to preserve, in essence, the economic profile that the Certificates had prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.
2. An Adjustment may result in:
 - (a) the replacement of the Share by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and the determination of another stock exchange as the Exchange,

and/or
 - (b) increases or decreases of specified variables and values or the amounts payable under the Certificates taking into account:
 - (i) the effect of an Adjustment Event or Extraordinary Event on the price of the Share;
 - (ii) the diluting or concentrative effect of an Adjustment Event or Extraordinary Event on the theoretical value of the Share; or
 - (iii) any cash compensation or other compensation in connection with a Replacement;

and/or

- (c) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.
3. Adjustments should correspond to the adjustments to options or futures contracts relating to the Share made by the Futures Exchange (a "**Futures Exchange Adjustment**").
- (a) If the Futures Exchange Adjustment results in the replacement of the Share by a basket of shares, the Issuer shall be entitled to determine that only the share with the highest market capitalisation on the Cut-off Date shall be the (replacement) Share for the purpose of the Certificates, and to hypothetically sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and hypothetically reinvest the proceeds immediately afterwards in the (replacement) Share by making an appropriate adjustment to the specified variables and values or the amounts payable under the Certificates. If the determination of the share with the highest market capitalisation would result in an economic inappropriate Adjustment, the Issuer shall be entitled to select any other share of the basket of shares to be the (replacement) Share in accordance with the foregoing sentence. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
 - (b) In particular, the Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where:
 - (i) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
 - (ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Certificates had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
 - (iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.
 - (c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Certificates had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share.
4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.
5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 14.

7. Any Adjustment in accordance with this § 7 does not preclude a subsequent termination in accordance with § 8 on the basis of the same event.

§ 8

EXTRAORDINARY TERMINATION RIGHTS OF THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may also freely elect to terminate the Certificates prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Certificates had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Certificates prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Certificates prematurely in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

2. § 13 SUBSTITUTION OF THE ISSUER

1. Substitution of the Issuer by Société Générale S.A., SG Issuer S.A. or Société Générale Effekten GmbH
 - (a) At any time during the life of the Certificates and subject to § 13 paragraph 1(b), the Issuer is entitled to substitute Société Générale S.A. (hereinafter called "**SG**" or a "**New**

SG Issuer"), SG Issuer S.A. (hereinafter called "**SGIS**" or a "**New SG Issuer**") or Société Générale Effekten GmbH (hereinafter called "**SGE**" or a "**New SG Issuer**") for itself as Issuer without the consent of any Certificateholder. In such case, the New SG Issuer will assume all the obligations of the Issuer under and in connection with the Certificates. In case of SGIS or SGE as New SG Issuer, the payment obligations (including any delivery obligations) of the relevant New SG Issuer under the Certificates will be unconditionally and irrevocably guaranteed by SG (the "**Parent Guarantor**" and such guarantee, the "**Parent Guarantee**"). Any such substitution and the effective date shall be notified by the Issuer in accordance with § 14.

Upon any such substitution the New SG Issuer shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Certificates with the same effect as if the New SG Issuer had been named as the Issuer in these Terms and Conditions; the Issuer shall be released from its obligations hereunder and from its liability as obligor under the Certificates.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on refer to the New SG Issuer.

- (b) No such assumption pursuant to § 13 paragraph 1(a) shall be permitted unless
 - (i) the New SG Issuer has agreed to assume all obligations of the Issuer under the Certificates; and
 - (ii) the New SG Issuer and the Parent Guarantor (if applicable) have obtained all necessary governmental authorisations, approvals, consents and permissions (including and in particular clearance by the relevant competition authorities regarding the sale of the business to which the Certificates relate) in the jurisdictions in which Parent Guarantor (if applicable) and/or the New SG Issuer are domiciled or the country under the laws of which they are organised.
- (c) The following provision is subject to the condition precedent of SGE becoming the New SG Issuer of these Certificates pursuant to § 13 paragraph 1(a):
 - (i) If the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on debt within the meaning of Article L 613-30-3-I-3 of the French Monetary and Financial Code of SG ranking junior to debt of SG that benefits from statutorily preferred exceptions pursuant to Article L 613-30-3-I-1 and L 613-30-3-I-2 and that are not debt as defined in Article L 613-30-3-I-4 of the French Monetary and Financial Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of SG or another person, including by means of a variation to their terms and conditions to give effect to such exercise of Bail-in Power, then:
 - (aa) SGE's obligations as New SG Issuer to the Certificateholders under the Certificates shall be limited and reduced to the amounts of principal and/or interest that would be recoverable by the Certificateholders and/or the value of the shares or other securities or other obligations of SG or another person that would be delivered to the Certificateholders if the Certificates had been directly issued by SG itself, and any obligations under the Certificates had accordingly been directly subject to the exercise of the Bail-in Power, and
 - (bb) SGE shall be entitled to, in lieu of payment, request the Certificateholders to seek payment, in whole or in part, of any amounts due under the Certificates subsequent to the reduction and/or delivery of any shares or other securities or other obligations of SG subsequent to a conversion provided for at (i)

above, directly from SG under the Parent Guarantee for the obligations of the New SG Issuer.

If and to the extent SGE requests the Certificateholders to directly seek payment and/or delivery from SG under the Parent Guarantee for SGE's obligations, SGE's liabilities under the Certificates shall be deemed extinguished.

"Bail-in Power" means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in France in effect and applicable in France to SG (or any successor entity thereof), including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a French resolution regime under the French monetary and financial code, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled and/or converted into shares or other securities or obligations of the obligor or any other person.

The **"Relevant Resolution Authority"** is any authority with the ability to exercise the Bail-in Power.

- (ii) No repayment of the principal amount of the Certificates or payment of interest thereon (to the extent of the portion thereof affected by the exercise of the Bail-in Power) shall become due and payable after the exercise of any Bail-in Power by the Relevant Resolution Authority, unless such repayment or payment would be permitted to be made by SG under the laws and regulations then applicable to SG under its senior unsecured liabilities if SG itself was the issuer of the Certificates, and the terms and conditions of the Certificates shall be deemed to be modified accordingly.
 - (iii) Upon SGE becoming aware of the exercise of the Bail-in Power by the Relevant Resolution Authority on senior unsecured liabilities of SG, SGE shall notify the Certificateholders in accordance with § 14 (and other parties that should be notified, if applicable). Any delay or failure by SGE to give notice shall not affect the effects on the Certificates described in the first paragraph.
 - (iv) The reduction or modification described in the first and second paragraphs above with respect to the Certificates shall not constitute an event of default and the terms and conditions of the Certificates shall continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of the Certificates, subject to any modification of the amount of interest payable to reflect the reduction of the principal amount, and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in France.
- (d) Each holder of a Certificate or Certificates acknowledges and undertakes, on its acquisition of such Certificate or Certificates, that, in case the Issuer is subsequently substituted for SGIS or SGE (as the case may be) pursuant to this § 13 and a payment default by SGIS or SGE (as the case may be) of principal (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any amount due upon redemption at maturity or otherwise) on any such Certificates occurs whenever such payment falls due (such payment defaults, **"Defaulted Payments"**), such Certificateholder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against such New SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such

Defaulted Payments against such New SG Issuer. For the avoidance of doubt, such acknowledgement, undertaking and waiver are without prejudice to the Certificateholder's rights under the Parent Guarantee and do not alter or impair the Parent Guarantor's obligations under the relevant Parent Guarantee. Accordingly, each Certificateholder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Parent Guarantor to enforce any obligation due under the relevant Parent Guarantee, including without limitation in respect of any Defaulted Payments.

2. Substitution of the Issuer by any other company

- (a) At any time during the life of the Certificates and subject to § 13 paragraph 2(b), the Issuer is entitled to substitute any other company (hereinafter called a "**New Other Issuer**") for itself as Issuer without the consent of any Certificateholder. In such case, the New Other Issuer may assume all the obligations of the Issuer under and in connection with the Certificates. Any such substitution and the respective effective date shall be notified by the Issuer in accordance with § 14.

Upon any such substitution, the New Other Issuer shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Certificates with the same effect as if the New Other Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 13 paragraph 2 and/or paragraph 1, each previous issuer) shall be released from its obligations hereunder and from its liability as obligor under the Certificates.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on refer to the New Other Issuer.

- (b) No such assumption pursuant to § 13 paragraph 2(a) shall be permitted unless
- (i) the New Other Issuer has agreed to assume all obligations of the Issuer under the Certificates;
 - (ii) the New Other Issuer has agreed to indemnify and hold harmless each Certificateholder against any tax, duty, assessment or governmental charge imposed on such Certificateholder in respect of such substitution;
 - (iii) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Certificateholders compliance by the New Other Issuer with all obligations under the Certificates;
 - (iv) the New Other Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Other Issuer are domiciled or the country under the laws of which they are organised.

3. Upon any substitution of the Issuer for a New SG Issuer or a New Other Issuer, this § 13 shall apply again.

§ 14 NOTICES

Following such rescission by the Issuer, the Certificateholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Certificates to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within ten calendar days following receipt of the Rescission Redemption Notice and of the Certificates by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. 3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Certificates on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Certificateholders together with the declaration of rescission in accordance with § 14. Any such offer shall be deemed to be accepted by a Certificateholder (and the rescission shall not take effect), unless the Certificateholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 14 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Certificates to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. If a Market Disruption Event exists on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Certificateholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Certificateholders. Notice of any such correction or amendment shall be given to the Certificateholders in accordance with § 14.
6. If a Certificateholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Certificates, then, notwithstanding paragraphs 2 - 5, such Certificateholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. B.4b	Known trends affecting the Issuer and the industries in which it operates	Société Générale continues to be subject to the usual risks and the risks inherent in its business. In a context of firming world growth, several risks continue to weigh on global economic prospects: risks of renewed financial tensions in Europe, risks of renewed turbulences (financial, social and political) in emerging economies, uncertainties related to unconventional monetary policy measures implemented in the main developed economies, the

rise in terrorist risks as well as of geopolitical and protectionist tensions.

More specifically, the group of Société Générale (the "**SG-Group**") could be affected by:

- renewed financial tensions in the Eurozone resulting from a return of doubts about the integrity of the monetary union, for example in the run-up to elections in a context of rising eurosceptic political forces;
- fears regarding a possible tightening of international trade barriers, in particular in large developed economies (United States or, in the context of Brexit, United Kingdom for example);
- a sudden rise in interest rates and markets volatility (bonds, equities and commodities), which could be triggered by inflationary fears, trade tensions or poor communication from main central banks when changing their monetary policy stance;
- a sharp slowdown in economic activity in China, triggering capital flight from the country, depreciation pressures on the Chinese currency and, by contagion, on other emerging market currencies, as well as a fall in commodity prices;
- worsening geopolitical tensions in the Middle East, South China Sea, North Korea or Ukraine. Further tensions between western countries and Russia could lead to stepping up of sanctions on the latter.
- socio-political tensions in some countries dependent on oil and gas revenues and needing to adapt to reversal in commodities prices.
- From a regulatory perspective, H1 2018 was marked in particular by the European legislative process around the draft CRR2 (a draft of a new regulation on capital requirements for credit institutions) / CRD5 (a new draft directive for capital requirements of credit institutions), therefore the review of the CRR regulation and the capital adequacy directive. This is expected to continue in H2 and include the subjects MREL (Minimum Requirement for own funds and Eligible Liabilities) and TLAC (Total Loss Absorbing Capacity). However, the transposition into European law of the agreement finalising the Basel III reforms is not yet on the agenda as regards European legislative institutions: an impact study is to be launched by the EBA (European Banking Authority) and will serve to draft the future CRR3 (a further new draft for capital requirements of credit institutions) regulation. Other current subjects concern notably the review of the systemic capital buffer for systemically important banks, the ECB's expectations in terms of provisioning the stock of non-performing loans and the review of the regime for investment firms in Europe.

B.18² Nature and scope of the Parent Guarantee Upon the Issuer-SG Substitution (as defined in D.6 of this summary) of Commerzbank by SGIS or SGE as New SG Issuer becoming effective in accordance with the terms and conditions, the payment obligations (including any delivery obligations) under such Certificates will be unconditionally and irrevocably guaranteed by Société Générale (in this function the "**Parent Guarantor**") pursuant to the guarantee made on or about the date of the Issuer-SG Substitution ("**Parent Guarantee**").

The Parent Guarantee obligations constitute direct, unconditional, unsecured and unsubordinated obligations of the Parent Guarantor ranking as senior preferred obligations, as provided for in Article L. 613-30-3 I 3° of the French *Code monétaire et financier* (French Monetary and Financial Code (the "**Code**")) and will rank at least *pari passu* with all other existing and future direct, unconditional, unsecured senior preferred obligations of the Parent Guarantor, including those in respect of deposits.

In case the Parent Guarantee guarantees obligations of SGE as New SG Issuer, any references in the Parent Guarantee to sums or amounts payable by the New SG Issuer shall be to such sums and/or amounts that would be due if Société Générale was itself the New SG Issuer and as those would be directly reduced, and/or in the case of conversion into equity, as those would be reduced by the amount of such conversion, and/or as those would be otherwise modified from time to time resulting from the application of a bail-in power by any relevant authority pursuant to directive 2014/59/EU of the European Parliament and of the Council of the European Union.

² Summary of information on a Parent Guarantee by Société Générale and Société Générale as Parent Guarantor is provided as additional disclosure to take account of the fact that an Issuer-SG Substitution may occur. If the Issuer is substituted by SGIS or SGE as New SG Issuer, the payment obligation (including any delivery obligations) of such New SG Issuer will be parent guaranteed by Société Générale.

Automatic Early Redemption

Under the conditions set out in the Terms and Conditions, the Certificates shall be terminated automatically and redeemed on the respective Automatic Early Redemption Date at the applicable Automatic Early Redemption Amount per Certificate.

Adjustments and Early Redemption

Subject to particular circumstances, the Issuer may be entitled to perform certain adjustments. Apart from this, the Issuer may be entitled to terminate the Certificates prematurely if a particular event occurs.

Ranking of the securities

The obligations under the Certificates constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and, unless otherwise provided by applicable law, rank at least pari passu with all other unsubordinated and unsecured (*nicht dinglich besichert*) obligations of the Issuer.

Limitation of Liability

The Issuer shall be held responsible for acting or failing to act in connection with Certificates only if, and insofar as, it either breaches material obligations under the Certificates negligently or wilfully or breaches other obligations with gross negligence or wilfully.

The Certificates will be sold and traded by the Issuer only through the electronic securitized derivatives market of Borsa Italiana S.p.A. (SeDeX market, a multilateral trading facility) starting from the date established by Borsa Italiana S.p.A. in a public notice.

C 15 Influence of the Underlying on the value of the securities:

The redemption of the Certificates on the Maturity Date and, in the case of an automatic early redemption event, the Automatic Early Redemption Amount to be paid on the relevant Automatic Early Redemption Date, depend on the performance of the Underlying(s).

In detail:

Subject to the provisions contained in the Terms and Conditions, each Certificate shall be redeemed on the Maturity Date by the payment of an amount in the Issue Currency (the "**Settlement Amount**"), as determined by the Issuer in accordance with the Terms and Conditions.

The Settlement Amount per Certificate is, if necessary, rounded to the next full EUR 0.01 (EUR 0.005 will be rounded up).

There are two possible scenarios for the redemption of the Certificates on the Maturity Date:

1. If on the Final Valuation Date the Reference Price of the Worst Performing Underlying is equal to or above 50% of the relevant Strike Price, each Certificate shall be redeemed by payment of a Settlement Amount equal to the Calculation Amount;

or

2. in all other cases, each Certificate shall be redeemed by payment of a Settlement Amount determined by applying the following formula:

$$CA \times \frac{\text{Worst Underlying}_{\text{Final}}}{R \times \text{Worst Underlying}_{\text{Strike}}}$$

Where

"CA" means the "Calculation Amount" equal to EUR 1,000;

"Worst Underlying_{Final}" means the Reference Price of the Worst Performing Underlying on the Final Valuation Date;

"R" means the "Ratio" equal to 100%; and

"Worst Underlying_{Strike}" means the Strike Price of the Worst Performing Underlying.

Notwithstanding any other rights to redeem the Certificates prior to the Maturity Date in accordance with the Terms and Conditions, the Certificates shall be terminated automatically and redeemed on an Automatic Early Redemption Date at the Automatic Early Redemption Amount per Certificate if on the Valuation Date directly preceding the relevant Automatic Early Redemption Date the Reference Price of each Underlying is equal to or above the Barrier with respect to the relevant Valuation Date, all as specified in the following table:

<i>Valuation Date</i>	<i>Applicable Barrier</i>
18 June 2019	100.00% of the relevant Strike Price
18 September 2019	98.00% of the relevant Strike Price
18 December 2019	96.00% of the relevant Strike Price
18 March 2020	94.00% of the relevant Strike Price
18 June 2020	92.00% of the relevant Strike Price

Section D – Risks

The purchase of Certificates is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Certificates describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

Element	Description of Element	Disclosure requirement
D 2	Key risks specific to the Issuer	The Certificates entail an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the settlement amount.

Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks

Global Financial Crisis and Sovereign Debt Crisis

The global financial crisis and sovereign debt crisis, particularly in the Eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future as well, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds Sovereign Debt. Impairments and revaluations of such Sovereign Debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.

Macroeconomic Environment

The Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.

Counterparty Default Risk

The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio is exposed to considerable risks in view of the persistently difficult market environment and the volatility of ship prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of collaterals of ships directly-owned. The Group has a

substantial number of non-performing loans in its portfolio, and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.

Market Risks

The Group is exposed to a large number of market risks such as market risks in relation to the measurement of equities and fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.

Strategic Risks

There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the desired strategic objectives.

Risks from the Competitive Environment

The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterised by intense competition on price and on transaction terms, which results in considerable pressure on margins.

Liquidity Risks

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage could have material adverse effects on the Group's net assets, financial position and results of operations.

Operational Risks

The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate applicable rules, laws or regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements. The Bank's operational systems are subject to an increasing risk of cyber-attacks and other internet crime, which could result in losses of customer information, damage the Bank's reputation and lead to regulatory proceedings and financial losses.

Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, charges such as the bank levy, a possible financial transaction tax, the separation of proprietary trading from deposit-taking business, or stricter disclosure

and organisational obligations, may materially influence the Group's business model and competitive environment.

Legal Risk

Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. The outcome of such proceedings as well as regulatory, supervisory and judicial proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case.

Key risks that are specific to the New SG Issuers and, if applicable, the Parent Guarantor⁴

An investment in the Certificates involves certain risks which should be assessed prior to any investment decision.

In particular, the SG-Group is exposed to the risks inherent in its core businesses, including:

global economic risks:

The global economy and financial markets continue to display high levels of uncertainty, which may materially and adversely affect SG-Group's business, financial situation and results of operations.

The SG-Group's results may be affected by regional market exposures.

The SG-Group operates in highly competitive industries, including in its home market.

credit risks:

The SG-Group is exposed to counterparty risk and concentration risk.

The SG-Group's hedging strategies may not prevent all risk of losses.

The SG-Group's results of operations and financial situation could be adversely affected by a significant increase in new provisions or by inadequate provisioning for loan losses.

market risks:

The protracted decline of financial markets or reduced liquidity in such markets may make it harder to sell assets or manoeuvre trade positions and could lead to material losses.

The volatility of the financial markets may cause the SG-Group to suffer significant losses on its trading and investment activities.

⁴ Summary of key risks on Société Générale, SGIS or SGE as New SG Issuer and Société Générale as Parent Guarantor (to the extent SGIS or SGE become New SG Issuer) is provided as additional disclosure to take account of the fact that an Issuer-SG Substitution may occur.

The financial soundness and conduct of other financial institutions and market participants could adversely affect the SG-Group.

The SG-Group may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.

operational risks:

The SG-Group's risk management system may not be effective and may expose the SG-Group to unidentified or unanticipated risks, which could lead to significant losses.

Operational failure, termination or capacity constraints affecting institutions the SG-Group does business with, or failure or breach of the SG-Group's information technology systems, could result in losses.

To prepare its consolidated financial statements in accordance with IFRS as adopted by the European Union, SG-Group relies on assumptions and estimates which, if incorrect, could have a significant impact on its financial statements.

The SG-Group's ability to attract and retain qualified employees, as well as significant changes in the regulatory framework related to employees and compensation, may materially adversely affect its performance.

If the SG-Group makes an acquisition, it may be unable to manage the integration process in a cost-effective manner or achieve the expected benefits.

The SG-Group may incur losses as a result of unforeseen or catastrophic events, including terrorist attacks or natural disasters.

structural interest and exchange risks:

Changes in interest rates may adversely affect the SG-Group's banking and asset management businesses.

Fluctuations in exchange rates could adversely affect the SG-Group's results of operations.

liquidity risk:

The SG-Group depends on access to financing and other sources of liquidity, which may be restricted for reasons beyond its control.

non-compliance and reputational risks, litigation:

Reputational damage could harm the SG-Group's competitive position.

The SG-Group is exposed to legal risks that could negatively affect its financial situation or results of operations.

The SG-Group is subject to an extensive supervisory and regulatory

framework in each of the countries in which it operates and changes in this regulatory framework could have a significant effect on the SG-Group's businesses and costs, as well as on the financial and economic environment in which it operates.

A number of exceptional measures taken by governments, central banks and regulators could be amended or terminated.

other risks:

Risks related to the implementation of the SG-Group's strategic plan.

The creditworthiness and credit ratings of any New SG Issuer may affect the market value of the Certificates.

The United Kingdom's impending departure from the European Union could adversely affect the SG-Group.

D 6 **Key information
on the key risks
that are specific
to the securities**

No secondary market immediately prior to the final maturity

The market maker and/or the exchange will cease trading in the Certificates shortly before their scheduled Maturity Date. However, between the last trading day and the Final Valuation Date, the price of the Underlying, which is relevant for the Certificates, may still change. This may be to the investor's disadvantage.

In addition, there is a risk that a barrier stipulated in the Terms and Conditions is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.

Certificates are unsecured obligations (Status)

The Certificates constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Certificates. Under these circumstances, a total loss of the investor's capital might be possible.

The proposed Financial Transactions Tax (FTT)

The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Certificates (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings

with the Certificates. Meanwhile, the Republic of Italy has already enacted a local financial transactions tax, which applies to dealings in Italian shares and securities linked to such shares.

Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities

In the case that the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities, the terms of the Certificates may be varied (e.g. the variation of their maturity), and claims for payment of principal, interest or other amounts under the Certificates may become subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority ("**Regulatory Bail-in**").

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework should be able to ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

The proposal for a mandatory separation of certain banking activities adopted by the European Commission on 29 January 2014 prohibits proprietary trading and provides for the mandatory separation of trading and investment banking activities. Should a mandatory separation be imposed, additional costs cannot be ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.

U.S. Foreign Account Tax Compliance Act Withholding

The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".

U.S. Hiring Incentives to Restore Employment Act Withholding

The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.

Impact of a downgrading of the credit rating

The value of the Certificates could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Certificates.

Extraordinary termination, early redemption and adjustment rights

The Issuer shall be entitled to perform adjustments or to terminate and redeem the Certificates prematurely if certain conditions are met. This may have a negative effect on the value of the Certificates as well as the Extraordinary Termination Amount. If the Certificates are terminated, the amount payable to the holders of the Certificates in the event of the extraordinary termination of the Certificates may be lower than the amount the holders of the Certificates would have received without such termination.

Market disruption event or trading disruption event or fund disruption event

The Issuer is entitled to determine market disruption events and trading disruption events and fund disruption events, respectively, that might result in a postponement of a calculation and/or of any attainments under the Certificates and that might affect the value of the Certificates. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.

Substitution of the Issuer

Pursuant to the terms and conditions, the Issuer is entitled at any time, without the consent of the holders of the Certificates, to appoint another company as the new issuer with regard to all obligations arising out of or in connection with the Certificates in its place.

- *Issuer-SG Substitution*

On 2 July 2018 Commerzbank AG has entered into an agreement with Société Générale to sell its Equity Markets & Commodities business (the "**EMC-Business**"), which includes *inter alia* the issuance and trading of investment and leverage products. The transaction is subject to conditions precedent, *inter alia*, pre-clearance with competent tax authorities, clearance by competition authorities, approval by further relevant authorities and employee representative committees as well as the finalisation of legal documentation. Therefore the below will only occur to the extent that all clearances and approvals have been granted.

In case of a sale and transfer of the EMC-Business to the SG-Group, all of the Issuer's obligations pursuant to the Certificates may be transferred to Société Générale, SGIS or SGE (each, as applicable, as the New SG Issuer) without the consent of any holder of Certificates ("**Issuer-SG Substitution**") on an effective date of the Issuer-SG Substitution to be agreed upon by the Issuer and the relevant New SG

Issuer and notified to the holders of the Certificates in accordance with the terms and conditions.

In case the Issuer's obligations arising from the Certificates are transferred to SGIS or SGE, Société Générale as the parent company of the SG-Group and Parent Guarantor, will issue an unconditional and irrevocable parent guarantee for the benefit of the relevant holder of Certificates relating to the performance of all of such relevant New SG Issuer's payment obligations (including any delivery obligations) arising under the Certificates (Parent Guarantee).

In case of an Issuer-SG Substitution, the relevant New SG Issuer may exercise all of the Issuer's rights arising from the Certificates with the same effect as if it had been named as Issuer in the terms and conditions. The holders of the Certificates will, upon the Issuer-SG Substitution becoming effective, bear the insolvency risk of such New SG Issuer. The holders of the Certificates will also be exposed to the risk, including the insolvency risk, of the Parent Guarantor (to the extent applicable) and more broadly the SG-Group. In addition, Commerzbank AG will be discharged of its obligations in respect of the Certificates and of its liability as obligor under the Certificates as from the Issuer-SG Substitution's effective date.

- *Issuer Substitution*

Furthermore, the issuer of the Certificates from time to time (which includes the Issuer and may include a New SG Issuer following an Issuer-SG Substitution) has the right to transfer its obligations as issuer to any other company (a "**New Other Issuer**") in accordance with the terms and conditions (the "**Issuer Substitution**").

In case of an Issuer Substitution, the relevant New Other Issuer may exercise all of the Issuer's rights arising from the Certificates with the same effect as if it had been named as Issuer in the terms and conditions. The holders of the Certificates will bear the insolvency risk of such New Other Issuer and of the substituted issuer (currently Commerzbank AG) providing a guarantee in relation to the New Other Issuers' obligation under the Certificates.

- Further consequences of a substitution of the issuer

Any Issuer Substitution or Issuer-SG Substitution may furthermore have tax consequences to the detriment of holders of the Certificates, in particular, but without limitation, if exemptions of the U.S. withholding tax under Section 871(m) of the U.S. Internal Revenue Code of 1986 are potentially lost due to the occurrence of such substitution of the issuer. Each potential investor should consult their own financial, legal and tax advisors to discuss any relevant possible implications of a substitution of the issuer prior to the purchase of any Certificate.

Risk factors relating to the Underlying

The Certificates depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may

include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Certificates.

Risk relating to an automatic early redemption

Under certain circumstances as set forth in the Terms and Conditions, the Certificates may be redeemed early if certain conditions are met, which may adversely affect the economics of the Certificates for the investor.

Risk at maturity

The Certificates may be redeemed on the Maturity Date by payment of a Settlement Amount which can be significantly below the initial issue price of EUR 1,000 per Certificate. In this case the investor could suffer a loss. This is - disregarding the costs incurred in connection with the purchase of the Certificates - the case, if on the Final Valuation Date the Reference Price of each Underlying is below a predetermined percentage of the Strike Price of the relevant Underlying.

The investor will suffer a loss if the Settlement Amount which will be depending on the performance of the Worst Performing Underlying (plus any Bonus Amounts and less local taxes) is below the purchase price paid for the Certificates. The lower the Reference Price of the Worst Performing Underlying and thus the lower the Settlement Amount, the greater will be the loss. Worst Case: The Worst Performing Underlying is worthless on the Final Valuation Date. In this case the Settlement Amount will be equal to 0 (zero).

Risks if the investor intends to sell or must sell the Certificates

Market value risk:

The achievable sale price could be significantly lower than the purchase price paid by the investor.

The market value of the Certificates mainly depends on the performance of one or more Underlyings, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Certificates:

- Changes in the expected intensity of the fluctuation of the Underlying(s) (volatility)
- Remaining term of the Certificates
- Interest rate development
- Developments of the dividends of the Share

Each of these factors could have an effect on its own or reinforce or cancel another.

Trading risk:

The Issuer is neither obliged to provide purchase and sale prices for the Certificates on a continuous basis on (i) the exchanges on which the Certificates may be listed or (ii) an over the counter (OTC) nor to sell or buy back the Certificates. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles the sale or purchase of the Certificates could be temporarily limited or impossible.

Una sintesi delle informazioni su Société Générale, SGIS e SGE in qualità di Nuovo Emittente SG e Société Générale in qualità di Garante Capogruppo (nel caso in cui SGIS o SGE diventi un Nuovo Emittente SG) viene fornita come informativa aggiuntiva per tenere conto del fatto che si potrebbe verificare una Sostituzione dell'Emittente SG.

cinese e, per contagio, sulle valute degli altri paesi emergenti, così come la caduta dei prezzi delle merci;

- il peggioramento delle tensioni geopolitiche nel Medio Oriente, nel Mar Cinese Meridionale, nella Corea del Nord o in Ucraina. Ulteriori tensioni tra i paesi occidentali e la Russia potrebbero portare ad intensificare le sanzioni imposte a quest'ultima.
- tensioni socio-politiche in alcuni paesi dipendenti dai proventi di petrolio e gas e che hanno bisogno di adattarsi all'inversione dei prezzi delle merci.
- Da un punto di vista regolamentare, il primo semestre 2018 è stato caratterizzato in particolare dal processo legislativo europeo relativo alla bozza di CRR2 (una bozza di nuovo regolamento sui requisiti di capitale per enti creditizi) / CRD5 (una nuova bozza di direttiva sui requisiti di capitale degli enti creditizi), e pertanto dalla revisione del regolamento CRR e della direttiva sull'adeguatezza di capitale. Ci si attende che questo processo continui nel secondo semestre e includa i temi MREL (Requisito Minimo per fondi propri e Passività assoggettabili a *bail-in*) e TLAC (Capacità Totale di Assorbimento delle Perdite). Tuttavia, il recepimento nella normativa europea dell'accordo che ha concluso le riforme di Basilea III non è ancora in agenda per quanto riguarda le istituzioni legislative europee: uno studio d'impatto deve essere lanciato da parte dell'EBA (Autorità Bancaria Europea) e sarà a servizio della redazione del futuro regolamento CRR3 (un'ulteriore nuova bozza per i requisiti di capitale degli enti creditizi). Altri temi attuali riguardano in particolare la revisione del buffer di capitale sistemico per banche con importanza sistemica, le aspettative della ECB in termini di accantonamenti per lo stock di crediti in sofferenza e la revisione del regime delle società di investimento in Europa.

Nel corso della durata dei Certificates l'investitore non riceverà il pagamento dei dividendi della società emittente le Azioni sottostanti ai Certificates.

Rimborso Anticipato Automatico

Secondo le condizioni stabilite nei Termini e Condizioni, i Certificates si estingueranno e saranno rimborsati alla rispettiva Data di Rimborso Anticipato Automatico all'Importo di Rimborso Anticipato Automatico per Certificate.

Rettifiche e Rimborso Anticipato

Salvo circostanze particolari, l'Emittente potrà apportare alcune rettifiche. A parte questo, l'Emittente potrà estinguere i Certificates prima della scadenza qualora si verificano eventi particolari.

Ranking dei titoli

Gli obblighi ai sensi dei Certificates costituiscono obbligazioni dirette, non subordinate e non garantite (*nicht dinglich besichert*) dell'Emittente e, a meno che non sia previsto diversamente dalla legge applicabile, avranno pari grado rispetto a tutte le altre obbligazioni, non subordinate e non garantite (*nicht dinglich besichert*) dell'Emittente.

Limitazione di Responsabilità

L'Emittente è responsabile per le azioni compiute o omesse in relazione ai Certificates solo se, e fintanto che, violi gli obblighi materiali connessi ai Certificates con colpa o dolo ovvero violi altre obbligazioni con colpa grave o dolo.

Termini di Presentazione e Prescrizione

Il termine di presentazione dei Certificates (ai sensi del § 801 (1) comma 1 del Codice civile tedesco (*Bürgerliches Gesetzbuch*) ("**BGB**") è di 10 anni ed il termine di prescrizione per i diritti derivanti dai Certificati che sono stati presentati all'incasso entro il termine di presentazione è di due anni calcolati dalla scadenza del relativo termine di presentazione.

C 11 Ammissione a quotazione e negoziazione su mercato regolamentato o mercato equivalente

I Certificates saranno venduti e negoziati per l'Emittente solo attraverso il sistema multilaterale di negoziazione della Borsa Italiana S.p.A. (mercato SeDeX, un sistema multilaterale di negoziazione) a partire dalla data stabilita da Borsa Italiana S.p.A. in una nota pubblica.

C 15 Incidenza del Sottostante sul valore dei titoli:

Il rimborso dei Certificates alla Data di Scadenza e, in caso di evento di rimborso anticipato automatico, l'Importo di Rimborso Anticipato Automatico da versare alla relativa Data di Rimborso Anticipato Automatico, dipendono dall'andamento dei Sottostanti.

In particolare:

Fermo restando le disposizioni contenute nei Termini e Condizioni, ciascun Certificate sarà rimborsato alla Data di Scadenza mediante pagamento di un importo nella Valuta di Emissione ("**Importo di Liquidazione**"), come determinato dall'Emittente ai sensi dei Termini e Condizioni.

L'Importo di Liquidazione per Certificate è, ove necessario, arrotondato al successivo EUR 0,01 (con EUR 0,005 arrotondato per eccesso).

Vi sono due possibili scenari per il rimborso dei Certificates alla Data di Scadenza:

1. Qualora alla Data di Valutazione Finale il Prezzo di Riferimento del Sottostante con la peggiore Performance sia pari o superiore a 50% del relativo Prezzo di Strike, ciascun Certificate sarà rimborsato mediante pagamento di un Importo di Liquidazione pari all'Importo di Calcolo;

ovvero

2. in tutti gli altri casi, ciascun Certificate sarà rimborsato mediante pagamento di un Importo di Liquidazione determinato in base alla seguente formula:

$$IC \times \frac{\text{PeggiorSottostante}_{\text{Finale}}}{M \times \text{PeggiorSottostante}_{\text{Strike}}}$$

Dove

"IC" indica l'"Importo di Calcolo" pari a EUR 1.000;

"**Peggior Sottostante_{Finale}**" indica il Prezzo di Riferimento del Sottostante con Peggior Performance alla Data di Valutazione Finale;

"**M**" indica il "**Moltiplicatore**" pari a 100%, e

"**Peggior Sottostante_{Strike}**" indica il Prezzo di Strike del Sottostante con la Peggior Performance.

Fermo restando qualsiasi altro diritto di esercitare i Certificates prima della Data di Scadenza ai sensi dei Termini e Condizioni, i Certificates si estingueranno automaticamente e rimborsati a una Data di Rimborso Anticipato Automatico all'Importo di Rimborso Anticipato Automatico per Certificate qualora alla Data di Valutazione immediatamente precedente alla Data di Rimborso Anticipato Automatico il Prezzo di Riferimento di ciascun Sottostante è pari o superiore della Barriera relativa alla rispettiva Data di Valutazione, tutto come specificato nella seguente tabella:

<i>Data di Valutazione</i>	<i>Barriera applicabile</i>

"**Importo di Rimborso Anticipato Automatico**" per Certificate indica EUR 1.000; e

"**Data di Rimborso Anticipato Automatico**" indica ogni Data di Pagamento dell'Importo Bonus eccetto la Data di Scadenza.

I diritti connessi ai Certificates si estingueranno al pagamento dell'Importo di Rimborso Anticipato Automatico e del relativo Importo Bonus alla relativa Data di Rimborso Anticipato Automatico.

Sezione D – Rischi

L'acquisto di Certificates è soggetto a determinati rischi. **L'Emittente indica espressamente che la descrizione dei rischi relativi ad un investimento nei Certificates descrive soltanto i principali rischi di cui l'Emittente era a conoscenza alla data del Prospetto di Base.**

Elemento	Descrizione dell'Elemento	Informazioni
D 2	Principali rischi specifici per l'Emittente	<p>I Certificates comportano per i potenziali investitori un rischio emittente, definito anche rischio debitore o rischio di credito. Un rischio emittente è il rischio che COMMERZBANK non sia in grado temporaneamente o in via definitiva di soddisfare le sue obbligazioni di pagamento dell'interesse e/o dell'importo di liquidazione.</p> <p>Inoltre COMMERZBANK è soggetta a vari rischi in relazione alle sue attività commerciali. Tali rischi comprendono in particolare le seguenti categorie di rischi:</p> <p><u>Rischi relativi alla Crisi Finanziaria Globale e alla Crisi del Debito Sovrano</u></p> <p>La crisi finanziaria globale e la crisi del debito sovrano, in particolare nell'Eurozona, hanno avuto un significativo impatto negativo sul patrimonio netto, sulla posizione finanziaria e sui risultati operativi del Gruppo. Non vi è garanzia alcuna che il Gruppo in futuro non sarà significativamente influenzato da ulteriori effetti negativi, in particolare nel caso di una rinnovata intensificazione della crisi. L'eventuale ulteriore intensificarsi della crisi nell'Unione Monetaria Europea potrebbe avere effetti negativi concreti sul Gruppo, che – in talune circostanze – potrebbero addirittura minacciarne l'esistenza. Il Gruppo detiene Debito Sovrano. Deterioramenti e rivalutazioni di tale Debito Sovrano verso valori equi minori hanno avuto effetti concreti molto negativi sul patrimonio netto, sulla posizione finanziaria e sui risultati operativi del Gruppo in passato, e potrebbero esercitare un influsso negativo anche in futuro.</p> <p><u>Congiuntura macroeconomica</u></p> <p>La forte dipendenza del Gruppo dalla situazione economica, particolarmente in Germania, potrebbe comportare ulteriori effetti negativi in caso di nuove recessioni dell'economia.</p> <p><u>Rischio di Insolvenza della Controparte</u></p> <p>Il Gruppo è soggetto al rischio di insolvenza (rischio di credito), anche</p>

in relazione a rilevanti impegni individuali, prestiti e impegni di notevole importo concentrati in singoli settori, c.d. rischio "concentrato", così come in relazione a prestiti a soggetti che possono essere particolarmente influenzati dalla crisi del debito sovrano. Il portafoglio di liquidazione dei finanziamenti navali è esposto a rischi considerevoli, alla luce delle persistenti difficoltà del mercato e della volatilità dei prezzi delle navi, del rischio di insolvenza (rischio di credito) che gli stessi comportano, così come al rischio di sostanziali mutamenti del valore delle garanzie delle navi direttamente possedute. Il Gruppo detiene nel proprio portafoglio un considerevole numero di mutui in sofferenza e le inadempienze potrebbero non essere sufficientemente coperte da garanzie o storni e provviste effettuate in precedenza.

Rischi legati al Mercato

Il Gruppo è esposto ad un notevole numero di rischi come il rischio di mercato in relazione al calcolo dei titoli azionari e delle quote di fondi, nonché sotto forma di rischi di tasso di interesse, di rischi di credit spread, di rischi valutari, di rischi di volatilità e di correlazione, di rischi di prezzo delle materie prime.

Rischi legati alla Strategia

Esiste il rischio che il Gruppo potrebbe non ottenere benefici dalla propria strategia, o che sia in grado di farlo solo in parte o a costi superiori a quelli previsti, e che la realizzazione delle misure previste possa non portare al raggiungimento degli obiettivi strategici prefissati.

Rischi derivanti dal Contesto Concorrenziale

I mercati in cui il Gruppo è attivo – in particolare il mercato tedesco (soprattutto le attività con clienti privati e società nonché attività di *investment banking*) e il mercato polacco – sono caratterizzati da un'intensa concorrenza in termini di prezzi e condizioni, che crea una pressione significativa sui margini.

Rischi relativi alla Liquidità

Il Gruppo dipende dal regolare flusso di liquidità e una carenza di liquidità dell'intero mercato o circoscritta alla singola società potrebbe avere un significativo impatto negativo sul patrimonio netto, sulla posizione finanziaria e sui risultati operativi del Gruppo.

Rischi Operativi

Il Gruppo è esposto a una vasta gamma di rischi operativi, incluso il rischio che i propri dipendenti esponano il Gruppo a elevati rischi, o violino le regole, le normative o i regolamenti applicabili nello svolgimento delle attività di *business*, causando perdite significative inaspettate, che possono anche tradursi indirettamente in un aumento dei requisiti patrimoniali obbligatori. I sistemi operativi della Banca sono soggetti ad un crescente rischio di attacchi informatici e di altri reati mediante Internet, che potrebbero comportare perdite di informazioni relative ai clienti, danneggiare la reputazione della banca e portare a procedimenti regolamentari e perdite finanziarie.

Rischi derivanti dalla Regolamentazione dell'Attività Bancaria

Requisiti più severi che mai in relazione al patrimonio di vigilanza e alla liquidità, nonché alle procedure e alla reportistica, potrebbero mettere in discussione il modello di business di un certo numero di attività del Gruppo, influenzare negativamente la posizione competitiva del Gruppo, ridurre la redditività del Gruppo o rendere necessario reperire ulteriori capitali. Altre riforme regolamentari proposte in seguito alla crisi finanziaria, ad esempio, costi quali un'imposta bancaria, un'eventuale tassa sulle transazioni finanziarie, la separazione tra attività di negoziazione per conto proprio e attività di raccolta di depositi, ovvero obblighi di trasparenza e organizzativi più rigorosi, possono avere un notevole impatto sul modello di business del Gruppo e sul contesto di mercato a livello concorrenziale.

Rischio Legale

Potrebbero insorgere controversie legali aventi ad oggetto l'attività di business di Commerzbank, l'esito incerto delle quali comporta una serie di rischi per il Gruppo. L'esito di tali procedimenti regolamentari, di vigilanza e giudiziari può avere ripercussioni negative concrete sul Gruppo, al di là delle richieste rivendicate in ciascun caso.

Il Gruppo SG potrebbe subire delle perdite in conseguenza di eventi imprevisi o catastrofici, inclusi attacchi terroristici o disastri naturali.

Il Gruppo SG è esposto a rischi legali che potrebbero condizionare negativamente la sua condizione finanziaria o i risultati operativi.

L'imminente uscita del Regno Unito dall'Unione europea potrebbe avere un impatto negativo sul Gruppo SG.

D 6 **Informazioni
fondamentali
sui principali
rischi specifici
per i titoli**

Assenza di mercato secondario immediatamente prima della scadenza

Il market maker e/o il mercato cesseranno la negoziazione dei Certificates immediatamente prima della loro Data di Scadenza prefissata. Tuttavia, tra l'ultimo giorno di negoziazione e la Data di Valutazione Finale, il prezzo del Sottostante, che è rilevante per i Certificates può ancora cambiare. Ciò potrebbe andare a svantaggio dell'investitore.

Inoltre, esiste il rischio che una barriera prevista nei Termini e Condizioni sia stata raggiunta, superata o violata in un altro modo per la prima volta prima del rimborso dopo che il trading secondario sia già terminato.

I Certificates sono obbligazioni non garantite (Status)

I Certificates costituiscono obbligazioni incondizionate dell'Emittente. Essi non sono né garantiti dal Fondo per la Protezione dei Depositi dell'Associazione delle Banche Tedesche (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) né dalla Legge Tedesca sulla Garanzia dei Depositi e Compensazione degli Investitori (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Ciò significa che sull'investitore incombe il rischio che l'Emittente non possa o possa solo in parte, soddisfare gli obblighi ai sensi dei Certificates. In tali circostanze, potrebbe verificarsi una perdita totale del capitale dell'investitore.

Proposta di imposta sulle transazioni finanziarie (ITF)

La Commissione Europea ha proposto di introdurre una tassa comune sulle transazioni finanziarie (ITF) in Belgio, Germania, Estonia, Grecia, Spagna, Francia, Italia, Austria, Portogallo, Slovenia e Slovacchia. Tuttavia l'Estonia ha già dichiarato che non parteciperà. In talune circostanze tale imposta sulle transazioni finanziarie potrebbe trovare applicazione ad alcune negoziazioni di Certificates (ivi comprese operazioni sul mercato secondario). L'imposta sulle transazioni finanziarie è tuttavia ancora oggetto di negoziazione tra gli Stati Membri dell'UE, e altri Stati Membri potrebbero voler aderire. Inoltre, ad oggi non vi sono ancora certezze sulle tempistiche in base alle quali tale legge verrà promulgata e l'imposta entrerà in vigore in relazione alle operazioni aventi ad oggetto i Certificates. Nel frattempo, la Repubblica italiana ha introdotto una imposta sulle transazioni finanziarie a livello locale, che si applica alle transazioni aventi ad oggetto azioni italiane e titoli connessi a tali azioni.

Rischi connessi alla Legge sul Risanamento e Risoluzione di Enti Creditizi e Gruppi Finanziari, a seguito del Regolamento Europeo che istituisce un Meccanismo Unico di Risoluzione (*Single Resolution Mechanism*) e a seguito della proposta di Regolamento sull'obbligo di separazione di talune attività bancarie.

Nel caso in cui l'Emittente divenga, o sia considerato dall'autorità di vigilanza competente, "economicamente insostenibile" ("non-viable" come definito ai sensi della legge applicabile in tale momento) e non più in grado di svolgere le attività per cui è autorizzato, i termini e condizioni dei Titoli potrebbero essere modificati (ad esempio, potrebbe cambiare la scadenza) e il diritto al pagamento del capitale, interessi o altre somme dovute ai sensi dei Titoli potrebbe essere oggetto di conversione in uno o più titoli che rientrano tra gli strumenti di capitale primario di classe 1 dell'Emittente ("Core Tier 1 Capital"), come, ad esempio, le azioni ordinarie, ovvero di svalutazione definitiva, anche a zero, a seguito dell'intervento dell'autorità di risoluzione competente ("**Bail-in Regolamentare**").

Inoltre, il Regolamento Comunitario che prevede l'introduzione di un Meccanismo Unico di Risoluzione delle Crisi ("**Regolamento SRM**") contiene disposizioni relative alla pianificazione delle risoluzioni, all'intervento preventivo, alle azioni di risoluzione e agli strumenti di risoluzione. Tale meccanismo garantirà che, al posto delle autorità di risoluzione nazionali, ci sia un'unica autorità - vale a dire il Comitato Unico di Risoluzione - che prenda ogni decisione rilevante che riguardi

banche facenti parte dell'Unione Bancaria ("*Banking Union*").

La proposta di introdurre una separazione obbligatoria di alcune attività bancarie adottata dalla Commissione Europea il 29 gennaio 2014 vieta l'attività di negoziazione per conto proprio e impone la separazione obbligatoria delle attività di negoziazione e di altre attività d'investimento bancarie. Qualora venga imposta una separazione obbligatoria, non possono escludersi costi aggiuntivi, in termini di costi di finanziamento più elevati, di requisiti patrimoniali aggiuntivi e ulteriori spese operative dovute alla separazione, di mancanza di benefici in termini di diversificazione.

Ritenute ai sensi del US Foreign Account Tax Compliance

All'Emittente potrà essere richiesta una ritenuta ad un tasso fino al 30% su tutti o una parte dei pagamenti effettuati in relazione a (i) titoli emessi o sostanzialmente modificati in una data sei mesi successiva al momento in cui i regolamenti finali applicabili ai pagamenti *passthru* (*foreign passthru payments*) siano inseriti nel Registro Federale (*Federal Register*), (ii) titoli emessi o sostanzialmente modificati una data sei mesi successiva al momento in cui obbligazioni del loro tipo sono per la prima volta trattate come strumenti che pagano dividendi, o (iii) titoli trattati come strumenti di capitale ai fini della normativa fiscale federale degli Stati Uniti, emessi in qualsiasi momento, in conformità alle previsioni del *Foreign Account Tax Compliance Act*.

Ritenuta ai sensi del US *Hiring Incentives to Restore Employment Act*

All'Emittente o a qualsiasi agente incaricato della ritenuta potrà essere richiesta una ritenuta ad un tasso fino al 30% sull'ammontare equivalente dei dividendi U.S. che sono pagati o "considerati pagati" con riferimento a taluni strumenti finanziari emessi dopo il 31 dicembre 2016, qualora si verificano alcune condizioni.

Impatto di un declassamento del rating del credito

Il valore dei Certificates potrebbe essere influenzato dai ratings assegnati all'Emittente dalle agenzie di rating. Qualsiasi declassamento del rating dell'Emittente anche da una di tali agenzie di rating potrebbe comportare una riduzione del valore dei Certificates.

Risoluzione straordinaria, rimborso anticipato e diritti di rettifica

L'Emittente potrà apportare rettifiche o estinguere e rimborsare i Certificates prematuramente qualora certe condizioni siano soddisfatte. Ciò potrebbe avere un effetto negativo sul valore dei Certificates nonché sull'importo di Estinzione. Qualora i Certificates siano estinti, l'importo dovuto ai portatori dei Certificates nel caso di estinzione straordinaria dei Certificates potrebbe essere inferiore rispetto all'importo che i portatori dei Certificates avrebbero ricevuto in assenza di tale estinzione.

Eventi di Turbativa del Mercato o delle negoziazioni o dei fondi

L'Emittente potrà determinare eventi di turbativa di mercato ed eventi di turbativa delle negoziazioni ed eventi di turbativa dei fondi,

rispettivamente, che potrebbero comportare un rinvio del calcolo e/o di qualsiasi obbligo ai sensi dei Certificates che potrebbe influenzare il valore dei Certificates. Inoltre, in certi casi predeterminati, l'Emittente potrà stimare certi prezzi che sono rilevanti in relazione agli obblighi o al raggiungimento delle soglie. Tali stime possono divergere dal loro attuale valore.

Sostituzione dell'Emittente

Ai sensi del regolamento, l'Emittente ha diritto in qualsiasi momento, senza il consenso dei portatori dei Certificates, di nominare un'altra società in qualità di nuovo emittente in relazione a tutti gli obblighi derivanti dai o relativi ai Certificates al suo posto.

- Sostituzione dell'Emittente SG

Il 2 luglio 2018 Commerzbank AG ha concluso un accordo con Société Générale per la vendita della sua divisione Equity Markets & Commodities ("**Attività EMC**"), che include tra l'altro l'emissione e la negoziazione di prodotti di investimento e a leva. L'operazione è soggetta a condizioni sospensive, tra cui, il preventivo benessere delle competenti autorità fiscali, il benessere delle autorità per la concorrenza, l'approvazione da parte delle altre autorità rilevanti e comitati rappresentativi dei dipendenti così come il completamento della documentazione legale. Pertanto, quanto segue si verificherà solamente nella misura in cui tutte le autorizzazioni e approvazioni siano state concesse.

In caso di vendita e trasferimento dell'Attività EMC al Gruppo SG, tutti gli obblighi dell'Emittente ai sensi dei Certificates potranno essere trasferiti a Société Générale, SGIS o SGE (ciascuna, a seconda del caso, in qualità di Nuovo Emittente SG) senza il consenso di alcun portatore dei Certificates ("**Sostituzione dell'Emittente SG**") ad una data di efficacia della Sostituzione dell'Emittente SG da concordarsi tra Emittente e il rilevante Nuovo Emittente SG e notificata ai portatori dei Certificates in conformità al regolamento.

Nel caso in cui gli obblighi dell'Emittente derivanti dai Certificates vengano trasferiti a SGIS o SGE, Société Générale in qualità di capogruppo del Gruppo SG e Garante Capogruppo, emetterà una Garanzia della Capogruppo incondizionata e irrevocabile a beneficio del rilevante portatore dei Certificates e relativa all'adempimento di tutti gli obblighi di pagamento del Nuovo Emittente SG (incluso qualsiasi obbligo di consegna) derivanti ai sensi dei Certificates (Garanzia della Capogruppo).

Nel caso di una Sostituzione dell'Emittente SG, il rilevante Nuovo Emittente SG potrà esercitare tutti i diritti dell'Emittente derivanti dai Certificates come se fosse stato nominato in qualità di Emittente nel regolamento. I portatori dei Certificates supporteranno, nel momento in cui la Sostituzione dell'Emittente SG diventi efficace, il rischio di insolvenza di tale Nuovo Emittente SG. I portatori dei Certificates saranno altresì esposti ai rischi, incluso il rischio di insolvenza, della Garante Capogruppo (nella misura applicabile) e più in generale, del Gruppo SG. Inoltre, Commerzbank AG sarà liberata dai propri obblighi in relazione ai Certificates e dalla sua responsabilità in qualità di

obbligato ai sensi dei Certificates a partire dalla data di efficacia della Sostituzione dell'Emittente SG.

- Sostituzione dell'Emittente

Inoltre, l'emittente dei Certificates di volta in volta (che include l'Emittente e potrebbe includere un Nuovo Emittente SG in seguito ad una Sostituzione dell'Emittente SG) ha il diritto di trasferire i propri obblighi in qualità di emittente a qualsiasi altra società (una "**Nuovo Altro Emittente**") in conformità al regolamento (la "**Sostituzione dell'Emittente**").

Nel caso di una Sostituzione dell'Emittente, il rilevante Nuovo Altro Emittente potrà esercitare tutti i diritti dell'Emittente derivanti dai Certificates come se fosse stato indicato quale Emittente nel regolamento. I portatori dei Certificates sopporteranno il rischio di insolvenza di tale Nuovo Altro Emittente e dell'emittente sostituito (attualmente Commerzbank AG) che fornisca una garanzia in relazione agli obblighi dei Nuovi Altri Emittenti ai sensi dei Certificates.

- Ulteriori conseguenze della sostituzione dell'emittente

Qualsiasi Sostituzione dell'Emittente o Sostituzione dell'Emittente SG potrebbe inoltre avere conseguenze fiscali a scapito dei portatori dei Certificates, in particolare, a titolo esemplificativo, nel caso in cui si venissero potenzialmente a perdere le esenzioni dalla ritenuta fiscale statunitense ai sensi della Sezione 871(m) dell'Internal Revenue Code Statunitense del 1986 a causa del verificarsi di tale sostituzione dell'emittente. Ciascun potenziale investitore dovrebbe consultare i propri consulenti finanziari, legali e fiscali per discutere qualsiasi possibile rilevante implicazione di una sostituzione dell'emittente prima dell'acquisto di qualsiasi Certificate.

Fattori di rischio relativi al Sottostante

I Certificates dipendono dal valore del Sottostante e dai rischi associati a tale Sottostante. Il valore del Sottostante dipende da un numero di fattori che potrebbero essere interconnessi. Questi possono includere eventi economici, finanziari e politici al di fuori del controllo dell'Emittente. L'andamento precedente di un Sottostante non dovrebbe essere considerato come un indicatore del suo futuro andamento nel corso della durata dei Certificates.

Rischio relativo al rimborso anticipato automatico

In talune circostanze indicate nei Termini e Condizioni, i Certificates potrebbero essere rimborsati in via anticipata qualora ricorrano alcune condizioni. Tale circostanza potrebbe influenzare negativamente il vantaggio economico derivante all'investitore dai Certificates.

Rischi alla scadenza

I Certificates possono essere rimborsati alla Data di Scadenza mediante pagamento di un Importo di Liquidazione che può essere considerevolmente inferiore al prezzo di emissione di EUR 1.000 per Certificate. In tal caso, l'investitore potrebbe subire una perdita. Una

simile ipotesi - indipendentemente dai costi sostenuti in relazione all'acquisto dei Certificates - potrà verificarsi, qualora alla Data di Valutazione Finale il Prezzo di Riferimento di ciascun Sottostante sia inferiore ad una percentuale prestabilita del Prezzo di Strike del relativo Sottostante.

L'investitore subirà una perdita qualora l'Importo di Liquidazione che dipenderà dall'andamento del Sottostante con la Peggior Performance (più gli eventuali Importi Bonus e meno le imposte locali) sia inferiore al prezzo di acquisto pagato per i Certificates. Tanto minore sarà il Prezzo di Riferimento del Sottostante con la Peggior Performance e, a sua volta, sarà minore l'Importo di Liquidazione, tanto maggiore sarà la perdita. Scenario peggiore: il Sottostante con la Peggior Performance è privo di valore alla Data di Valutazione Finale. In tal caso l'Importo di Liquidazione sarà pari a 0 (zero).

Rischi relativi all'ipotesi in cui l'investitore intenda o debba vendere i Certificates

Rischi legati al valore di mercato:

Il prezzo di vendita ottenibile potrebbe essere significativamente inferiore al prezzo d'acquisto pagato dall'investitore.

Il valore di mercato dei Certificates dipende principalmente dall'andamento di uno o più Sottostanti, senza riprodurlo in maniera accurata. In particolare, i seguenti fattori possono avere un effetto negativo sul prezzo di mercato dei Certificates:

- Cambiamenti nell'intensità attesa delle fluttuazioni di valore del(i) Sottostante(i) prevista (volatilità)
- Durata residua dei Certificates
- Andamento dei tassi d'interesse
- Sviluppi dei dividendi dell'Azione

Ciascuno di questi fattori potrebbe avere un effetto autonomo o amplificare o annullarne gli altri.

Rischi di negoziazione:

L'Emittente non è obbligato né a fornire prezzi di acquisto e vendita dei Certificates su base continuativa (i) sui mercati nei quali i Certificates potranno essere quotati ovvero (ii) su un mercato (*over the counter* (OTC)) né a vendere o riacquistare i Certificates. Anche se l'Emittente generalmente fornisce prezzi di acquisto e vendita, nel caso di condizioni di mercato straordinarie o problemi tecnici, la vendita o l'acquisto dei Certificates potrebbe essere temporaneamente limitata o impossibile.

L'investitore può normalmente acquistare i presenti Certificates ad un prezzo di emissione prefissato. Questo prezzo di emissione fisso contiene tutti i costi dell'Emittente relativi all'emissione e alla vendita dei Certificates (ad esempio costi di distribuzione, strutturazione e copertura nonché il margine di profitto di Commerzbank).
