

Base Prospectus dated 18 June 2019

LEONTEQ SECURITIES AG, ZURICH, SWITZERLAND
(incorporated in Switzerland)
as Issuer

which may also be acting through its Guernsey branch (Leonteq Securities AG, Guernsey Branch) or its Amsterdam branch (Leonteq Securities AG, Amsterdam Branch)

European Issuance and Offering Programme

Base Prospectus for Bonus Certificates, Inverse Bonus Certificates, Reverse Convertibles, Barrier Reverse Convertibles, Express Certificates, Express Notes, Tracker Certificates, Open End Tracker Certificates, Mini Future Certificates, Discount Certificates, Inverse Discount Certificates, Master Discount Certificates, Certificates with unconditional minimum redemption, Inverse Express Certificates, Warrants, Participation Certificates, Spread Certificates, Short Participation Certificates, Knock-Out Warrants, Dual Currency Notes and Stability Notes

This Base Prospectus dated 18 June 2019 is a base prospectus relating to non-equity securities according to Art. 22 Para. 6 No. 4 of the Commission Regulation (EC) No. 809/2004 dated 29 April 2004, as amended (the "**Prospectus Regulation**"). Competent authority for the approval of the Base Prospectus pursuant to Section 6 and Section 13 of the German Securities Prospectus Act (the "**WpPG**") that implements Directive 2003/71/EC dated 4 November 2003 (as amended, including Directive 2010/73/EU of the European Parliament and of the Council of 24 November 2010) (the "**Prospectus Directive**") into German law is the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin)*) (the "**Competent Authority**" or "**BaFin**"). It should, however, be noted that pursuant to Section 13 paragraph 1 of the WpPG the review by BaFin was limited to completeness of the Base Prospectus (including coherence and comprehensibility of the presented information). In respect of the individual series of Products (as defined below) issued under the Base Prospectus in case of public offerings and/or admission to trading on a regulated market final terms (the "**Final Terms**") will be filed with the Competent Authority. Any decision to purchase the Products should be made on a consideration of the whole Base Prospectus, as supplemented from time to time, including the documents incorporated by reference and including the Final Terms. The Final Terms will specify whether or not an application for listing or for trading by or on any listing authority, stock exchange or quotation system will be made.

Under the terms of its European Issuance and Offering Programme (the "**European Programme**"), Leonteq Securities AG, which may also be acting either through its Guernsey branch (Leonteq Securities AG,

Guernsey Branch) or its Amsterdam branch (Leonteq Securities AG, Amsterdam Branch) (the "**Issuer**"), may from time to time issue certificates (the "**Certificates**") and notes (the "**Notes**") linked to any kind of underlying, i.e. shares, participation certificates (*Genussscheine*), securities representing shares, indices, currency exchange rates, commodities, futures contracts, fixed rate instruments, derivative instruments, fund units, interest rates and reference rates and baskets thereof (the "**Products**").

No person is authorised to give any information or to make any representation not contained in or not consistent with the Base Prospectus and the applicable Final Terms and, if given or made, such information or representation must not be relied upon as having been authorised or made by all or any of the Issuer, the Lead Manager or the Calculation Agent (as described in the applicable Final Terms).

The Products have not been and shall not be registered under the United States Securities Act of 1933, as amended. They may not be offered, sold, traded or delivered, directly or indirectly, in the United States by or to or for the account of a US person (as defined in Regulation S in accordance with the United States Securities Act of 1933). In the event of a Redemption of the Products in accordance with the Conditions, a certification as to non-United States beneficial ownership shall be deemed to have been given by the relevant Holders (as described in § 8 (2) of the Issue Specific Conditions).

**Lead Manager
Leonteq Securities AG, Zurich,
Switzerland**

I. SUMMARY

Summaries consist of specific disclosure requirements, known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "not applicable".

Section A – Introduction and warnings		
A.1	Warnings	<p>The Summary is intended as an introduction to the Base Prospectus dated 18 June 2019 (as [supplemented by <i>[insert supplements, as the case may be: ●]</i> and as] further supplemented from time to time) of Leonteq Securities AG (the "Issuer").</p> <p>Investors should ensure that any decision to invest in the Products is based on a review of the entire Base Prospectus, including documents incorporated by reference, any supplements, and the Final Terms.</p> <p>Where claims relating to the information contained in a base prospectus, including documents incorporated by reference, any supplements, and the respective Final Terms are brought before a court, the plaintiff may, as a result of the laws of individual member states of the European Economic Area, have to bear the cost of translating the base prospectus, the documents incorporated by reference, any supplements, and the Final Terms into the language of the court prior to the commencement of legal proceedings.</p> <p>The Issuer or the persons who have tabled the Summary may be held liable for the content of this Summary, including any translations thereof, but only in the event that the Summary is misleading, inaccurate or inconsistent when read in conjunction with the other parts of the Base Prospectus, or, when read in conjunction with the other parts of the Base Prospectus, does not convey all of the key information required.</p>
A.2	- Consent to the use of the Prospectus	<p><i>[insert in the case of a general consent: The Issuer consents to the use of the Base Prospectus and these Final Terms by all financial intermediaries (general consent). General consent for the subsequent resale or final placement of Products by the financial intermediaries is given in relation to the Offer State[s] during the Offer Period during which subsequent resale or final placement of the Products can be made, provided however, that the Base Prospectus is still valid according to Section 9 of the German Securities Prospectus Act.]</i></p>

	<p><i>[insert in the case of an individual consent if the specified financial intermediaries shall be entitled to use the prospectus in all Offer States:</i> The Issuer consents to the use of the Base Prospectus and the Final Terms by the following financial intermediaries (individual consent): <i>[insert name and address of specific intermediary: ●]</i>. Individual consent for the subsequent resale or final placement of Products by the specified financial intermediaries is given in relation to the Offer State[s] during the Offer Period during which subsequent resale or final placement of the Products can be made, provided however, that the Base Prospectus is still valid according to Section 9 of the German Securities Prospectus Act. Any new information with respect to financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms will be published [in electronic format on the website www.leonteq.com (under "Our Services" – "Investment Solutions" – "Structured Products" – "Service" – "Prospectuses" under the heading "Notices"))] <i>[insert other website: ●]</i>.]</p> <p><i>[insert in the case of an individual consent if the specified financial intermediaries shall be entitled to use the prospectus in different selected jurisdictions only:</i> The Issuer consents to the use of the Base Prospectus and the Final Terms by the financial intermediaries set out in the table below (individual consent) for the subsequent resale or final placement of Products in relation to such Offer State[s] as selected in the table below during the Offer Period during which subsequent resale or final placement of the Products can be made, provided however, that the Base Prospectus is still valid according to Section 9 of the German Securities Prospectus Act.</p> <table data-bbox="571 1211 1337 1570"> <thead> <tr> <th data-bbox="571 1211 858 1279">Name and address of financial intermediary</th> <th data-bbox="858 1211 1337 1279">Selected Offer State(s)</th> </tr> </thead> <tbody> <tr> <td data-bbox="571 1279 858 1435">[●]</td> <td data-bbox="858 1279 1337 1435">[Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland]</td> </tr> <tr> <td data-bbox="571 1435 858 1570">[●]</td> <td data-bbox="858 1435 1337 1570">[Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland]</td> </tr> </tbody> </table> <p>Any new information with respect to financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms will be published [in electronic format on the website www.leonteq.com (under "Our Services" – "Investment Solutions" – "Structured Products" – "Service" – "Prospectuses" under the heading "Notices"))] <i>[insert other website: ●]</i>.]</p> <p>["Offer State[s]" means the following Member States: [Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland].]</p>	Name and address of financial intermediary	Selected Offer State(s)	[●]	[Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland]	[●]	[Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland]
Name and address of financial intermediary	Selected Offer State(s)						
[●]	[Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland]						
[●]	[Germany][,] [and] [France][,] [and] [the United Kingdom] [,][and] [Italy] [,][and] [Czech Republic][,][and] [the Netherlands][,][and] [Ireland]						

		[The subsequent resale or final placement of Products by financial intermediaries in the Offer State[s] can be made [during the Offer Period] [during the period the Base Prospectus is valid according to Section 9 of the German Securities Prospectus Act] [<i>insert offer period: ●</i> .]
	- Offer Period	[" Offer Period " means the period commencing from[, and including,] [the date of the Final Terms] [<i>insert date: ●</i>] [to[, [expectedly] and including,] [the expiring of the validity of the Base Prospectus pursuant to Section 9 of the German Securities Prospectus Act] [the Final Fixing Date] [<i>insert date: ●</i>] [[and/or] [to a termination of the Products by the Issuer] [<i>insert other information related to the offering period: ●</i> .]
	- Conditions attached to the consent	[The above consent is subject to the compliance with the applicable offer- and selling restrictions for the Products and with any applicable law. Each financial intermediary is obliged to only provide the Base Prospectus together with any supplement thereto (if any) to potential investors.] [The consent to the use of the Prospectus is not subject to any further conditions.] [Further, such consent is subject to and given under the condition [●].]
	- Notice that information on the terms and conditions of the offer by any financial intermediary is to be provided at the time of the offer by the financial intermediary	In the event that a financial intermediary makes an offer, that financial intermediary will inform investors at the time the offer is made of the terms and conditions of the offer as set out in the Final Terms.
Section B – Issuer and any guarantors		
B.1	Legal and commercial name of the Issuer	The legal and commercial name of the Issuer is Leonteq Securities AG
B.2	Domicile, legal form, legislation, country of incorporation	Leonteq Securities AG was incorporated and registered in Zurich, Switzerland on 24 September 2007 as a stock corporation under article 620 et seq. of the Swiss Code of Obligations for an unlimited duration. As from that day, it is registered in the Commercial Register of the Canton of Zurich, Switzerland, under the number CHE-113.829.534. The registered office of Leonteq Securities AG is at Europaallee 39, 8004 Zurich, Switzerland, and the general telephone number is +41 58 800 1000.
B.4b	Known trends affecting the Issuer and the industries in which it operates	Not applicable; there are no known trends affecting the Issuer and the industries in which it operates.

B.5	Description of the group	Leonteq Securities AG, which may also be acting either through its Guernsey branch (Leonteq Securities AG, Guernsey Branch) or its Amsterdam branch (Leonteq Securities AG, Amsterdam Branch), is a fully owned subsidiary of Leonteq AG (Leonteq AG together with its subsidiaries the " Leonteq Group "). Leonteq AG's shares are listed on the SIX Swiss Exchange (security no. 19089118, ISIN CH0190891181, symbol LEON), included in the Swiss Performance Index SPI and are held amongst others by Raiffeisen Switzerland Cooperative, Rainer-Marc Frey, Lukas Ruflin family interests (which represent all the holdings of Lukas T. Ruflin, Clairmont Trust Company Limited and Thabatseka LP), Sandro Dorigo, members of the management and employees of Leonteq Group entities.

Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>The Issuer is exposed to risks resulting primarily from the issuance of structured investment products. The Issuer is exposed to market risks, which result from mismatches between its exposure to equity prices, interest rates, currencies, credit spreads and commodity prices arising from the issuance of structured investment products and the instruments that the Issuer uses to hedge that exposure. It is also exposed to liquidity risks relating to the need to fund hedging activities. The Issuer is exposed to credit risks due to its exposure to trading counterparties and as a result of the investment of the proceeds from the issuance of structured investment products in bonds and other fixed-income instruments. In addition, the Issuer is also exposed to model, operational and reputational risks, as well as potential changes in the regulatory and macro-economic environment and its rating.</p> <ul style="list-style-type: none"> • Financial information of the Issuer should not be relied on as evidence of future results.

		<ul style="list-style-type: none"> • The Issuer may not be able to fulfil its obligations due to a deteriorated financial situation. The Issuer may become insolvent. • The Issuer is exposed to the risk that its valuation and risk measurement model may be incorrect and that its risk management measures may not prove successful. • The Issuer is exposed to market risks arising from open positions in interest rate, currency, commodity, credit, equity and other products which may adversely affect its results of operations. • The Issuer is exposed to significant and increasing competition which may adversely affect its future results of operations. • The Issuer is exposed to the risks relating to its platform partners business which may adversely affect its results of operations. • The Issuer is exposed to the credit risk of its counterparties. • The Issuer is exposed to market liquidity and funding liquidity risks which may adversely affect its ability to operate its business and its future results of operations. • The Issuer's risk exposure in financial instruments leads to certain risk concentrations which could result in a significant loss of the Issuer which in turn may adversely affect the Issuer's result of operations. • The Issuer's activities and results of operations may be adversely affected by operational risks. The Issuer may be adversely affected by compliance, legal, regulatory, and reputational risks. • The Issuer may be adversely affected by tax risks. • The Issuer's liquidity, profitability and businesses may be adversely affected by a reduction in its credit ratings.
D.3 D.6	Key information on the key risks that are specific to the securities	<p><i>An investor in the Products should note that he/she may lose its entire investment or part of it.</i></p> <p><u>1. Risk factors associated with all Products</u></p> <ul style="list-style-type: none"> • The Products are risky investment instruments. Compared to other capital investments, the risk of loss – up to the total loss of the invested capital as well as the related transaction costs – is high. • The Products may pay fixed or variable interest. In the case of Products with variable interest/coupon payment, Holders should consider that the interest/coupon payments may fall to zero (0) or be dependent on a condition. In the case of Products with a fixed interest/coupon rate, Holders should

		<p>note that they do not participate in an increase in market interest rates.</p> <ul style="list-style-type: none"> • The Products do not, unless expressly provided, yield any current income and especially do not confer any claim to receive dividend payments. • The investor's individual return depends significantly on the purchase price paid for the Product and the performance of the Product. The risk of losses already exists during the term of a Product. • The Products may be physically settled and investors will not receive a monetary amount. There is a risk that the delivered Underlying, respectively the delivered basket component or reference securities, may only have a very low value or may, in fact, be worthless. In this case, there is a risk of losses – up to the total loss of the invested capital as well as the related transaction costs. Furthermore, investors bear the issuer and securities risks of the deliverable Underlying. • Investors bear the credit risk of the Issuer of the Products. The Products are neither secured nor guaranteed by any deposit protection fund or any governmental agency. • The collateralization in accordance with the terms of the SIX Swiss Exchange AG «Framework Agreement for Collateral Secured Instruments» (COSI) reduces the issuer default risk only to the extent that the proceeds from the liquidation of collateral are able to meet the investors' claims. To the extent the calculation of the current value of a COSI Product proves to be incorrect, the collateral provided for the COSI Product may be insufficient. Investors do not themselves have a surety right to the collateral. • The collateralization in accordance with the terms of the TCM Security Agreement eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. In case the calculation of the Current Value of the product (value of the product set too low prior to liquidation) or the security (value of the security set too high prior to liquidation) may prove to be incorrect, the collateralization of the product may be insufficient. If the terms and conditions underlying the Products provide for a termination right of the Issuer in the event that the TCM Security Agreement is terminated, the Investor bears the return and reinvestment risk if the Issuer exercises its termination right. • Investors should consider that price movements of the Underlying (or the non-occurrence of an expected price movement) may decrease the value of the Products disproportionately and even render them worthless and that there is no as-
--	--	--

		<p>insurance that in the case of Products with a limited term, the price of the Product will recover in time.</p> <ul style="list-style-type: none"> • Investors should be aware that they may not be able to hedge their exposure from the Products. • A credit financing of the acquisition of Products significantly increases the risk of loss to investors. • Transactions of the Issuer or its respective affiliates to hedge the risk relating to the execution and performance of obligations arising out of the Products may have a significant effect on the performance of the Underlying and thus on the Products. • Fees and other transactions costs reduce the chances of the Investor generating a profit from the purchase of the Product. • Investors are exposed to the risk of wrong expectation with respect to the Products' liquidity due to the issue size mentioned in the Final Terms. • Investors in listed Products or in Products linked to listed underlyings and/or basket components are subject to risks arising from any eventual suspension from trading or delisting from the relevant exchange for reasons not attributable to the Issuer and the Lead Manager and this might have material adverse effects on the value of the Products. • The Products may have no liquidity or the market for such Products may be limited and this may adversely impact their value or the ability of the Investor to dispose of them. • Market disruptions, adjustment measures and termination rights may negatively affect the value of the Products. • In certain circumstances the Issuer has the right of extraordinary termination of the Products. In this case Investors will receive a reasonable market price determined in the reasonable discretion of the Issuer, which may be zero. • Corrections, supplements or modifications of the Conditions may be detrimental for Investors. • Investors are subject to the risk that events which could have a negative impact on the price of the underlying are published after preparation of the Final Terms. • Changes in tax law could adversely affect the value and/or the market value of the Products or may change the tax treatment of the relevant Products. • Holders should note that in the case of a subscription period the Issuer reserves the right to end the subscription period early or to extend it and that the Issuer is not obliged to accept subscription applications or to issue subscribed Products.
--	--	---

		<ul style="list-style-type: none"> • Where payments under the Products will be made in a currency which is different from the currency of the Underlying, the Investors are exposed also to the performance of the currency of the Underlying, which cannot be predicted. A currency risk also exists if the account of the investor to which any amount owed is to be credited to is managed in a currency different from the settlement currency of the Product. • Due to the implementation of the Financial Transaction Tax investors may be liable itself to pay this charge or reimburse a financial institution for the charge, and/or the charge may affect the value of the Products negatively. • Risk of tax withholding due to the legislation affecting dividend equivalent payments (Section 871(m) of the U.S. Internal Revenue Code). • Changes in the Issuer's rating may affect the value of the Securities.
		2. Risk factors associated with certain types of Products
		<p><i>[insert in the case of Bonus Certificates with Cash Settlement (Product No. 1):</i></p> <p><u><i>Risk of total loss in the case of a Barrier Event</i></u></p> <p>If a Barrier Event has occurred the claim to the minimum redemption expires and the Bonus Certificate is comparable with a direct investment in the [Underlying] [[worst][best] performing Basket Component] (irrespective of dividend payments). In this case the investor will be exposed to the risk of a total loss of the invested capital including the related transaction costs arising, if the [Underlying] [[worst][best] performing Basket Component] is worthless at the end of the term of the Product, i.e. if [the Final Fixing Level] [the Final Basket Value] is zero.]</p>
		<p><i>[insert in the case of Bonus Certificates with potential Physical Settlement (Product No. 2):</i></p> <p><u><i>Risk of total loss in the case of a Barrier Event</i></u></p> <p>If a Barrier Event has occurred the claim to the minimum redemption expires and the Products provide for a physical delivery of the Underlying. In this case the investor will be exposed to the risk of a total loss of the invested capital including the related transaction costs arising, if the Underlying is worthless at the end of the term of the Product.]</p>
		<p><i>[insert in the case of Capped Bonus Certificates with Cash Settlement and with par value (Product No. 3):</i></p> <p><u><i>Risk of total loss in the case of a Barrier Event</i></u></p> <p>If a Barrier Event has occurred the claim to the minimum redemption expires and the Capped Bonus Certificate is comparable with a</p>

		<p>direct investment in the underlying (irrespective of dividend payments). In this case the investor will be exposed to the risk of a total loss of the invested capital including the related transaction costs arising, if the Underlying is worthless at the end of the term of the Product.</p> <p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>Irrespective of whether or not a Barrier Event has occurred, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the Underlying above the Cap Level, with the result that the possible yield on Capped Bonus Certificates has an upper limit.]</p>
		<p>[insert in the case of Capped Bonus Certificates with Cash Settlement and without par value (Product No. 4):</p> <p><u>Risk of total loss in the case of a Barrier Event</u></p> <p>If a Barrier Event has occurred [and the Final Fixing Level [of the Basket Component with the Worst Performance] reaches or falls below [the][its] Initial Fixing Level multiplied by the Bonus Level] the claim to the minimum redemption expires and the Capped Bonus Certificate is comparable with a direct investment in the underlying (irrespective of dividend payments). In this case the investor will be exposed to the risk of a total loss of the invested capital including the related transaction costs, arising, if the Final Fixing Level of the [underlying][Basket Components] is zero (0).</p> <p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>Irrespective of whether or not a Barrier Event has occurred, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the [Underlying][Basket Components] above the Cap Level, with the result that the possible yield on Capped Bonus Certificate has an upper limit.]</p>
		<p>[insert in the case of Capped Bonus Certificates with potential Physical Settlement (Product No. 5):</p> <p><u>Risk of total loss in the case of a Barrier Event</u></p> <p>If a Barrier Event has occurred the claim to the minimum redemption expires and the Capped Bonus Certificate is comparable with a direct investment in the underlying (irrespective of dividend payments). In this case the Holder receives delivery of the Underlying. In this case the investor will be exposed to the risk of a total loss of the invested capital including the related transaction costs arising, if the Final Fixing Level of the underlying is zero (0).</p> <p><u>Redemption Amount is limited to the Maximum Redemption</u></p>

		<p><u>Amount</u></p> <p>Irrespective of whether or not a Barrier Event has occurred, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the Underlying above the Cap Level, with the result that the possible yield on Capped Bonus Certificate has an upper limit.]</p>
		<p>[insert in the case of Notes (Reverse Convertibles) with Cash Settlement (Product No. 6):</p> <p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>The Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.</p> <p><u>Risk of total loss</u></p> <p>If the Final Fixing Level is equal to or falls below the Strike Level, the Redemption Amount equals the Denomination multiplied by the Performance of the Underlying. In this scenario, the Redemption Amount will generally be lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the Underlying and the capital loss experienced, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the Redemption Amount plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the Underlying is worthless at the end of the term.]</p>
		<p>[insert in the case of Notes (Reverse Convertibles) with potential Physical Settlement (Product No. 7):</p> <p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>The Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.</p> <p><u>Risk of total loss</u></p> <p>If the Final Fixing Level is equal to or falls below the Strike Level, the Products provide for a physical delivery of the Underlying. In the case of a settlement of the Products by physical delivery of the Underlying, it is to be noted that the equivalent value of the delivered Underlyings is generally lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the Underlying and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii)</p>

		<p>the equivalent value of the delivered Underlyings plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the Underlying is worthless at the end of the term.]</p>
		<p><i>[insert in the case of Notes (Barrier Reverse Convertibles) with Cash Settlement (Product No. 8):</i></p> <p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>The Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.</p> <p><u>Risk of total loss</u></p> <p>If a Barrier Event has occurred [and the Final Fixing Level is equal to or falls below the Initial Fixing Level], the Redemption Amount equals the Denomination multiplied by the performance of the [Underlying] [Basket Component with the worst performance]. In this scenario, the Redemption Amount will be lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the [Underlying] [Basket Component with the worst performance] and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the Redemption Amount plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the [Underlying] [Basket Component with the worst performance] is worthless at the end of the term.]</p>
		<p><i>[insert in the case of Notes (Barrier Reverse Convertibles) with potential Physical Settlement (Product No. 9):</i></p> <p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>The Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.</p> <p><u>Risk of total loss</u></p> <p>If a Barrier Event has occurred [and the Final Fixing Level is equal to or falls below the Initial Fixing Level], the Products provide for a physical delivery of the [Underlying] [Basket Component with the worst performance]. --	--

		<p><i>[insert in the case of Certificates with Cash Settlement and with par value and with unconditional minimum redemption and Partial Redemption Amounts (Product No. 22):</i></p> <p> Holders should note that the level of the Redemption Amount is limited to the Minimum Redemption Amount, which simultaneously equals the Maximum Redemption Amount. In contrast to a direct investment in the Basket Components, the investor does not participate in the positive performance of the Basket Components.</p> <p>The Minimum Redemption Amount may be lower than the Denomination or the capital invested for the purchase of the Product (including related transaction costs).</p> <p>The Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. Investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. In such a case the investor bears the risk of a total loss of the capital invested (including related transaction costs). Furthermore, investors [also] remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer. For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell their purchased Products at any time during their term for at least the Minimum Redemption Amount.</p> <p>Furthermore, the Certificates have the characteristic such that the payment and the level of a Coupon Amount depend on whether and at what time a Coupon Trigger Event has occurred. If by the final Coupon Observation Date (inclusive) no Coupon Trigger Event has occurred, the investor does not receive a coupon payment throughout the entire term of the Product.</p> <p>The volatility of the Basket Components is an important factor for determining the likelihood of the occurrence of a Coupon Trigger Event. The higher the volatility of Basket Components, the higher the risk to the investor that no Coupon Trigger Event occurs and therefore there is no coupon payment.</p> <p>If a Coupon Trigger Event has not occurred on a Coupon Observation Date, the investor only receives the Minimum Redemption Amount. The investor suffers a loss if the Minimum Redemption Amount is less than the capital invested (including related transaction costs) for the purchase of the Products.]</p>
--	--	--

		<p><i>[insert in the case of Certificates with Cash Settlement and with unconditional minimum redemption (Product No. 23):</i></p> <p>[The level of the Redemption Amount at the end of the term depends on the price performance of the [Underlying][[worst][best] performing Basket Component], since the investor receives on the Redemption Date a cash payment specified at issuance, the level of which depends on the performance of the [Underlying][[worst][best] performing Basket Component]. The investor receives at least the Minimum Redemption Amount.] [The Redemption Amount at the end of the term of the Product equals the Minimum Redemption Amount.] [The Minimum Redemption Amount may be lower than the [Denomination] [Issue Price] or the capital invested for the purchase of the Product (including related transaction costs).]</p> <p>The Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. Investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. In such a case the investor bears the risk of a total loss of the capital invested, including related transaction costs. Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer. For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at any time during their term for at least the Minimum Redemption Amount.</p> <p>[The Redemption Amount is limited to the [Denomination][Issue Price] multiplied by the Maximum Redemption Factor [taking also into account the performance of the relevant exchange rate].]</p> <p>[The Holder receives a coupon payment on the respective Coupon Payment Date in the case that a Coupon Trigger Event has occurred on the relevant Coupon Observation Date. In the case that no Coupon Trigger Event has occurred on the relevant Coupon Observation Date no coupon payment will be made on the corresponding Coupon Payment Date.]]</p>
		<p><i>[insert in the case of Capped Certificates with Cash Settlement and with unconditional minimum redemption (Product No. 24):</i></p> <p>The Products are redeemed at the end of the term for at least the amount specified in advance. The Minimum Redemption Amount may be lower than the [Denomination][Issue Price] or</p>

		<p>the capital invested for the purchase of the Product (including related transaction costs). Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer.</p> <p>The Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. The investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. In such a case the investor bears the risk of a total loss of the capital invested, including related transaction costs.</p> <p>For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at any time during their term for at least the Minimum Redemption Amount.</p> <p><i>Risk Factors applicable to the Participation Factor</i></p> <p>Investors should note that the application of a Participation Factor means that the Products are economically similar to a direct investment in the Underlying, although they are not totally comparable with such an investment because the Holders do not participate in the respective price performance of the Underlying in the ratio of 1:1, but to the extent of a certain factor. Depending on the structure of the Products a Participation Factor may have the effect that the investor participates to a [greater][lesser] extent in any changes in value of the Underlying, subject to the value effects of any other product characteristics.</p> <p><i>Redemption Amount is limited to Maximum Redemption Amount</i></p> <p>The Redemption Amount is limited to the Maximum Redemption Amount, so the possible yield has an upper limit. Investors do not participate in an increase in value of the [Underlying][Basket Component with the worst performance] above the Cap Level.</p>
		<p><i>[insert in the case of Inverse Bonus Certificates with Cash Settlement (Product No. 25):</i></p> <p><i>Risks related to the performance of Inverse Bonus Certificates owing to the reverse structure</i></p> <p>In the case of Inverse Bonus Certificates, the performance of the Products conversely depends on the performance of the [Underlying][Basket Component with the [worst][best] performance]. This means that the Products enable the Holders to profit from a loss in value of the [Underlying][Basket Component with the [worst][best]</p>

		<p>performance]. An Inverse Bonus Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of the [Underlying] [[Basket Component with the [worst]][best] performance] increases.</p> <p><u><i>Risk of a total loss in the case of a Barrier Event</i></u></p> <p> Holders should consider that if a Barrier Event occurs, the entitlement to a minimum redemption expires and the Holder bears 1:1 a risk of loss if the value of the [Underlying] [Basket Component with the [worst]][best] performance] increases. In this case, the Holder has a risk of total loss with regard to the invested capital. A total loss occurs when the [Underlying][Basket Component with the [worst]][best] performance] is equal to or above the Cap Level at the end of the term.</p> <p><u><i>Limited yield potential due to reverse structure and irrespective of a cap</i></u></p> <p> Holders should note that the yield potential is limited (regardless of a cap) due to the reverse structure, i.e. in the case of Inverse Bonus Certificates the Settlement Amount is limited to the product of (i) the Issue Price and (ii) the quotient of the Cap Level minus the Final Fixing Level [of the Basket Component with the [worst]][best] performance] and the Initial Fixing Level [of the Basket Component with the [worst]][best] performance].]</p>
		<p><i>[insert in the case of Capped Inverse Bonus Certificates with Cash Settlement (Product No. 26):</i></p> <p><u><i>Risks related to the performance of Capped Inverse Bonus Certificates due to the reverse structure</i></u></p> <p>In the case of Capped Inverse Bonus Certificates, the performance of the Products reversely depends on the performance of [the Underlying] [the Basket Component with the [worst]][best] performance]. This means that the Products enable the Holders to profit from a loss in value of [the Underlying] [the Basket Component with the [worst]][best] performance] up to the Bonus Level. Accordingly, a Capped Inverse Bonus Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of [the Underlying] [the Basket Component with the [worst]][best] performance] increases.</p> <p><u><i>Risk of a total loss in the case of a Barrier Event</i></u></p> <p> Holders should note that if a Barrier Event occurs, the entitlement to a minimum redemption expires and the Holder bears 1:1 a risk of loss if the value of [the Underlying] [the Basket Component with the [worst]][best] performance] increases. In this case, the Holder has a risk of total loss with regard to the invested capital. A total loss occurs when [the Underlying] [the Basket Component with the [worst]][best] performance] is equal to or above the Cap Level at the end of the term.</p>

		<p><u>Redemption Amount is limited to the Maximum Redemption Amount</u></p> <p>In the case of Capped Inverse Bonus Certificates, the Redemption Amount will not exceed the [Initial Fixing Level] [of the Basket Component with the [worst][best] performance] [Issue Price] multiplied by the Bonus Level. This amount is the maximum amount an investor may receive.]</p>
		<p>[insert in the case of Mini Future Certificates with Cash Settlement (Product No. 27):</p> <p><u>Risk of a total loss in the case of the occurrence of a Stop-Loss Event</u></p> <p> Holders in Mini Future Certificates bear the risk that the Products expire worthless during their term, if a so-called Stop-Loss Event has occurred. If a Stop-Loss Event occurs, the term of the Products ends automatically and the Products are repaid at an amount which is equal to the difference between [insert in the case of Mini Future Long Certificates: the Stop-Loss Price and the [Current] Strike Level] [insert in the case of Mini Future Short Certificates: the [Current] Strike Level and the Stop-Loss Price] taking into account the Conversion Ratio. It must also be considered that the Holders may suffer a total loss of the invested capital, if the Issuer should not succeed in cancelling the hedge position for a Stop-Loss Price [insert in the case of Mini Future Long Certificates: above] [insert in the case of Mini Future Short Certificates: below] the [Current] Strike Level.</p> <p> Holders should note that the price of the Products is reduced disproportionately compared to classical warrants, if the price of the Underlying approaches the Stop-Loss Level.</p> <p><u>Risk due to the leverage effect</u></p> <p>Due to the leverage effect the Products involve disproportionate risks of loss compared to a direct investment in the Underlying.]</p>
		<p>[insert in the case of Inverse Express Certificates with Cash Settlement (Product No. 28):</p> <p><u>Risks related to the performance of Inverse Express Certificates due to the reverse structure</u></p> <p>In the case of Inverse Express Certificates, the performance of the Products reversely depends on the performance of the [Underlying][Basket Components]. This means that the Products enable the Holders to profit from a loss in value of the [Underlying][Basket Components]. Accordingly, an Inverse Express Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of the [Underlying][Basket Components] increases.</p> <p><u>Risk of total loss and risks related to early redemption</u></p>

		<p>The level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred on an Autocall Observation Date.</p> <p>If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the [Underlying][Basket Components] is irrelevant to the Holder.</p> <p>If there has been no early redemption of the Products, the level of the Redemption Amount is dependent on the price performance of the [Underlying][Basket Components]. Holders should note that if a Barrier Event occurs, the entitlement to a minimum redemption expires and the Holder bears a risk of loss if the value of the [Underlying][Basket Components] increases. In this case, the Holder has a risk of total loss with regard to the invested capital. A total loss occurs when the Performance of the [Underlying][Basket Component with the [worst][best] performance] is equal to or above 200 % at the end of the term.</p> <p>Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates. [The payment of the applicable Coupon Amount is independent of the price performance of the [Underlying][Basket Components].] [The coupon payment is conditional on the occurrence of a certain event in relation to the [Underlying][Basket Components] (e.g. reaching or exceeding a certain threshold value on a specified date). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Holders should note that they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment.] [It should be noted here that each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts.] The volatility of the [Underlying][Basket Components] is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the [Underlying][Basket Components], the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.]</p> <p>With regard to coupon payments, it should [also] be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.</p> <p><u><i>Redemption Amount is limited to the Maximum Redemption Amount</i></u></p> <p>The Redemption Amount (without taking into account a possible</p>
--	--	--

		Coupon Amount) is limited to the [Issue Price] [Redemption Amount] (Maximum Redemption Amount).]
		<p>[insert in the case of Warrants with Cash Settlement (Product No. 29):</p> <p><u>Risk of a total loss</u></p> <p>There is a risk of a total loss of the Holder's invested capital. A total loss will occur if the [Final Fixing Level [of the worst performing Basket Component]] [Final Basket Value] [performance of the Underlying] [performance of the worst performing Basket Component] [performance of the Basket] is equal to or below the [Initial Fixing Level] [Strike Level] (in the case of Call Warrants) or equal to or above the [Initial Fixing Level] [Strike Level] (in the case of Put Warrants).</p> <p>[insert in the case of Warrants that provide for a maximum redemption amount:</p> <p><u>Redemption Amount is limited to Maximum Redemption Amount</u></p> <p>The Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit.]</p> <p><u>Risk due to the leverage effect</u></p> <p>Due to the leverage effect the Products involve disproportionate risks of loss compared to a direct investment in the [Underlying] [[relevant] Basket Component].]</p>
		<p>[insert in the case of Participation Certificates (Product No. 30):</p> <p><u>[Risk of a total loss in the case of the occurrence of a Barrier Event</u></p> <p>Holder's should note that if a Barrier Event has occurred the Participation Certificate is comparable to a direct investment in the [Underlying] [[worst][best] performing Basket Component] [Basket] (without taking into account dividend payments). As a result the Holder is exposed to a risk of loss comparable to the direct investment. Therefore, the Holder bears a risk of total loss with regard to the invested capital. A total loss occurs if the [Underlying] [[worst][best] performing Basket Component] [Basket] is worthless at the end of the term.]</p> <p><u>[Risk of loss</u></p> <p>The level of the Redemption Amount at the end of the term depends on the performance of the [Underlying] [[worst][best] performing Basket Component] [Basket] (without taking into account dividend payments). In the case that the performance of the [Underlying] [[worst][best] performing Basket Component] [Basket] is negative the Redemption Amount may be lower than the [Denomination][Issue Price] or the capital invested for the purchase of the Product (including related transaction costs). [In the case of a negative development of the [Underlying] [relevant</p>

		<p>Basket Component] [Basket], the Holder is exposed to a risk of loss. Depending of the amount of the relevant participation factor the Redemption Amount can be close to zero (0).]</p> <p><u><i>[Redemption Amount limited to a Maximum Redemption Amount</i></u></p> <p>The Redemption Amount will not exceed the Maximum Redemption Amount irrespective of whether or not a Barrier Event has occurred. This means that the Holder does not participate in a price movement of the [Underlying] [[worst][best] performing Basket Component] [Basket] above the Cap Level, with the result that the possible yield has an upper limit.]</p> <p><u><i>[Risk of a total loss</i></u></p> <p>The level of the Redemption Amount at the end of the term depends on the performance of the Basket Components. The Redemption Amount is determined on the basis of the performances of all Basket Components whereby the performance of the best performing Basket Component is multiplied by the highest Participation Factor, the performance of the second highest performing Basket Component is multiplied by the second highest Participation Factor and the performance of the worst performing Basket Component is multiplied by the lowest Participation Factor. Due to the application of the Participation Factor the investor will not participate 1:1 in the performance of the respective Basket Component, but only in the amount of the relevant Participation Factor. The investor will suffer a total loss of the capital invested in the case that the performances of all Basket Components is zero (0).]</p>
		<p><i>[insert in the case of Spread Certificates with Cash Settlement (Product No. 31):</i></p> <p><u><i>Risk of a total loss in the case of the occurrence of a Stop-Loss Event</i></u></p> <p>Holders in Spread Certificates bear the risk that the Products expire worthless during their term, if a so-called Stop-Loss Event has occurred. If a Stop-Loss Event occurs, the term of the Products ends automatically and the Products are repaid at the Stop-Loss Redemption Amount that is determined by the Calculation Agent in its reasonable discretion on the basis of the price of the Product. The Stop-Loss Redemption Amount may be zero.</p> <p><u><i>Risk factors in relation to the Management Fee</i></u></p> <p>A certain Management Fee is deducted from the Redemption Amount payable. It should be noted that a Management Fee not only reduces the Redemption Amount payable by the Issuer, but also reduces the value of the Products on the secondary market during their term. Such a Management Fee is incorporated in the calculation of the bid and ask prices for Products on the secondary market according to the portion of the term of the Products that has already expired. In the case of a Management Fee greater than zero (0), the effect of the Management Fee will be greater, the longer</p>

		<p>the holding period in which it applies to the Products.</p> <p><u><i>Risk Factors in relation to the Adjustment Factor</i></u></p> <p>A certain Adjustment Factor is applied in order to calculate the Redemption Amount. Due to the application of the Adjustment Factor the Holder does not participate 1:1 in the difference between the performance of Basket Component 1 and Basket Component 2, but by the proportion of the Adjustment Factor.]</p>
		<p>[insert in the case of Short Participation Certificates with Cash Settlement and with unconditional minimum redemption (Product No. 32):</p> <p><u><i>Risk Factors applicable to the unconditional Minimum Redemption</i></u></p> <p>The Products are redeemed at the end of the term for at least the amount specified in advance. The Minimum Redemption Amount may be lower than the [Denomination][Issue Price] or the capital invested for the purchase of the Product (including related transaction costs). Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer.</p> <p>The Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. The investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. In such a case the investor bears the risk of a total loss of the capital invested, including related transaction costs.</p> <p>For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at any time during their term for at least the Minimum Redemption Amount.</p> <p><u><i>Risk Factors applicable to the Participation Factor</i></u></p> <p>Investors should note that the application of a Participation Factor means that the Products are economically similar to a direct investment in the negative performance of the [Underlying] [[worst][best] performing Basket Component], although they are not totally comparable with such an investment because the Holders do not participate in the respective negative price performance of the Underlying in the ratio of 1:1, but to the extent of a certain factor. Depending on the structure of the Products a Participation Factor may have the effect that the investor participates to a [greater][lesser] extent in any changes in value of the [Underly-</p>

		<p>ing][relevant Basket Component], subject to the value effects of any other product characteristics.</p> <p><i>[Redemption Amount is limited to Maximum Redemption Amount</i></p> <p>The Redemption Amount is limited to the Maximum Redemption Amount, so the possible yield has an upper limit. Accordingly, investors do not continue to participate in the negative price performance of the [Underlying] [[worst][best] performing Basket Component] below a certain threshold.]]</p>
		<p><i>[insert in the case of Knock-Out Warrants (Product No. 33):</i></p> <p><u><i>Risk of loss</i></u></p> <p>There is a risk of a total loss of the Holder’s invested capital. A total loss will occur if the [Final Fixing Level [of the [worst] [best] performing Basket Component]] [Final Basket Value] is equal to [or below] [or above] the [relevant] Strike Level. [A total loss will also occur in the case that a Knock-Out Event has occurred.] [The investor will also suffer significant losses in the case that a Knock-Out Event has occurred; in this case the investor will only receive the [Denomination][Issue Price] multiplied by the Rebate.]</p> <p><i>Factors affecting the price during the term of the Knock-Out Warrants</i></p> <p>The price of the Knock-Out Warrants during the term depends in particular on the price of the [Underlying] [relevant Basket Components] [Basket] during the term. Generally, the price of the Knock-Out Warrants falls when the price of the [Underlying] [relevant Basket Components] [Basket] [falls] [rises]. A [decrease] [increase] typically has a disproportionately great effect on the price of the Knock-Out Warrants. There are additional factors, such as volatility or interest rate levels that may also have an impact on the price of the Knock-Out Warrant.</p> <p><u><i>Risk due to the leverage effect</i></u></p> <p>Due to the leverage effect the Products involve disproportionate risks of loss compared to a direct investment in the [Underlying] [[relevant] Basket Components][Basket].]</p>
		<p><i>[insert in the case of Dual Currency Notes (Product No. 34):</i></p> <p><u><i>Risk of loss</i></u></p> <p>In the case of Dual Currency Notes, the Redemption Amount at the end of the term is either an amount in the Settlement Currency determined on the basis of the Denomination in the Settlement Currency or an amount in the Alternative Currency determined on the basis of the Denomination that is converted into the Alternative Currency. Therefore, Holders are exposed to the risk of changes in the relevant currency exchange rate which may affect the yield of such Dual Currency Notes.</p> <p> Holders may suffer a loss. The potential loss equals the difference</p>

		<p>between the capital invested to purchase the Product (including transaction costs incurred) and the Redemption Amount. Furthermore, the Holder remains exposed to the risks of the Issuer, so the investor may lose all the capital invested to purchase the Products (including transaction costs incurred) on an insolvency of the Issuer. For this reason among others, Dual Currency Notes may be traded during their term at a price below the Denomination in the Settlement Currency. Holders may therefore not rely on being able to sell their Products at any time during the term at a price equal to or above the Denomination in the Settlement Currency.]</p>
		<p>[insert in the case of Stability Notes (Product No. 35):</p> <p><u>Risk of total loss and risks related to early redemption</u></p> <p>In the case of Stability Notes it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether a Gap Event has occurred.</p> <p>If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying is irrelevant to the Holder.</p> <p>The Holder may suffer a total loss of the capital invested. A total loss will occur in the case that a Gap Event occurs and the Gap is equal to or below the Gap Level. The Holder may also suffer a loss in the case that a Gap Event occurs and the Gap is below the Strike Level. In this scenario the Redemption Amount is below the [Denomination][Issue Price].</p> <p>Provided that no Gap Event has occurred, the Holder receives a Coupon Amount on the relevant Coupon Payment Date(s) that is determined on the basis of the Coupon Rate and the [Denomination][Issue Price]. The coupon payment is independent of the performance of the Underlying. In the case that a Gap Event has occurred the Holder will not receive any accrued coupon payments on the date on the Early Redemption Date.</p> <p><u>Redemption Amount is limited to the [Denomination][Issue Price]</u></p> <p>The potential Redemption Amount under the Products will not exceed the [Denomination][Issue Price] (plus the coupon payment(s) provided that no early redemption has occurred).</p> <p><u>Risk due to the leverage effect</u></p> <p>In the case that a Gap Event has occurred and the Gap is above the Gap Level the Redemption Amount is determined on the basis of the difference between the Strike Level and the Gap taking into account the Leverage. In this case the Product involves disproportionate risks of loss compared to a direct investment in the Underlying due to the consideration of the Leverage.]</p>
		<p><u>3. Risk factors associated with certain types of Underlyings</u></p>

		<p>Depending on the Underlying(s) to which the Products give exposure, Holders are exposed to further risks stemming from the type of Underlying and the behaviour of its market prices as the Redemption Amount and/or the Coupon Amount a Holder may receive depends on the development of the price of the Underlying. In the case of an unfavourable performance of the Underlying the investor may suffer losses up to a total loss of the invested capital (incl. transaction costs). The types of Underlyings provided for in the Base Prospectus differ significantly in terms of their typical price volatility. Holders should only invest in Products if they are familiar with the relevant Underlying and have a comprehensive understanding of the type of Underlying itself, the market and other rules of the relevant Underlying.</p>
		<p><u>4. Risk factors associated with conflicts of interest</u></p> <p><i><u>Conflicts of interest related to the underlying</u></i></p> <p>The Issuer and other companies in the Group deal in the underlyings or in components of the underlying or in options or futures contracts relating to the underlyings or components thereof in their normal course of business and from time to time may participate in transactions connected to the Products for their own account or on behalf of others. The Issuer and other companies in the Group can also hold interests in individual underlyings or in the companies contained in these underlyings, meaning that conflicts of interest can arise in connection with the Products.</p> <p><i><u>Conflicts of interest related to the performance of another function</u></i></p> <p>Furthermore, the Issuer and other companies in the Group can, in addition, exercise another function in relation to the underlying or components thereof, such as issuing agent, calculation agent, paying agent and/or administrative agent. Therefore, there can be conflicts of interest regarding the duties when determining the prices of the Products and other determinations related thereto among the relevant companies in the Group and between the companies and the investors. Furthermore, the Issuer and other companies in the Group may act as members of a consortium, financial advisor or commercial bank in connection with future offers of the underlying or components thereof; activities of this kind can also entail conflicts of interest and affect the value of the Products.</p> <p><i><u>Conflicts of interest related to the performance of hedging transactions</u></i></p> <p>The Issuer can use part or all of the proceeds from the sale of the Products for hedging transactions. These hedging transactions can influence the price of the underlyings or the components of the underlying that is determined on the market.</p> <p><i><u>Conflicts of interest related to the issuance of additional derivative products</u></i></p>

		<p>The Issuer and other companies in the Group can issue additional derivative products in relation to the underlying or components of the underlying, including those that have the same or similar features as the Products. The introduction of products that are in competition with the Products can have an impact on the price of the underlying or components of the underlying and therefore have an impact on the price of the Products.</p> <p><u><i>Conflicts of interest related to information specific to the Underlying</i></u></p> <p>The Issuer and other companies in the Group can receive non-public information regarding the underlying or components of the underlying, but are not obliged to pass such information on to the Holders. Furthermore, companies in the Group can publish research reports on the underlying or components of the underlying. Activities such as those mentioned can give rise to specific conflicts of interest and therefore have an impact on the value of the Products.</p> <p><u><i>Conflicts of interest related to the determination of the selling price of the Products and commission payment</i></u></p> <p>The selling price of the Products, where appropriate in addition to fixed issue surcharges, management fees or other fees, may contain surcharges that are not transparent to the investor on the initial mathematical "fair" value of the Products (the "margin"). This margin will be determined by the Issuer in its sole discretion and can differ from surcharges that other issuers impose on comparable Products.</p> <p><u><i>Conflicts of interest related to Market Making for the Products</i></u></p> <p>It is intended that under normal market conditions the Lead Manager or, if applicable, a third party will regularly quote bid and offer prices for each issue of Products. However, no legal obligations are assumed with respect to the amount or the realisation of such quotations. It should be noted that it may not be possible to sell the Products during their term at a particular point in time or at a particular price.</p> <p><u><i>Interests of third parties involved in the issue</i></u></p> <p>The Issuer can involve cooperation partners and external advisors in the issuance of Products, e.g. in the composition and adjustment of a basket or index. It is possible that such cooperation partners and advisors may pursue their own interests in the course of an issuance by the Issuer and when providing their associated advice. A conflict of interest of advisors may mean that they make an investment decision or suggestion in their own interest rather than in the interest of the investors.</p>
Section E – Offer		
E.2b	Reasons for the offer	Not applicable; the proceeds from the sale of the Products are used

	and use of proceeds when different from making profit	for hedging the payment obligations arising from the issue of the Products and for the purposes of the Issuer's ordinary business activities.
E.3	Description of the terms and conditions of the offer	<p>Issue Price [for subscriptions during the subscription period] [on the Issue Date]: [●] [<i>in the case of series of products, insert as necessary table:</i> ●]</p> <p>[<i>insert for TCM Secured Products:</i> The issue price includes the costs of collateralising the TCM Secured Products. These costs amount to [●] [between ● and ●] at the time the products are issued.]</p> <p>Issue Date: [●]</p> <p>[The Products are offered for subscription during the subscription period, i.e. from [●] to including [●]. The Issuer reserves the right to end the subscription period early [or to extend it]. The Issuer is not obliged to accept subscription applications. Partial allocations are possible (in particular in the event of oversubscription). The Issuer is not obliged to issue subscribed Products.] [The Issuer reserves the right to cancel the offer.]</p> <p>[<i>insert, where required, further information to describe the conditions of the offer:</i> ●]</p> <p>[●, with registered office in ●, will act as “Italian Deal Manager” (“<i>Responsabile del collocamento</i>” as defined by Article 93-bis of Legislative Decree n. 58/1998), for the purposes of Article 13(2) of CONSOB Regulation n.11971/1999 (“CONSOB Regulation on Issuer”).]</p>
E.4	Description of any interest that is material to the issue/offer including conflicting interests	<p>The Issuer and other companies in the Group deal in the underlyings or in components of the underlying or in options or futures contracts relating to the underlyings or components thereof in their normal course of business and from time to time may participate in transactions connected to the Products for their own account or on behalf of others. The Issuer and other companies in the Group can also hold interests in individual underlyings or in the companies contained in these underlyings, meaning that conflicts of interest can arise in connection with the Products.</p> <p>Furthermore, the Issuer and other companies in the Group can, in addition, exercise another function in relation to the underlying or components thereof, such as issuing agent, calculation agent, paying agent and/or administrative agent. Therefore, there can be conflicts of interest regarding the duties when determining the prices of the Products and other determinations related thereto among the relevant companies in the Group and between the companies and the investors. Furthermore, the Issuer and other companies in the Group may act as members of a consortium, financial advisor or commercial bank in connection with future offers of the underlying or components thereof; activities of this kind can also entail conflicts of interest and affect the value of the Products.</p>

		<p>The Issuer can use part or all of the proceeds from the sale of the Products for hedging transactions. These hedging transactions can influence the price of the underlyings or the components of the underlying that is determined on the market.</p> <p>The Issuer and other companies in the Group can issue additional derivative products in relation to the underlying or components of the underlying, including those that have the same or similar features as the Products. The introduction of products that are in competition with the Products can have an impact on the price of the underlying or components of the underlying and therefore have an impact on the price of the Products.</p> <p>The Issuer and other companies in the Group can receive non-public information regarding the underlying or components of the underlying, but are not obliged to pass such information on to the Holders. Furthermore, companies in the Group can publish research reports on the underlying or components of the underlying. Activities such as those mentioned can give rise to specific conflicts of interest and therefore have an impact on the value of the Products.</p> <p>The selling price of the Products, where appropriate in addition to fixed issue surcharges, management fees or other fees, may contain surcharges that are not transparent to the investor on the initial mathematical "fair" value of the Products (the "margin"). This margin will be determined by the Issuer in its sole discretion and can differ from surcharges that other issuers impose on comparable Products.</p> <p>It is intended that under normal market conditions the Lead Manager or, if applicable, a third party will regularly quote bid and offer prices for each issue of Products. However, no legal obligations are assumed with respect to the amount or the realisation of such quotations. It should be noted that it may not be possible to sell the Products during their term at a particular point in time or at a particular price.</p> <p>The Issuer can involve cooperation partners and external advisors in the issuance of Products, e.g. in the composition and adjustment of a basket or index. It is possible that such cooperation partners and advisors may pursue their own interests in the course of an issuance by the Issuer and when providing their associated advice. A conflict of interest of advisors may mean that they make an investment decision or suggestion in their own interest rather than in the interest of the investors.</p>
E.7	Estimated expenses charged to the investor by the Issuer or the offeror	<p>[Not applicable. The Issuer or the Lead Manager will not charge the investor any further costs over and above the Issue Price [(plus a surcharge, if applicable) or the purchase price.]</p> <p>[In addition to the Issue Price (plus a surcharge, if applicable) or the purchase price the Issuer or the Lead Manager will charge to</p>

I. SUMMARY

		the investor further costs in the amount of [●].] [Information about expenses additional to the Issue Price or the purchase price can to be obtained from the relevant distributor.]

DEUTSCHE ÜBERSETZUNG DER ZUSAMMENFASSUNG

Zusammenfassungen bestehen aus bestimmten Offenlegungspflichten, den sogenannten “Punkten”. Diese Punkte sind in den nachfolgenden Abschnitten A – E gegliedert und nummeriert (A.1 – E.7).

Diese Zusammenfassung enthält alle Punkte, die in eine Zusammenfassung für diese Art von Wertpapieren und für Emittenten dieses Typs aufzunehmen sind. Da einige Punkte nicht zu berücksichtigen sind, ist die Nummerierung zum Teil nicht durchgängig und es kann zu Lücken kommen.

Auch wenn ein Punkt aufgrund der Art des Wertpapiers bzw. für Emittenten dieses Typs in die Zusammenfassung aufgenommen werden muss, ist es möglich, dass bezüglich dieses Punkts keine relevante Information zu geben ist. In diesem Fall enthält die Zusammenfassung an der entsprechenden Stelle eine kurze Beschreibung der Schlüsselinformation und den Hinweis “Entfällt”.

Abschnitt A - Einleitung und Warnhinweise		
A.1	Warnhinweise	<p>Die Zusammenfassung ist als Einführung zum Basisprospekt vom 18. Juni 2019 ([wie nachgetragen durch [<i>gegebenenfalls Nachträge einfügen</i>: ●] und] inklusive etwaiger zukünftiger Nachträge) der Leonteq Securities AG (die “Emittentin”) zu verstehen.</p> <p>Der Anleger sollte jede Entscheidung zur Anlage in die Produkte auf die Prüfung des gesamten Basisprospekts, einschließlich der durch Verweis einbezogenen Dokumente, etwaiger Nachträge und der Endgültigen Bedingungen stützen.</p> <p>Für den Fall, dass vor einem Gericht Ansprüche aufgrund der in einem Basisprospekt, durch Verweis einbezogenen Dokumenten, etwaigen Nachträgen sowie den in den jeweiligen Endgültigen Bedingungen enthaltenen Informationen geltend gemacht werden, könnte der klagende Anleger aufgrund einzelstaatlicher Rechtsvorschriften von Mitgliedstaaten des Europäischen Wirtschaftsraums die Kosten für eine Übersetzung des Basisprospekts, der durch Verweis einbezogenen Dokumente, etwaiger Nachträge und der Endgültigen Bedingungen in die Gerichtssprache vor Prozessbeginn zu tragen haben.</p> <p>Die Emittentin oder Personen, von denen der Erlass ausgeht, können für den Inhalt dieser Zusammenfassung, einschließlich etwaiger Übersetzungen davon, haftbar gemacht werden, jedoch nur für den Fall, dass die Zusammenfassung irreführend, unrichtig oder widersprüchlich ist, wenn sie zusammen mit den anderen Teilen des Basisprospekts gelesen wird oder sie, wenn sie zusammen mit den anderen Teilen des Basisprospekts gelesen wird, nicht alle erforderlichen Schlüsselinformationen vermittelt.</p>
A.2	- Zustimmung zur Verwendung des Prospekts	<p>[<i>im Fall einer generellen Zustimmung, einfügen</i>: Die Emittentin stimmt der Nutzung des Basisprospekts und dieser Endgültigen Bedingungen durch alle Finanzintermediäre (generelle Zustimmung (<i>general consent</i>)) zu. Die generelle Zustimmung für die spätere Weiterveräu-</p>

		<p>Berung oder endgültige Platzierung der Produkte ist durch die Finanzintermediäre in Bezug auf [den] [die] Angebotsstaat[en] und für die Angebotsfrist, während der die Produkte weiterverkauft oder endgültig platziert werden können, gegeben, vorausgesetzt der Basisprospekt ist weiterhin gemäß § 9 WpPG gültig.]</p> <p><i>[im Fall einer individuellen Zustimmung zur Nutzung des Prospekts durch bestimmte Finanzintermediäre in allen Angebotsstaaten, einfügen:</i> Die Emittentin stimmt der Nutzung des Basisprospekts und der Endgültigen Bedingungen für Angebote durch die folgenden Finanzintermediäre (individuelle Zustimmung (<i>individual consent</i>)) zu: <i>[Name und Adresse des bestimmten Finanzintermediärs einfügen: ●]</i>. Die individuelle Zustimmung für die anschließende Weiterveräußerung oder endgültige Platzierung der Produkte ist durch die festgelegten Finanzintermediäre in Bezug auf [den][die] Angebotsstaat[en] und für die Angebotsfrist, während der die Produkte weiterverkauft oder endgültig platziert werden können, gegeben, vorausgesetzt der Basisprospekt ist weiterhin gemäß § 9 WpPG gültig. Jede neue Information bezüglich der Finanzintermediäre, die zum Zeitpunkt der Billigung des Basisprospekts oder der Hinterlegung der Endgültigen Bedingungen unbekannt ist, wird [in elektronischer Form auf der Webseite www.leonteq.com (unter „Unsere Services“ – „Investment Solutions“ – „Strukturierte Produkte“ – „Service“ – „Prospekte“ - unter der Rubrik „Bekanntmachungen“)]<i>[andere Internetseite einfügen: ●]</i> veröffentlicht.]</p> <p><i>[im Fall einer individuellen Zustimmung zur Nutzung des Prospekts durch bestimmte Finanzintermediäre in verschiedenen, ausgewählten, Jurisdiktionen, einfügen:</i> Die Emittentin stimmt der Nutzung des Basisprospekts und der Endgültigen Bedingungen für die anschließende Weiterveräußerung oder endgültige Platzierung der Produkte durch die in untenstehender Tabelle aufgeführten Finanzintermediäre (individuelle Zustimmung (<i>individual consent</i>)) bezüglich [des][der] in untenstehender Tabelle ausgewählten Angebotsstaat[s][en] für die Dauer der Angebotsfrist, während der die Produkte weiterverkauft oder endgültig platziert werden können, zu, vorausgesetzt der Basisprospekt ist weiterhin gemäß § 9 WpPG gültig.</p> <p>Name und Adresse des Ausgewählte[r] Angebotsstaat[en] Finanzintermediärs</p> <p>[●] [Deutschland] [,][und] [Frankreich] [,][und] [das Vereinigte Königreich] [,][und] [Italien] [,][und] [die Tschechische Republik][,][und] [die Niederlande][,][und] [Irland]</p> <p>[●] [Deutschland] [,][und] [Frankreich] [,][und] [das Vereinigte Königreich] [,][und] [Italien] [,][und] [die Tschechische Republik][,][und] [die Niederlande][,][und] [Irland]</p> <p>Jede neue Information bezüglich der Finanzintermediäre, die zum</p>

Abschnitt D – Risiken		
D.2	Zentrale Angaben zu den zentralen Risiken, die dem Emittenten eigen sind	<p>Die Emittentin ist Risiken ausgesetzt, die sich vor allem aus der Emission strukturierter Anlageprodukte ergeben. Die Emittentin ist Marktrisiken ausgesetzt, die sich aus der Diskrepanz zwischen ihrem Exposure aus Aktienkursen, Zinsen, Währungen, Credit Spreads und Rohstoffpreisen, die sich aus der Emission strukturierter Anlageprodukte und den Instrumenten, die die Emittentin verwendet, um sich gegen dieses Exposure abzusichern, ergeben können. Darüber hinaus unterliegt sie Liquiditätsrisiken im Zusammenhang mit der Finanzierung dieser Absicherungsaktivitäten. Die Emittentin ist Kreditrisiken ausgesetzt, die sich aus Geschäften mit Handelsgegenparteien ergeben bzw. die sich durch die Investition der Erlöse aus den Emissionen von strukturierten Anlageprodukten in Anleihen und andere festverzinsliche Instrumente ergeben. Ferner ist die Emittentin Modellrisiken, operationellen Risiken, Reputationsrisiken sowie Risiken aufgrund etwaiger Veränderungen im regulatorischen und makroökonomischen Umfeld und ihres Ratings ausgesetzt.</p> <ul style="list-style-type: none"> • Auf die Finanzinformationen der Emittentin für eine bestimmte Finanzperiode sollte nicht als Indiz für zukünftige Ergebnisse vertraut werden. • Die Emittentin könnte aufgrund einer verschlechterten finanziellen Lage nicht fähig sein, ihre Verpflichtungen zu erfüllen. Die Emittentin könnte zahlungsunfähig werden. • Die Emittentin ist dem Risiko ausgesetzt, dass ihr Modell für Bewertung und Risikobemessung falsch sein könnte und, dass sich ihre Massnahmen zum Risikomanagement als nicht erfolgreich erweisen. • Die Emittentin ist Marktrisiken aufgrund offener Positionen bei Zins-, Währungs-, Rohstoff-, Kredit-, Equity- und anderen Produkten ausgesetzt, welche ihre Ertragslage negativ beeinflussen könnten. • Die Emittentin ist einem erheblichen und steigenden Wettbewerb ausgesetzt, der ihre künftige Ertragslage negativ beeinflussen könnte. • Die Emittentin ist den Risiken im Zusammenhang mit ihrem Plattform-Partner-Geschäft ausgesetzt, welche ihre Ertragslage negativ beeinflussen könnten. • Die Emittentin ist dem Kreditrisiko ihrer Gegenparteien ausgesetzt. • Die Emittentin unterliegt einem Marktliquiditätsrisiko sowie einem Finanzierungsliquiditätsrisiko, welche ihre Fähigkeit, ihr Geschäft zu betreiben, sowie ihre künftige Ertragslage negativ beeinflussen könnte. • Die Risiken der Emittentin aus Finanzinstrumenten können zu

		<p>bestimmten Risikokonzentrationen führen, die einen erheblichen Verlust der Emittentin zur Folge haben können, was wiederum die künftige Ertragslage der Emittentin negativ beeinflussen könnte.</p> <ul style="list-style-type: none"> • Die Aktivitäten der Emittentin und ihre Ertragslage könnten durch operationelle Risiken negativ beeinflusst werden. Die Emittentin könnte durch Compliance-, rechtliche und regulatorische Risiken sowie durch Reputationsrisiken negativ beeinflusst werden. • Steuerliche Risiken könnten sich negativ auf die Emittentin auswirken. • Die Liquidität, Profitabilität und die Geschäfte der Emittentin können durch eine Herabstufung des Kredit-Ratings negativ beeinflusst werden.
<p>D.3 D.6</p>	<p>Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind</p>	<p><i>Ein Anleger in die Produkte sollte beachten, dass er sein Investment ganz oder teilweise verlieren kann.</i></p> <p><u>1. Risikofaktoren im Hinblick auf sämtliche Produkte</u></p> <ul style="list-style-type: none"> • Die Produkte sind risikoreiche Instrumente der Vermögensanlage. Im Vergleich zu anderen Kapitalanlagen ist bei ihnen das Risiko von Verlusten – bis hin zum Totalverlust des eingesetzten Kapitals einschließlich der aufgewendeten Transaktionskosten – hoch. • Die Produkte können die Zahlung von festen oder variablen Zinsen vorgesehen. Im Fall von Produkten, die eine variable Zins-/Couponzahlung vorsehen, sollten Inhaber beachten, dass die Zins-/Couponzahlung auf null (0) fallen kann oder von einer bestimmten Bedingung abhängig ist. Im Fall von Produkten, die eine feste Zins-/Couponzahlung vorsehen, sollten Inhaber beachten, dass sie nicht an steigenden Marktzinsen partizipieren. • Die Produkte werfen, soweit nicht ausdrücklich vorgesehen, keinen laufenden Ertrag ab und gewähren insbesondere keinen Anspruch auf Dividendenzahlungen. • Die persönliche Rendite des Anlegers hängt maßgeblich von dem bezahlten Kaufpreis für das Produkt und von der Wertentwicklung des Produkts ab. Das Risiko von Wertverlusten besteht bereits während der Laufzeit eines Produkts. • Die Produkte können eine physische Lieferung des Basiswerts vorsehen und Investoren folglich keinen Geldbetrag erhalten. Es besteht das Risiko, dass der zu liefernde Basiswert bzw. zu liefernde Korbbestandteil bzw. das zu liefernde Referenzwertpapier nur einen sehr niedrigen oder auch gar keinen Wert aufweist. In diesem Fall besteht das Risiko von Verlusten – bis hin zum Totalverlust des eingesetzten Kapitals einschließlich der aufgewendeten Transaktionskosten. Darüber hinaus tragen Investoren die Emittenten- und Wertpapierrisiken des zu liefernden Basiswerts. • Anleger tragen das Kreditrisiko der Emittentin der Produkte. Die

		<p>Produkte sind weder durch einen Einlagensicherungsfonds noch durch eine staatliche Einrichtung abgesichert oder garantiert.</p> <ul style="list-style-type: none"> • Die Pfandbesicherung nach den Bestimmungen des "Rahmenvertrages für Pfandbesicherte Zertifikate" der SIX Swiss Exchange AG (COSI) reduziert das Ausfallrisiko des Emittenten nur insoweit, als die Erlöse aus der Verwertung der Sicherheiten die Ansprüche der Anleger zu decken vermögen. Sofern sich die Berechnung des aktuellen Wertes eines pfandbesicherten Produkts als fehlerhaft erweist, kann die Besicherung des pfandbesicherten Produkts ungenügend sein. Den Anlegern steht an den Sicherheiten kein eigenes Sicherungsrecht zu. • Die Pfandbesicherung nach den Bestimmungen des TCM-Sicherheitenvertrages reduziert das Ausfallrisiko bezüglich des Emittenten nur in dem Umfang, wie die Erlöse aus der Verwertung der Sicherheiten bei Eintritt eines Verwertungsfalls (abzüglich der Kosten für die Verwertung und Auszahlung), die Ansprüche der Anleger zu decken vermögen. Sofern sich die Berechnung des aktuellen Wertes des Produkts (Wert des Produkts vor der Verwertung zu niedrig angesetzt) oder der Sicherheiten (Wert der Sicherheit vor der Verwertung zu hoch angesetzt) als fehlerhaft erweist, kann die Besicherung des Produkts ungenügend sein. Sofern die den Produkten zugrundeliegenden Bedingungen ein Kündigungsrecht der Emittentin für den Fall vorsehen, dass der TCM-Sicherheitenvertrag gekündigt wird, trägt der Anleger im Fall der Ausübung dieses Kündigungsrechts durch die Emittentin das Rendite- und Wiederanlagerisiko. • Anleger sollten beachten, dass Kursänderungen (oder auch schon das Ausbleiben einer erwarteten Kursänderung) des Basiswerts den Wert des Produkts überproportional bis hin zur Wertlosigkeit mindern können, und dass bei Produkten mit Laufzeitbegrenzung nicht darauf vertraut werden sollte, dass sich der Preis des Produkts rechtzeitig wieder erholen wird. • Anlegern sollte bewusst sein, dass sie eventuell nicht in der Lage sein werden, sich gegen Risiken aus den Produkten abzusichern. • Eine Kreditfinanzierung des Erwerbs von Produkten erhöht das Verlustrisiko der Anleger erheblich. • Geschäfte der Emittentin oder von mit ihr verbundenen Unternehmen zur Absicherung des Risikos bezüglich des Abschlusses und der Erfüllung der Verpflichtungen aus den Produkten können erheblichen Einfluss auf die Kursentwicklung des Basiswerts und somit auf die Produkte haben. • Gebühren und andere Transaktionskosten vermindern die Chancen der Anleger, mit dem Erwerb des Produkts einen Gewinn zu erzielen. • Anleger sind dem Risiko einer falschen Erwartung im Hinblick auf die Liquidität der Produkte aufgrund des in den Endgültigen
--	--	--

		<p>Bedingungen angegebenen Angebotsvolumens ausgesetzt.</p> <ul style="list-style-type: none"> • Anleger in börsennotierte Produkte bzw. in Produkte, die auf börsennotierte Basiswerte bzw. Korbbestandteile bezogen sind, unterliegen den Risiken, die sich aus einer Suspendierung oder Rücknahme (Dekotierung) vom Handel an der maßgeblichen Börse, aus Gründen die die Emittentin und der Lead Manager nicht zu vertreten haben, ergeben können und dem Risiko, dass dies negative Auswirkungen auf den Wert der Produkte haben kann. • Die Produkte könnten keine Liquidität aufweisen oder der Markt für solche Produkte könnte eingeschränkt sein, wodurch der Wert der Produkte oder die Möglichkeit der Anleger, diese zu veräußern, negativ beeinflusst werden könnte. • Marktstörungen, Anpassungsmaßnahmen und Kündigungsrechte können negative Auswirkungen auf den Wert der Produkte haben. • Im Fall des Vorliegens bestimmter Umstände hat die Emittentin das Recht zur außerordentlichen Kündigung der Produkte. Anleger erhalten in diesem Fall einen nach billigem Ermessen bestimmten Marktpreis zurückgezahlt, der auch null betragen kann. • Berichtigungen, Änderungen oder Ergänzungen der Bedingungen können nachteilig für Anleger sein. • Anleger unterliegen dem Risiko, dass Ereignisse, die den Basiswert betreffen, nach Erstellung der Endgültigen Bedingungen bekannt werden und den Kurs des Basiswerts negativ beeinflussen. • Änderungen im Steuerrecht können sich negativ auf den Wert bzw. den Marktpreis der Produkte auswirken oder dazu führen, dass sich die steuerliche Beurteilung der betreffenden Produkte ändert. • Inhaber sollten beachten, dass sich die Emittentin im Fall einer Zeichnungsfrist die vorzeitige Beendigung bzw. Verlängerung der Zeichnungsfrist vorbehält und die Emittentin nicht verpflichtet ist, Zeichnungsaufträge anzunehmen oder gezeichnete Produkte zu emittieren. • Falls Auszahlungen auf die Produkte in einer Währung vorgenommen werden, die sich von der Währung des Basiswerts unterscheidet, hängt das Verlustrisiko der Investoren auch von der Entwicklung der Währung des Basiswerts ab, welche nicht vorhersehbar ist. Ein Währungsrisiko besteht auch dann, wenn das Konto des Anlegers, dem ein geschuldeter Betrag gutgeschrieben werden soll, in einer von der Auszahlungswährung des Produkts abweichenden Währung geführt wird. • Aufgrund der Einführung einer Finanztransaktionssteuer kann der Anleger gegebenenfalls selbst zur Zahlung der Finanztransaktionssteuer oder zum Ausgleich einer Steuerzahlung gegenüber einem an der Transaktion beteiligten Finanzinstitut herangezogen werden. Hierdurch kann auch der Wert der Produkte negativ be-
--	--	--

		<p>einflusst werden.</p> <ul style="list-style-type: none"> • Risiko eines Quellensteuereinbehalts aufgrund von Rechtsvorschriften betreffend dividendenäquivalente Zahlungen (<i>Section 871(m) of the U.S. Internal Revenue Code</i>). • Änderungen des Ratings der Emittentin könnten den Wert der Wertpapiere beeinflussen.
		<p>2. Risikofaktoren im Hinblick auf bestimmte Arten von Produkten</p>
		<p>[im Fall von Bonus Zertifikaten mit Barauszahlung (Produkt Nr. 1) einfügen:</p> <p><u>Risiko eines Totalverlusts im Fall eines Barrier Events</u></p> <p>Sofern ein Barrier Event eingetreten ist, erlischt der Anspruch auf die Mindestrückzahlung und das Bonus Zertifikat ist mit einem Direktinvestment in den [Basiswert] [Korbbestandteil mit der [schlechtesten] [besten] Entwicklung] (ohne Berücksichtigung von Dividendenzahlungen) vergleichbar. In diesem Fall ist der Anleger dem Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten ausgesetzt, der dann eintritt, wenn der [Basiswert] [Korbbestandteil mit der [schlechtesten] [besten] Entwicklung] am Ende der Laufzeit des Produkts wertlos ist, d.h. wenn [das Endlevel] [der Endwert des Korbs] null beträgt.]</p>
		<p>[im Fall von Bonus Zertifikaten mit etwaiger Physischer Lieferung (Produkt Nr. 2) einfügen:</p> <p><u>Risiko eines Totalverlusts im Fall eines Barrier Events</u></p> <p>Sofern ein Barrier Event eingetreten ist, erlischt der Anspruch auf die Mindestrückzahlung und es erfolgt eine Tilgung der Produkte durch physische Lieferung des Basiswerts. In diesem Fall ist der Anleger dem Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten ausgesetzt, der dann eintritt, wenn der Basiswert am Ende der Laufzeit des Produkts wertlos ist.]</p>
		<p>[im Fall von Capped Bonus Zertifikaten mit Barauszahlung und mit Nennbetrag (Produkt Nr. 3) einfügen:</p> <p><u>Risiko eines Totalverlusts im Fall eines Barrier Events</u></p> <p>Sofern ein Barrier Event eingetreten ist, erlischt der Anspruch auf die Mindestrückzahlung und das Capped Bonus Zertifikat ist mit einem Direktinvestment in den Basiswert (ohne Berücksichtigung von Dividendenzahlungen) vergleichbar. In diesem Fall ist der Anleger dem Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten ausgesetzt, der dann eintritt, wenn der Basiswert am Ende der Laufzeit des Produkts wertlos ist.</p> <p><u>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</u></p> <p>Unabhängig davon, ob ein Barrier Event eingetreten ist oder nicht, entspricht der Rückzahlungsbetrag maximal dem Höchstrückzahlungsbetrag. Das bedeutet, der Inhaber partizipiert nicht</p>

		an einer über das Cap Level hinausgehenden Entwicklung des Basiswerts, weshalb die Ertragsmöglichkeit bei Capped Bonus Zertifikaten nach oben hin beschränkt ist.]
		<p>[im Fall von Capped Bonus Zertifikaten mit Barauszahlung und ohne Nennbetrag (Produkt Nr. 4) einfügen:</p> <p><u>Risiko eines Totalverlusts im Fall eines Barrier Events</u></p> <p>Sofern ein Barrier Event eingetreten ist [und das Endlevel [der Korbbestandteils mit der schlechtesten Kursentwicklung] das mit dem Anfangslevel multiplizierte Bonus Level erreicht oder unterschreitet], erlischt der Anspruch auf die Mindestrückzahlung und das Capped Bonus Zertifikat ist mit einem Direktinvestment in [den Basiswert][die Korbbestandteile] (ohne Berücksichtigung von Dividendenzahlungen) vergleichbar. In diesem Fall ist der Anleger dem Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten ausgesetzt, der dann eintritt, wenn das Endlevel [des Basiswerts][der Korbbestandteile] bei null (0) liegt.</p> <p><u>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</u></p> <p>Unabhängig davon, ob ein Barrier Event eingetreten ist oder nicht, entspricht der Rückzahlungsbetrag maximal dem Höchstrückzahlungsbetrag. Das bedeutet, der Inhaber partizipiert nicht an einer über das Cap Level hinausgehenden Entwicklung des Basiswerts, weshalb die Ertragsmöglichkeit bei Capped Bonus Zertifikaten nach oben hin beschränkt ist.]</p>
		<p>[im Fall von Capped Bonus Zertifikaten mit etwaiger Physischer Lieferung (Produkt Nr. 5) einfügen:</p> <p><u>Risiko eines Totalverlusts im Fall eines Barrier Events</u></p> <p>Sofern ein Barrier Event eingetreten ist, erlischt der Anspruch auf die Mindestrückzahlung und das Capped Bonus Zertifikat ist mit einem Direktinvestment in den Basiswert (ohne Berücksichtigung von Dividendenzahlungen) vergleichbar. Der Anleger erhält in diesem Fall den Basiswert geliefert. In diesem Fall ist der Anleger dem Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten ausgesetzt, der dann eintritt, wenn das Endlevel des Basiswerts bei null (0) liegt.</p> <p><u>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</u></p> <p>Unabhängig davon, ob ein Barrier Event eingetreten ist oder nicht, entspricht der Rückzahlungsbetrag maximal dem Höchstrückzahlungsbetrag. Das bedeutet, der Inhaber partizipiert nicht an einer über das Cap Level hinausgehenden Entwicklung des Basiswerts, weshalb die Ertragsmöglichkeit bei Capped Bonus Zertifikaten nach oben hin beschränkt ist.]</p>
		<p>[im Fall von Anleihen (Reverse Convertibles) mit Barauszahlung (Produkt Nr. 6) einfügen:</p> <p><u>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</u></p>

		<p>Der Rückzahlungsbetrag (ohne Berücksichtigung etwaiger Couponzahlungen während der Laufzeit) entspricht in jedem Fall maximal dem Nennbetrag.</p> <p><u>Totalverlustrisiko</u></p> <p>Sofern das Endlevel den Ausübungspreis erreicht oder unterschreitet, entspricht der Rückzahlungsbetrag dem Nennbetrag multipliziert mit der Performance des Basiswerts. In diesem Szenario wird der Rückzahlungsbetrag in der Regel geringer sein als der Nennbetrag. Die festgelegte(n) Couponzahlung(en) kann bzw. können in diesem Fall die negative Entwicklung des Basiswerts und den dadurch erlittenen Kapitalverlust ab einem bestimmten Punkt nicht mehr abfangen und der Inhaber erleidet einen Verlust. Der Verlust entspricht der Differenz zwischen (i) dem für das Produkt aufgewandten Kaufpreis (zuzüglich Transaktionskosten) und (ii) dem Rückzahlungsbetrag zuzüglich der Couponzahlung(en). Dies kann im Extremfall – abgesehen von der bzw. den in der Höhe festgelegten Couponzahlung(en) – bis hin zum Totalverlust des eingesetzten Kapitals führen, sofern der Basiswert am Ende der Laufzeit wertlos ist.]</p>
		<p>[im Fall von Anleihen (Reverse Convertibles) mit etwaiger Physischer Lieferung (Produkt Nr. 7) einfügen:</p> <p><u>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</u></p> <p>Der Rückzahlungsbetrag (ohne Berücksichtigung etwaiger Couponzahlungen während der Laufzeit) entspricht in jedem Fall maximal dem Nennbetrag.</p> <p><u>Totalverlustrisiko</u></p> <p>Sofern das Endlevel den Ausübungspreis erreicht oder unterschreitet, sehen die Produkte eine physische Lieferung des Basiswerts vor. Sofern die Tilgung der Produkte durch physische Lieferung des Basiswerts erfolgt, ist zu beachten, dass der Gegenwert der gelieferten Basiswerte in der Regel geringer als der Nennbetrag ist. Die festgelegte(n) Couponzahlung(en) kann bzw. können in diesem Fall die negative Entwicklung des Basiswerts und den dadurch erlittenen Kapitalverlust ab einem bestimmten Punkt nicht mehr abfangen und der Inhaber erleidet einen Verlust. 		<p><i>[im Fall von Master Discount Zertifikaten mit Barauszahlung (Produkt Nr. 19) einfügen:</i></p> <p><u><i>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</i></u></p> <p>Der Rückzahlungsbetrag bei Master Discount Zertifikaten entspricht maximal dem Höchstrückzahlungsbetrag, weshalb die Ertragsmöglichkeit bei Master Discount Zertifikaten nach oben hin beschränkt ist.</p> <p><u><i>Risiko eines Totalverlusts</i></u></p> <p>Anleger sollten beachten, dass die Investition in das Produkt mit einem Direktinvestment in den jeweiligen Basiswert und somit in die dem Produkt zugrundeliegenden Korbbestandteile (ohne Berücksichtigung eventueller Dividendenzahlungen) vergleichbar ist. Sofern ein Korbbestandteil wertlos wird, erleidet der Anleger einen Verlust in Höhe des Korbbestandteils unter Berücksichtigung der Anzahl je Korbbestandteile; aufgrund der Einzelbetrachtung der Korbbestandteile und der jeweiligen Cap Level kann ein solcher Verlust nicht durch die Wertentwicklung der übrigen Korbbestandteile kompensiert werden. Sofern alle Korbbestandteile wertlos werden, ist der Anleger somit dem Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten ausgesetzt. Zu beachten ist zudem, dass das Cap Level unter dem Anfangslevel liegen kann. In diesem Fall ist es ausgeschlossen, dass der Anleger an einer Wertsteigerung des Korbbestandteils partizipiert.]</p>
		<p><i>[im Fall von Express Zertifikaten mit Barauszahlung und mit Nennbetrag und/oder Ausgabepreis sowie unbedingter Mindestrückzahlung (Produkt Nr. 20) einfügen:</i></p> <p><u><i>Risiken im Hinblick auf die vorzeitige Rückzahlung und die unbedingte Mindestrückzahlung</i></u></p> <p>Die Höhe des Rückzahlungsbetrags und der Zeitpunkt der Rückzahlung der Produkte ist davon abhängig, ob an einem Autocall Beobach-</p>

	<p>tungstag ein Autocall Ereignis eingetreten ist.</p> <p>Sofern dieses Ereignis vor dem Verfallstag eintritt, endet die Laufzeit der Produkte vorzeitig und die Produkte werden nach den Bestimmungen der Bedingungen vorzeitig zurückgezahlt. Im Fall einer solchen vorzeitigen Rückzahlung spielt die weitere Wertentwicklung der Korbbestandteile für den Inhaber keine Rolle mehr.</p> <p>[Sofern eine vorzeitige Rückzahlung der Produkte nicht erfolgt ist, ist die Höhe des Rückzahlungsbetrags von der Entwicklung [der Korbbestandteile][des Basiswerts] abhängig. Sofern [das][die] Endlevel [sämtlicher Korbbestandteile][des Basiswerts] auf oder über dem Autocall Trigger Level [liegt][liegen], erhält der Inhaber den [Nennbetrag] [Ausgabepreis]. Sofern dies nicht der Fall ist, erhält der Inhaber den festgelegten Mindestrückzahlungsbetrag, der von der Entwicklung [der Korbbestandteile][des Basiswerts] unabhängig ist.] [Sofern eine vorzeitige Rückzahlung der Produkte nicht erfolgt ist, entspricht der Rückzahlungsbetrag dem Mindestrückzahlungsbetrag.]</p> <p>Anleger sollten beachten, dass der Mindestrückzahlungsbetrag gegebenenfalls niedriger sein kann der [Nennbetrag] [Ausgabepreis] bzw. als das für den Erwerb des Produkts eingesetzte Kapital (einschließlich aufgewendeter Transaktionskosten).</p> <p>Anleger sollten ebenfalls beachten, dass der Mindestrückzahlungsbetrag gegebenenfalls lediglich im Fall einer Rückzahlung am Laufzeitende Anwendung findet. Die Anleger müssen bereit sein, ihr Produkt bis zum Rückzahlungstag zu halten. Anleger bleiben weiterhin dem Ausfallrisiko der Emittentin ausgesetzt, sodass sie bei einer Zahlungsunfähigkeit der Emittentin ihr gesamtes für den Erwerb der Produkte eingesetztes Kapital (einschließlich aufgewendeter Transaktionskosten) verlieren können.</p> <p>Bei den vorliegenden Produkten ist die Zahlung des Couponbetrags davon abhängig, ob ein Coupon Trigger Event eintritt, d.h. ob [der][die] Referenzkurs[e] [sämtlicher Korbbestandteile][des Basiswerts] an einem Coupon Beobachtungstag das für diesen Tag maßgebliche Coupon Trigger Level [erreicht][erreichen] oder [überschreitet][überschreiten]. Sofern an keinem Coupon Beobachtungstag ein Coupon Trigger Event stattfindet, erhält der Anleger keine Couponzahlung. Im Fall einer vorzeitigen Rückzahlung ist ein Anleger nicht berechtigt, etwaige weitere Couponzahlungen für zukünftige Couponzahlungstage zu verlangen.</p> <p><i><u>Rückzahlungsbetrag ist auf den Höchstrückzahlungsbetrag begrenzt</u></i></p> <p>Der Rückzahlungsbetrag entspricht (ohne Berücksichtigung eines etwaigen Couponbetrags) maximal dem Höchstrückzahlungsbetrag, der dem [Nennbetrag] [Ausgabepreis] entspricht.]</p>
	<p>[im Fall von Express Zertifikaten mit Barauszahlung und mit Nennbetrag sowie mit Downside-Partizipationsfaktor (Produkt Nr. 21) einfügen:</p> <p><i><u>Risiko eines Totalverlusts</u></i></p>

	<p>Die Höhe des Rückzahlungsbetrags und der Zeitpunkt der Rückzahlung der Produkte ist davon abhängig, ob an einem Autocall Beobachtungstag ein Autocall Ereignis eingetreten ist.</p> <p>Sofern dieses Ereignis vor dem Verfallstag eintritt, endet die Laufzeit der Produkte vorzeitig und die Produkte werden nach den Bestimmungen der Bedingungen vorzeitig zurückgezahlt. Im Fall einer solchen vorzeitigen Rückzahlung spielt die weitere Wertentwicklung der Korbbestandteile für den Inhaber keine Rolle mehr.</p> <p>Sofern eine vorzeitige Rückzahlung der Produkte nicht erfolgt ist, ist die Höhe des Rückzahlungsbetrags von der Entwicklung der Korbbestandteile abhängig. Sofern die Voraussetzungen für eine Rückzahlung zum Höchstrückzahlungsbetrag nicht vorliegen, nimmt der Inhaber aufgrund des Downside-Partizipationsfaktors überproportional am Wertverlust des Korbbestandteils mit der schlechtesten Kursentwicklung teil, mit der Folge, dass der Inhaber einem im Vergleich zu einem Direktinvestment höheren Verlustrisiko ausgesetzt ist. Aus diesem Grund besteht ein Totalverlustrisiko des Inhabers im Hinblick auf das von ihm eingesetzte Kapital. Auch wenn der Korbbestandteil mit der schlechtesten Kursentwicklung am Ende der Laufzeit größer als null (0) ist, kann dennoch ein Totalverlust eintreten, wenn die Downside Partizipation an dem Wertverlust des Korbbestandteils mit der schlechtesten Wertentwicklung, bis zur Wertlosigkeit des Produkts führt.</p> <p>Darüber hinaus sind die Produkte dadurch gekennzeichnet, dass der Inhaber an bestimmten Tagen einen Couponbetrag erhalten kann. [Die Zahlung des jeweiligen Couponbetrags ist von der Entwicklung der Korbbestandteile unabhängig. [[Die Couponzahlung ist vom Eintritt eines bestimmten Ereignisses der Korbbestandteile abhängig (z.B. Erreichen oder Überschreiten eines bestimmten Schwellenwerts an einem bestimmten Tag). Im Fall des Nichteintritts des Ereignisses würde für den entsprechenden Couponzahlungstag keine Couponzahlung erfolgen. Inhaber sollten beachten, dass sie im Fall einer basiswertabhängigen Couponzahlung gegebenenfalls während der gesamten Laufzeit der Produkte keine Couponzahlung erhalten, sofern die Voraussetzungen an keinem Tag, der für die Bestimmung der Couponzahlung maßgeblich ist, gegeben sind.] [Dabei ist zu beachten, dass jeder maßgebliche Tag gesondert betrachtet wird und eine Nachholung von Zahlungen des Couponbetrags nicht stattfindet.] Für die Wahrscheinlichkeit des Eintritts des Ereignisses, das zum Erhalt des jeweiligen Couponbetrags berechtigt, ist die Volatilität der Korbbestandteile ein wichtiger Einflussfaktor. Je höher die Volatilität der Korbbestandteile ist, desto höher ist das Risiko für den Inhaber, dass die Bedingung nicht eintritt und der Inhaber entsprechend keinen Couponbetrag für den jeweiligen Couponzahlungstag erhält.]</p> <p>Im Hinblick auf die Couponzahlungen ist [weiterhin] zu beachten, dass der Inhaber im Fall einer vorzeitigen Rückzahlung der Produkte noch den Couponbetrag für den dem Vorzeitigen Rückzahlungstag zugeordneten Couponzahlungstag erhält. Er ist aber nicht berechtigt, Coupon-</p>

		<p>zahlungen für zukünftige Couponzahlungstage zu verlangen.</p> <p><u>Rückzahlungsbetrag ist auf den den Höchstrückzahlungsbetrag begrenzt</u></p> <p>Der Rückzahlungsbetrag entspricht maximal dem Nennbetrag (Höchstrückzahlungsbetrag), weshalb die Ertragsmöglichkeit nach oben hin beschränkt ist.]</p>
		<p>[im Fall von Zertifikaten mit Barauszahlung und mit Nennbetrag sowie unbedingter Mindestrückzahlung und Teilrückzahlungsbeträgen (Produkt Nr. 22) einfügen:</p> <p>Inhaber sollten beachten, dass der Rückzahlungsbetrag maximal dem Mindestrückzahlungsbetrag, der gleichzeitig den Höchstrückzahlungsbetrag darstellt, entspricht. Im Gegensatz zu einem Direktinvestment in die Korbbestandteile partizipiert der Anleger in einem solchen Fall nicht an der positiven Wertentwicklung der Korbbestandteile.</p> <p>Der Mindestrückzahlungsbetrag kann gegebenenfalls niedriger sein als der Nennbetrag bzw. als das für den Erwerb des Produkts eingesetzte Kapital (einschließlich aufgewendeter Transaktionskosten).</p> <p>Der Mindestrückzahlungsbetrag findet lediglich im Fall einer Rückzahlung am Laufzeitende Anwendung. Anleger müssen bereit sein, ihr Produkt bis zum Rückzahlungstag zu halten. Sofern (i) ein Anleger das Produkt vor dem Rückzahlungstag im Sekundärmarkt verkauft oder (ii) die Produkte vor Laufzeitende zurückgezahlt werden oder (iii) eine mehrere Vorgesehene Handelstage andauernde Marktstörung gemäß den Produktbedingungen eingetreten ist, tritt eine solche Mindestrückzahlung nicht ein. In einem solchen Fall trägt der Anleger das Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten.</p> <p>Anleger bleiben [weiterhin] dem Ausfallrisiko der Emittentin ausgesetzt, sodass sie bei einer Zahlungsunfähigkeit der Emittentin ihr gesamtes für den Erwerb der Produkte eingesetztes Kapital (einschließlich aufgewendeter Transaktionskosten) verlieren können. Unter anderem aus diesem Grund können Produkte mit einer unbedingten Mindestrückzahlung während ihrer Laufzeit zu einem Preis gehandelt werden, der unterhalb des Mindestrückzahlungsbetrages liegt. Anleger sollten daher nicht darauf vertrauen, die erworbenen Produkte jederzeit während ihrer Laufzeit mindestens zum Mindestrückzahlungsbetrag veräußern zu können.</p> <p>Darüber hinaus sind die Zertifikate dadurch gekennzeichnet, dass die Zahlung und die Höhe eines Couponbetrags davon abhängt, ob und zu welchem Zeitpunkt ein Coupon Trigger Event eingetreten ist. Sollte bis zum letzten Coupon Beobachtungstag (einschließlich) kein Coupon Trigger Event eingetreten sein, erhält der Anleger während der gesamten Laufzeit des Produktes keine Couponzahlung.</p> <p>Für die Wahrscheinlichkeit des Eintritts eines Coupon Trigger Events ist die Volatilität der Korbbestandteile ein wichtiger Einflussfaktor.</p>

	<p>Dabei ist zu beachten, dass je höher die Volatilität der Korbbestandteile ist, desto höher ist das Risiko für den Anleger, dass kein Coupon Trigger Event eintritt und dementsprechend keine Couponzahlung erfolgt.</p> <p>Falls an keinem Coupon Beobachtungstag ein Coupon Trigger Event eingetreten ist, erhält der Anleger lediglich den Mindestrückzahlungsbetrag. Der Anleger erleidet einen Verlust sofern der Mindestrückzahlungsbetrag geringer ist als das eingesetzte Kapital (einschließlich aufgewendeter Transaktionskosten) für den Erwerb der Produkte.]</p>
	<p><i>[im Fall von Zertifikaten mit Barauszahlung und mit unbedingter Mindestrückzahlung (Produkt Nr. 23) einfügen:</i></p> <p>[Die Höhe des Rückzahlungsbetrags am Laufzeitende hängt von der Kursentwicklung [des Basiswerts] [des Korbbestandteils mit der [schlechtesten] [besten] Kursentwicklung] ab, da der Anleger am Rückzahlungstag eine bei Emission festgelegte Barauszahlung erhält, deren Höhe von der Entwicklung des [Basiswerts] [Korbbestandteils mit der [schlechtesten] [besten] Kursentwicklung] abhängig ist. Der Anleger erhält aber mindestens den Mindestrückzahlungsbetrag.] [Der Rückzahlungsbetrag am Laufzeitende entspricht dem Mindestrückzahlungsbetrag.] [Der Mindestrückzahlungsbetrag kann gegebenenfalls niedriger sein als der [Nennbetrag] [Ausgabepreis] bzw. als das für den Erwerb des Produkts eingesetzte Kapital (einschließlich aufgewendeter Transaktionskosten).]</p> <p>Der Mindestrückzahlungsbetrag findet lediglich im Fall einer Rückzahlung am Laufzeitende Anwendung. Die Anleger müssen bereit sein, ihr Produkt bis zum Rückzahlungstag zu halten. Sofern (i) ein Anleger das Produkt vor dem Rückzahlungstag im Sekundärmarkt verkauft oder (ii) die Produkte vor Laufzeitende zurückgezahlt werden oder (iii) eine mehrere Vorgesehene Handelstage andauernde Marktstörung gemäß den Produktbedingungen eingetreten ist, tritt eine solche Mindestrückzahlung nicht ein. In einem solchen Fall trägt der Anleger das Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten. Anleger bleiben weiterhin dem Ausfallrisiko der Emittentin ausgesetzt, sodass sie bei einer Zahlungsunfähigkeit der Emittentin ihr gesamtes für den Erwerb der Produkte eingesetztes Kapital (einschließlich aufgewendeter Transaktionskosten) verlieren können.</p> <p>Unter anderem aus diesem Grund können Produkte mit einer unbedingten Mindestrückzahlung während ihrer Laufzeit zu einem Preis gehandelt werden, der unterhalb des Mindestrückzahlungsbetrages liegt. Anleger sollten daher nicht darauf vertrauen, die erworbenen Produkte jederzeit während ihrer Laufzeit mindestens zum Mindestrückzahlungsbetrag veräußern zu können.</p> <p>Der Rückzahlungsbetrag entspricht maximal dem [Nennbetrag] [Ausgabepreis] multipliziert mit dem Höchstrückzahlungsfaktor [unter Berücksichtigung der Entwicklung des maßgeblichen Wechselkurses].</p>

	<p>[Der Inhaber erhält eine Couponzahlung an dem jeweiligen Couponzahlungstag, wenn an dem maßgeblichen Coupon Beobachtungstag ein Coupon Trigger Event eingetreten ist. Sofern kein Coupon Trigger Event an dem maßgeblichen Coupon Beobachtungstag eingetreten ist, erfolgt keine Couponzahlung an dem entsprechenden Couponzahlungstag.]</p>
	<p>[im Fall von Capped Zertifikaten mit Barauszahlung und mit unbedingter Mindestrückzahlung (Produkt Nr. 24) einfügen:</p> <p><u>Risikofaktoren im Hinblick auf die unbedingte Mindestrückzahlung</u></p> <p>Die Produkte werden am Laufzeitende mindestens zu einem im Vorhinein festgelegten Betrag zurückgezahlt. Der Mindestrückzahlungsbetrag kann niedriger sein als der [Nennbetrag][Ausgabepreis] bzw. als das für den Erwerb des Produkts eingesetzte Kapital (einschließlich aufgewendeter Transaktionskosten). Anleger bleiben weiterhin dem Ausfallrisiko der Emittentin ausgesetzt, sodass sie bei einer Zahlungsunfähigkeit der Emittentin ihr gesamtes für den Erwerb der Produkte eingesetztes Kapital (einschließlich aufgewendeter Transaktionskosten) verlieren können.</p> <p>Der Mindestrückzahlungsbetrag findet lediglich im Fall einer Rückzahlung am Laufzeitende Anwendung. Die Anleger müssen bereit sein, ihr Produkt bis zum Rückzahlungstag zu halten. Sofern (i) ein Anleger das Produkt vor dem Rückzahlungstag im Sekundärmarkt verkauft oder (ii) die Produkte vor Laufzeitende zurückgezahlt werden oder (iii) eine mehrere Vorgesehene Handelstage andauernde Marktstörung gemäß den Produktbedingungen eingetreten ist, tritt eine solche Mindestrückzahlung nicht ein. In einem solchen Fall trägt der Anleger das Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten.</p> <p>Unter anderem aus diesen Gründen können Produkte mit einer unbedingten Mindestrückzahlung während ihrer Laufzeit zu einem Preis gehandelt werden, der unterhalb des Mindestrückzahlungsbetrages liegt. Anleger sollten daher nicht darauf vertrauen, die erworbenen Produkte jederzeit während ihrer Laufzeit mindestens zum Mindestrückzahlungsbetrag veräußern zu können.</p> <p><u>Risikofaktoren im Hinblick auf den Partizipationsfaktor</u></p> <p>Die Anwendbarkeit eines Partizipationsfaktors führt dazu, dass die Produkte zwar wirtschaftlich einer Direktinvestition in den Basiswert ähnlich sind, mit einer solchen jedoch insbesondere deshalb nicht vollständig vergleichbar sind, weil die Inhaber an der entsprechenden Kursentwicklung des Basiswerts nicht im Verhältnis 1:1 sondern in Höhe eines bestimmten Faktors partizipieren. Der Anleger partizipiert, vorbehaltlich der Wertbeeinflussung durch weitere Ausstattungsmerkmale, an eventuellen Wertveränderungen des Basiswerts [unterproportional][überproportional].</p> <p><u>Rückzahlungsbetrag ist auf Höchstrückzahlungsbetrag begrenzt</u></p> <p>Der Rückzahlungsbetrag entspricht maximal dem</p>

	<p>Höchstrückzahlungsbetrag, weshalb die Ertragsmöglichkeit nach oben hin beschränkt ist. Anleger partizipieren nicht an einer über das Cap Level hinausgehenden Wertsteigerung des [Basiswerts][Korbbestandteils mit der schlechtesten Kursentwicklung].</p>
	<p>[im Fall von Inverse Bonus Zertifikaten mit Barauszahlung (Produkt Nr. 25) einfügen:</p> <p><u>Risiken im Hinblick auf die Wertentwicklung von Inverse Bonus Zertifikaten aufgrund der Reverse-Struktur</u></p> <p>Bei Inverse Bonus Zertifikaten ist die Entwicklung des Werts des Produkts umgekehrt abhängig von der Entwicklung [des Basiswerts][des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung]. Das bedeutet, dass diese Produkte eine positive Beteiligung des Inhabers an einem Wertverlust [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] ermöglichen. Entsprechend verliert ein Inverse Bonus Zertifikat regelmäßig (d.h. unter Nichtberücksichtigung sonstiger Ausstattungsmerkmale und sonstiger für die Preisbildung von Produkten maßgeblicher Faktoren) dann an Wert, wenn der Wert [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] steigt.</p> <p><u>Risiko eines Totalverlusts im Fall eines Barrier Events</u></p> <p>Inhaber sollten beachten, dass im Fall des Eintritts eines Barrier Events der Anspruch auf die Mindestrückzahlung erlischt und der Inhaber 1:1 das Verlustrisiko im Fall eines steigenden Kurses [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] trägt. In diesem Fall besteht ein Totalverlustrisiko für den Inhaber im Hinblick auf das von ihm eingesetzte Kapital. Ein Totalverlust tritt dann ein, wenn [der Basiswert] [der Korbbestandteil mit der [schlechtesten][besten] Kursentwicklung] am Ende der Laufzeit dem Cap Level entspricht oder dieses überschreitet.</p> <p><u>Beschränkte Ertragsmöglichkeit aufgrund der Reverse-Struktur auch ohne Berücksichtigung eines Caps</u></p> <p>Inhaber sollten beachten, dass die Ertragsmöglichkeit aufgrund der Reverse-Struktur auch ohne Berücksichtigung eines Caps beschränkt ist, da die negative Entwicklung [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] nicht mehr als 100% betragen kann, d.h. der Rückzahlungsbetrag entspricht maximal dem Produkt aus (i) dem Ausgabepreis und (ii) dem Quotienten aus dem Cap Level abzüglich des Endlevels [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] und dem Anfangslevel [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung].]</p>
	<p>[im Fall von Capped Inverse Bonus Zertifikaten mit Barauszahlung (Produkt Nr. 26) einfügen:</p> <p><u>Risiken im Hinblick auf die Wertentwicklung von Capped Inverse Bonus Zertifikaten aufgrund der Reverse-Struktur</u></p>

		<p>Bei Capped Inverse Bonus Zertifikaten ist die Entwicklung des Werts des Produkts umgekehrt abhängig von der Entwicklung [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung]. Das bedeutet, dass diese Produkte eine positive Beteiligung des Inhabers an einem Wertverlust [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] bis zum Bonus Level ermöglichen. Entsprechend verliert ein Capped Inverse Bonus Zertifikat regelmäßig (d.h. unter Nichtberücksichtigung sonstiger Ausstattungsmerkmale und sonstiger für die Preisbildung von Produkten maßgeblicher Faktoren) dann an Wert, wenn der Wert [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] steigt.</p> <p><u><i>Risiko eines Totalverlusts im Fall eines Barrier Events</i></u></p> <p>Inhaber sollten beachten, dass im Fall des Eintritts eines Barrier Events der Anspruch auf die Mindestrückzahlung erlischt und der Inhaber 1:1 das Verlustrisiko im Fall eines steigenden Kurses [des Basiswerts] [des Korbbestandteils mit der [schlechtesten][besten] Kursentwicklung] trägt. 	<p>[im Fall von Optionsscheinen mit Barauszahlung (Produkt Nr. 29) einfügen:</p> <p><u>Risiko eines Totalverlusts</u></p> <p>Es besteht ein Totalverlustrisiko des Inhabers im Hinblick auf das von ihm eingesetzte Kapital. Ein Totalverlust tritt dann ein, wenn [das Endlevel [des Korbbestandteils mit der schlechtesten Wertentwicklung]] [der Endwert des Korbs] [die Entwicklung des Basiswerts] [die Entwicklung des Korbbestandteils mit der schlechtesten Wertentwicklung] [die Entwicklung des Korbs] am Ende der Laufzeit auf oder unter dem [Anfangslevel] [Ausübungspreis] (im Fall von Call Optionsscheinen) bzw. auf oder über dem [Anfangslevel] [Ausübungspreis] (im Fall von Put Optionsscheinen) notiert.</p> <p>[im Fall von Optionsscheinen einfügen, die einen Höchstrückzahlungsbetrag vorsehen:</p> <p><u>Rückzahlungsbetrag ist auf Höchstrückzahlungsbetrag begrenzt</u></p> <p>Der Rückzahlungsbetrag entspricht maximal dem Höchstbetrag, weshalb die Ertragsmöglichkeit bei den Optionsscheinen nach oben hin beschränkt ist.]</p> <p><u>Risiko aufgrund des Hebeleffekts</u></p>

	<p>Aufgrund des Hebeleffekts sind die Produkte, verglichen mit einem Direktinvestment in den [Basiswert] [[entsprechenden] Korbbestandteil], mit einem überproportionalen Verlustrisiko verbunden.]</p>
	<p>[im Fall von Partizipations-Zertifikaten (Produkt Nr. 30) einfügen: <u>[Risiko eines Totalverlusts bei Eintritt eines Barrier Events</u></p> <p>Inhaber sollten beachten, dass im Fall, dass ein Barrier Event eingetreten ist, das Partizipations-Zertifikat mit einem Direktinvestment in [den Basiswert] [den Korbbestandteil, der sich am [schlechtesten] [besten] entwickelt hat,] [den Korb] (ohne Berücksichtigung von Dividendenzahlungen) vergleichbar ist, mit der Folge, dass der Inhaber auch einem dem Direktinvestment vergleichbaren Verlustrisiko ausgesetzt ist. Aus diesem Grund besteht ein Totalverlustrisiko des Inhabers im Hinblick auf das von ihm eingesetzte Kapital. Ein Totalverlust tritt dann ein, wenn [der Basiswert] [der Korbbestandteil, der sich am [schlechtesten] [besten] entwickelt hat,] [der Korb] am Ende der Laufzeit wertlos ist.]</p> <p><u>[Verlustrisiko</u></p> <p>Die Höhe des Rückzahlungsbetrags zum Ende der Laufzeit hängt von der Entwicklung [des Basiswerts] [des Korbbestandteils, der sich am [schlechtesten] [besten] entwickelt hat,] [des Korbs] (ohne Berücksichtigung von Dividendenzahlungen) ab. Im Fall, dass die Entwicklung [des Basiswerts] [des Korbbestandteils, der sich am [schlechtesten] [besten] entwickelt hat,] [des Korbs] negativ ist, kann der Rückzahlungsbetrag geringer als der [Nennbetrag][Ausgabepreis] bzw. das für den Kauf des Produkts aufgewendete Kapital sein (einschließlich darauf bezogener Transaktionskosten). [Im Fall einer negativen Entwicklung des [Basiswerts] [maßgeblichen Korbbestandteils] [Korbs] ist der Inhaber einem Verlustrisiko ausgesetzt. Abhängig von der Höhe des maßgeblichen Partizipationsfaktor kann der Rückzahlungsbetrag nahezu null (0) betragen.]]</p> <p><u>[Rückzahlungsbetrag ist auf Höchstrückzahlungsbetrag begrenzt</u></p> <p>Der Rückzahlungsbetrag wird den Höchstrückzahlungsbetrag nicht überschreiten, unabhängig davon, ob ein Barrier Event eingetreten ist oder nicht. Dies bedeutet, dass der Inhaber nicht an Preisentwicklungen [des Basiswerts] [des Korbbestandteils der sich am [schlechtesten] [besten] entwickelt hat,] [des Korbs] oberhalb des Cap Levels partizipiert, weshalb die Ertragsmöglichkeit nach oben hin beschränkt ist.]</p> <p><u>[Verlustrisiko</u></p> <p>Die Höhe des Rückzahlungsbetrags am Ende der Laufzeit hängt von der Entwicklung der Korbbestandteile ab. Der Rückzahlungsbetrag wird auf Basis der Entwicklungen sämtlicher Korbbestandteile ermittelt, wobei die Entwicklung des sich am besten entwickelnden Korbbestandteils mit dem höchsten Partizipationsfaktor multipliziert wird, die Entwicklung des sich am zweitbesten entwickelnden Korbbestandteils mit dem zweithöchsten Partizipationsfaktor multipliziert wird und die Entwicklung des sich am schlechtesten entwickelnden Korbbestand-</p>

	<p>teils mit dem niedrigsten Partizipationsfaktor multipliziert wird. Aufgrund der Anwendung der Partizipationsfaktoren, nimmt der Anleger nicht 1:1 an der Entwicklung des jeweiligen Korbbestandteils teil, sondern nur in Höhe des maßgeblichen Partizipationsfaktors. Der Anleger erleidet einen Totalverlust des eingesetzten Kapitals, wenn die Entwicklung sämtlicher Korbbestandteile null beträgt..]</p>
	<p>[im Fall von Spread Zertifikaten mit Barauszahlung (Produkt Nr. 31) einfügen:</p> <p><u>Risiko eines Totalverlusts bei Eintritt eines Stop-Loss Events</u></p> <p>Inhaber von Spread Zertifikaten tragen das Risiko, dass die Produkte während ihrer Laufzeit wertlos verfallen, falls ein sogenanntes Stop-Loss Event eingetreten ist. Wenn ein Stop-Loss Event eintritt, endet die Laufzeit der Produkte automatisch und die Produkte werden zu einem Betrag zurückgezahlt, der dem Stop-Loss Rückzahlungsbetrag entspricht, der von der Berechnungsstelle nach billigem Ermessen auf Basis des Preises des Produkts bestimmt wird. Der Stop-Loss Rückzahlungsbetrag kann auch null betragen.</p> <p><u>Risikofaktoren im Hinblick auf die Verwaltungsgebühr</u></p> <p>Von dem zu zahlenden Rückzahlungsbetrag wird eine Verwaltungsgebühr in einer bestimmten Höhe in Abzug gebracht. Es ist zu beachten, dass eine Verwaltungsgebühr nicht nur den gegebenenfalls von der Emittentin zu zahlenden Rückzahlungsbetrag mindert, sondern auch während der Laufzeit der Produkte ihren Wert im Sekundärmarkt mindert. Bei den für die Produkte im Sekundärmarkt gestellten An- und Verkaufspreisen wird eine solche Verwaltungsgebühr rechnerisch entsprechend der bereits abgelaufenen Laufzeit der Produkte in die jeweiligen Preise miteinbezogen.</p> <p>Bei einer Verwaltungsgebühr größer als null (0) wird sich die Verwaltungsgebühr umso stärker auswirken, je länger die Verwaltungsgebühr während der Haltedauer der Produkte berücksichtigt wird.</p> <p><u>Risikofaktoren im Hinblick auf den Anpassungsfaktor</u></p> <p>Zur Berechnung des Rückzahlungsbetrags wird ein bestimmter Anpassungsfaktor zur Anwendung gebracht. Aufgrund der Berücksichtigung des Anpassungsfaktors nimmt der Inhaber nicht 1:1 an der Differenz zwischen der Entwicklung von Korbbestandteil 1 und Korbbestandteil 2 teil, sondern nur proportional entsprechend dem Anpassungsfaktor.]</p>
	<p>[im Fall von Short Partizipations Zertifikaten mit Barauszahlung und mit unbedingter Mindestrückzahlung (Produkt Nr. 32) einfügen:</p> <p><u>Risikofaktoren im Hinblick auf die unbedingte Mindestrückzahlung</u></p> <p>Die Produkte werden am Laufzeitende mindestens zu einem im Vorhinein festgelegten Betrag zurückgezahlt. Der Mindestrückzahlungsbetrag kann niedriger sein als der [Nennbetrag][Ausgabepreis] bzw. als das für den Erwerb des Produkts eingesetzte Kapital (einschließlich aufgewendeter Transaktionskosten). Anleger bleiben weiterhin dem Ausfallrisiko der Emittentin</p>

		<p>ausgesetzt, sodass sie bei einer Zahlungsunfähigkeit der Emittentin ihr gesamtes für den Erwerb der Produkte eingesetztes Kapital (einschließlich aufgewendeter Transaktionskosten) verlieren können.</p> <p>Der Mindestrückzahlungsbetrag findet lediglich im Fall einer Rückzahlung am Laufzeitende Anwendung. Die Anleger müssen bereit sein, ihr Produkt bis zum Rückzahlungstag zu halten. Sofern (i) ein Anleger das Produkt vor dem Rückzahlungstag im Sekundärmarkt verkauft oder (ii) die Produkte vor Laufzeitende zurückgezahlt werden oder (iii) eine mehrere Vorgesehene Handelstage andauernde Marktstörung gemäß den Produktbedingungen eingetreten ist, tritt eine solche Mindestrückzahlung nicht ein. In einem solchen Fall trägt der Anleger das Risiko eines Totalverlustes des eingesetzten Kapitals einschließlich aufgewendeter Transaktionskosten.</p> <p>Unter anderem aus diesen Gründen können Produkte mit einer unbedingten Mindestrückzahlung während ihrer Laufzeit zu einem Preis gehandelt werden, der unterhalb des Mindestrückzahlungsbetrages liegt. Anleger sollten daher nicht darauf vertrauen, die erworbenen Produkte jederzeit während ihrer Laufzeit mindestens zum Mindestrückzahlungsbetrag veräußern zu können.</p> <p><i>Risikofaktoren im Hinblick auf den Partizipationsfaktor</i></p> <p>Die Anwendbarkeit eines Partizipationsfaktors führt dazu, dass die Produkte zwar wirtschaftlich einer Direktinvestition in die negative Entwicklung des [Basiswerts] [sich am [schlechtesten] [besten] entwickelnden Korbbestandteils] ähnlich sind, mit einer solchen jedoch insbesondere deshalb nicht vollständig vergleichbar sind, weil die Inhaber an der entsprechenden negativen Kursentwicklung des Basiswerts nicht im Verhältnis 1:1 sondern in Höhe eines bestimmten Faktors partizipieren. Der Anleger partizipiert, vorbehaltlich der Wertbeeinflussung durch weitere Ausstattungsmerkmale, an eventuellen Wertveränderungen des [Basiswerts][maßgeblichen Korbbestandteils] [unterproportional][überproportional].</p> <p><u>[Rückzahlungsbetrag ist auf Höchstrückzahlungsbetrag begrenzt]</u></p> <p>Der Rückzahlungsbetrag entspricht maximal dem Höchstrückzahlungsbetrag, weshalb die Ertragsmöglichkeit nach oben hin beschränkt ist. Entsprechend partizipieren Anleger unterhalb eines bestimmten Schwellenwerts nicht weiter von der negativen Entwicklung des [Basiswerts] [sich am [schlechtesten] [besten] entwickelnden Korbbestandteils].]</p>
		<p><i>[im Fall von Knock-Out Optionsscheinen (Produkt Nr. 33) einfügen:</i></p> <p><u>Verlustrisiko</u></p> <p>Es besteht ein Totalverlustrisiko des Inhabers im Hinblick auf das von ihm eingesetzte Kapital. Ein Totalverlust tritt dann ein, wenn [das Endlevel [des sich am [schlechtesten] [besten] entwickelnden Korbbestandteils]] [der Endwert des Korbs] dem [maßgeblichen] Ausübungspreis entspricht [oder diesen [unterschreitet] [überschreitet]].] [Ein Totalverlust tritt auch dann ein, wenn ein Knock-Out Event eingetreten</p>

	<p>ist.) [Der Anleger wird auch dann signifikante Verluste erleiden, wenn ein Knock-Out Event eingetreten ist; in diesem Fall erhält der Anleger nur den [Nennbetrag][Ausgabepreis] multipliziert mit dem Rebate.]</p> <p><i>Preisbeeinflussende Faktoren während der Laufzeit der Knock-Out Optionsscheine</i></p> <p>Der Preis der Knock-Out Optionsscheine während der Laufzeit hängt insbesondere von dem Kurs [des Basiswerts] [der maßgeblichen Korbbestandteile] [des Korbs] während der Laufzeit ab. Grundsätzlich fällt der Preis der Knock-Out Optionsscheine, wenn der Kurs [des Basiswerts] [der maßgeblichen Korbbestandteile] [des Korbs] [fällt][steigt]. Ein [Fallen] [Steigen] hat in der Regel einen überproportional großen Einfluss auf den Preis der Knock-Out Optionsscheine. Daneben gibt es noch weitere Faktoren, wie beispielsweise die Volatilität oder das Zinsniveau, die ebenfalls einen Einfluss auf den Preis der Knock-Out Optionsscheine haben können.</p> <p><i>Risiko aufgrund des Hebeleffekts</i></p> <p>Aufgrund des Hebeleffekts sind die Produkte, verglichen mit einem Direktinvestment in [den Basiswert] [die [maßgeblichen] Korbbestandteile] [den Korb], mit einem überproportionalen Verlustrisiko verbunden.]</p>
	<p>[im Fall von Dual Currency Notes (Produkt Nr. 34) einfügen:</p> <p><i>Verlustrisiko</i></p> <p>Im Fall von Dual Currency Notes entspricht der Rückzahlungsbetrag am Ende der Laufzeit entweder einem Betrag in der Abwicklungswährung, der auf Basis des in der Abwicklungswährung ausgedrückten Nennbetrags festgelegt wird, oder einem Betrag in der Alternativen Währung, der auf Basis des Nennbetrags, umgerechnet in die Alternative Währung, festgelegt wird. Daher sind Anleger dem Risiko ausgesetzt, dass sich der maßgebliche Währungsumrechnungskurs ändert, was sich auf den Ertrag aus den Dual Currency Notes auswirken kann.</p> <p>Anleger können einen Verlust erleiden. Der mögliche Verlust entspricht der Differenz zwischen dem Kapital, das für den Erwerb des Produkts eingesetzt worden ist (einschließlich der Transaktionskosten) und dem Rückzahlungsbetrag. Weiterhin ist der Anleger den emittentenbezogenen Risiken ausgesetzt, d.h. der Anleger kann im Fall der Insolvenz der Emittentin sein gesamtes eingesetztes Kapital (einschließlich der Transaktionskosten) verlieren. Unter anderem aus diesem Grund können Dual Currency Notes während ihrer Laufzeit zu einem Preis unterhalb des Nennbetrags in der Abwicklungswährung gehandelt werden. Anleger sollten daher nicht darauf vertrauen, dass es ihnen zu jedem Zeitpunkt möglich sein wird, ihre Produkte während der Laufzeit zu einem Preis zu verkaufen, der dem Nennbetrag in der Abwicklungswährung entspricht bzw. diesen Betrag überschreitet.]</p>
	<p>[im Fall von Stability Notes (Produkt Nr. 35) einfügen:</p> <p><i>Totalverlustrisiko und Risiken im Hinblick auf die vorzeitige Rückzahlung</i></p>

	<p>Im Fall von Stability Notes ist zu beachten, dass die Höhe des Rückzahlungsbetrags und der Zeitpunkt der Rückzahlung der Produkte davon abhängig ist, ob ein Gap Event eingetreten ist.</p> <p>Sofern dieses Ereignis vor dem Verfalltag eintritt, endet die Laufzeit der Produkte vorzeitig und die Produkte werden nach den Bestimmungen der Bedingungen vorzeitig zurückgezahlt. Im Fall einer solchen vorzeitigen Rückzahlung spielt die weitere Wertentwicklung des Basiswerts für den Inhaber keine Rolle mehr.</p> <p>Der Inhaber kann einen Totalverlust in Bezug auf das investierte Kapital erleiden. Ein Totalverlust tritt ein, wenn ein Gap Event eintritt und der Gap dem Gap Level entspricht oder diesen Wert unterschreitet. Der Inhaber kann auch einen Verlust erleiden, wenn ein Gap Event eintritt und der Gap den Ausübungspreis unterschreitet. In diesem Fall unterschreitet der Rückzahlungsbetrag den [Nennbetrag][Ausgabepreis].</p> <p>Vorausgesetzt, dass kein Gap Event eingetreten ist, erhält der Inhaber einen Couponbetrag [am][an den] maßgeblichen Coupon Zahlungstag[en], der auf Grundlage des Couponsatzes und des [Nennbetrages][Ausgabepreises] bestimmt wird. Die Coupon Zahlung ist unabhängig von der Entwicklung des Basiswerts. Für den Fall, dass ein Gap Event eingetreten ist, erhält der Inhaber keine angefallenen Coupon Zahlungen an dem Vorzeitigen Rückzahlungstag.</p> <p><i><u>Rückzahlungsbetrag ist auf den [Nennbetrag][Ausgabepreis] begrenzt.</u></i></p> <p>Der potentielle Rückzahlungsbetrag der Produkte ist auf den [Nennbetrag][Ausgabepreis] begrenzt (zuzüglich der Coupon Zahlung/en, vorausgesetzt, dass es nicht zu einer Vorzeitigen Rückzahlung gekommen ist).</p> <p><i><u>Risiko aufgrund des Hebeleffekts</u></i></p> <p>Im Fall, dass ein Gap Event eingetreten ist und der Gap über dem Gap Level liegt, wird der Rückzahlungsbetrag auf Basis der Differenz zwischen dem Ausübungspreis und dem Gap unter Berücksichtigung des Hebels festgelegt. In diesem Fall beinhaltet das Produkt aufgrund der Berücksichtigung des Hebels ein überproportionales Verlustrisiko gegenüber einem Direktinvestment in den Basiswert.</p>
	<p><u>3. Risikofaktoren im Hinblick auf bestimmte Arten von Basiswerten</u></p> <p>Je nachdem welcher Basiswert bzw. welche Basiswerte den Produkten zugrunde liegen, sind die Inhaber Risiken ausgesetzt, welche sich aus der Art des Basiswerts und der Verhaltensweise von dessen Marktpreisen ergeben, da der Rückzahlungsbetrag bzw. der Couponbetrag, den ein Inhaber erhält, von der Wertentwicklung des Basiswerts abhängt. Im Fall einer für den Anleger ungünstigen Entwicklung des Basiswerts, kann der Anleger einen Verlust, bis hin zum Totalverlust des eingesetzten Kapitals (inkl. der Transaktionskosten) erleiden. Die in dem Basisprospekt angelegten Basiswerte unterscheiden sich signifikant in ihrer typischen Preisvolatilität. Inhaber sollten nur in die Produkte investieren, sofern</p>

		<p>sie auch mit dem jeweiligen Basiswert vertraut sind und ein umfassendes Verständnis bezüglich der Art des Basiswerts als solchem und der Markt- und anderweitigen Regeln des Basiswerts haben.</p>
		<p><u>4. Risikofaktoren im Hinblick auf Interessenkonflikte</u></p> <p><i><u>Interessenkonflikte in Bezug auf den Basiswert</u></i></p> <p>Die Emittentin und andere Gesellschaften der Gruppe betreiben im Rahmen ihrer normalen Geschäftstätigkeit Handel in den Basiswerten bzw. in Bestandteilen des Basiswerts bzw. in darauf bezogenen Options- oder Terminkontrakten und können sich von Zeit zu Zeit für eigene oder fremde Rechnung an Transaktionen beteiligen, die mit den Produkten in Verbindung stehen. Die Emittentin und andere Gesellschaften der Gruppe können ferner Beteiligungen an einzelnen Basiswerten oder in diesen enthaltenen Gesellschaften halten, wodurch Interessenkonflikte im Zusammenhang mit den Produkten entstehen können.</p> <p><i><u>Interessenkonflikte in Bezug auf Ausübung einer anderen Funktion</u></i></p> <p>Zudem können die Emittentin und andere Gesellschaften der Gruppe gegebenenfalls in Bezug auf den Basiswert oder Bestandteile des Basiswerts zusätzlich eine andere Funktion ausüben, zum Beispiel als Ausgabestelle, Berechnungsstelle, Zahl- und/oder Verwaltungsstelle. Daher können hinsichtlich der Pflichten bei der Ermittlung der Kurse der Produkte und anderen damit verbundenen Feststellungen sowohl unter den betreffenden Gesellschaften der Gruppe als auch zwischen diesen und den Anlegern Interessenkonflikte auftreten. Ferner können die Emittentin und andere Gesellschaften der Gruppe in Verbindung mit künftigen Angeboten des Basiswerts oder Bestandteilen des Basiswerts als Konsortialmitglied, als Finanzberater oder als Geschäftsbank fungieren; auch Tätigkeiten dieser Art können Interessenkonflikte mit sich bringen und sich auf den Wert der Produkte auswirken.</p> <p><i><u>Interessenkonflikte in Bezug auf die Vornahme von Absicherungsgeschäften</u></i></p> <p>Die Emittentin kann einen Teil der oder die gesamten Erlöse aus dem Verkauf der Produkte für Absicherungsgeschäfte verwenden. Diese Absicherungsgeschäfte können Einfluss auf den sich am Markt bildenden Kurs der Basiswerte oder der Bestandteile des Basiswerts haben.</p> <p><i><u>Interessenkonflikte in Bezug auf die Emission weiterer derivativer Produkte</u></i></p> <p>Die Emittentin und andere Gesellschaften der Gruppe können weitere derivative Produkte in Bezug auf den Basiswert oder Bestandteile des Basiswerts ausgeben einschließlich solcher, die gleiche oder ähnliche Ausstattungsmerkmale wie die Produkte haben. Die Einführung solcher mit den Produkten im Wettbewerb stehender Produkte kann sich auf den Kurs des Basiswerts bzw. der Bestandteile des Basiswerts und damit auf den Kurs der Produkte auswirken.</p>

		<p><u>Interessenkonflikte in Bezug auf basiswertspezifische Informationen</u></p> <p>Die Emittentin und andere Gesellschaften der Gruppe können nicht-öffentliche Informationen in Bezug auf den Basiswert bzw. Bestandteile des Basiswerts erhalten, sind jedoch nicht zur Weitergabe solcher Informationen an die Inhaber verpflichtet. Zudem können Gesellschaften der Gruppe Research-Berichte in Bezug auf den Basiswert oder Bestandteile des Basiswerts publizieren. Tätigkeiten der genannten Art können bestimmte Interessenkonflikte mit sich bringen und sich auf den Wert der Produkte auswirken.</p> <p><u>Interessenkonflikte in Zusammenhang mit der Festsetzung des Verkaufspreises der Produkte und Provisionszahlungen</u></p> <p>In dem Verkaufspreis für die Produkte kann, gegebenenfalls zusätzlich zu festgesetzten Ausgabeaufschlägen, Verwaltungs- oder anderen Entgelten, ein für den Anleger nicht erkennbarer Aufschlag auf den ursprünglichen mathematischen (“fairen”) Wert der Produkte enthalten sein (die “Marge”). Diese Marge wird von der Emittentin nach ihrem freien Ermessen festgesetzt und kann sich von Aufschlägen unterscheiden, die andere Emittenten für vergleichbare Produkte erheben.</p> <p><u>Interessenkonflikte in Zusammenhang mit dem Market-Making für die Produkte</u></p> <p>Es ist beabsichtigt, dass der Lead Manager oder gegebenenfalls eine dritte Partei unter gewöhnlichen Marktbedingungen regelmäßig Ankaufs- und Verkaufskurse für die Produkte einer Emission stellen wird. Es wird jedoch keinerlei Rechtspflicht hinsichtlich der Höhe oder des Zustandekommens derartiger Kurse übernommen. Es ist zu beachten, dass die Produkte während ihrer Laufzeit gegebenenfalls nicht zu einem bestimmten Zeitpunkt oder einem bestimmten Kurs veräußert werden können.</p> <p><u>Interessen an der Emission beteiligter Dritter</u></p> <p>Die Emittentin kann bei der Emission von Produkten Kooperationspartner und externe Berater einschalten, z.B. für die Zusammenstellung und Anpassungen eines Korbs oder Index. Möglicherweise verfolgen diese Kooperationspartner und Berater eigene Interessen an einer Emission der Emittentin und ihrer hiermit verbundenen Beratungstätigkeit. Ein Interessenkonflikt der Berater kann zur Folge haben, dass sie eine Anlageentscheidung oder Empfehlung nicht im Interesse der Anleger, sondern im Eigeninteresse treffen bzw. abgeben.</p>
Abschnitt E – Angebot		
E.2b	Gründe für das Angebot und Verwendung der Erträge, sofern nicht zur Gewinnerzielung	Entfällt; der Erlös aus dem Verkauf der Produkte wird zur Absicherung der aus der Begebung der Produkte entstehenden Zahlungsverpflichtungen und zu Zwecken der üblichen Geschäftstätigkeit der Emittentin verwendet.

--	-----------------	---

II. RISK FACTORS

Prospective purchasers of the Products which are the subject of the Base Prospectus or the Final Terms should consider the following risk factors described herein which are material to assess the risks associated with the Products when making an investment decision and should make such decision only on the basis of the Base Prospectus as a whole including the documents incorporated by reference, any supplements and the applicable Final Terms.

No one should acquire Products without a thorough understanding of the mechanics of the relevant Products and without being aware of the potential risk of loss. Any prospective purchaser of Products should carefully examine whether an investment in the Products is appropriate given his personal circumstances and financial situation and should consult a financial advisor to discuss any questions.

The risk factors herein are organised into the following sub-sections:

1. Risk factors associated with the Issuer
2. Risk factors associated with all Products
3. Risk factors associated with certain types of Products
4. Risk factors associated with certain types of Underlyings
5. Risk factors associated with conflicts of interest

1. Risk factors associated with the Issuer

The following is a disclosure of risk factors that are material to the specific situation of the Issuer and may affect the Issuer's ability to fulfil its respective obligations as issuer of any issued structured investment products.

The Issuer is exposed to risks resulting primarily from the issuance of structured investment products. The Issuer is exposed to market risks, which result from mismatches between its exposure to equity prices, interest rates, currencies, credit spreads and commodity prices arising from the issuance of structured investment products and the instruments that the Issuer uses to hedge that exposure. It is also exposed to liquidity risks relating to the need to fund hedging activities. The Issuer is exposed to credit risks due to its exposure to trading counterparties and as a result of the investment of the proceeds from the issuance of structured investment products in bonds and other fixed-income instruments. In addition, the Issuer is also exposed to model, operational and reputational risks, as well as potential changes in the regulatory and macro-economic environment and its rating.

Financial information of the Issuer should not be relied on as evidence of future results.

As a financial services provider, the business activities of the Issuer are affected by the prevailing market situation. Different risk factors can impair the Issuer's ability to implement business strategies and may have a direct, negative impact on earnings. Accordingly, the Issuer's revenues and earnings are subject to fluctuations. The revenues and earnings figure from a specific period are not evidence of results for any future period. They can vary from one year to the next and may affect the Issuer's ability to achieve its

strategic objectives. Taking into account that the Issuer has only a short financial history this might be of particular relevance.

The Issuer may not be able to fulfil its obligations due to a deteriorated financial situation. The Issuer may become insolvent.

The financial situation of the Issuer could deteriorate and may prevent the Issuer from fulfilling its obligations. Investors are therefore exposed to the credit risk of the Issuer. The default or insolvency of the Issuer may lead to a partial or total loss of the claims of investors. The Issuer is subject to the Swiss bank insolvency rules and the Swiss Financial Market Supervisory Authority's ("FINMA") banking insolvency ordinance, which empowers FINMA as the competent authority to apply certain recovery and resolution measures. If FINMA applies such measures this may have a significant negative impact on the investor's rights by suspending, modifying and/or wholly extinguishing obligations of the Issuer under structured investment products and may lead to a partial or total loss of the invested capital.

The Issuer is exposed to the risk that its valuation and risk measurement model may be incorrect and that its risk management measures may not prove successful.

Model risk is the risk of financial loss due to inappropriate model assumptions or inadequate model usage. In the Issuer's business, the major model risks arise when models are used to value financial securities and to calculate hedging ratios. The consequence of an inadequate model could be an incorrect valuation leading to incorrect risk measurement and incorrect hedging positions, both of which could result in a financial loss.

The Issuer is exposed to the risk that its risk management and mitigation measures do not prove successful. Management of the Issuer's risks can be very complex given the highly complex nature of many of the products, structured solutions and other operations. The Issuer's risk management strategies and procedures may leave it exposed to unidentified or unanticipated risks. If the measures used to assess and mitigate risks prove insufficient, that may lead to adverse effects on the Issuer's operations and financial condition.

The Issuer is exposed to market risks arising from open positions in interest rate, currency, commodity, credit, equity and other products which may adversely affect its results of operations.

Market risk is the risk of loss resulting from adverse movements in the market price or model price of financial assets. The Issuer distinguishes between five types of market risk:

- Equity risk, i.e. the risk of adverse movements in share prices and related derivatives;
- Interest rate risk, i.e. the risk of adverse movements in yield curve and corresponding movements in the valuation of fixed-income based assets;
- Credit spread risk, i.e. the risk that the widening of credit spreads may negatively impact asset prices, credit spread risk relates primarily to the investment portfolio;

II. RISK FACTORS

- Foreign exchange risk (FX risk), i.e. the risk of adverse movements in currency exchange rates and related derivative instruments; and
- Commodity risk, i.e. the risk of adverse movements in commodity prices and related derivatives.

The Issuer's market risk arises primarily from the issuance of structured products and the related hedging activity. Any risk mitigation strategies of the Issuer can expose the Issuer to remaining sources of risk as the hedge instrument and the position being hedged may not always move in parallel. Interest rate risks and foreign exchange risks may also arise in the normal course of business. The Issuer is also exposed to interest rate risk as a result of its Insurance & Wealth Planning Solutions business. The Issuer gives guarantees to its insurance cooperation partners on minimum returns, and this exposes the Issuer to risks involving falling interest rates and risks involving the increasing volatility of interest rates. Market risk may adversely affect the results of operations of the Issuer.

The Issuer is exposed to significant and increasing competition which may adversely affect its future results of operations.

All aspects of the Issuer's business are highly competitive and the competitive conditions are expected to continue to intensify. The Issuer's ability to compete depends on many factors, including its reputation, the quality of its services and advice, intellectual capital, product innovation, execution ability, pricing, sales efforts, and the talent of its employees. The significant and increasing competition may adversely affect the Issuer's future results of operations.

The Issuer is exposed to the risks relating to its platform partners business which may adversely affect its results of operations.

The Issuer offers services in connection with development, structuring, distribution, hedging and settlement as well as the market-making and secondary market servicing of structured products to third parties, platform partners, pursuant to cooperation arrangements. The Issuer's platform partners business is based on a novel business model that is largely untested and there may not be sufficient demand to enable the Issuer to achieve meaningful operating income or cash flow or profitable operations.

The Issuer is further exposed to reputational and potentially regulatory risks should one of its platform partner's default which might have a significant impact on the Issuer's operations.

The Issuer is exposed to the credit risk of its counterparties.

Credit or default risk is the general risk of financial loss if a counterparty or an issuer of a financial security does not meet its contractual obligations. The Group distinguishes the following credit risks:

- Counterparty credit risk is the risk of the counterparty defaulting on a derivative instrument that has a positive replacement value;
- Issuer risk is the risk of default by the issuer of a debt instrument held as a direct position or as an underlying of a derivative;

- Country risk is the risk of financial loss due to a country-specific event.

The Issuer is exposed to credit risks related to over-the-counter (OTC) derivatives and securities lending and borrowing activities with counterparties as well as through the investment of proceeds from the issuance of structured investment products in bonds or other fixed income instruments.

Large credit risks are primarily with banks and insurance companies as a result of the Issuer's OTC derivatives, securities lending and Insurance & Wealth Planning Solutions business.

The Issuer is exposed to market liquidity and funding liquidity risks which may adversely affect its ability to operate its business and its future results of operations.

Since the Issuer hedges its liabilities arising from issued structured investment products through the sale or purchase of derivatives or other financial and non-financial instruments, the Issuer is exposed to the risk that it will be unable to sell or buy such hedging assets at fair value to cover its liabilities for the corresponding structured investment products. The Issuer refers to this risk as market liquidity risk related to outstanding structured investment products. As the product buyback price is linked to the price of unwinding the asset, market liquidity risk related to trading activities is limited.

Furthermore, the Issuer is exposed to funding liquidity and refinancing risks primarily due to its structured product issuances and issuances by its platform partners, for whom the Issuer provides derivative hedges. In addition, the Issuer is required to post collateral in order to secure the obligations relating to certain (collateralized) structured products.

The funding liquidity risk represents the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral needs without impacting either its daily operations or the financial condition of the Issuer.

Funding liquidity risks may realise if the Issuer is not able to implement mitigation measures or if such measures do not prove successful. If the Issuer does not effectively manage its market and funding liquidity, its business and its future results of operations could be negatively affected.

The Issuer's risk exposure in financial instruments leads to certain risk concentrations which could result in a significant loss.

The Issuer considers that a risk concentration exists when an individual or group of financial instruments is exposed to changes in the same risk factor, and that exposure could result in a significant loss based on plausible adverse future market developments.

As of 31 December 2018, the Issuer identified seven large exposures (as of 31 December 2017, five large exposures). A large exposure is defined in Article 95 of the Swiss Ordinance concerning Capital Adequacy and Risk Diversification for Banks and Securities Traders (*Eigenmittelverordnung*, ERV) and means

the total exposure to a single counterparty or group of related counterparties amounting to 10 per cent. or more of the corrected and eligible equity capital of the Issuer.

The Issuer's activities and results of operations may be adversely affected by operational risks.

Operational risk is the risk of losses occurring due to inadequate or failed internal processes, people and systems or due to external causes. "Losses" can take the form of direct financial losses or regulatory sanctions or foregone revenues, e.g. due to the failure of a service or system. Such events may also lead to reputational damage that could have longer-term financial consequences. Operational risks may adversely affect the Issuer's activities and results of operations.

The Issuer may be adversely affected by compliance, legal, regulatory, and reputational risks.

The Issuer operates in an industry that is highly regulated and may be adversely affected by compliance, legal or regulatory risks. Compliance risk and legal risk are the risks arising from violations of, or non-compliance with, laws, rules, regulations, prescribed practices or internal policies and procedures, or the non-enforceability of legal rights, including contractual rights. Legislation and rules adopted around the world have imposed substantial new or more stringent regulations, internal practices, capital requirements, procedures and controls and disclosure requirements in different areas. The trend and scope of increased compliance requirements may require the Issuer to invest in additional resources to ensure compliance.

The Issuer is exposed to the risk of fines, civil financial penalties, payment of damages and the voiding of contracts. Compliance and legal risks can lead to reputational harm, limited business opportunities, reduced expansion potential and an inability to enforce contracts.

Furthermore, the Issuer is exposed to the risk that changes in law or interpretations thereof, including regulatory and tax laws, may have a material negative impact on its results. Regulatory or similar changes in any jurisdiction in which the Issuer operates may adversely affect its business, results of operations and financial condition.

Reputational risk is defined as the potential loss of reputation due to a financial loss or any other real or perceived event with a negative impact on reputation. In particular, this includes the risk arising from any cases of employee misconduct. The Issuer's reputation is critical in maintaining its relationships with clients, investors, regulators and the general public, and is a key focus in its risk management efforts.

The Issuer may be adversely affected by tax risks.

Tax risk is defined as the risk of losses arising, in particular, from changes in taxation (derived from tax legislations and decisions by the courts) including the misinterpretation of tax regimes as well as the manner in which they may be applied and enforced. This also applies to new international tax laws that could have a negative impact on the taxation of structured products, making them unattractive for investors. Such tax risk may adversely affect the Issuer's business, results of operations and financial condition.

The Issuer's liquidity, profitability and businesses may be adversely affected by a reduction in its credit ratings.

The ratings of Leonteq Securities AG as Issuer should be evaluated independently from similar ratings of other entities, and from the rating, if any, of the debt or derivative securities issued. A credit rating is not a recommendation to buy, sell or hold securities issued or guaranteed by the rated entity and may be subject to review, revision, suspension, reduction or withdrawal at any time by the assigning rating agency. The Issuer's liquidity, profitability and businesses may be adversely affected by a reduction in its credit ratings.

2. Risk factors associated with all Products

An investor in the Products should note that he/she may lose its entire investment or part of it.

The Products are highly risky instruments to invest in. When investing in the Products there is a risk of loss of the invested capital including the related transaction costs. Under certain circumstances it is even possible that the investor may lose all of the capital invested including the related transaction costs.

Prospective investors must decide for themselves whether the Products are a suitable investment for them given their personal circumstances and financial situation. In particular, prospective investors should

- possess sufficient know-how and sufficient experience in order to adequately assess the Products and the risks associated with an investment therein as well as the information contained in the Base Prospectus, any supplements thereto and the respective Final Terms and/or information incorporated by reference into the foregoing documents;
- possess sufficient financial resources and liquidity in order to bear all risks associated with an investment in the Products and also, in the extreme case, a total loss of the capital invested;
- understand the Final Terms of the Products in detail and be familiar with the behaviour of the financial markets; and
- be in a position to assess the possible consequences of economic effects and other factors that may affect the value of the investment (either alone or with the aid of a financial advisor) and to bear the risks associated herewith.

The Products are risky investment instruments. Compared to other capital investments, the risk of loss – up to the total loss of the invested capital as well as the related transaction costs – is high.

The Products confer the right of the Holders to receive payment of a redemption amount at maturity of the Products and payment of coupon amounts (provided the Terms and Conditions stipulate such coupon payment) and/or to receive the underlying or a basket component or a reference security related to the underlying or to the basket component (provided the Terms and Conditions stipulate redemption by physical settlement). Claims for delivery of definitive securities are precluded.

The calculation of the redemption amount payable or, in the case of Products with redemption by physical settlement, the number of the Underlying or a basket component or a reference security related to the underlying or to the basket component to be delivered at maturity and, if and to the extent that the Prod-

II. RISK FACTORS

ucts have a variable interest/coupon rate, the coupon amounts, may depend on the performance of an underlying and/or the basket components and/or a reference rate during the term. Furthermore, the Products can also relate to a comparison between the performance of multiple basket components contained in one basket.

This means that there is a connection between the economic value of the Products and the economic value of the underlying to which the Products relate. A Product will regularly fall in value (i.e. not taking into account other features and factors relevant for the pricing of Products) if the price of the underlying falls. However, Products can also be designed such that a Product (not taking into account other features and factors relevant for the pricing of Products) falls in value if the price of the underlying rises.

Investors should be aware that there may not be a direct relationship between the market value of the Products and the current price of the underlying since the market value of the Products may also be affected by other factors than the current price of the underlying, such as volatility of the underlying, dividend payments or movements in the general interest rates etc. Therefore, positive changes in the price of the underlying do not necessarily lead to a change in the market value of the Product which is positive for the investor. A depreciation of the Product moreover may even occur if the relevant price of the underlying remains constant. Investors should note that changes in the price of the underlying (or even a situation where an expected price change does not occur) can reduce the value of the Products to a disproportionately high extent and even render them worthless, unless the Products provide for an unconditional minimum redemption amount. In particular, it is not safe to assume that the price of the Products will recover in time in view of the limited life of the Products. There is then the risk of losing **some or all of the capital invested including related transaction costs**. This risk exists regardless of the financial strength of the Issuer.

The Products may pay fixed or variable interest. In the case of Products with variable interest/coupon payment, Holders should consider that the interest/coupon payments may fall to zero (0) or be dependent on a condition. In the case of Products with a fixed interest/coupon rate, Holders should note that they do not participate in an increase in market interest rates.

The Products confer the right to a fixed or variable interest/coupon payment, as provided in the applicable Final Terms. In the case of a variable interest/coupon payment, the level of interest/coupon rates or amounts is calculated on the basis of the performance of an Underlying and/or the Basket Component or a Reference Rate.

When investing in a Product that provides for a variable interest/coupon payment, Holders should consider that the interest/coupon payments to be made by the Issuer may fall to zero (0) for one or more interest periods. Holders should insofar furthermore note that a Reference Rate will still form the basis for the calculation of the variable interest/coupon rate (or variable interest/coupon amount) if the Reference Rate is negative. This means that a positive margin – if applicable – may be lost in whole or in part, when such a positive margin is added to a negative Reference Rate.

Holders should note that in the case of Products with a fixed interest/coupon rate, they do not participate in an increase in market interest rates, and increasing market interest rates, as the case may be, may have a negative impact on the secondary market price of the Products.

The Products do not, unless expressly provided, yield any current income and especially do not confer any claim to receive dividend payments.

A Product does not confer any claim to receive dividend payments and therefore, without prejudice to any coupon payments, does not yield any current income. This means that potential losses in value of the Product normally cannot be compensated by current income generated by the Product.

The investor's individual return depends significantly on the purchase price paid for the Product and the performance of the Product. The risk of losses already exists during the term of a Product.

The performance of the Products, the value of the redemption amount and – in the case of Products with the possibility of physical settlement – the form of settlement are yet to be determined when issuing the Products. The investor's individual return depends significantly on the purchase price paid for the Product and the performance of the Product. The risk of losses already exists during the term of a Product. Even during the term the value of a Product can be lower than the invested purchase price. If the underlying develops in a direction that is unfavourable for the investor, the investor should not rely on the underlying and thus, the value of the Products then developing in the opposite direction. The investor should rely even less on such expectation if the term of the Product is limited, since the underlying would have to recover by the final fixing date in order to avoid a loss being incurred by the investor.

The Products may be physically settled and investors will not receive a monetary amount. There is a risk that the delivered Underlying, respectively the delivered basket component or reference securities, may only have a very low value or may, in fact, be worthless. In this case, there is a risk of losses – up to the total loss of the invested capital as well as the related transaction costs. Furthermore, investors bear the issuer and securities risks of the deliverable Underlying.

If redemption of the Products by physical settlement is stipulated in the Terms and Conditions, investors should consider that upon maturity of the Products the delivery of the underlying or of a basket component may be effected instead of the payment of a monetary amount or, in the case of underlyings or basket components that cannot be delivered (e.g. indices), the delivery of reference securities in respect of the underlying or a basket component. Investors should therefore note that in the case of redemption of the Products by way of delivery they will not receive a monetary amount, but possibly a right in the securities concerned that is transferable in accordance with the terms and conditions of the respective security depository system. Here the number of units of the underlying or a basket component or the reference securities to be delivered is determined by the conversion ratio of the Products or the conversion ratio of the basket component.

In such a case, since investors will be exposed to the specific issuer and securities risks associated with the underlying or basket component or reference security to be delivered, when purchasing the Products they should acquaint themselves with the underlying or basket component or reference security potential-

II. RISK FACTORS

ly to be delivered. Investors should therefore not assume that the underlying or basket component or reference security to be delivered after redemption of the Products can be sold at a specific price, in particular not at a price equivalent to the capital used to purchase the Products. In certain circumstances the delivered underlying or basket component or reference security may only have a very low value or may in fact be worthless. In this case the investor runs the risk of losing all of the capital used to purchase the Products (including related transaction costs).

Investors should therefore consider that any fluctuations in the price of the underlying or in the price of the basket component or reference security after the end of the term of the Products will be borne by the Holders until the respective actual delivery. Losses in the value of the underlying or basket component or reference security to be delivered may occur after the end of the term and are to be borne by the Holder. This means that the actual gain or loss can only be determined after delivery of the underlying or the basket component or the reference security.

If the share to be delivered is a registered share, investors should consider that the rights associated with the shares (e.g. participation in the general meeting, exercise of voting rights, etc.) can generally only be exercised by shareholders who are registered in the share register or a comparable official list of shareholders of the company. The obligation of the Issuer to deliver shares is limited to provision of the shares effected with the characteristics and in the form that allow delivery via an exchange and does not cover registration in the share register or list of shareholders. Any claims due to non-fulfilment, in particular rescission or damage claims, are excluded in such cases.

Lastly, it should be noted that should the delivery of the underlying or of the basket component or of the reference security, for whatever reason, be economically or actually impeded or not possible, the Issuer shall then have the right to pay a compensation amount in lieu of delivery of the underlying or the basket component or the reference security.

Investors bear the credit risk of the Issuer of the Products. The Products are neither secured nor guaranteed by any deposit protection fund or any governmental agency.

Investors are exposed to the risk of deterioration of the Issuer's financial situation.

Investors bear the credit risk of the Issuer of the Products. In the case of unsecured Products, the Products are unsecured and unsubordinated obligations of the Issuer and shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any obligations for the time being preferred by applicable law and any subordinated obligations. In the case collateralized Products, the Products constitute general contractual obligations of the Issuer and are collateralized in accordance with the Terms and Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.

In the event of the insolvency of the Issuer, investors in the Products may lose their claim to repayment of the capital invested by them in whole or in part. In the event of the insolvency of the Issuer,

any payment claims under the Products are neither secured nor guaranteed by any deposit protection fund or any governmental agency.

The collateralization in accordance with the terms of the SIX Swiss Exchange AG «Framework Agreement for Collateral Secured Instruments» (COSI) reduces the issuer default risk only to the extent that the proceeds from the liquidation of collateral are able to meet the investors' claims. To the extent the calculation of the current value of a COSI Product proves to be incorrect, the collateral provided for the COSI Product may be insufficient.

In the case of collateralized Products it should be noted that collateralized Products ("**COSI Products**") are collateralized in accordance with the terms of the SIX Swiss Exchange AG «Framework Agreement for Collateral Secured Instruments». The Issuer (the "**Collateral Provider**") undertakes to secure the value of the COSI Products at any given time as well as the further claims listed in the Framework Agreement. Security must be provided to SIX Swiss Exchange AG in the form of a regular right of lien under Swiss law. The collateral is booked to a SIX Swiss Exchange AG account with SIX SIS AG. Investors do not themselves have a surety right to the collateral.

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a liquidation event (less the costs of liquidation and payout) are able to meet the investors' claims.

The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Products rises or the value of the collateral decreases; (ii) in a liquidation event, the collateral cannot be liquidated immediately by SIX Swiss Exchange AG because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Products in a foreign currency according to the Framework Agreement may result in losses for the investor because the current value to be determined for each COSI Product (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Products.

The costs for the service provided by SIX Swiss Exchange AG with respect to the collateralization of COSI Products may be taken into account in pricing a COSI Product and may therefore be borne by the investors, as the case may be.

In case of a liquidation event the payment of the pro-rata share of the net liquidation proceeds to the investor shall be effected by SIX Swiss Exchange AG and the financial intermediaries along the payout chain. Investors bear the risk that possible liquidation proceeds will not or not fully be paid out because of an insolvency of SIX Swiss Exchange AG and/or the financial intermediaries. The possible insolvency of

SIX Swiss Exchange AG and/or the financial intermediaries may bear a solvency risk, to what the Investor is exposed to in case of a liquidation event.

The payment to the investors may be delayed for factual or legal reasons.

To the extent the calculation of the current value of a COSI Product proves to be incorrect, the collateral provided for the COSI Product may be insufficient.

Apart from the primary listing of the COSI Products on SIX Swiss Exchange AG the issuer may apply for a listing or admission to trading on one or more secondary exchanges. All aspects and events related to a listing or admission to trading of the COSI Products on a secondary exchange shall be disregarded under the Framework Agreement. In particular, events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange AG is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a listing or admission to trading of the COSI Products on a secondary exchange is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

The collateralization in accordance with the terms of the TCM Security Agreement eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. In case the calculation of the Current Value of the product (value of the product set too low prior to liquidation) or the security (value of the security set too high prior to liquidation) may prove to be incorrect, the collateralization of the product may be insufficient. If the terms and conditions underlying the Products provide for a termination right of the Issuer in the event that the TCM Security Agreement is terminated, the Investor bears the return and reinvestment risk if the Issuer exercises its termination right.

In the case of products which are collateralized by a TCM Security Agreement, it should be noted that such collateralized products ("**TCM Secured Products**") are collateralized in accordance with the relevant TCM Security Agreement between the Issuer (in the function as Issuer and Security Provider), the investor, represented by SIX Repo AG ("**Security Taker**") and SIX SIS AG as custodian and SIX SIS AG as TCM Collateral Agent. The Security Provider undertakes to secure the respective value of the TCM Secured Products and the further claims mentioned in the TCM Security Agreement. The investor shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a pledge according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Current Value of a TCM Secured Product will be valued by the Calculation Agent, provided to the SIX Financial Information AG on each business day will be published on the respective webpage of SIX Financial Information AG. The collateral will be valued several times by the SIX SIS AG on every business day on the basis of the price of the securities and/or exchange rates provided by the SIX Financial Information AG and adjusted.

II. RISK FACTORS

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims.

The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value to be calculated (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Any costs of the liquidation of the collateral shall, in advance, be covered out of the proceeds of the liquidation of the collateral.

The payment to the Investors may be delayed for factual or legal reasons.

In case the calculation of the Current Value of the product or the security may prove to be incorrect, the collateralization of the product may be insufficient.

The TCM Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The TCM Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

The terms and conditions underlying the Products may provide for a termination right of the Issuer with regard to the Products (in particular in the case that the Products have a term of at least five years) in the event that the TCM Security Agreement is terminated and that due to the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity. In the case the Issuer exercises its termination right, the term of the Products will be early terminated prior to the scheduled maturity and the Holder bears the risk that his expectations with respect to an increase in the value of the Products may no longer be satisfied due to the ending of the term.

II. RISK FACTORS

In the case of a termination, it must also be considered that the Holder bears the reinvestment risk. This means that he or she may possibly only be able to reinvest the termination amount paid by the Issuer in the event of a termination on more unfavourable market conditions than those existing when the Product was purchased.

Investors should consider that price movements of the Underlying (or the non-occurrence of an expected price movement) may decrease the value of the Products disproportionately and even render them worthless and that there is no assurance that in the case of Products with a limited term, the price of the Product will recover in time.

The prices of the Products are determined based on various factors during their term. In addition to the term of the Products and the redemption amount to be paid as well as the value of any interest granted which may depend on the performance of the underlying, other factors include the creditworthiness of the Issuer in particular.

The Products can be traded on or off-exchange throughout their term. However, the price of the Products is not determined according to the principle of supply and demand, since the intention is that the Issuer, the Lead Manager or a third party, as the case may be, will in its function as Market Maker quote independently calculated bid and offer prices for the Products on the secondary market. This price calculation is performed on the basis of customary pricing models in which the theoretical value of the Products is basically determined on the basis of the value of the underlying and other adjustable parameters. The other parameters may include derivative components, expected income from the underlying (e.g. dividends), interest rates, the term or remaining term of the Product, the volatility of the underlying and the supply and demand situation for hedging instruments. These or other value-determining parameters may lead to a depreciation in value of the Product, even if during the term the underlying develops favourably for the investor (regarding the determination of the selling price, see also "Conflicts of interest related to the determination of the selling price of the Products and commission payments" in Section II.5 of the Base Prospectus).

Investors should be aware that they may not be able to hedge their exposure from the Products.

Investors should not rely on their ability to engage in transactions during the term of the Products that will exclude or limit their initial risk. This ability depends on the market conditions and the terms of the Products. Under certain circumstances, it is possible that such transactions can only be executed by investors at unfavourable market prices with the result that the investors may suffer a loss.

A credit financing of the acquisition of Products significantly increases the risk of loss to investors.

Investors should note that if their purchase of Products is financed by loans, they will not only incur the losses if their expectations are not realised but will also have to repay the loan and pay interest. This increases the loss risk considerably. Thus, investors should not rely on their ability to repay the loan or pay the interest from the returns on the Products. Instead, investors should examine their financial situation in advance to determine their ability to make interest and loan repayments, if necessary at short notice, in the event that losses are incurred rather than the expected returns.

Transactions of the Issuer or its respective affiliates to hedge the risk relating to the execution and performance of obligations arising out of the Products may have a significant effect on the performance of the Underlying and thus on the Products.

Fluctuations in the price of the underlying and consequently the Products may among other things be attributed to the fact that the Issuer or its respective affiliates (the "**Hedging Entity**") conduct significant volumes of hedging or other types of large transactions in or relating to the underlying. Investors should also note in this respect that, especially in unfavourable conditions (e.g. low liquidity of the underlying), such transactions can have a significant impact on the value of the underlying and/or of the components contained therein and thus on the price of the Products, the level of any redemption amount as well as – in the case of Products which may stipulate a redemption by way of delivery – on the type of redemption and possibly lead to certain barrier levels stipulated in the Terms and Conditions being exceeded or fallen short of.

The Hedging Entity shall execute its trading and hedging activities (including the liquidation and termination of already executed hedging transactions) with due consideration for the effect on the market and consequently to limit its activities in or related to the underlying. In regards to the due consideration for the market impact the Hedging Entity is entitled to suspend or to stop entirely its trading activities in or related to an underlying. This market conduct of the Hedging Entity as well as the limitation of its trading or hedging activities in or related to the underlying may impact the Products, in particular it may lead to

- an occurrence or non-occurrence of a barrier event;
- an extended bid-ask spread; and
- an occurrence of a stop loss event, which could impact the liquidation price negatively and which could even be zero.

Investors should consider that this market conduct of the Hedging Entity respectively the limitations of its trading activities may impact the redemption amount or the liquidation price of the Product negatively and may influence the redemption.

Fees and other transactions costs reduce the chances of the Investor generating a profit from the purchase of the Product.

Commission and other transaction costs which are incurred when buying or selling Products may, especially in conjunction with a low contract value, result in cost burdens which may reduce any returns expected from the Product. Therefore, before purchasing a Product investors should obtain information regarding all costs arising when purchasing and selling the Product.

Investors are exposed to the risk of wrong expectation with respect to the Products' liquidity due to the issue size mentioned in the Final Terms.

The specified size of the offer represents the maximum amount of the Products being offered but does not give any indication as to the volume of the Products being effectively issued. This volume is determined according to the market conditions and may change during the term of the Products. Therefore, investors

should note that it is not possible to predict the liquidity of the Products in the secondary market based on the specified size of the offer.

Investors in listed Products or in Products linked to listed underlyings and/or basket components are subject to risks arising from any eventual suspension from trading or de-listing from the relevant exchange for reasons not attributable to the Issuer and the Lead Manager and this might have material adverse effects on the value of the Products.

In the case of listed Products or Products linked to listed underlyings and/or basket components investors should note that applicable exchange rules may stipulate specific rules on permitted underlying of derivatives, including structured products.

It cannot be excluded that during the lifetime of the Product, the underlying and/or the respective basket component is suspended from trading on or de-listed from the relevant exchange, reference market or quotation system for reasons not attributable to the Issuer. In case the underlying and/or the respective basket component of a Product is suspended from trading or de-listed, this might have material adverse effects on the value and tradability of the Product and/or, among other possible consequences, might also lead to the suspension or de-listing of the Product.

In addition, it cannot be excluded that the Products may be suspended from trading on or de-listed from the relevant exchange or quotation system during the lifetime of the respective Product for other reasons.

The Products may have no liquidity or the market for such Products may be limited and this may adversely impact their value or the ability of the Investor to dispose of them.

Investors should note that the procurement of price information regarding the Products is impeded if the Products are not or are no longer listed or traded an exchange. Moreover, the liquidity of the Products may be diminished. Restrictions in respect of the purchase and/or sale of the Products in some jurisdictions may also have an impact on the liquidity of the Products.

Market disruptions, adjustment measures and termination rights may negatively affect the value of the Products.

Pursuant to the Terms and Conditions, the Issuer and/or the Calculation Agent may determine that a market disruption event has occurred or exists at a certain time. Such an event or the resulting postponement of a date on which the Issuer and/or the Calculation Agent is to establish a price relevant for the Products can impair the value of the Products and/or delay the settlement of the Products or calculations in respect of the underlying and in certain circumstances entitle the Issuer and/or the Calculation Agent to estimate the relevant price of the underlying.

Adjustments will be made in accordance with the Terms and Conditions. In the event of adjustments relating to the underlying it cannot be ruled out that the estimates on which an adjustment was based turn out to be incorrect and that the adjustment turns out to be unfavourable for the investor at a later stage and that due to the adjustment the investor may be in a financially worse position than before an adjustment or than he would be in as a result of a different adjustment.

II. RISK FACTORS

Prospective investors should review the Terms and Conditions as to whether and in what way such provisions apply to the Products and what is considered to be a market disruption event or relevant adjustment event.

In certain circumstances the Issuer has the right of extraordinary termination of the Products. In this case Investors will receive a reasonable market price determined in the reasonable discretion of the Issuer, which may be zero.

The Issuer may have the right of extraordinary termination in certain circumstances stipulated in the Terms and Conditions of the relevant Final Terms, for example if an adjustment is not possible or upon occurrence of an Additional Termination Event pursuant to the Terms and Conditions. If the Issuer exercises this right of extraordinary termination at short notice, the Holder may no longer be able to sell the Products on the secondary market. If it should exercise such right, the Issuer will redeem the Products at a reasonable market price determined in its reasonable discretion, i.e. in the event of an extraordinary termination there will be no right to payment of any amount provided for in the Terms and Conditions to be calculated on the basis of a redemption formula at the end of the term or for payment of a specified unconditional minimum redemption amount. Investors should note that the determined market price may be zero in the worst case, i.e. the investor may suffer a total loss of the capital invested. In the case of an extraordinary termination there is a reinvestment risk. Reinvestment risk means that the investor may only be able to reinvest the amount to be paid by the Issuer in the event of an extraordinary termination on more unfavourable market terms compared with those existing when the Product was purchased. Furthermore investors bear the risk that their expectations with respect to an increase in the value of the Products can no longer be satisfied due to the early termination of the Products.

Corrections, supplements or modifications of the Conditions may be detrimental for Investors.

Investors should note that in certain cases specified in the Terms and Conditions the Issuer is entitled to correct, change or amend provisions in the Terms and Conditions. In this regard it has to be considered that such correction, change or amendment of a provision in the Terms and Conditions may be disadvantageous for the investor compared with the originally stipulated provision.

Investors are subject to the risk that events which could have a negative impact on the price of the underlying are published after preparation of the Final Terms.

The information on the underlying contained in the Final Terms consists of extracts or summaries of information relating to the underlying which was publicly available at the date of preparation of the Final Terms. The Issuer does not represent or warrant that all the events which could influence the price of the underlying (and thus the price of the Product) have been publicly announced. If such events are published later or if material future events are published or not published, it cannot be ruled out that such events will have a negative impact on the price of the underlying (and thus on the price of the Product).

Changes in tax law could adversely affect the value and/or the market value of the Products or may change the tax treatment of the relevant Products.

Investors should note that it cannot be excluded that the tax regime applicable to the Products may be changed, also in a manner not foreseeable at the time the Products are issued. A risk of changes in the tax treatment of the Products exists for all relevant jurisdictions. Any statements made in the Base Prospectus regarding the tax treatment of the Products only relate to the purchase of the Products immediately after the issue (primary purchase). Both in the case of primary purchase and if investors purchase the Products later, they should therefore seek advice from a tax advisor about the tax effects in connection with the purchase, holding, exercising or the sale of the Products prior to the purchase. Furthermore, it cannot be excluded that the tax authorities may come to a different conclusion than the Issuer regarding tax treatment when interpreting and applying the relevant tax rules to the investor's investment in the Products.

Holders should note that in the case of a subscription period the Issuer reserves the right to end the subscription period early or to extend it and that the Issuer is not obliged to accept subscription applications or to issue subscribed Products.

The applicable Final Terms may provide for the Products to be offered during a particular subscription period. Holders should note in this case that the Issuer reserves the right to end the subscription period early or to extend it. In the case of an early ending or an extension of the subscription period, the Initial Valuation Date, as the case may be, which determines certain characteristics of the Products, may be postponed along with the Issue Date. The Issuer is not obliged to accept subscription applications. Partial allocations are possible (in particular in the event of oversubscription). The Issuer is not obliged to issue subscribed Products.

Where payments under the Products will be made in a currency which is different from the currency of the Underlying, the Investors are exposed also to the performance of the currency of the Underlying, which cannot be predicted. A currency risk also exists if the account of the investor to which any amount owed is to be credited to is managed in a currency different from the settlement currency of the Product.

If the Products represent a claim that is calculated with reference to a foreign currency, currency unit or unit of account or if the price of the underlying or the basket component(s), as the case may be, is determined in a foreign currency, currency unit or unit of account, the investor's risk of loss not only depends on the development of the value of the underlying or the basket component(s), as the case may be, but also on adverse movements in the value of the foreign currency, currency unit or unit of account. Such developments may additionally increase your risk of loss when

- (i) an unfavourable development in the currency exchange rate concerned results in the value of the purchased Products decreasing accordingly during their term, or
- (ii) the level of the redemption amount possibly to be received on maturity decreases accordingly.

A currency risk also exists if the account of the investor to which any amount owed is to be credited to is managed in a currency different from the settlement currency of the Product and the relevant amount is being converted into the respective currency of the account.

Exchange rates are determined by supply and demand factors on international foreign exchange markets, which are subject to economic factors, speculation and actions by governments and central banks (such as currency controls or restrictions).

Due to the implementation of the Financial Transaction Tax investors may be liable itself to pay this charge or reimburse a financial institution for the charge, and/or the charge may affect the value of the Products.

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common Financial Transaction Tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The Commission Proposal is currently under review.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Products (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Products where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Products should therefore note, in particular, that in future any sale, purchase or exchange of the Products might be subject to the FTT. The holder of Products may be liable to itself pay this charge or reimburse a financial institution for the charge, and/or the charge may affect the value of the Products.

Prospective holders of the Products should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing for, purchasing, holding and disposing of the Products.

Risk of tax withholding due to the legislation affecting dividend equivalent payments (Section 871(m) of the U.S. Internal Revenue Code).

Products that directly or indirectly reference the performance of United States equities (including an index or basket that includes United States equities) may be subject to withholding tax under Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"). Prospective investors should consult their tax advisers regarding the potential application of the Code to the Products.

Changes in the Issuer's credit rating may affect the value of the Securities.

The general assessment of the Issuer's creditworthiness may affect the value of the Securities. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies. As a result, any downgrading of the Issuer's credit rating by a rating agency may have a negative impact on the value of the Securities.

Investors should keep in mind that a rating does not constitute a recommendation to purchase, sell or hold the debt securities issued by the Issuer.

3. **Risk factors associated with certain types of Products**

Product No. 1. Risk factors applicable to Bonus Certificates with Cash Settlement

Risk of total loss in the case of a Barrier Event

Investors should note that if a Barrier Event has occurred the claim to the minimum redemption expires and the Bonus Certificate is comparable with a direct investment in the Underlying and/or the best or worst performing Basket Component (irrespective of dividend payments). In this case the investor will be exposed to the risk of a **total loss** of the invested capital including the related transaction costs, arising, if the Underlying and/or the best or worst performing Basket Component is worthless at the end of the term of the Product i.e. if the Final Fixing Level and/or the Final Basket Value is zero.

An important determinant for the probability of the occurrence of a Barrier Event is the volatility of the Underlying and/or the Basket Components. The term "**Volatility**" means the fluctuation margin or price movements of the Underlying and/or the Basket Components. The higher the volatility of an Underlying and/or the Basket Components, the higher the risk to the Holder that the (respective) Barrier will be broken. An increasing probability of a Barrier break tends to result in a declining price of the Product.

Product No. 2. Risk factors applicable to Bonus Certificates with potential Physical Settlement

Risk of total loss in the case of a Barrier Event

Investors should note that if a Barrier Event has occurred the claim to the minimum redemption expires and the Products provide for a physical delivery of the Underlying. In this case the investor will be exposed to the risk of a **total loss** of the invested capital including the related transaction costs, arising, if the Underlying is worthless at the end of the term of the Product.

An important determinant for the probability of the occurrence of a Barrier Event is the volatility of the Underlying. The term "**Volatility**" means the fluctuation margin or price movements of the Underlying. The higher the volatility of an Underlying, the higher the risk to the Holder that the Barrier will be broken. An increasing probability of a Barrier break tends to result in a declining price of the Product.

Product No. 3. Risk factors applicable to Capped Bonus Certificates with Cash Settlement and with par value***Risk of total loss in the case of a Barrier Event***

Investors should note that if a Barrier Event has occurred the claim to the minimum redemption expires and the Capped Bonus Certificate is comparable with a direct investment in the underlying (irrespective of dividend payments). In this case the investor will be exposed to the risk of a **total loss** of the invested capital including the related transaction costs, arising, if the Underlying is worthless at the end of the term of the Product.

An important determinant for the probability of the occurrence of a Barrier Event is the volatility of the Underlying and/or the Basket Components. The term "**Volatility**" means the fluctuation margin or price movements of the Underlying and/or the Basket Components. The higher the volatility of an Underlying and/or the Basket Components, the higher the risk to the Holder that the (respective) Barrier will be broken. An increasing probability of a Barrier break tends to result in a declining price of the Product.

Redemption Amount is limited to Maximum Redemption Amount

Irrespective of whether or not a Barrier Event has occurred, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the Underlying above the Cap Level, with the result that the possible yield on Capped Bonus Certificate has an upper limit.

Product No. 4. Risk factors applicable to Capped Bonus Certificates with Cash Settlement and without par value***Risk of total loss in the case of a Barrier Event***

Investors should note that if a Barrier Event has occurred and, if provided for in the Final Terms, the Final Fixing Level of the Underlying (or the Final Fixing Levels of the Basket Components) reaches or falls below the Initial Fixing Level multiplied by the Bonus Level the claim to the minimum redemption expires and the Capped Bonus Certificate is comparable with a direct investment in the underlying or the Basket Components (irrespective of dividend payments). In this case the investor will be exposed to the risk of a **total loss** of the invested capital including the related transaction costs, arising, if the Final Fixing Level(s) of the underlying is zero (0).

An important determinant for the probability of the occurrence of a Barrier Event is the volatility of the Underlying or the Basket Components. The term "**Volatility**" means the fluctuation margin or price movements of the Underlying or the Basket Components. The higher the volatility of an Underlying or the Basket Components, the higher the risk to the Holder that the Barrier will be broken. An increasing probability of a Barrier break tends to result in a declining price of the Product.

Redemption Amount is limited to the Maximum Redemption Amount

Irrespective of whether or not a Barrier Event has occurred, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of

the Underlying or the Basket Components above the Cap Level, with the result that the possible yield on Capped Bonus Certificate has an upper limit.

Product No. 5. Risk factors applicable to Capped Bonus Certificates with potential Physical Settlement

Risk of total loss in the case of a Barrier Event

Investors should note that if a Barrier Event has occurred and, if provided for in the Final Terms, the Final Fixing Level is equal to or below the Issue Price multiplied by the Bonus Level the claim to the minimum redemption expires and the Products provide for a physical delivery of the Underlying. In this case the investor will be exposed to the risk of a **total loss** of the invested capital including the related transaction costs, arising, if the Underlying is worthless at the end of the term of the Product.

An important determinant for the probability of the occurrence of a Barrier Event is the volatility of the Underlying. The term "**Volatility**" means the fluctuation margin or price movements of the Underlying. The higher the volatility of an Underlying, the higher the risk to the Holder that the Barrier will be broken. An increasing probability of a Barrier break tends to result in a declining price of the Product.

Redemption Amount is limited to the Maximum Redemption Amount

Irrespective of whether or not a Barrier Event has occurred, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the Underlying above the Cap Level, with the result that the possible yield on Capped Bonus Certificate has an upper limit.

Product No. 6. Risk factors applicable to Notes (Reverse Convertibles) with Cash Settlement

Redemption Amount is limited to the Maximum Redemption Amount

Holders should consider that the Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.

Risk of total loss

If the Final Fixing Level is equal to or falls below the Strike Level, the Redemption Amount equals the Denomination multiplied by the Performance of the Underlying. In this scenario, the Redemption Amount will generally be lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the Underlying and the capital loss experienced, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the Redemption Amount plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the Underlying is worthless at the end of the term.

Product No. 7. Risk factors applicable to Notes (Reverse Convertibles) with potential Physical Settlement

Redemption Amount is limited to the Maximum Redemption Amount

Holders should consider that the Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.

Risk of total loss

If the Final Fixing Level is equal to or falls below the Strike Level, the Products provide for a physical delivery of the Underlying. In the case of a settlement of the Products by physical delivery of the Underlying, it is to be noted that the equivalent value of the delivered Underlyings is generally lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the Underlying and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the equivalent value of the delivered Underlyings plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the Underlying is worthless at the end of the term.

Product No. 8. Risk factors applicable to Notes (Barrier Reverse Convertibles) with Cash Settlement

Redemption Amount is limited to the Maximum Redemption Amount

Holders should consider that the Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.

Risk of total loss

If a Barrier Event has occurred and, if provided in the Final Terms, the Final Fixing Level is equal to or falls below the Initial Fixing Level, the Redemption Amount equals the Denomination multiplied by the Performance of the Underlying and/or the Denomination multiplied by the performance of the Basket Component with the worst performance. In this scenario, the Redemption Amount will normally be lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the Underlying and/or the Basket Component with the worst performance and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the Redemption Amount plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the Underlying and/or the Basket Component with the worst performance is worthless at the end of the term.

Product No. 9. Risk factors applicable to Notes (Barrier Reverse Convertibles) with potential Physical Settlement

Redemption Amount is limited to the Maximum Redemption Amount

Holders should consider that the Redemption Amount (regardless of possible coupon payments during the term) will not exceed the Denomination in any case.

Risk of total loss

If a Barrier Event has occurred and, if provided for in the Final Terms, the Final Fixing Level is equal to or falls below the Initial Fixing Level the Products provide for a physical delivery of the Underlying and/or the Basket Component with the Worst Performance. In the case of a settlement of the Products by physical delivery of the Underlying and/or the Basket Component with the Worst Performance, it is to be noted that the equivalent value of the delivered Underlyings and/or Basket Components is generally lower than the Denomination. This means that from a certain point the fixed coupon payment(s) may no longer be able to offset the negative performance of the Underlying and/or the Basket Component with the Worst Performance and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the equivalent value of the delivered Underlyings and/or Basket Components plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the fixed coupon payment(s) – if the Underlying and/or Basket Component is worthless at the end of the term.

Product No. 10. Risk factors applicable to Discount Certificates with Cash Settlement

Redemption Amount is limited to the Maximum Redemption Amount

In the case of Discount Certificates, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the Underlying above the Cap Level, with the result that the possible yield on Discount Certificates has an upper limit.

Risk of total loss

Below the Cap Level, Discount Certificates are comparable with a direct investment in the Underlying (without taking into account dividend payments). In this case there is a risk of a total loss of the Holder's invested capital. A total loss will occur if the Underlying is worthless at the end of the term.

Product No. 11. Risk factors applicable to Discount Certificates with potential Physical Settlement

Redemption Amount is limited to the Maximum Redemption Amount

In the case of Discount Certificates, the Redemption Amount will not exceed the Maximum Redemption Amount. This means that the Holder does not participate in a price movement of the Underlying above the Cap Level, with the result that the possible yield on Discount Certificates has an upper limit.

Risk of total loss

The Discount Certificates provide for provide for a settlement by physical delivery of the Underlying, if the Final Fixing Level is equal to or below the Cap Level. In this case there is a risk of a total loss of the Holder's invested capital. A total loss will occur if the Underlying is worthless at the end of the term.

Product No. 12. Risk factors applicable to Express Certificates with Cash Settlement and without par value

Risk of (total) loss and risks related to early redemption

In the case of Express Certificates it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Conditions has occurred on a Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components is irrelevant to the Holder.

If there has been no early redemption of the Products, the level of the Redemption Amount is dependent on the price performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components. If a Barrier Event has occurred and/or, if provided for in the applicable Final Terms a Target One Event has not occurred, but a Barrier Event has occurred and/or, if provided for in the applicable Final Terms neither the preconditions for a minimum redemption nor a maximum redemption are met, and/or, if provided for in the applicable Final Terms, a Lock-In Event has not occurred, but a Barrier Event has occurred, the Products are comparable to a direct investment in the Underlying (without taking in to account dividend payments) or, in the case of a Basket as Underlying, the Basket Component with the worst performance. As a result, the Holder is also exposed to a risk of loss comparable to the direct investment. Therefore, the Holder bears a risk of total loss with regard to the invested capital. A total loss occurs if the Underlying or, in the case of a Basket as Underlying, the Basket Component with the worst performance is worthless at the end of the term. The respective Final Terms may also provide that the investor receives, if provided for in the applicable Final Terms, at least, the Issue Price and/or the Reference Amount multiplied by the Minimum Redemption Factor, if neither the preconditions for a minimum redemption nor a maximum redemption are met. In this case, the Redemption Amount may be lower than the Issue Price and/or the Reference Amount.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components. If provided for in the applicable Final Terms, the amount of the Coupon Amount is dependent of the performance of a Reference Rate. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment and/or the amount of the coupon payment is conditional on the occurrence of a certain event in relation to the Underlying or, in the case of a Basket as Underlying, the Basket Components (e.g. the Underlying or, in the case of a Basket as Underlying, the Basket Components reaching or exceeding a certain threshold value on a specified date). Should such event not occur, there would be no and/or a lower coupon payment for the applicable Coupon Payment Date. Holders should note that they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment. It should be noted

here that, unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. The volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date. If provided for in the applicable Final Terms, also the amount of the respective coupon payment may depend on the development of the Underlying and/or the Basket Components. The coupon payment can be zero, if the price of the Underlying and/or Basket Components is equal to or below the Initial Fixing Level on the respective Coupon Observation Date.

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Redemption Amount is limited to the Maximum Redemption Amount

If a maximum redemption provided for in the applicable Final Terms, the Redemption Amount is limited to the Issue Price and/or the Reference Amount (Maximum Redemption Amount).

Product No. 13. Risk factors applicable to Express Certificates and/or Express Notes with Cash Settlement and with par value

Risk of (total) loss and risks related to early redemption

In the case of Express Certificates and/or Express Notes it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Conditions has occurred on a Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components is irrelevant to the Holder.

If there has been no early redemption of the Products, the applicable Final Terms may specify the following alternatives:

- The level of the Redemption Amount is dependent on the price performance of the Underlying and/or, if provided for in the applicable Final Terms, the Basket Components if neither the pre-conditions for a minimum redemption nor maximum redemption are met. In this case the Products are comparable to a direct investment in the Underlying (without taking in to account dividend payments) or, in the case of a Basket as Underlying, the Basket Component with the worst performance. As a result, the Holder is also exposed to a risk of loss comparable to the direct investment. Therefore, the Holder bears a risk of total loss with regard to the invested capital. A to-

tal loss occurs if the Underlying or, in the case of a Basket as Underlying, the Basket Component with the worst performance is worthless at the end of the term.

- The level of the Redemption Amount is dependent on the price performance of the Underlying and/or, if provided for in the applicable Final Terms, the Basket Components taking also into account a certain participation factor. In the case of a negative development of the Underlying and/or the relevant Basket Component, the Holder is exposed to a risk of loss. Depending of the amount of the relevant participation factor the Redemption Amount can be close to zero (0).
- The Holder receives the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Minimum Redemption Factor in any case or, if provided for in the applicable Final Terms, if neither the preconditions for a minimum redemption nor a maximum redemption are met. In this case, the Redemption Amount may be lower than the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying or, in the case of a Basket as Underlying, the Basket Components (e.g. the Underlying or, in the case of a Basket as Underlying, the Basket Components reaching or exceeding a certain threshold value on a specified date). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Holders should note that they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment. It should be noted here that, unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. The volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Redemption Amount is limited to the Maximum Redemption Amount

If provided for in the applicable Final Terms, the Redemption Amount (without taking into account a possible Coupon Amount) is limited to the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price (Maximum Redemption Amount).

Product No. 14. Risk factors applicable to Tracker Certificates with Cash Settlement***Risk of total loss***

If the Products are linked to a single underlying the Products are comparable with a direct investment in the Underlying (irrespective of dividend payments). Consequently, the Holder is exposed to a risk of loss comparable to the direct investment. Therefore, there is a risk of total loss with regard to the invested capital if the Underlying is worthless at the end of the term. If the Products are linked to a Basket as Underlying, the Products reflect the development of the Basket Components contained in the Underlying and the Products are comparable with a direct investment in the Basket Components (irrespective of dividend payments). Therefore, there is a risk of total loss with regard to the invested capital if all Basket Components are worthless at the end of the term.

If the applicable Final Terms provide for a participation in dividend payments, this occurs only in the amount of net dividends actually received by the Issuer.

Risk factors in relation to the Management Fee

To the extent provided in the applicable Final Terms, a certain Management Fee is deducted from the Redemption Amount payable.

The Management Fee compensates the Issuer or entities associated with the Issuer for costs incurred by it in entering into transactions related to the Underlying on the capital markets, which serve to hedge the fulfilment risks associated with the issuance of the Products ("**Hedging Transactions**").

It should be noted that a Management Fee not only reduces the Redemption Amount payable by the Issuer, but also reduces the value of the Products on the secondary market during their term. Such a Management Fee is incorporated in the calculation of the bid and ask prices for Products on the secondary market according to the portion of the term of the Products that has already expired.

The Issuer may be entitled to adjust the level of the Management Fee during the term of the Products. In the case of a Management Fee greater than zero (0), the effect of the Management Fee will be greater, the longer the holding period in which it applies to the Products.

Return and reinvestment risk in the case of ordinary or extraordinary termination by the Issuer

Holder should note that the term of the Products, if provided for in the Final Terms, may be ended prematurely by an ordinary or extraordinary termination by the Issuer. In the case of a termination, the Holder bears the risk that his expectations with respect to an increase in the value of the Products may no longer be satisfied due to the ending of the term. In the case of a termination, it must also be considered that the Holder bears the reinvestment risk. This means that he or she may only be able to reinvest the amount paid by the Issuer in the event of a termination on more unfavourable market terms compared with those existing when the Products was purchased.

Product No. 15. Risk factors applicable to Open End Tracker Certificates with Cash Settlement***Risk factors related to the unlimited term of the Products and/or to the Issuer's ability to terminate***

The Products do not have a specified limited term (Open End). The term of the Products ends either (i) on the exercise of the Products by the Holders or (ii) on ordinary termination by the Issuer or (iii) on extraordinary termination by the Issuer.

The Products may be exercised by the Holder on certain dates during their term by submitting an Exercise Notice. The Redemption Amount for exercised Products is calculated based on the Final Fixing Level of the Underlying on the relevant exercise date.

The Products may be terminated on notice by the Issuer by way of ordinary termination in accordance with the Conditions. It is to be noted that the Issuer has no further obligations in relation to the exercise of its termination right.

The Issuer is furthermore entitled to extraordinary termination of the Products by notice if an adjustment is no longer possible or in the case of an Additional Termination Event. It is to be noted that the Issuer exercises its termination right at its reasonable discretion and has no further obligations in relation to its termination right. The exercise of the right to extraordinary termination may occur at short notice, so that, in certain circumstances, the Holder may no longer be able to sell his or her Product on the secondary market.

The exercise of the termination right by the Issuer is generally more likely, the greater the volatility of the Underlying or the more illiquid the market in financial instruments related to the Underlying (including the forward and loan markets). Owing to the Issuer's termination right, Holders may not assume that the Products will have an unlimited term. Holders should therefore not rely on being able to maintain a position in the Products over a long period. Furthermore, Holders may not rely on the timely movement of the Underlying in a favourable direction before a Termination Date.

Return and reinvestment risk in the case of ordinary or extraordinary termination by the Issuer

Holders should note that the unlimited term of the Products may be ended by an ordinary or extraordinary termination by the Issuer. In the case of a termination, the Holder bears the risk that his expectations with respect to an increase in the value of the Products may no longer be satisfied due to the ending of the term. In the case of a termination, it must also be considered that the Holder bears the reinvestment risk. This means that he or she may only be able to reinvest the amount paid by the Issuer in the event of a termination on more unfavourable market terms compared with those existing when the Products was purchased.

Risk of total loss

Open End Tracker Certificates are comparable with a direct investment in the Underlying (irrespective of dividend payments). Consequently, the Holder is exposed to a risk of loss comparable to the direct investment. Therefore, there is a risk of total loss with regard to the invested capital if the Underlying is worthless at the end of the term.

Risk factors in relation to the Management Fee

To the extent provided in the applicable Final Terms, a certain Management Fee is deducted from the Redemption Amount payable.

The Management Fee compensates the Issuer or entities associated with the Issuer for costs incurred by it in entering into transactions related to the Underlying on the capital markets, which serve to hedge the fulfilment risks associated with the issuance of the Products ("**Hedging Transactions**").

It should be noted that a Management Fee not only reduces the Redemption Amount payable by the Issuer, but also reduces the value of the Products on the secondary market during their term. Such a Management Fee is incorporated in the calculation of the bid and ask prices for Products on the secondary market according to the portion of the term of the Products that has already expired.

The Issuer may be entitled to adjust the level of the Management Fee during the term of the Products. In the case of a Management Fee greater than zero (0), the effect of the Management Fee will be greater, the longer the holding period in which it applies to the Products.

Product No. 16. Risk factors applicable to Express Certificates with potential Physical Settlement and with par value

Risk of total loss and risks related to early redemption

In the case of Express Certificates it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Conditions has occurred on a Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying and/or Basket Components is irrelevant to the Holder.

If there has been no early redemption of the Products, the level of the Redemption Amount and/or the type of settlement (cash settlement or physical delivery) is dependent on the price performance of the Underlying and/or Basket Components.

If a Barrier Event has occurred and/or, if provided for in the Final Terms, the Final Fixing Level is equal to or below the Strike Level and/or the Initial Fixing Level, as the case may be, the Products provide for a physical delivery of the Underlying and/or the Basket Component with the Worst Performance. In the case of a settlement of the Products by physical delivery of the Underlying and/or the Basket Component with the Worst Performance, it is to be noted that the equivalent value of the delivered Underlyings and/or Basket Components is generally lower than the Denomination. This means that from a certain point the potential coupon payment(s) may no longer be able to offset the negative performance of the Underlying and/or the Basket Component with the Worst Performance and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the equivalent value of the delivered Underlyings and/or Basket Components plus coupon payment(s). In an extreme case, this may lead to the total loss of the invest-

ed capital – irrespective of the amount of the potential coupon payment(s) – if the Underlying and/or Basket Component is worthless at the end of the term.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or the Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying and/or the Basket Components (e.g. reaching or exceeding a certain threshold value on a specified date). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Holders should note that they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment. It should be noted here that, unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. The volatility of the Underlying and/or Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the Underlying and/or the Basket Components, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Redemption Amount is limited to the Maximum Redemption Amount

The Redemption Amount is limited to the Maximum Redemption Amount (without taking into account a possible Coupon Amount) which equals the Denomination.

Product No. 17. Risk factors applicable to Express Certificates with potential Physical Settlement and without par value

Risk of total loss and risks related to early redemption

In the case of Express Certificates it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Conditions has occurred on a Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying and/or Basket Components is irrelevant to the Holder.

If there has been no early redemption of the Products, the level of the Redemption Amount and/or the type of settlement (cash settlement or physical delivery) is dependent on the price performance of the Underlying and/or Basket Components.

II. RISK FACTORS

If a Barrier Event has occurred and/or, if provided for in the Final Terms, the Final Fixing Level is equal to or below the Strike Level and/or the Initial Fixing Level, as the case may be, the Products provide for a physical delivery of the Underlying and/or the Basket Component with the Worst Performance. In the case of a settlement of the Products by physical delivery of the Underlying and/or the Basket Component with the Worst Performance, it is to be noted that the equivalent value of the delivered Underlyings and/or Basket Components is generally lower than the Denomination. This means that from a certain point the potential coupon payment(s) may no longer be able to offset the negative performance of the Underlying and/or the Basket Component with the Worst Performance and the capital loss suffered, and the Holder may suffer a loss. The loss in this case is equal to the difference between (i) the purchase price paid for the Product (plus transaction costs) and (ii) the equivalent value of the delivered Underlyings and/or Basket Components plus coupon payment(s). In an extreme case, this may lead to the total loss of the invested capital – irrespective of the amount of the potential coupon payment(s) – if the Underlying and/or Basket Component is worthless at the end of the term.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying and/or Basket Components (e.g. reaching or exceeding a certain threshold value on a specified date). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Holders should note that they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment. It should be noted here that, unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. The volatility of the Underlying and/or Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the Underlying and/or Basket Components, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Redemption Amount is limited to the Maximum Redemption Amount

The Redemption Amount is limited to the Maximum Redemption Amount (without taking into account a possible Coupon Amount) which equals the Issue Price.

Product No. 18. Risk factors applicable to Inverse Discount Certificates with Cash Settlement***Redemption Amount is limited to the Maximum Redemption Amount***

In the case of Inverse Discount Certificates, the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on Inverse Discount Certificates has an upper limit.

Risk of total loss

Investors should note that they bear the risk of an unfavourable performance of the Underlying, i.e. an increase of the Underlying. In this scenario the investor may incur losses. In the worst case, the investor may suffer a total loss of the invested capital including related transaction costs, which arises if the Final Fixing Level is at or above the Inverse Level.

Product No. 19. Risk factors applicable to Master Discount Certificates with Cash Settlement***Redemption Amount is limited to the Maximum Redemption Amount***

In the case of Master Discount Certificates, the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on Master Discount Certificates has an upper limit.

Risk of total loss

Investors should note that the investment in the Product is comparable with a direct investment in the respective Underlying and thus in the Basket Components underlying the Product (without taking into account possible dividend payments). If a Basket Component becomes worthless, the investor suffers a loss in the amount of the Basket Component taking into account the number of each Basket Component. Since the Basket Components and the **applicable Cap Levels** are considered individually, such a loss may not be compensated by the performance of the other Basket Components. If all Basket Components become worthless, the investor is consequently exposed to the risk of **total loss** of the invested capital including related transaction costs. **It should also be noted that the Cap Level may be below the Initial Fixing Level. In this case there no possibility of the investor participating in an increase in value of the Basket Component.**

Product No. 20. Risk factors applicable to Express Certificates with Cash Settlement and with par value and/or issue price and unconditional minimum redemption***Risk factors related to the early redemption and the unconditional minimum redemption***

In the case of Express Certificates it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Conditions has occurred on an Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price

performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components is irrelevant to the Holder.

If an early redemption of the Products has not occurred, the amount of the redemption is dependent on the Performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components, if provided for in the applicable Final Terms. If the Final Fixing Levels of the Underlying or, in the case of a Basket as Underlying, all Basket Components lie at or above the Autocall Trigger Level, the Holder receives the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price. If this is not the case, the Holder receives the pre-determined Minimum Redemption Amount, the amount of which is independent of the performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components. The Final Terms may also provide for a redemption of the Minimum Redemption Amount in any case, if an early redemption of the Products has not occurred. **Investors should note that the Minimum Redemption Amount may be lower than the Denomination, the Issue Price and/or the capital invested to purchase the Product (including the related transaction costs).**

Investors should also note that the Minimum Redemption Amount may apply only in the case of a redemption at the end of the term. Investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product on the secondary market prior to the Redemption Date or (ii) the Products are redeemed before the end of the term or (iii) a market disruption event lasting several Scheduled Trading Days has occurred in accordance with the Conditions, such minimum redemption shall not occur. **In such case the investor shall bear the risk of a total loss of the invested capital including the related transaction costs.** Investors will still be exposed to the credit risk of the Issuer meaning that they may lose their entire capital invested to purchase the Products (including related transaction costs) should the Issuer become insolvent. **This is one of the reasons that Products with unconditional minimum redemption can be traded during their term at prices which are below their Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at their Minimum Redemption Amount at any time during their term.**

In the case of these Products, the payment of the Coupon Amount is dependent on the occurrence of a Coupon Trigger Event, i.e. whether the Reference Price of the Underlying or the Reference Prices of all Basket Components on a Coupon Observation Date reach or exceed the relevant Coupon Trigger Level for this date. If a Coupon Trigger Event does not occur on any Coupon Observation Date, the investor does not receive a Coupon Payment. In the case of an Early Redemption, the investor is not entitled to demand any further Coupon Payments for future Coupon Payment Dates. The volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.

Redemption Amount is limited to the Maximum Redemption Amount (if applicable)

The Redemption Amount is limited to the Maximum Redemption Amount (without taking into account a possible Coupon Amount) which equals the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price.

Product No. 21. Risk factors applicable to Express Certificates with Cash Settlement and with par value and with Downside Participation Factor

Risk of total loss

Holder should note that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Final Terms has occurred on an Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the provisions of the Conditions. In the case of such early redemption, the future price performance of the Basket Components is irrelevant to the Holder.

If there has been no early redemption of the Products, the level of the Redemption Amount is dependent on the price performance of the Basket Components. If the preconditions for redemption at the Maximum Redemption Amount are not met, **the Holder participates on the basis of the Downside Participation Factor disproportionately in the loss in value of the Basket Component with the Worst Performance, so that as a result the Holder is exposed to a risk of loss greater than a direct investment.** Therefore, the Holder bears a risk of total loss with regard to the invested capital. Even if the Basket Component with the Worst Performance is greater than zero (0) at the end of the term, a total loss may still occur if the Downside Participation in the loss in value of the Basket Component with the Worst Performance leads to the Product being worthless.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Basket Components (e.g. reaching or exceeding a certain threshold on a specified date). Should such event not occur, there will be no coupon payment for the applicable Coupon Payment Date. Holders should note that, in the case of a coupon payment which is dependent on the Underlying, they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment. It should be noted that, unless provided otherwise in the applicable Final Terms, each relevant date is considered separately and there are no catch-up payments of the Coupon Amount. The volatility of the Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the Basket Components, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Redemption Amount is limited to the Maximum Redemption Amount

The Redemption Amount will not exceed the Denomination, with the result that the possible yield has an upper limit.

Product No. 22. Risk factors applicable to Certificates with Cash Settlement and with par value and with unconditional minimum redemption and Partial Redemption Amounts

Holders should note that the level of the Redemption Amount is limited to the Minimum Redemption Amount, which simultaneously equals the Maximum Redemption Amount. In contrast to a direct investment in the Basket Components, the investor does not participate in the further positive performance of the Basket Components.

Investors should note that the Minimum Redemption Amount may be lower than the Denomination or the capital invested for the purchase of the Product (including related transaction costs).

Investors should also note that the Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. Investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. **In such a case the investor bears the risk of a total loss of the capital invested (including related transaction costs).** Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer. **For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell their purchased Products at any time during their term for at least the Minimum Redemption Amount.**

Furthermore, the Certificates have the characteristic such that the payment and the level of a Coupon Amount depend on whether and at what time a Coupon Trigger Event has occurred. If by the final Coupon Observation Date (inclusive) no Coupon Trigger Event has occurred, the investor does not receive a coupon payment throughout the entire term of the Product.

The volatility of the Basket Components is an important factor for determining the likelihood of the occurrence of a Coupon Trigger Event. The higher the volatility of the Basket Components, the higher the risk to the investor that no Coupon Trigger Event occurs and therefore there is no coupon payment.

If a Coupon Trigger Event has not occurred on a Coupon Observation Date, the investor only receives the Minimum Redemption Amount. The investor suffers a loss if the Minimum Redemption Amount is less than the capital invested (including related transaction costs) for the purchase of the Products.

Product No. 23. Risk factors applicable to Certificates with Cash Settlement and with unconditional minimum redemption

Investors should note that, if provided for in the applicable Final Terms, the level of the Redemption Amount at the end of the term depends on the price performance of the Underlying and/or the Basket Components, since the investor receives on the Redemption Date a cash payment specified at issuance, the level of which depends on the performance of the Underlying or the performance of the worst and/or best performing Basket Component. The investor receives at least the Minimum Redemption Amount. The applicable Final Terms may stipulate that the Redemption Amount equals the Minimum Redemption Amount in any case, i.e. the payment of the Minimum Redemption Amount is not dependent on the price performance of the Underlying and/or the Basket Components.

Investors should note that the Minimum Redemption Amount may be lower than the Denomination, Issue Price or the capital invested for the purchase of the Product (including related transaction costs).

Investors should also note that the Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. Investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. **In such a case the investor bears the risk of a total loss of the capital invested, including related transaction costs.** Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer. **For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at any time during their term for at least the Minimum Redemption Amount.**

If provided for in the applicable Final Terms, investors should also note that the Redemption Amount is limited to the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Maximum Redemption Factor and the performance of the relevant exchange rate, if applicable.

Furthermore, the applicable Final Terms may provide for a coupon payment on the respective Coupon Payment Date in the case that a Coupon Trigger Event has occurred on the relevant Coupon Observation Date. In the case that no Coupon Trigger Event has occurred on the relevant Coupon Observation Date no coupon payment will be made on the corresponding Coupon Payment Date.

Product No. 24. Risk factors applicable to Capped Certificates with Cash Settlement and with unconditional minimum redemption

Risk Factors applicable to the unconditional Minimum Redemption

The Products are redeemed at the end of the term for at least the amount specified in advance. **Investors should note that the Minimum Redemption Amount may be lower than the Denomination and/or the Issue Price or the capital invested for the purchase of the Product (including related transaction costs).** Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer.

Investors should also note that the Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. The investors must be prepared to hold their Product until the Redemption Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. **In such a case the investor bears the risk of a total loss of the capital invested (including related transaction costs).**

For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at any time during their term for at least the Minimum Redemption Amount.

Risk Factors applicable to the Participation Factor

Investors should note that the application of a Participation Factor means that the Products are economically similar to a direct investment in the Underlying and/or the Basket Component with the Worst Performance, although they are not totally comparable with such an investment because the Holders do not participate in the respective price performance of the Underlying and/or the Basket Component with the Worst Performance in the ratio of 1:1, but to the extent of a certain factor which, for example, may be expressed as a percentage. Depending on the structure of the Products a Participation Factor may have the effect that the investor participates to a greater or lesser extent in any changes in value of the Underlying and/or the Basket Component with the Worst Performance, subject to the value effects of any other product characteristics.

Redemption Amount is limited to Maximum Redemption Amount

The Redemption Amount is limited to the Maximum Redemption Amount, so the possible yield has an upper limit. **Investors do not participate in an increase in value of the Underlying above the Cap Level and/or the Basket Component with the Worst Performance.**

Product No. 25. Risk factors applicable to Inverse Bonus Certificates with Cash Settlement***Risks related to the performance of Inverse Bonus Certificates owing to the reverse structure***

In the case of Inverse Bonus Certificates, the performance of the Products conversely depends on the performance of the Underlying and/or Basket Component with the worst and/or best performance. In contrast to typical participation securities, which represent a so-called "long position" (synthetic "purchase" of the Underlying and/or Basket Component with the worst and/or best performance), Inverse Bonus Certificates represent a so-called "short position" (synthetic "short sale" of the Underlying and/or Basket Component with the worst and/or best performance). This means that the Products enable the Holders to profit from a loss in value of the Underlying and/or Basket Component with the worst and/or best performance. **An Inverse Bonus Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of the Underlying and/or Basket Component with the worst and/or best performance increases.**

Risk of a total loss in the case of a Barrier Event

Holders should consider that if a Barrier Event occurs, the entitlement to a minimum redemption expires and the Holder bears 1:1 a risk of loss if the value of the Underlying and/or Basket Component with the worst and/or best performance increases. In this case, the Holder has a risk of total loss with regard to the invested capital. A total loss occurs when the Underlying and/or Basket Component with the worst and/or best performance is equal to or above the Cap Level at the end of the term.

An important determinant of the probability of the occurrence of a Barrier Event is the volatility of the Underlying and/or Basket Component with the worst and/or best performance. The term "**Volatility**" means the fluctuation margin or price fluctuations of the Underlying and/or Basket Components. The higher the Volatility of an Underlying and/or Basket Component, the higher the risk to the Holder that the Barrier will be broken. An increasing probability of a Barrier break tends to result in the price of the Product declining.

Limited yield potential due to reverse structure and irrespective of a cap

Holders should note that the yield potential is limited (regardless of a cap) due to the reverse structure since the negative development of the Underlying and/or Basket Component with the worst and/or best performance will not exceed 100%, i.e. in the case of Inverse Bonus Certificates the Settlement Amount is limited to the product of (i) the Issue Price and (ii) the quotient of the Cap Level minus the Final Fixing Level and the Initial Fixing Level or, if provided for in the applicable Final Terms, the Settlement Amount is limited to the product of (i) the Issue Price and (ii) the quotient of the Cap Level minus the Final Fixing Level of the Basket Component with the worst and/or best performance and the Initial Fixing Level of the Basket Component with the worst and/or best performance.

Accordingly, in the case of Inverse Bonus Certificates, the following relationship exists in principle between the economic value of the Certificates and the economic value of the Underlying and/or Basket Components: **An Inverse Bonus Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of the Underlying and/or Basket**

Components increases. Accordingly, a Holder may suffer a total loss of the invested capital if the level of the Underlying and/or Basket Components increases and reaches or exceeds the Cap Level.

Product No. 26. Risk factors applicable to Capped Inverse Bonus Certificates with Cash Settlement

Risks related to the performance of Capped Inverse Bonus Certificates due to the reverse structure

In the case of Capped Inverse Bonus Certificates, the performance of the Products reversely depends on the performance of the Underlying and/or Basket Component with the worst and/or best performance. In contrast to typical participation securities, which represent a so-called "long position" (synthetic "purchase" of the Underlying and/or Basket Component with the worst and/or best performance), Capped Inverse Bonus Certificates represent a so-called "short position" (synthetic "short sale" of the Underlying and/or Basket Component with the worst and/or best performance). This means that the Products enable the Holders to profit from a loss in value of the Underlying and/or Basket Component with the worst and/or best performance up to the level of the Bonus Level. **Accordingly, a Capped Inverse Bonus Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of the Underlying and/or Basket Component with the worst and/or best performance increases.**

Risk of a total loss in the case of a Barrier Event

Holders should note that if a Barrier Event occurs, the entitlement to a minimum redemption expires and the Holder bears 1:1 a risk of loss if the value of the Underlying and/or Basket Component with the worst and/or best performance increases. In this case, the Holder has a risk of total loss with regard to the invested capital. A total loss occurs when the Underlying and/or Basket Component with the worst and/or best performance is equal to or above the Cap Level at the end of the term.

An important determinant of the probability of the occurrence of a Barrier Event is the volatility of the Underlying and/or Basket Components. The term "**Volatility**" means the fluctuation margin or price fluctuations of the Underlying and/or Basket Components. The higher the Volatility of an Underlying and/or Basket Component, the higher the risk to the Holder that the Barrier will be broken. An increasing probability of a Barrier break tends to result in the price of the Product declining.

Redemption Amount is limited to Maximum Amount

In the case of Capped Inverse Bonus Certificates, the Redemption Amount will not exceed the Initial Fixing Level multiplied by the Bonus Level or, if provided for in the respective Final Terms, the Issue Price multiplied by the Bonus Level or, if provided for in the respective Final Terms, the Initial Fixing Level of the Basket Component with the worst and/or best performance multiplied by the Bonus Level. This amount is the maximum amount an investor may receive. This means that the Holder does not participate in a negative price movement of the Underlying and/or Basket Component with the worst and/or best performance above the Bonus Level, with the result that the possible yield on Capped Inverse Bonus Certificates has an upper limit.

Product No. 27. Risk factors applicable to Mini Future Certificates with Cash Settlement***Risk of a total loss in the case of the occurrence of a Stop-Loss Event***

Holders in Mini Future Certificates bear the risk that the Products expire worthless during their term, if a so-called Stop-Loss Event has occurred.

A Stop-Loss Event occurs, if an event defined in the Terms and Conditions occurs, which relates to the development of the price of the Underlying compared to a predefined price or value threshold (the so-called "Stop-Loss Level"). If a Stop-Loss Event occurs, the term of the Products ends automatically and the Products are repaid at an amount which is (in the case of Mini Future Long Certificates) equal to the difference between the Stop-Loss Price and the (Current) Strike Level taking into account the Conversion Ratio or (in the case of Mini Future Short Certificates) equal to the difference between the (Current) Strike Level and the Stop-Loss Price taking into account the Conversion Ratio. It must also be considered that the Holders may suffer a total loss of the invested capital, if the Issuer should not succeed in cancelling the hedge position for (in the case of Mini Future Long Certificates) a Stop-Loss Price above the (Current) Strike Level or (in the case of Mini Future Short Certificates) a Stop-Loss Price below the (Current) Strike Level.

Holders should note in this context that the price of the Products is reduced disproportionately compared to classical warrants, if the price of the Underlying approaches the Stop-Loss Level.

It must be noted that no continuous bid and ask prices for the Products are quoted by the Issuer on the secondary market outside of the trading hours of the Underlying, if the Issuer expects a Stop-Loss Event to occur due to different price indicators than the official price of the Underlying. Holders should consider in this context that the Issuer does not commit or is not under any obligation legal or otherwise towards the Holders to quote bid and ask prices for the Products. Holders should therefore not rely on being able to purchase or sell the Products at any time.

Risk due to the leverage effect

Due to the leverage effect the Products involve disproportionate risks of loss compared to a direct investment in the Underlying.

Product No. 28. Risk factors applicable to Inverse Express Certificates with Cash Settlement***Risks related to the performance of Inverse Express Certificates due to the reverse structure***

In the case of Inverse Express Certificates, the performance of the Products reversely depends on the performance of the Underlying and/or the Basket Components. In contrast to typical participation securities, which represent a so-called "long position" (synthetic "purchase" of the Underlying), Inverse Express Certificates represent a so-called "short position" (synthetic "short sale" of the Underlying). This means that the Products enable the Holders to profit from a loss in value of the Underlying and/or Basket Component. **Accordingly, an Inverse Express Certificate typically declines in value (i.e. irrespective of other features and factors that determine the price of Products), if the value of the Underlying and/or Basket Components increases.**

Risk of total loss and risks related to early redemption

In the case of Inverse Express Certificates it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event specified in the Conditions has occurred on a Autocall Observation Date.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components is irrelevant to the Holder.

If there has been no early redemption of the Products, the level of the Redemption Amount is dependent on the price performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components. Holders should note that if a Barrier Event occurs, the entitlement to a minimum redemption expires and the Holder bears a risk of loss if the value of the Underlying and/or Basket Components increases. In this case, the Holder has a risk of total loss with regard to the invested capital. A total loss occurs when the Performance of the Underlying and/or the Performance of the Basket Component with the best or worst performance is equal to or above 200% at the end of the term.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying or, in the case of a Basket as Underlying, the Basket Components (e.g. the Underlying or, in the case of a Basket as Underlying, the Basket Components reaching or exceeding a certain threshold value on a specified date). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Holders should note that they will not receive a coupon payment during the entire term of the Products, as the case may be, if the prerequisites are not met on a date relevant for the determination of the coupon payment. It should be noted here that, unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. The volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components is an important factor for determining the likelihood of the occurrence of an event entitling receipt of the applicable Coupon Amount. The higher the volatility of the Underlying or, in the case of a Basket as Underlying, the Basket Components, the higher the risk to the Holder that the condition will not be met and that the Holder will therefore not receive a Coupon Amount for the relevant Coupon Payment Date.

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Redemption Amount is limited to the Maximum Redemption Amount

The Redemption Amount is limited to the Issue Price and/or the Redemption Amount (Maximum Redemption Amount).

Product No. 29. Risk factors applicable to Warrants with Cash Settlement

Risk of a total loss

There is a risk of a total loss of the Holder's invested capital. A total loss will occur if the Final Fixing Level of the Underlying or the worst performing Basket Component and/or the Final Basket Value and/or the performance of the Underlying, the performance of the worst performing Basket Component or the performance of the Basket is equal to or below Initial Fixing Level and/or the Strike Level (in the case of Call Warrants) or equal to or above the Initial Fixing Level and/or Strike Level (in the case of Put Warrants).

Redemption Amount is limited to Maximum Redemption Amount

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit.

Risk due to the leverage effect

Due to the leverage effect the Products involve disproportionate risks of loss compared to a direct investment in the Underlying and/or the relevant Basket Component.

Product No. 30. Risk factors applicable to Participation Certificates

Risk of a total loss in the case of the occurrence of a Barrier Event in the case of Participation Certificates with Barrier

Holder should note that if a Barrier Event has occurred the Participation Certificate is comparable to a direct investment in the Underlying and/or the worst or best performing Basket Component and/or the Basket (without taking into account dividend payments) and, if provided for in the applicable Final Terms, the Product is redeemed by a physical delivery of the Underlying and/or the worst or best performing Basket Component. As a result the Holder is exposed to a risk of loss comparable to the direct investment. Therefore, the Holder bears a risk of total loss with regard to the invested capital. A total loss occurs if the Underlying and/or the worst or best performing Basket Component and/or the Basket is worthless at the end of the term.

An important determinant for the probability of the occurrence of a Barrier Event is the volatility of the Underlying and/or the Basket Components. The term "**Volatility**" means the fluctuation margin or price movements of the Underlying and/or the Basket Components. The higher the volatility of an Underlying and/or the Basket Components, the higher the risk to the Holder that the (respective) Barrier will be broken. An increasing probability of a Barrier break tends to result in a declining price of the Product.

Risk of loss in the case of Participation Certificates without Barrier

The level of the Redemption Amount at the end of the term depends on the performance of the Underlying and/or the worst or best performing Basket Component and/or the Basket (without taking into account dividend payments). In the case that the performance of the Underlying and/or the worst or best performing Basket Component and/or the Basket is negative **the Redemption Amount may be lower than the Denomination, Issue Price or the capital invested for the purchase of the Product (including related transaction costs)**. In the case of a negative development of the Underlying and/or the relevant Basket Component and/or the Basket, the Holder is exposed to a risk of loss. Depending of the amount of the relevant participation factor the Redemption Amount can be close to zero (0).

Redemption Amount may be limited to a Maximum Redemption Amount

The applicable Final Terms may provide for a Maximum Redemption Amount. In this case, the Redemption Amount will not exceed the Maximum Redemption Amount irrespective of whether or not a Barrier Event has occurred. This means that the Holder does not participate in a price movement of the Underlying and/or the worst or best performing Basket Component and/or the Basket above the Cap Level, with the result that the possible yield has an upper limit.

Risk of a total loss in the case of Participation Certificates with rainbow structure

The level of the Redemption Amount at the end of the term depends on the performance of the Basket Components. The Redemption Amount is determined on the basis of the performances of all Basket Components whereby the performance of the best performing Basket Component is multiplied by the highest Participation Factor, the performance of the second highest performing Basket Component is multiplied by the second highest Participation Factor and the performance of the worst performing Basket Component is multiplied by the lowest Participation Factor. Due to the application of the Participation Factor the investor will not participate 1:1 in the performance of the respective Basket Component, but only in the amount of the relevant Participation Factor.

The investor will suffer a total loss of the capital invested in the case that the performances of all Basket Components is zero (0).

Product No. 31. Risk factors applicable to Spread Certificates with Cash Settlement*Risk of a total loss in the case of the occurrence of a Stop-Loss Event*

Holders in Spread Certificates bear the risk that the Products expire worthless during their term, if a so-called Stop-Loss Event has occurred.

A Stop-Loss Event occurs, if an event defined in the Terms and Conditions occurs, which relates to the development of the price of the Product compared to a predefined price or value threshold (the so-called "Stop-Loss Level"). If a Stop-Loss Event occurs, the term of the Products ends automatically and the Products are repaid at an amount which is equal to the Stop-Loss Redemption Amount that is determined by the Calculation Agent in its reasonable discretion on the basis of the price of the Product. The Stop-Loss Redemption Amount may be zero.

Holders should note in this context that the price of the Products is reduced disproportionately compared to classical warrants, if the price of the Product approaches the Stop-Loss Level.

It must be noted that no continuous bid and ask prices for the Products are quoted by the Issuer on the secondary market outside of the trading hours of the Basket Components, if the Issuer expects a Stop-Loss Event to occur due to different price indicators than the official prices of the Basket Components. Holders should consider in this context that the Issuer does not commit or is not under any obligation legal or otherwise towards the Holders to quote bid and ask prices for the Products. Holders should therefore not rely on being able to purchase or sell the Products at any time.

Risk factors in relation to the Management Fee

In the case of Spread Certificates a certain Management Fee is deducted from the Redemption Amount payable.

The Management Fee compensates the Issuer or entities associated with the Issuer for costs incurred by it in entering into transactions related to the Basket Components on the capital markets, which serve to hedge the fulfilment risks associated with the issuance of the Products ("**Hedging Transactions**").

It should be noted that a Management Fee not only reduces the Redemption Amount payable by the Issuer, but also reduces the value of the Products on the secondary market during their term. Such a Management Fee is incorporated in the calculation of the bid and ask prices for Products on the secondary market according to the portion of the term of the Products that has already expired. In the case of a Management Fee greater than zero (0), the effect of the Management Fee will be greater, the longer the holding period in which it applies to the Products.

Risk Factors in relation to the Adjustment Factor

In the case of Spread Certificates a certain Adjustment Factor is applied in order to calculate the Redemption Amount. Due to the application of the Adjustment Factor the Holder does not participate 1:1 in the difference between the performance of Basket Component 1 and Basket Component 2, but by the proportion of the Adjustment Factor.

Product No. 32. Risk factors applicable to Short Participation Certificates with Cash Settlement and with unconditional minimum redemption

Risk Factors applicable to the unconditional Minimum Redemption

The Products are redeemed at the end of the term for at least the amount specified in advance. **Investors should note that the Minimum Redemption Amount may be lower than the Denomination and/or the Issue Price or the capital invested for the purchase of the Product (including related transaction costs).** Furthermore, investors remain exposed to the credit risk of the Issuer, so they may lose all of the capital invested for the purchase of the Products (including related transaction costs) on an insolvency of the Issuer.

Investors should also note that the Minimum Redemption Amount is applicable only in the case of a redemption at the end of the term. The investors must be prepared to hold their Product until the Redemp-

tion Date. If (i) an investor sells the Product before the Redemption Date on the secondary market or (ii) the Products are redeemed before the end of the term or (iii) a Market Disruption Event lasting several Scheduled Trading Days has occurred pursuant to the terms and conditions of the Product, such a Minimum Redemption does not occur. **In such a case the investor bears the risk of a total loss of the capital invested (including related transaction costs).**

For this reason among others, Products with an unconditional Minimum Redemption may be traded throughout their term at a price that is below the Minimum Redemption Amount. Investors should therefore not rely on being able to sell the purchased Products at any time during their term for at least the Minimum Redemption Amount.

Risk Factors applicable to the Participation Factor

Investors should note that the application of a Participation Factor means that the Products are economically similar to a direct investment in the negative performance of the Underlying and/or the Basket Component with the Worst Performance and/or the Basket Component with the Best Performance, although they are not totally comparable with such an investment because the Holders do not participate in the respective negative price performance of the Underlying and/or the Basket Component with the Worst Performance and/or the Basket Component with the Best Performance in the ratio of 1:1, but to the extent of a certain factor which, for example, may be expressed as a percentage. Depending on the structure of the Products a Participation Factor may have the effect that the investor participates to a greater or lesser extent in any changes in value of the Underlying and/or the Basket Component with the Worst Performance and/or the Basket Component with the Best Performance, subject to the value effects of any other product characteristics.

Redemption Amount is limited to Maximum Redemption Amount

The Redemption Amount may be limited to the Maximum Redemption Amount, so the possible yield has an upper limit. **Accordingly, investors do not continue to participate in the negative price performance of the Underlying and/or the Basket Component with the Worst Performance and/or the Basket Component with the Best Performance below a certain threshold.**

Product No. 33. Risk factors applicable to Knock-Out Warrants

Risk of loss

There is a risk of a total loss of the Holder's invested capital. A total loss will occur if the Final Fixing Level of the Underlying or the worst/best performing Basket Component and/or the Final Basket Value is equal to or below (in the case of Knock-Out Call Warrants) or equal to or above (in the case of Knock-Out Put Warrants) the relevant Strike Level. A total loss will also occur in the case that a Knock-Out Event has occurred (unless the relevant Final Terms provide for a minimum redemption that equals the Denomination and/or the Issue Price multiplied by the Rebate, but also in this case the investor may suffer significant losses). A Knock-Out Event occurs, if an event defined in the Conditions occurs, which relates to the development of the price of the Underlying and/or the price of the Basket Components or the price of the Basket compared to a predefined price or value threshold (the "Knock-Out Level").

Holders should note in this context that the price of the Knock-Out Warrants is reduced disproportionately compared to classical warrants, if the price of the Underlying and/or the price of the Basket Component and/or the price of the Basket approaches the relevant Knock-Out Level.

Factors affecting the price during the term of the Knock-Out Warrants

The price of the Knock-Out Warrants during the term depends in particular on the price of the Underlying and/or the price of the Basket Components and/or the price of the Basket during the term. Generally, the price of the Knock-Out Warrants falls when the price of the Underlying and/or the price of the Basket Components and/or the price of the Basket declines (in the case of Knock-Out Call Warrants) or rises (in the case of Knock-Out Put Warrants). A decrease or increase in the Underlying and/or the relevant Basket Components and/or the Basket typically has a disproportionately great effect on the price of the Knock-Out Warrants. The price of the Knock-Out Warrant depends, in addition to the price of the Underlying and/or the relevant Basket Components and/or the Basket, also on the volatility of the Underlying and/or the relevant Basket Components and/or Basket, the lending costs, the interest rate level, and any dividend expectations, if applicable.

Risk due to the leverage effect

Due to the leverage effect the Products involve disproportionate risks of loss compared to a direct investment in the Underlying and/or the relevant Basket Components and/or the Basket.

Product No. 34. Risk factors applicable to Dual Currency Notes

Risk of loss

In the case of Dual Currency Notes, the Redemption Amount at the end of the term is either an amount in the Settlement Currency determined on the basis of the Denomination in the Settlement Currency or an amount in the Alternative Currency determined on the basis of the Denomination that is converted into the Alternative Currency. Therefore, Holders are exposed to the risk of changes in the relevant currency exchange rate which may affect the yield of such Dual Currency Notes.

Holders may suffer a loss. The potential loss equals the difference between the capital invested to purchase the Product (including transaction costs incurred) and the Redemption Amount. However, the Holder remains exposed to the risks of the Issuer, so the investor may lose all the capital invested to purchase the Products (including transaction costs incurred) on an insolvency of the Issuer. For this reason among others, Dual Currency Notes may be traded during their term at a price below the Denomination in the Settlement Currency. Holders may therefore not rely on being able to sell their Products at any time during the term at a price equal to or above the Denomination in the Settlement Currency.

Product No. 35. Risk factors applicable to Stability Notes

Risk of total loss and risks related to early redemption

In the case of Stability Notes it should be noted that the level of the Redemption Amount and the time for redemption of the Products depend on whether a Gap Event has occurred.

If this event occurs before the Final Fixing Date, the term of the Products ends early and the Products are redeemed early in accordance with the Conditions. In the case of such early redemption, the future price performance of the Underlying is irrelevant to the Holder.

The Holder may suffer a total loss of the capital invested. A total loss will occur in the case that a Gap Event occurs and the Gap is equal to or below the Gap Level. The Holder may also suffer a loss in the case that a Gap Event occurs and the Gap is below the Strike Level. In this scenario the Redemption Amount is below the Denomination/Issue Price.

Provided that no Gap Event has occurred, the Holder receives a Coupon Amount on the relevant Coupon Payment Date(s) that is determined on the basis of the Coupon Rate and the Denomination. The coupon payment is independent of the performance of the Underlying. In the case that a Gap Event has occurred the Holder will not receive any accrued coupon payments on the date on the Early Redemption Date.

Redemption Amount is limited to the Denomination/Issue Price

The potential Redemption Amount under the Products will not exceed the Denomination/Issue Price (plus the coupon payment(s) provided that no early redemption has occurred).

Risk due to the leverage effect

In the case that a Gap Event has occurred and the Gap is above the Gap Level the Redemption Amount is determined on the basis of the difference between the Strike Level and the Gap taking into account the Leverage. In this case the Product involves disproportionate risks of loss compared to a direct investment in the Underlying due to the consideration of the Leverage.

4. Risk factors associated with certain types of Underlyings

Risk factors related to a basket as underlying

The Terms and Conditions may stipulate that the basket components of which the basket is composed have different weightings within the basket. In this case it has to be considered that the lower the weighting of this basket component is, the lower the impact of the performance of the respective basket component will be on the performance of the entire basket.

The Terms and Conditions may further stipulate that the selection of the basket components and/or the determination of the composition of the basket may be adjusted by the Issuer during the term. If the Issuer has such an adjustment right, investors may not assume that the composition of the basket will remain constant during the term of the Products. Investors therefore purchase a Product linked to an underlying with an unknown future composition.

If in accordance with the respective Terms and Conditions only one basket component or one type of basket components, e.g. the basket component with the worst performance or the one whose performance is negative, is significant for the determination of the redemption amount or of coupon amounts, investors should consider that a loss may occur even if the remaining basket component(s) have performed favourably for the investor. This risk may exist regardless of the number of basket components contained in the basket.

Depending on the Product, a basket component may be quoted in a currency different from the settlement currency. In that case, the investor is additionally exposed to a currency risk which may negatively affect the performance of the respective basket component or of the basket.

Correlation risk for Products related to a basket

In the case of Products whose performance during the term or whose redemption at the end of the term is determined by the performance of several basket components, it has to be considered that the number and the correlation of the basket components has a significant effect on the redemption and risk profile of the respective Product.

Depending on the features of the Product, a high number and/or low correlation of the basket components for example may increase the risk of the condition for a more favourable redemption for the investor not being fulfilled. In the case of Products with an overall consideration of the basket a high correlation of the basket components may increase the risk of a negative performance of the basket as a whole. "Correlation of the basket components", put simply, indicates the level of interdependence among the individual basket components with respect to their performance. Correlation has a value ranging from "-1" to "+1", with a correlation of "+1", i.e. a positive correlation, meaning that the performance of the individual basket components moves in the same direction. A correlation of "-1", i.e. a negative correlation, means that the performance of the basket components is diametrically opposed. A correlation of "0" indicates that it is not possible to make a statement on the relationship between the basket components. If, for example, in the case of shares as Basket Component all of the basket components originate from the same sector and the same country, a high positive correlation can generally be assumed. However, the correlation may fall, for example, when the stock corporation whose shares are included in the basket are engaged in intense competition for market shares and the same markets.

Risk factors related to Products linked to shares

The performance of the shares is decisive for the development of the value of the Products linked to shares. The performance of the respective share cannot be predicted and is determined by macroeconomic factors, for example interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy.

As investors in the Products, the investors will not have any voting rights or rights to dividends or interest payments or other distributions or other rights relating to the share.

It should also be noted that neither the Issuer nor any of its affiliates have conducted any inquiries or reviews regarding the companies issuing the shares including any publicly available documents and notices. Prospective investors should not assume that the choice of a share as underlying or basket component represents an investment recommendation. Accordingly, there is no guarantee that all events occurring before the respective issue date that might have an impact on the trading price of the share(s) have been publicised. A subsequent disclosure or failure to disclose material future events with respect to a company

which has issued a share underlying the Product might have an impact on the trading price of the share and thus the trading price of the Product.

Risk factors related to Products linked to participation certificates (*Genussscheine*)

The performance of the participation certificates (*Genussscheine*) is decisive for the development of the value of the Products linked to participation certificates (*Genussscheine*). The performance of the respective participation certificate (*Genussschein*) cannot be predicted and is determined by macroeconomic factors, for example interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation and distribution policy.

As investors in the Products, the investors will not have any rights to distributions or other rights relating to the participation certificate (*Genussschein*).

It should also be noted that neither the Issuer nor any of its affiliates have conducted any inquiries or reviews regarding the companies issuing the participation certificates (*Genussscheine*) including any publicly available documents and notices. Prospective investors should not assume that the choice of a participation certificate (*Genussschein*) as underlying or basket component represents an investment recommendation. Accordingly, there is no guarantee that all events occurring before the respective issue date that might have an impact on the trading price of the participation certificate(s) (*Genussschein(e)*) has/have been publicised. A subsequent disclosure or failure to disclose material future events with respect to a company which has issued a participation certificate (*Genussschein*) underlying the Product might have an impact on the trading price of the participation certificate (*Genussschein*) and thus the trading price of the Product.

Risk factors related to Products linked to securities representing shares

The Products may relate to securities representing shares (mostly in the form of ADRs or GDRs, together "**Depository Receipts**"). Compared with a direct investment in shares, such securities representing shares may carry further-reaching risks.

American Depository Receipts ("**ADRs**") are securities which are issued in the United States of America in the form of share certificates in a portfolio of shares which is held in the country of domicile of the issuer of the underlying shares outside the United States of America. Global Depository Receipts ("**GDRs**") are also securities in the form of share certificates in a portfolio of shares which is held in the country of domicile of the issuer of the underlying shares. As a rule they are distinguished from share certificates referred to as ADRs in that they are normally publicly offered and/or issued outside the United States of America.

Each Depository Receipt represents one or more shares or a fraction of the security of a non-domestic stock corporation. The legal owner of the underlying shares is for both types of Depository Receipts the depository, which is also the issuing agent of the Depository Receipts. Depending on the jurisdiction under which the Depository Receipts have been issued and under which the depository agreement is governed, it cannot be ruled out that the jurisdiction will not accept the holder of the Depository Receipts as

the actual beneficial owner of the underlying shares. In particular in the event that the depositary becomes insolvent or is subject to foreclosure, it is possible that a restraint on disposal of the underlying shares of the Depositary Receipts will be imposed or that such shares will be disposed of in the context of a foreclosure against the depositary. In this case, the holder of the Depositary Receipts will lose the rights over the underlying shares which are certified in the Depositary Receipt. The Depositary Receipt as the underlying of the Products and therefore the Products relating to such Depositary Receipt will become worthless.

In such a scenario the Holder is exposed to the risk of the value of the redemption of such Products being less than the capital invested for the Product (including related transaction costs) or zero.

Any fees and costs that the custodian bank – generally having its registered office in the home country of the issuer of the shares underlying the Depositary Receipts – or the depositary incur can have a negative impact on the value of the Depositary Receipts and thus on the value of the Products.

Risk factors related to Products linked to indices

In the case of Products linked to indices, the redemption amount depends on the performance of the index and thus of the components contained in the index. During the term, the market value of the Products can, however, also deviate from the performance of the index or components contained in the index since other factors such as the correlation, volatilities, interest level and, e.g. in the case of performance indices, the reinvestment of any dividend payments relating to the components contained in the index, may have an impact on the performance of the Products. The investor can therefore not rely on the Product being recoverable. In the case of a price index as Underlying, investors should note that dividend payments are in principle not taken into account (whereas in the case of performance indices the calculation of such index takes into account all dividend payments). Therefore, investors should note that they do not participate in any dividend payments with regard to the components contained in the underlying.

Investors should note that the Index-Sponsor or the person responsible for the composition of the Index as well as the Issuer may be subject to new regulatory requirements with regard to the publication and the use of an Index during the term of the Products which may require an admission or a registration of the respective Index and an index modification in order to comply with the statutory provisions. Therefore, it cannot be excluded that an Index will be modified, cancelled or may no longer be used. In each of these cases the Issuer and/or the Calculation Agent is entitled to make adjustments pursuant to the Product Conditions and to make determinations with respect to the price of the Index in its discretion in order to calculate the amount owed at the end of the term of the Product and/or after an exercise or in the case of a termination of the Products.

Risk factors related to Products linked to futures contracts

Futures contracts – also known as forward contracts – are standardised forward transactions relating to financial instruments (e.g. shares, indices, interest rates or foreign currencies) – known as financial futures contracts – or to commodities (e.g. precious metals, wheat or sugar) – known as commodity futures contracts.

II. RISK FACTORS

A futures contract represents a contractual obligation to buy or sell a fixed amount of the underlying commodity or financial instrument on a fixed date at an agreed price. Futures contracts are traded on futures exchanges and are for this purpose are standardised in terms of contract size, type, and quality of the underlying commodity or financial instrument as well as places and dates of delivery where applicable.

There is generally a close correlation between the price movement of an underlying for the relevant futures contract on a spot market and on the corresponding futures market. However, futures contracts are generally traded at a premium or discount compared with the spot price of the underlying of the futures contract. This difference between the spot and futures prices, called the "basis" in futures exchange terminology, on the one hand is the result of taking into account the costs customarily arising in connection with spot transactions (warehousing, delivery, insurance, etc.) and/or the income customarily arising in connection with spot transactions (interest, dividends, etc.), and on the other hand the different methods used to evaluate general market factors affecting the spot and the futures market. Furthermore, depending on the relevant underlying, there can be significant differences in the liquidity of the spot and respective futures market.

As the Products are linked to the market price of the futures contracts specified in the Terms and Conditions, it is recommended that investors understand how futures transactions work and are valued in addition to knowing about the market in the underlying of the relevant futures contract, since only then can the investor properly assess the risks inherent in purchasing the Products.

Since futures contracts as an underlying of the Products may have a fixed expiry date, the current futures contract is replaced by the Issuer, at the time specified in the Terms and Conditions, with a futures contract that has the same contract specifications as that futures contract except for the expiry date which is more distant than that of the current futures contract (referred to as "roll-over").

Risk factors related to whole-day trading of currencies and commodities

If the right embodied by the Products is determined on the basis of currencies or commodities, investors should consider that those are traded 24 hours a day as a result of the time zones of Australia, Asia, Europe and America. For this reason it is possible that an event that is material in accordance with the respective Terms and Conditions or a factor relevant for the determination of the right granted by the Product may occur or be determined outside the business hours of the place where the Products are offered and/or traded.

Risk factors related to Products linked to currency exchange rates

Currency exchange rates indicate the relationship between one particular currency and another currency. For example the exchange rate "EUR/USD 1.11823" indicates that USD 1.11823 has to be paid to purchase one euro. An increase in this currency exchange rate therefore means an increase in the value of the euro against the US dollar. The currency exchange rate "USD/EUR 0.89416", on the other hand, indicates that EUR 0.89416 has to be paid to purchase one US dollar. An increase in this currency exchange rate therefore means an increase in the value of the US dollar against the euro.

II. RISK FACTORS

A country's currency may appreciate, for example, as a result of an increase in this country's key interest rate since in such case demand for the country's government bonds normally rises. Conversely, a country's currency may depreciate if the key interest rate falls. Generally, exchange rates are determined by supply and demand for currencies on the international money markets which are, among other things, subject to economic factors, speculation and actions taken by governments and central banks (e.g. exchange controls or restrictions).

Currency exchange rates are influenced by a wide variety of factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and the safety of making financial investments in the currency concerned. Apart from these assessable factors there may be factors that are almost impossible to predict, for instance factors of a psychological nature such as a loss of faith in the political leadership of a country, which can also have a major impact on the value of the currency concerned.

Risk factors related to Products linked to commodities

Commodities are generally divided into three main categories: mineral commodities (such as oil, gas, aluminium and copper), agricultural products (such as wheat and maize) and precious metals (such as gold and silver). The majority of commodities are traded globally on specialised exchanges or directly between market participants (interbank trading) over-the-counter by means of largely standardised contracts.

The price risks involved in commodities are often complex. Commodity prices are more volatile than other investment categories and, in particular, commodity markets are less liquid than bond, currency or stock markets. This means that changes in the supply and demand have a larger impact on prices and volatility, making commodities investments riskier and more complex than other investments.

The factors that influence commodity prices are both numerous and complex. The following are examples of some typical factors affecting commodities prices.

The planning and management of commodities supplies are very time-consuming. This means that the scope for action on the supply side is limited and it is not always possible to adjust production swiftly to take account of demand. Demand can also vary on a regional basis. Transport costs for commodities in regions where these are needed also affect their prices. The fact that some commodities take a cyclical pattern, such as agricultural products which are only produced at certain times of the year, can also result in major price fluctuations.

Direct investments in commodities involve costs related to storage, insurance and tax. Moreover, no interest or dividends are paid on commodities. The total returns from commodities investments are therefore influenced by these factors.

Not all commodities markets are liquid and able to quickly and adequately react to changes in supply and demand. The fact that there are only a few market participants on the commodities markets means that speculative investments can have negative consequences and may distort prices.

Unfavourable weather conditions can influence the supply of certain commodities for the entire year. This kind of supply crisis can lead to severe and unpredictable price fluctuations. Diseases and epidemics can also influence the prices for agricultural commodities.

Commodities are often produced in emerging market countries, with demand coming principally from industrialised nations. However, the political and economic situation of emerging markets is often far less stable than in industrialised nations. They are generally much more susceptible to the risks of rapid political change and economic setbacks. Political crises can affect investor confidence, which can as a consequence influence commodity prices. Armed conflicts can also have impact on the supply and demand for certain commodities. It is also possible for industrialised nations to impose embargos on imports and exports of goods and services. This can directly and indirectly impact commodity prices. Furthermore, numerous commodity producers have joined forces to establish organisations or cartels in order to regulate supply and influence prices.

Changes in tax rates and customs duties may have a positive or a negative impact on the profitability margins for commodities producers. If these costs are passed on to buyers, these changes will affect the prices of the relevant commodities.

Risk factors related to Products linked to funds

Factors affecting the performance of the Fund(s) may adversely affect the market value of, and the return (if any) on, the Products linked thereto

A Fund is either (i) an exchange traded fund ("ETF"), which is an open ended or other fund traded like a share on an exchange, or (ii) other unlisted fund, in each case that tracks the performance of a portfolio of assets. As a result, the performance of a Fund is dependent upon the macroeconomic factors affecting the performance of such assets which may include, among other things, interest and price levels on the capital markets, commodity prices, currency developments, political factors and, in the case of shares, company specific factors, such as earnings position, market position, risk situation, shareholder structure and distribution policy. These factors affecting the performance of the Fund(s) may adversely affect the market value of, and the return (if any) on, the Products linked thereto

Exposure to the risk that the return on the Product does not reflect the return on a direct investment in the fund units or the assets included in the portfolio of the Fund(s) linked thereto

An investor's return on Products linked to Fund(s) may not reflect the return such investor would realise if he or she actually owned the relevant fund units or assets included in the portfolio(s) of the Fund(s). For example, if the portfolio of the Fund(s) includes shares or a share index, investors in the Products linked to such Fund will not receive any dividends paid on such shares or the shares included in such share index and will not benefit from those dividends unless such Fund takes such dividends into account for purposes of calculating the value of such Fund. Similarly, investors in Products linked to Fund(s) will not have any voting rights in the shares or other assets that are included in the portfolio(s) of the Fund(s). Accordingly, an investor in Products linked to Fund(s) may receive a lower payment (if any) upon redemption of

II. RISK FACTORS

such Products than such investor would have received, if he or she had directly invested in the fund units or assets included in the portfolio of such Fund(s).

A change in the composition or discontinuance of the Fund(s) could adversely affect the market value of, and return (if any) on, Products linked thereto

In principle, the Issuer and the Calculation Agent have no influence on the composition or performance of any Fund or any index that such Fund is intended to replicate. The Management Company or the licensor/index sponsor, as applicable, of an underlying index can add, delete or substitute the assets included in such index, respectively, or make methodological changes that could affect the value of such Fund or of such underlying index, respectively. The substitution of assets included in the portfolio of a Fund or in an underlying index, respectively, may affect the value of such Fund, as a newly added asset may perform significantly worse or better than the asset it replaces, which in turn may affect the market value of, or payments (or other benefits to be received) under, the Products. The Management Company or licensor/index sponsor of any underlying index may also alter, discontinue or suspend calculation or dissemination of information on such Fund or such underlying index, respectively. The Management Company and licensor/index sponsor of such underlying index are not involved in the offer and sale of the Products and have no obligation to invest therein. The Management Company and licensor/index sponsor of such underlying index may take any actions in respect of such Fund or such underlying index, respectively, without regard to the interests of the investors in Products, and any of these actions could adversely affect the market value of (or amount payable under) such Products. In particular, no assurance can be given that the performance of a Fund will be identical to the performance of the assets included in the portfolio of the Fund(s) or which the Fund intends to replicate, respectively, due to many factors.

Risks in relation to market price

The market price of interests in the Fund that are traded on an exchange may, due to the forces of supply and demand, as well as liquidity and scale of trading spread in the secondary market, diverge from their net asset value, *i.e.*, the market price per interest in the Fund could be higher or lower than its net asset value, and will fluctuate during the trading day.

The performance of Fund(s) with a portfolio of assets that are concentrated in the assets of a particular industry or group of industries could be more volatile than the performance of Funds with portfolios of more diverse assets

Investors in Products linked to Fund(s) with a portfolio of assets that are concentrated in the assets of a particular industry or group of industries should be aware that the performance of such Fund(s) could be more volatile than the performance of Funds with portfolios of more diverse assets.

Risk factors related to underlyings linked to interest rates and reference rates

Interest rates and reference rates are mainly dependent upon the supply and demand for credit in the money market, *i.e.*, the rates of interest paid on investments, determined by the interaction of supply of and demand for funds in the money market. The supply and demand in the money market on the other hand is dependent upon macroeconomic factors, such as interest and price levels on the capital markets,

currency developments and political factors, or upon other factors, depending on the specific type of interest rate or reference rate. Such factors affecting the performance of an interest rate or reference rate may adversely affect the market value of, and return (if any) on, Products linked thereto.

In principle, the Issuer and/or the Calculation Agent (as the case may be) have no influence on the determination of interest rate(s) or reference rate(s). Interest rates and reference rates are generally calculated by an independent organization or a governmental authority, often based on information provided by market participants. The entity publishing an interest rate or reference rate can modify the calculation method for determining such interest rate or reference rate or make other methodological changes that could affect the value of the interest rate or reference rate. The calculation or dissemination of such interest rate or reference rate may also be altered, discontinued or suspended. The entity publishing an interest rate or reference rate is not involved in the offer and sale of the Products and has no obligation to invest therein. The entity publishing an interest rate or reference rate may take any actions in respect of such interest rate or reference rate without regard to the interests of the investors in Products, and any of these actions could adversely affect the market value of such Products.

The Final Terms may provide for interest rates or reference rates resulting from the difference between two interest rates or reference rates (e.g. a CMS-rate and EURIBOR-rate or a CMS-rate and another CMS-rate). The return of the Products therefore depends on the performance of the relevant interest rate or reference rate. If the difference between the interest rates or reference rates decreases, in general the value of the Underlying and/or Basket Components also decreases and further the redemption amount and/or coupon amount may decrease.

Risk factors related to underlyings related to emerging markets

Investments in so-called emerging markets contain further risk factors in addition to the risks normally associated with the investment in the respective underlying. These include the unstable economic situation, high inflation, increased currency risks as well as political and legal risks. The political and economic structures in emerging markets are sometimes subject to considerable transitions and rapid developments and these countries often lack social, political and economic stability if compared with more industrialised nations. Of particular importance is the increased risk of currency fluctuations. Instability in these countries can also be caused by authoritarian governments or military interference in political and economic decision making. This also includes anti-constitutional (attempted) regime change, civil unrest relating to demands for improved political, economic and social conditions, hostile relations with neighbouring countries or conflicts based on ethnic, religious or racial reasons.

There is also the possibility of restrictions being imposed on foreign investors, expropriation of assets, confiscatory taxation, confiscation or nationalisation of foreign bank deposits or other assets, the introduction of currency controls or other detrimental developments which may adversely affect the success of investments in such countries. Such adverse effects can, under certain circumstances, last for long periods of time, i.e. months or years. Each of these adverse effects may cause what is known as a market disrupt-

tion in relation to the Products and one of the results of this may be that during this period no prices will be quoted for the Products affected by the market disruption.

The small size and lack of experience on the securities markets in certain countries as well as the limited trading volume of securities can cause an underlying to be less liquid and/or considerably more volatile than underlyings in more established markets. It is possible that very little financial information is available on local issuers, which can make it difficult to assess the value of and/or prospects of the underlying.

In addition, if the underlyings of the Products are quoted in local currency, i.e. not hedged against the euro, there is an increased foreign exchange risk. Experience shows that the currency exchange rates in emerging markets are subject to particularly high fluctuations. This may result in a considerable negative performance of the Product, even though the performance of the underlying during the term of the Product has essentially remained unchanged or even risen. This may mean that some or all of the total performance of the underlying may be eroded by currency losses and that the performance of the underlying even may become negative.

Regulation and reform of "benchmarks", including LIBOR, EURIBOR and other interest rate, equity, commodity, foreign exchange rate and other types of benchmarks

Interbank Offered Rates (including the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**")) and other interest rates, equity, commodity, foreign exchange rate and other types of rates and indices which are deemed to be "benchmarks" are and/or will be the subject of ongoing national and international regulatory reform. Following any such reforms, benchmarks may perform differently than in the past or disappear entirely, or there could be other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Products linked to such a benchmark.

Key regulatory proposals and initiatives in this area include (amongst others) IOSCO's Principles for Financial Market Benchmarks (the "**IOSCO Benchmark Principles**"), the EU Regulation 2016/2011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"), and the transition proposed by the UK's Financial Conduct Authority (the "**FCA**"), away from LIBOR to one or more alternative benchmarks (each, as discussed below).

The IOSCO Benchmark Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering governance and accountability as well as the quality and transparency of benchmark design and methodologies. Subsequent implementation reviews have found that widespread efforts are being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed. However, the reviews also note that, as the "benchmarks industry" is in a state of flux, IOSCO may need to take further steps in the future - although it is not yet clear what these steps might be. On 16 December 2016, IOSCO published a report setting out guidance to improve the consistency and quality of reporting on compliance with IOSCO Benchmark Principles.

The Benchmark Regulation entered into force in June 2016 and became fully applicable in the EU on 1 January 2018 (save that certain provisions, including those related to "critical benchmarks", took effect on 30 June 2016), subject to certain transitional provisions. The Benchmark Regulation applies to the contribution of input data to a "benchmark", the provision or administration of a "benchmark" and the use of a "benchmark" in the EU. Among other things, it (a) requires EU benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to the administration of "benchmarks" and (b) prohibits certain uses by EU supervised entities of "benchmarks" provided by EU administrators which are not authorised or registered in accordance with the Benchmark Regulation (or, if located outside of the EU, deemed equivalent or recognised or endorsed). The scope of the Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices such as EURIBOR, applies to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices. This will include "proprietary" indices or strategies where these are used to (i) determine the amount payable under, or the value of, certain financial instruments (including securities or OTC derivatives listed on an EU regulated market, EU multilateral trading facility (MTF), EU organised trading facility (OTF) or "traded via a systematic internaliser"), (ii) determine the amount payable under certain financial contracts, or (iii) measure the performance of an investment fund.

The Benchmark Regulation could have a material impact on Products linked to a "benchmark". For example:

- a rate or index which is a "benchmark" may not be used in certain ways by an EU supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration or, if a non-EU entity, "equivalence" is not available and it is not recognised (this is referred to as an "Administrator/Benchmark Event"), then the Products may be redeemed prior to maturity;
- if the Reference Asset is a benchmark under the Benchmark Regulation and it would be unlawful or contradictory to any applicable licensing requirements for the Calculation Agent to determine the level or other value of such Reference Asset or make any other determination in respect of the Products which it would otherwise be obliged to do so pursuant to the Conditions, then the Products may be redeemed prior to maturity; and
- the methodology or other terms of the benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and (depending on the terms of the particular Products) could lead to adjustments to the terms of the Products, including potentially determination by the Calculation Agent of the rate or level in its reasonable discretion.

In a speech in July 2017, the Chief Executive of the FCA committed the FCA to begin planning a transition away from LIBOR to alternative reference rates that are based on actual transactions, such as SONIA (the Sterling Over Night Index Average). The speech envisaged the current LIBOR arrangements continu-

ing until at least the end of 2021. The Bank of England's Working Group on Sterling Risk-Free Reference Rates has been considering risk free rates for use as alternatives to LIBOR and has chosen a reformed Sterling Overnight Index Average ("**SONIA**"). The reforms to SONIA became effective on 23 April 2018 and it is expected that there will be a transition to SONIA over the next four years across sterling bond, loan and derivatives related markets, so that SONIA is established as the primary sterling interest rate benchmark by end 2021.

Ongoing international and/or national reform initiatives and the increased regulatory scrutiny of benchmarks generally could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any applicable regulations or requirements. Such factors may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the rules or methodologies used in respect of benchmarks, and/or lead to the disappearance of benchmarks, including LIBOR. This could result in (i) adjustments to the terms and conditions and/or early redemption provisions and/or provisions relating to discretionary valuation by the Calculation Agent, (ii) delisting, and/or (iii) other consequences for Products linked to any such benchmarks. Any such consequence could have a material adverse effect on the value of and return on any such Products.

5. **Risk factors associated with conflicts of interest**

Conflicts of interest related to the underlying

The Issuer and other companies in the Group deal in the underlyings or in components of the underlying or in options or futures contracts relating to the underlyings or components thereof in their normal course of business and from time to time may participate in transactions connected to the Products for their own account or on behalf of others. The Issuer and other companies in the Group can also hold interests in individual underlyings or in the companies contained in these underlyings, meaning that conflicts of interest can arise in connection with the Products.

Conflicts of interest related to the performance of another function

Furthermore, the Issuer and other companies in the Group can, in addition, exercise another function in relation to the underlying or components thereof, such as issuing agent, calculation agent, paying agent and/or administrative agent. Therefore, there can be conflicts of interest regarding the duties when determining the prices of the Products and other determinations related thereto among the relevant companies in the Group and between the companies and the investors. Furthermore, the Issuer and other companies in the Group may act as members of a consortium, financial advisor or commercial bank in connection with future offers of the underlying or components thereof; activities of this kind can also entail conflicts of interest and affect the value of the Products.

Conflicts of interest related to the performance of hedging transactions

The Issuer can use parts or all of the proceeds from the sale of the Products for hedging transactions. These hedging transactions can influence the price of the underlyings or the components of the underlying that is determined on the market.

Conflicts of interest related to the issuance of additional derivative products

The Issuer and other companies in Group can issue additional derivative products in relation to the underlying or components of the underlying, including those that have the same or similar features as the Products. The introduction of products that are in competition with the Products can have an impact on the price of the underlying or components of the underlying and therefore have an impact on the price of the Products.

Conflicts of interest related to information specific to the Underlying

The Issuer and other companies in the Group can receive non-public information regarding the underlying or components of the underlying, but are not obliged to pass such information on to the Holders. Furthermore, companies in the Group can publish research reports on the underlying or components of the underlying. Activities such as those mentioned can give rise to specific conflicts of interest and therefore have an impact on the value of the Products.

Conflicts of interest related to the determination of the selling price of the Products and commission payments

The selling price of the Products, where appropriate in addition to fixed issue surcharges, management fees or other fees, may contain surcharges that are not transparent to the investor on the initial mathematical "fair" value of the Products (the "**margin**"). This margin will be determined by the Issuer in its sole discretion and can differ from surcharges that other issuers impose on comparable Products.

It should be noted that the selling price of the Products may contain commission which is charged by the Lead Manager for the issue or which is passed on to distribution partners as payment for distribution services. This may give rise to a difference between the fair value of the Product and the bid and offer prices quoted by the Market Maker. Any commission contained in the Products affects the investor's potential rate of return. Furthermore, it should be noted that conflicts of interest detrimental to the investor may arise due to payment of such commission to distribution partners, since it could create an incentive for the partner to sell its customers products with higher commission. Therefore, we recommend that you ask your principal bank or financial advisor about such conflicts of interest.

Conflicts of interest related to Market Making for the Products

It is intended that under normal market conditions the Lead Manager or, if applicable, a third party will regularly quote bid and offer prices for each issue of Products. However, no legal obligations are assumed with respect to the amount or the realisation of such quotations. It should be noted that it may not be possible to sell the Products during their term at a particular point in time or at a particular price.

Furthermore it should be taken into account that the bid and offer prices for the Products quoted by the Lead Manager or a third party (the "**Market Maker**"), if applicable, will be calculated on the basis of the standard price models for the sector that are used by the Market Maker and other traders and which determine the fair value of the Products by taking into account various factors influencing prices.

Such circumstances on which the Market Maker bases its determination of the bid and offer prices on the secondary market include, in particular, the fair value of the Products, which among other things depends on the value of the underlying and the spread between bid and offer prices desired by the Market Maker. In addition, an issue surcharge that is originally imposed on the Products and any fees or costs that are deducted from the redemption amount at maturity, such as commission, administrative fees, transaction costs or comparable costs, will generally be considered. Furthermore, the margin contained in the selling price of the Products, for example, has an impact on pricing in the secondary market (see also "Conflicts of interest related to the determination of the selling price of the Products and commission payments" in Section II.5 of the Base Prospectus) or other returns, such as paid or expected dividends or any other returns on the Underlying or its components if the Issuer is entitled to these due to the features of the Products.

The spread between bid and offer prices is set by the Market Maker based on supply and demand for the Products and yield considerations.

Certain costs such as any administrative fees charged are often during pricing not spread equally over the term of the Products (*pro rata temporis*), thereby reducing the price, but instead are deducted in full from the fair value of the Products at an earlier point in time determined at the discretion of the Market Maker. The same applies for the margin, if any, contained in the selling price of the Products as well as for dividends and other returns on the underlying if the Issuer is entitled to these due to the features of the Products. These are often not only deducted from the price when the underlying or its components are traded "ex dividend", but are deducted at an earlier point during the term on the basis of the expected dividends for the whole term or a particular period. The speed of the deduction depends among other things on the amount of any net return flow from the Products to the Market Maker. The prices quoted by the Market Maker can therefore deviate considerably from the fair value or value of the Products to be expected based on the above mentioned factors at the relevant point in time. Furthermore, the Market Maker can change the methodology by which the prices are determined at any time, e.g. by increasing or decreasing the spread. The result of such deviation from the fair value of the Products can be that bid and offer prices quoted by other traders for the Products deviate significantly (both up-wards and downwards) from the prices quoted by the Market Maker.

Interests of third parties involved in the issue

The Issuer can involve cooperation partners and external advisors in the issuance of Products, e.g. in the composition and adjustment of a basket or index. It is possible that such cooperation partners and advisors may pursue their own interests in the course of an issuance by the Issuer and when providing their associated advice. A conflict of interest of advisors may mean that they make an investment decision or suggestion in their own interest rather than in the interest of the investors.

III. INFORMATION ABOUT THE ISSUER

Information that is required to be disclosed in relation to the Issuer is contained in the Registration Document of Leonteq Securities AG dated 8 April 2019 (the „**Registration Document**“), which has been filed with the Competent Authority. The information about the Issuer contained in the Registration Document is herewith incorporated into this Base Prospectus by reference pursuant to Section 11 of the WpPG (see also section „X. Documents Incorporated by Reference“ of the Base Prospectus). As of 14 January 2019 the Issuer has been assigned a long-term issuer default rating (IDR) of BBB - (outlook: positive) and a short-term IDR of F3 by Fitch Ratings Limited. In addition thereto, as of 10 May 2019 the Issuer has been assigned a Foreign Currency Long-term Issuer Rating of BBB+ (outlook: stable) by Japan Credit Rating Agency, Ltd.

IV. INFORMATION ABOUT THE PRODUCTS

The following information relating to the Products will be specified and/or completed by the information contained in the applicable Final Terms which are applicable to the respective issuance. The Base Prospectus provides for the preparation of Final Terms in the following two scenarios:

(i) start of a new offer of Products; and

(ii) increase of issue size of Products already issued under this Base Prospectus or under the Base Prospectus dated 27 June 2018 or under the Base Prospectus dated 29 June 2017 or under the Base Prospectus dated 29 June 2016.

1. General information about the Products

(a) *Interest of individuals or legal entities involved in the issue*

Conflicts of interest related to the underlying

The Issuer and other companies in the Group deal in the underlyings or in components of the underlying or in options or futures contracts relating to the underlyings or components thereof in their normal course of business and from time to time may participate in transactions connected to the Products for their own account or on behalf of others. The Issuer and other companies in the Group can also hold interests in individual underlyings or in the companies contained in these underlyings, meaning that conflicts of interest can arise in connection with the Products.

Conflicts of interest related to the performance of another function

Furthermore, the Issuer and other companies in the Group can, in addition, exercise another function in relation to the underlying or components thereof, such as issuing agent, calculation agent, paying agent and/or administrative agent. Therefore, there can be conflicts of interest regarding the duties when determining the prices of the Products and other determinations related thereto among the relevant companies in the Group and between the companies and the investors. Furthermore, the Issuer and other companies in the Group may act as members of a consortium, financial advisor or commercial bank in connection with future offers of the underlying or components thereof; activities of this kind can also entail conflicts of interest and affect the value of the Products.

Conflicts of interest related to the performance of hedging transactions

The Issuer can use parts or all of the proceeds from the sale of the Products for hedging transactions. These hedging transactions can influence the price of the underlyings or the components of the underlying that is determined on the market.

Conflicts of interest related to the issuance of additional derivative products

The Issuer and other companies in Group can issue additional derivative products in relation to the underlying or components of the underlying, including those that have the same or similar features as the Prod-

ucts. The introduction of products that are in competition with the Products can have an impact on the price of the underlying or components of the underlying and therefore have an impact on the price of the Products.

Conflicts of interest related to information specific to the Underlying

The Issuer and other companies in the Group can receive non-public information regarding the underlying or components of the underlying, but are not obliged to pass such information on to the Holders. Furthermore, companies in the Group can publish research reports on the underlying or components of the underlying. Activities such as those mentioned can give rise to specific conflicts of interest and therefore have an impact on the value of the Products.

Conflicts of interest related to the determination of the selling price of the Products and commission payments

The selling price of the Products, where appropriate in addition to fixed issue surcharges, management fees or other fees, may contain surcharges that are not transparent to the investor on the initial mathematical "fair" value of the Products (the "**margin**"). This margin will be determined by the Issuer in its sole discretion and can differ from surcharges that other issuers impose on comparable Products.

It should be noted that the selling price of the Products may contain commission which is charged by the Lead Manager for the issue or which is passed on to distribution partners as payment for distribution services. This may give rise to a difference between the fair value of the Product and the bid and offer prices quoted by the Market Maker. Any commission contained in the Products affects the investor's potential rate of return. Furthermore, it should be noted that conflicts of interest detrimental to the investor may arise due to payment of such commission to distribution partners, since it could create an incentive for the partner to sell its customers products with higher commission. Therefore, we recommend that you ask your principal bank or financial advisor about such conflicts of interest.

Conflicts of interest related to Market Making for the Products

It is intended that under normal market conditions the Lead Manager or, if applicable, a third party will regularly quote bid and offer prices for each issue of Products. However, no legal obligations are assumed with respect to the amount or the realisation of such quotations. It should be noted that it may not be possible to sell the Products during their term at a particular point in time or at a particular price.

Furthermore it should be taken into account that the bid and offer prices for the Products quoted by the Lead Manager or a third party (the "**Market Maker**"), if applicable, will be calculated on the basis of the standard price models for the sector that are used by the Market Maker and other traders and which determine the fair value of the Products by taking into account various factors influencing prices.

Such circumstances on which the Market Maker bases its determination of the bid and offer prices on the secondary market include, in particular, the fair value of the Products, which among other things depends on the value of the underlying and the spread between bid and offer prices desired by the Market Maker.

IV. INFORMATION ABOUT THE PRODUCTS

In addition, an issue surcharge that is originally imposed on the Products and any fees or costs that are deducted from the redemption amount at maturity, such as commission, administrative fees, transaction costs or comparable costs, will generally be considered. Furthermore, the margin contained in the selling price of the Products, for example, has an impact on pricing in the secondary market (see also "Conflicts of interest related to the determination of the selling price of the Products and commission payments" in Section II.5 of the Base Prospectus) or other returns, such as paid or expected dividends or any other returns on the Underlying or its components if the Issuer is entitled to these due to the features of the Products.

The spread between bid and offer prices is set by the Market Maker based on supply and demand for the Products and yield considerations.

Certain costs such as any administrative fees charged are often during pricing not spread equally over the term of the Products (*pro rata temporis*), thereby reducing the price, but instead are deducted in full from the fair value of the Products at an earlier point in time determined at the discretion of the Market Maker. The same applies for the margin, if any, contained in the selling price of the Products as well as for dividends and other returns on the underlying if the Issuer is entitled to these due to the features of the Products. These are often not only deducted from the price when the underlying or its components are traded "ex dividend", but are deducted at an earlier point during the term on the basis of the expected dividends for the whole term or a particular period. The speed of the deduction depends among other things on the amount of any net return flow from the Products to the Market Maker. The prices quoted by the Market Maker can therefore deviate considerably from the fair value or value of the Products to be expected based on the above mentioned factors at the relevant point in time. Furthermore, the Market Maker can change the methodology by which the prices are determined at any time, e.g. by increasing or decreasing the spread. The result of such deviation from the fair value of the Products can be that bid and offer prices quoted by other traders for the Products deviate significantly (both up-wards and downwards) from the prices quoted by the Market Maker.

Interests of third parties involved in the issue

The Issuer can involve cooperation partners and external advisors in the issuance of Products, e.g. in the composition and adjustment of a basket or index. It is possible that such cooperation partners and advisors may pursue their own interests in the course of an issuance by the Issuer and when providing their associated advice. A conflict of interest of advisors may mean that they make an investment decision or suggestion in their own interest rather than in the interest of the investors.

Additional product-specific interests (including conflicting ones) of individuals or legal entities involved in the issue are set out, if relevant, in the applicable Final Terms under "Interests of natural and legal persons involved in the issue/offer" under "Part II - Additional Information".

(b) Description of the Products

The Products are derivative instruments. The amount due at maturity of a Product is dependent on the value of the underlying at the corresponding time. The Products may be linked to Shares, Participation Certificates (*Genussscheine*), Indices, Securities representing shares, Currency Exchange Rates, Commodities, Futures Contracts, Shares in a Fund, Fixed Rate Instruments, Derivative Instruments, Interest Rates and/or Reference Rates or baskets thereof. Any such underlying or component of the basket may constitute a benchmark for the purposes of the Benchmarks Regulation (Regulation (EU) 2016/1011) (the "**Benchmark Regulation**"). If any such underlying and/or component of the basket does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to article 36 of the Benchmark Regulation. Not every underlying and/or component of a basket will fall within the scope of the Benchmark Regulation. Furthermore, transitional provisions in the Benchmark Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable Final Terms. The registration status of any administrator under the Benchmark Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Final Terms to reflect any change in the registration status of an administrator.

A description and the source of information regarding information about the past and the future performance and volatility of the Underlying and/or Basket Components is specified under "Information relating to the Underlying" in the applicable Final Terms.

In case of an index and if such index is provided by a legal entity or a natural person acting in association with, or on behalf of, the respective Issuer the respective Issuer makes the following statements:

- the complete set of rules of the index and information on the performance of the index are freely accessible on the Issuer's or the Index Sponsor's website; and
- the governing rules (including methodology of the index for the selection and the rebalancing of the components of the index, description of market disruption events and adjustment rules) are based on predetermined and objective criteria.

The relevant German securities identification number (WKN) and/or the International Securities Identification Number (ISIN) and/or the Valor Number or any other relevant identification number as well as the SIX Symbol of a Product are specified in Table 1 of the annex to the Issue Specific Conditions in the applicable Final Terms.

The Issuer may issue the products under this Base Prospectus – depending on the respective market conditions and requests from sales partners - without collateral security or with collateral security in the form of a COSI securitization (for details of COSI securitization see section IV.3 below of the Base Prospectus) or TCM securitization (for details of TCM securitizations see section IV.4 below of the Base Pro-

IV. INFORMATION ABOUT THE PRODUCTS

spectus). The final terms will indicate whether COSI or TCM applies to a particular product, or whether neither COSI nor TCM applies.

The key differences between COSI and TCM collateralisation include the following:

	COSI securitization	TCM securitization
Collateralisation basis	Collateral is provided on the basis of the terms of a framework agreement published by SIX Swiss Exchange AG; collateral is provided for all COSI Secured Products in their entirety	Collateral is provided on the basis of a specific TCM Security Agreement of the Issuer with SIX SIS AG and SIX Repo AG (as direct representative of the investors); each product is collateralized individually
Term	COSI collateralisation possible for products with a maturity of up to 10 years	TCM collateralisation possible for products with a maturity of up to 5 years and, for products with no maturity limit, with a notice period of 5 years or less
Trading on the stock exchange	COSI collateralisation only for products listed on SIX Swiss Exchange AG	TCM collateralisation only for products not listed on a regulated market
Calculation of collateral value	Independent valuation of the product and lien by SIX Swiss Exchange AG	The product is valued by the Issuer or the Calculation Agent and the valuation of the lien is carried out by SIX SIS AG
Eligible collateral	A definitive list of eligible collateral is contained in the framework agreement	A binding list of eligible collateral is contained in the TCM Security Agreement
Realisation event and payment	Realisation Events are defined in the framework agreement; occurrence of a Realisation Event results in all of the Issuer's COSI products automatically becoming due and payable; the proceeds of the liquidation are paid out to investors by SIX Swiss Ex-	The Security Agreement defines the possible Realisation Events; occurrence of a Realisation Event triggers liquidation of the relevant TCM Secured Product; payment of the liquidation proceeds to the holder of the TCM Secured Product is made by the

IV. INFORMATION ABOUT THE PRODUCTS

	change AG	Collateral Agent acting under the TCM Security Agreement as the direct representative of the holder of the TCM Secured Product
--	-----------	--

(c) *Applicable law*

The form and content of the Products and the rights and duties of the Issuer and the Holders (also referred to as "investor") will be governed by German law or Swiss law, as set out for each series of Products in the applicable Final Terms.

(d) *Currency of the Products*

The Settlement Currency of the issue is set out in Table 1 of the annex to the Issue Specific Conditions in the applicable Final Terms.

(e) *Form, delivery*

In the case of **Swiss law** as applicable law it has to be distinguished between the following cases:

(i) In the case of uncertificated securities the Products are issued during their term as uncertificated securities (*Wertrechte*) (the "**Uncertificated Securities**") created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*). Once the uncertificated securities are registered in the main register (*Hauptregister*) of the Custody Agent (*Verwahrungsstelle*) and entered into one or more securities accounts, the Products constitute intermediated securities (*Bucheffekten*) in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*). Intermediated securities may only be disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by the entry of the transferred Products in a securities account of the transferee. Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (Dauerglobalurkunde) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

(ii) In the case of a Permanent Global Note kept in custody by Clearstream Banking AG, Frankfurt am Main, Mergenthalerallee 61, 65760 Eschborn, Germany ("**CBF**") or by Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium ("**Euroclear**") the Products are represented during their term by a Permanent Global Note which is kept in custody by or on

IV. INFORMATION ABOUT THE PRODUCTS

behalf of the Clearing System. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions.

(iii) In the case of a Permanent Global Note kept in custody by SIX SIS AG, Pfingstweidstrasse 110, 8021 Zurich, Switzerland or any other custody agent according to Swiss Federal Intermediated Securities Act the Products are represented during their term by a permanent global note (*Dauerglobalurkunde*) which is deposited with the Custody Agent and entered into one or more securities accounts. Once entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Intermediated securities may be only disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities. Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*).

In the case of intermediated securities irrespective of whether created based on a Permanent Global Note or uncertificated securities the records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Security Papers may only be printed for the Products, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful. Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Security Papers shall be delivered to the Holders only against cancellation of the Intermediated Securities in the Holder's securities accounts.

IV. INFORMATION ABOUT THE PRODUCTS

Via the account relation of a Swiss custody agent with foreign central custodians (*Zentralverwahrer*), it is secured that in case of an offering in Germany with Clearstream Banking AG, Frankfurt the Products will be fungible for investors outside Switzerland.

In the case of **German law** as governing law the Products are bearer notes. The Products are represented by a Permanent Global Note or, if provided for in the applicable Final Terms, by a Temporary Global Note which is exchangeable against a Permanent Global Note.

In the case of a Permanent Global Note kept in custody by Clearstream Banking AG, Frankfurt am Main, Mergenthalerallee 61, 65760 Eschborn, Germany ("CBF"), or by Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium ("**Euroclear**") the Permanent Global Note is kept in custody during the term of the Products by or on behalf of the Clearing System. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests or rights, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and applicable law.

If provided for in the applicable Final Terms, the Products are represented by a temporary global note (the "**Temporary Global Note**") at the time of issuance, which will be exchangeable for a permanent global note the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") against certification of non-U.S. beneficial ownership. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interest, an economic ownership right or similar right in the Global Note which are transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.

In the case of a Permanent Global Note kept in custody by SIX SIS AG, Pfingstweidstrasse 110, 8021 Zurich, Switzerland or any other custody agent according to Swiss Federal Intermediated Securities Act, the Permanent Global Note is kept in custody by the Custody Agent. As soon as the Permanent Global Note has been deposited with the Custody Agent pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities (*Bucheffekten*) pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). For as long as the Permanent Global Note is deposited with the Custody Agent, the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act, i.e. by crediting the Products to be transferred in a securities account of the recipient. The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For Products which constitute intermediated securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products.

(f) *Description of the rights attached to the Products and consequences of market disruptions*

The right to demand payment of the Redemption Amount and/or delivery under the Products is specified in § 4 of the Issue Specific Conditions.

Any consequences of market disruptions are specified in the Underlying Specific Conditions.

Any consequences of adjustments are specified in the Underlying Specific Conditions.

(g) *Ranking of the Products*

The ranking of the Products is set out in § 2 of the Issue Specific Conditions.

In the case of COSI (*Collateral Secured Instruments – Pfandbesicherte Produkte*) or TCM (*Triparty Collateral Management - TCM secured structured Products*) the Products are collateralised pursuant to the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.

In the case of Products that are not collateralized, i.e. in the case of Products for which COSI is not applicable, the Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.

(h) *Resolutions in respect of the issue of the Products*

An internal general resolution on the issue of Products under the European Programme was passed by the Issuer on 18 April 2012. No further authorisations are required in relation to the individual issues.

(i) *Use of proceeds from the sale of the Products*

The proceeds from the sale of the Products are used for hedging the payment obligations arising from the issue of the Products and for the purposes of the Issuer's ordinary business activities.

(j) *Conditions of the offer, issue price, issue date, commissions and valuation*

Leonteq Securities AG, Europaallee 39, 8004 Zurich, Switzerland will be acting as Lead Manager (the "**Lead Manager**") with respect to the Products issued under the European Programme.

The start of the public offering of the Products, any applicable subscription period, the description of the subscription process, manner and date in which results of the offer are to be made public, the Minimum Investment Amount, the Maximum Investment Amount, the Issue Price (as well as any further costs in addition to the Issue Price (plus a surcharge, if applicable) or the purchase price charged to the investor by

IV. INFORMATION ABOUT THE PRODUCTS

the Issuer or the Lead Manager), the Issue Date and the Issue Size will be specified in the applicable Final Terms. In the case of Products with a subscription period the Issuer reserves the right to end the subscription period prematurely or, as the case may be, to extend it. It is not obliged to accept subscription orders. Partial allocations are possible (in particular in the event of oversubscription). The Issuer is not obliged to issue subscribed Products. If the subscription period is ended early or, as the case may be, is extended or if no issue takes place, the Issuer shall publish a notice.

The Issue Price and the selling prices quoted on the secondary market may include commissions paid to distribution partners from the proceeds of the issue as payment for distribution services. Any commission may be based on turnover and may be paid as a one-off payment or on a pro-rata basis over the term of the Products. A distinction is to be made between sales commission and trailer fees. Sales commission is paid as a one-off payment from the proceeds of the issue; alternatively, the Lead Manager grants the distribution partner a corresponding discount on the Issue Price (including any agio) or the selling price quoted in the secondary market. Trailer fees shall be paid to the distribution partners periodically, for example from the Management Fee, based on the portfolio.

Depending on its value, the commission can be a) relevant fees ("**Relevant Fees**") of up to 2% p.a. of the Issue Price, b) significant fees ("**Significant Fees**") of up to 3.5% p.a. of the Issue Price or c) substantial fees ("**Substantial Fees**") of more than 3.5% p.a. of the Issue Price.

The applicable Final Terms will stipulate whether Relevant Fees, Significant Fees or Substantial Fees will be paid to distribution partners or whether no commissions will be paid for a Product.

The selling prices are in addition to the costs and fees charged to the investor by its bank or financial services provider. The initial settlement date shall be the Issue Date shown in the applicable Final Terms. No specific method of delivery has been stipulated for the Products.

If relevant, information about the entities agreeing to underwrite the issue, the date of underwriting agreement and the name and the address of financial intermediaries may be set out in "Part II – Additional Information" in the applicable Final Terms.

(k) Pricing of the Products and factors influencing the price of the Products

The Issue Price of the Products is set by the Issuer by taking into account several price relevant factors, including the price of the Underlying, the current interest rate, anticipated dividends and other product-specific criteria. Furthermore, the Issue Price may include an issue premium which is intended to cover commissions for the Issuer or other ancillary costs arising in connection with the issue and hedging of the respective Products. The Issue Price is set out in the applicable Final Terms, and any further prices of the Products are determined at the Issuer's reasonable discretion according to market conditions.

Any costs and disbursements incurred by a Holder in connection with a secondary purchase of the Products are beyond the control of the Issuer.

IV. INFORMATION ABOUT THE PRODUCTS

(l) Listing and trading

The Issuer may introduce or apply for admission of the Products to one or more stock exchange(s) (e.g. to the SIX Swiss Exchange or to the Open Market of the Frankfurt Stock Exchange) or multilateral trading system(s) or unregulated market(s). However, the Issuer and the Lead Manager do not assume any legal obligation in respect of the realisation of admission to trading on an exchange as at the Scheduled First Trading Day specified in the applicable Final Terms or the maintenance of any admission to trading that is realised. An admission to trading on a regulated market is not intended.

The Issuer may also issue Products which are not admitted to trading or listed on any market.

Products of the same class may have been admitted to trading on the same or another market already.

Information in relation to an intended listing and the intended first trading date will be set out in the applicable Final Terms. Furthermore, information concerning a public offer attaching to the issue of the Products will be set out in the applicable Final Terms, if any.

Bid and offer prices for the Products on the secondary market shall be quoted on each day of trading during the quoting period as specified in the applicable Final Terms under normal market conditions by the Market Maker and pursuant to the exchange rules and regulations. Information about the relevant market maket and the secondary market will be set out in the applicable Final Terms.

(m) Publication of post-issuance information

Unless otherwise specified in the applicable Final Terms, the Issuer does not intend to publish any post-issuance information with the exception of the notices referred to in the Terms and Conditions.

(n) Continuation of the public offer and increases of Products

Under this Base Prospectus the public offer is being continued for the following Products which have been originally issued under the respective base prospectus specified below and/or for which the public offer was lastly continued under Base Prospectus dated 27 June 2018.

The Final Terms in relation to the Products mentioned above are published on the website www.leonteq.com (under "Our Services" – "Investment Solutions" – "Structured Products" – on the relevant product site – retrievable by the relevant securities identification number for the Product in the search field).

For the purpose of the continuation of the public offer the Form of Final Terms of the Base Prospectus dated 29 June 2016 and the Form of Final Terms of the Base Prospectus dated 29 June 2017 and the Form of Final Terms of the Base Prospectus dated 27 June 2018 are incorporated by reference into this Base Prospectus (see also section "X. Documents Incorporated by Reference" of the Base Prospectus).

In addition, under this Base Prospectus Final Terms may be prepared in order to increase the issue size of Products, which have been issued under this Base Prospectus, the Base Prospectus dated 29 June 2016 or the Base Prospectus dated 29 June 2017 or the Base Prospectus dated 27 June 2018.

The Terms and Conditions, consisting of the Issue Specific Conditions and the General Conditions, contained in the Base Prospectus dated 29 June 2016 and the Terms and Conditions, consisting of the Issue Specific Conditions and the General Conditions, contained in the Base Prospectus dated 29 June 2016 and the Terms and Conditions, consisting of the Issue Specific Conditions and the General Conditions, contained in the Base Prospectus dated 27 June 2018 (each the "**First Base Prospectus**") are incorporated by reference into this Base Prospectus dated 18 June 2019 in accordance with section 11 WpPG (see also section "X. Documents Incorporated by Reference" of the Base Prospectus).

In the case of a continuation of a public offer of Products which have been initially offered to the public under the First Base Prospectus or in case of an increase of Products issued under the First Base Prospectus, the Terms and Conditions of the First Base Prospectus apply instead of the Terms and Conditions of this Base Prospectus dated 18 June 2019.

2. **Explanation of mechanism of Products**

Product No. 1. Explanation of mechanism of Bonus Certificates with Cash Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency, the amount of which depends on the performance of the Underlying.

(i) If no Barrier Event occurs, the Redemption Amount (that will, if provided for in the applicable Final Terms, take also into account the performance of the relevant exchange rate) equals the Final Fixing Level taking into account the Conversion Ratio or, if provided for in the Final Terms the Issue Price taking into account the performance of the Underlying or, if provided for in the Final Terms, the Issue Price multiplied by the quotient of the Final Basket Value and the Initial Basket Value. However, the Redemption Amount equals at least the Minimum Redemption Amount (which is equal to the Bonus Level multiplied by the Conversion Ratio or the Issue Price or the Denomination, as the case may be), if no Barrier Event has occurred and, if provided for in the Final Terms, the Final Basket Value is equal to or below the Initial Basket Value multiplied by the Bonus Level.

(ii) If a Barrier Event has occurred, the Redemption Amount (that will, if provided for in the applicable Final Terms, take also into account the performance of the relevant exchange rate) is no longer at least equal to the Minimum Redemption Amount, but is always equal to the Final Fixing Level taking into account the Conversion Ratio or, if provided for in the Final Terms, the Issue Price taking into account the performance of the Underlying or, if provided for in the Final Terms, the Issue Price multiplied by the quotient of the Final Basket Value and the Initial Basket Value. In this case the Holder participates 1:1 in the performance of the Underlying.

If provided for in the applicable Final Terms the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The applicable Final Terms may also provide for a determination of the Redemption Amount as follows:

(i) Provided that no Barrier Event has occurred the Redemption Amount is determined as follows (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms):

(a) If the Final Fixing Level of the Underlying or the Final Fixing Level of the worst and/or best performing Basket Component or the Final Basket Value is equal to or below the Initial Fixing

Level of the Underlying multiplied by the Bonus Level or the Final Fixing Level of worst and/or best performing Basket Component multiplied by the Bonus Level or the Initial Basket Value multiplied by the Bonus Level, the Redemption Amount equals the Bonus Level multiplied by the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price (the "**Minimum Redemption Amount**").

(b) If the Final Fixing Level of the Underlying or the Final Fixing Level of the worst and/or best performing Basket Component or the Final Basket Value is above the Initial Fixing Level of the Underlying multiplied by the Bonus Level or the Final Fixing Level of worst and/or best performing Basket Component multiplied by the Bonus Level or the Initial Basket Value multiplied by the Bonus Level, the Redemption Amount equals the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the sum of (A) the Bonus Level and (B) the Participation Factor multiplied by the difference between (i) the performance of the Underlying or the performance of the worst and/or best performing Basket Component or the performance of the Basket and (ii) the Bonus Level.

(ii) If a Barrier Event has occurred the Redemption amount equals the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the performance of the Underlying, the performance of the worst and/or best performing Basket Component or the performance of the Basket (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

If provided for in the applicable Final Terms the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Bonus Level is a minimum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

The investors do not have any claim to or arising out of the Underlying (e.g. voting rights, dividends).

Product No. 2. Explanation of mechanism of Bonus Certificates with potential Physical Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency or the physical delivery of the Underlying depending on the performance of the Underlying.

(i) If (a) no Barrier Event occurs and (b) the Final Fixing Level is equal to or below the Initial Fixing Price multiplied by the Bonus Level, the Redemption Amount equals the Minimum Redemption Amount

(which is equal to the Bonus Level multiplied by the Issue Price and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate).

(ii) In all other cases the Holder receives delivery of a certain number of the Underlying expressed by the Conversion Ratio. Fractions of the Underlying are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

If provided for in the applicable Final Terms the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Bonus Level is a minimum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Product No. 3. Explanation of mechanism of Capped Bonus Certificates with Cash Settlement and with par value

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency, the amount of which depends on the performance of the Underlying.

(i) If (a) no Barrier Event occurs and (b) the Final Basket Value is equal to or below the Initial Basket Value multiplied by the Bonus Level, the Redemption Amount equals the Minimum Redemption Amount (which is equal to the Denomination multiplied by the Bonus Level and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate).

(ii) In all other cases the Redemption Amount equals the Denomination taking into account the performance of the Underlying, whereby the Redemption Amount does not exceed the Maximum Redemption Amount (which is equal to the Denomination multiplied by the Cap Level and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate).

If provided for in the applicable Final Terms the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Bonus Level is a minimum redemption factor as defined

in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Cap Level is a maximum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Product No. 4. Explanation of mechanism of Capped Bonus Certificates with Cash Settlement and without par value

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency, the amount of which depends on the performance of the Underlying and/or the Basket Components.

(i) If no Barrier Event occurs or, if provided for in the applicable Final Terms, a Barrier Event occurs and the Final Fixing Level of the Underlying or the Basket Component with the Worst Performance is above the Initial Fixing Level multiplied by the Bonus Level, the Redemption Amount equals the Minimum Redemption Amount (which is equal to the Issue Price multiplied by the Bonus Level and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate).

(ii) In all other cases the Redemption Amount equals the Issue Price taking into account the performance of the Underlying and/or the Basket Components, whereby the Redemption Amount does not exceed the Maximum Redemption Amount (which is equal to the Issue Price multiplied by the Cap Level) and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

If provided for in the applicable Final Terms the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Final Fixing Level is the closing price of the Underlying and/or the Basket Component at the end of the term of the Product or any other value of the Underlying and/or the Basket Components as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Bonus Level is a minimum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Cap Level is a maximum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

The investors do not have any claim to or arising out of the Underlying and/or the Basket Components (e.g. voting rights, dividends).

Product No. 5. Explanation of mechanism of Capped Bonus Certificates with potential Physical Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency or the physical delivery of the Underlying depending on the performance of the Underlying.

(i) If (a) no Barrier Event occurs or – if provided for in the Final Terms - (b) a Barrier Event occurs and the Final Fixing Level is above the Issue Price multiplied by the Bonus Level, the Redemption Amount equals the Minimum Redemption Amount (which is equal to the Bonus Level multiplied by the Issue Price and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate). The Redemption Amount does not exceed the Maximum Redemption Amount (which is equal to the Issue Price multiplied by the Cap Level and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate).

(ii) In all other cases the Holder receives delivery of a certain number of the Underlying expressed by the Conversion Ratio. Fractions of the Underlying are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

If provided for in the applicable Final Terms the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Bonus Level is a minimum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Cap Level is a maximum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Product No. 6. Explanation of mechanism of Notes (Reverse Convertibles) with Cash Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency, the amount of which depends on the performance of the Underlying.

(i) If the Final Fixing Level is above the Strike Level, the Holder receives the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. The Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, is the maximum amount that the Holder may receive as a Redemption Amount.

(ii) If the Final Fixing Level is equal to or below the Strike Level, the Holder receives a Redemption Amount in the amount of the Denomination taking into account the performance of the Underlying and, if provided for in the applicable Final Terms, taking also into account the performance of the relevant exchange rate. This amount is generally less than the Denomination.

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

A further feature of the Products is that the Holder receives a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on one or more Coupon Payment Dates specified in the Final Terms. The coupon payment is independent of the performance of the Underlying.

Product No. 7. Explanation of mechanism of Notes (Reverse Convertibles) with potential Physical Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency or the physical delivery of the Underlying depending on the performance of the Underlying.

(i) If the Final Fixing Level is above the Strike Level, the Holder receives the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate,. The Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, is the maximum amount that the Holder may receive as a Redemption Amount.

(ii) If the Final Fixing Level is equal to or below the Strike Level, the Holder receives a certain number of the Underlying expressed by the Conversion Ratio. Fractions of the Underlying are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions. This equivalent value of the delivered Underlyings is generally less than the Denomination.

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

A further feature of the Products is that the Holder receives a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on one or more Coupon Payment Dates specified in the Final Terms. The coupon payment is independent of the performance of the Underlying.

Product No. 8. Explanation of mechanism of Notes (Barrier Reverse Convertibles) with Cash Settlement

In the case of these Products the Holder receives a Redemption Amount in the Settlement Currency on the Redemption Date, determined as follows:

(i) If no Barrier Event has occurred or, if provided in the Final Terms, a Barrier Event has occurred and the Final Fixing Level is above the Initial Fixing Level, the Holder receives the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. The Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, is the maximum amount that the Holder may receive as a Redemption Amount.

(ii) In all other cases the Holder receives a Redemption Amount in the amount of the Denomination taking into account the performance of the Underlying and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate, or, in the case of a Basket as Underlying, of the Denomination taking into account the performance of the Basket Component with the worst performance and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier.

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

A further feature of the Product is that the Holder receives a coupon payment on one or more Coupon Payment Dates specified in the Final Terms. The coupon payment is independent of the performance of the Underlying. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

Product No. 9. Explanation of mechanism of Notes (Barrier Reverse Convertibles) with potential Physical Settlement

In the case of these Products the Holder receives a settlement amount in the Settlement Currency (cash amount or delivery of the Underlying) on the Redemption Date, determined as follows:

(i) If no Barrier Event has occurred or, if provided for in the Final Terms, a Barrier Event has occurred and the Final Fixing Level is above the Initial Fixing Level the Holder receives the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. The

Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, is the maximum amount that the Holder may receive as a Redemption Amount.

(ii) In all other cases, the Holder receives delivery of a certain number of the Underlying or, in the case of a Basket as Underlying, of the Basket Component with the Worst Performance, expressed by the Conversion Ratio. Fractions of the Underlying or the Basket Component are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Final Fixing Level is the closing price of the Underlying and/or the respective Basket Component at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

A further feature of the Product is that the Holder receives a coupon payment on one or more Coupon Payment Dates specified in the Final Terms. The coupon payment is independent of the performance of the Underlying. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

Product No. 10. Explanation of mechanism of Discount Certificates with Cash Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency, the amount of which depends on the performance of the Underlying.

(i) If the Final Fixing Level is equal to or below the Cap Level, the Redemption Amount equals the Final Fixing Level taking into account the Conversion Ratio, if provided for in the applicable Final Terms, the performance of the relevant exchange rate.

(ii) If the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Maximum Redemption Amount (which is equal to the Cap Level taking into account the Conversion Ratio and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate).

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Cap Level is a maximum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Investors do not have any claim to or arising out of the Underlying (e.g. voting rights, dividends).

Product No. 11. Explanation of mechanism of Discount Certificates with potential Physical Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount in the Settlement Currency or a certain number of the Underlying depending on the performance of the Underlying.

(i) If the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Maximum Redemption Amount (which is equal to the Cap Level taking into account the Conversion Ratio and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate).

(ii) If the Final Fixing Level is equal to or below the Cap Level, the Holder receives delivery of a certain number of the Underlying expressed by the Conversion Ratio. Fractions of the Underlying are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Cap Level is a maximum redemption factor as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Product No. 12. Explanation of mechanism of Express Certificates with Cash Settlement and without par value

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount in the Settlement Currency equals the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, plus, if provided for in the applicable Final Terms, the Early Redemption Coupon Amount allocated to the Autocall Observation Date on which the Autocall Event has occurred, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. If provided for in the applicable Final Terms, the Redemption Amount may also be equal to the Issue Price multiplied by the performance of the Basket on the relevant Autocall Observation Date, whereby the Redemption Amount in this case will not be lower than the Minimum Early Redemption Amount specified in the applicable Final Terms (if provided for in the applicable Final Terms, the result will be multiplied by the performance of the relevant exchange rate).

An Autocall Event occurs if on an Autocall Observation Date the Reference Price exceeds the Autocall Trigger Level or, in the case of a Basket as Underlying, if the Reference Prices of the relevant Basket Components exceed the Autocall Trigger Level.

IV. INFORMATION ABOUT THE PRODUCTS

If an early redemption does not occur, the performance of the Underlying and/or the Basket Components, if provided for in the applicable Final Terms, above the Strike Level, determines the level of the Redemption Amount:

If provided for in the applicable Final Terms, the Redemption Amount equals the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, and further multiplied the performance of the Underlying or, if provided for in the applicable Final Terms, the development of the Basket Component with the worst performance if a Barrier Event has occurred, whereby, if provided for in the applicable Final Terms, the result will equal at least the Issue Price multiplied by the Minimum Redemption Factor. If no Barrier Event has occurred the Redemption Amount is determined as follows: (i) If the Final Fixing Level is equal to or below the Initial Fixing Level, the Redemption Amount equals the Issue Price and/or the Reference Amount multiplied by the difference between 200 % and the performance of the Underlying or, if provided for in the applicable Final Terms, the development of the Basket Component with the worst performance, in each case, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. (ii) If the Final Fixing Level is above the Initial Fixing Level, the Redemption Amount equals the Issue Price and/or the Reference Amount multiplied by the performance of the Underlying or, if provided for in the applicable Final Terms, the development of the Basket Component with the worst performance, in each case, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

The applicable Final Terms may also provide for a determination of the Redemption Amount as follows:

(i) If a Lock-In Event has occurred, the Redemption Amount equals the Issue Price plus the Lock-In Coupon Amount.

(ii) If neither a Lock-In Event nor a Barrier Event has occurred, the Redemption Amount equals the Issue Price.

(iii) If a Lock-In Event has not occurred, but a Barrier Event has occurred, the Redemption Amount equals the Issue Price multiplied by the Performance of the Underlying or, if provided for in the applicable Final Terms, the quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its Initial Fixing Level and/or Strike Level.

The applicable Final Terms may also provide for a determination of the Redemption Amount as follows:

(i) If no Barrier Event occurred the Redemption Amount is equal to the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. If provided for in the applicable Final Terms, the Redemption Amount is equal to the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, as well if a Barrier Event has occurred, but the Final Fixing Level is above the Initial Fixing Level and/or the Strike Level.

IV. INFORMATION ABOUT THE PRODUCTS

(ii) If the preconditions set out under (i) above are not satisfied the Redemption Amount equals the Issue Price and/or the Reference Amount taking into account the performance of the Underlying or, in the case of a Basket as Underlying, the development of the Basket Component with the worst performance, if provided for in the applicable Final Terms, above the Strike Level, in each case, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. However, the Redemption Amount will not exceed the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. The applicable Final Terms may also provide for the Redemption Amount to be equal, if provided for in the applicable Final Terms, at least, to the Issue Price and/or the Reference Amount multiplied by the Minimum Redemption Amount and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate, as long as the requirements set out in (i) are not met.

The applicable Final Terms may also provide for a determination of the Redemption Amount as follows:

(i) If a Target One Event has occurred the Redemption Amount equals the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

(ii) If a Target One Event has not occurred and no Barrier Event has occurred the Redemption Amount equals the Issue Price and/or the Reference Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

(iii) If a Target One Event has not occurred, but a Barrier Event has occurred the Redemption Amount equals the Issue Price and/or the Reference Amount multiplied by the performance of the Underlying or the performance of the worst and/or best performing Basket Component and, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

The relevant Lock-In Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms as well, if provided for the respective Product. The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The relevant Target One Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms as well, if provided for the respective Product.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components, but the Final Terms may also provide that the amount may be dependent of the development of a certain Reference Rate (e.g. a LIBOR rate). Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment and/or the amount of the coupon payment is conditional on the occurrence of a certain event in relation to the Underlying and/or the Basket Compo-

nents (e.g. the Underlying reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there would be no and/or a lower coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. If provided for in the applicable Final Terms, also the amount of the respective coupon payment may depend on the development of the Underlying and/or the Basket Components. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the early redemption date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 13. Explanation of mechanism of Express Certificates and/or Express Notes with Cash Settlement and with par value

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount in the Settlement Currency equals the Denomination and/or the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, plus, if provided for in the applicable Final Terms, the Early Redemption Coupon Amount allocated to the Autocall Observation Date on which the Autocall Event has occurred, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

An Autocall Event occurs if on an Autocall Observation Date the Reference Price exceeds the Autocall Trigger Level or, in the case of a Basket as Underlying, if the Reference Price of all Basket Components exceed the Autocall Trigger Level.

If an early redemption does not occur, the performance of the Underlying and/or the Basket Components determines the level of the Redemption Amount.

(i) If no Barrier Event occurred and/or, if provided for in the Final Terms, the Final Fixing Level is above the Strike Level, the Redemption Amount is equal to the Denomination and/or the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

(ii) If the preconditions set out under (i) above are not satisfied the Redemption Amount equals the Denomination and/or the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, and taking into account the performance of the Underlying or, in the

IV. INFORMATION ABOUT THE PRODUCTS

case of a Basket as Underlying, the development of the Basket Component with the worst performance, if provided for in the applicable Final Terms, above the Strike Level. However, the Redemption Amount will not exceed the Denomination and/or the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. The applicable Final Terms may also provide for the Redemption Amount to be equal to the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Minimum Redemption Amount and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate, as long as the requirements set out in (i) are not met. The applicable Final Terms may also provide for the Redemption Amount to be equal to the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by, if provided for in the applicable Final Terms, the performance of the relevant exchange rate and further multiplied by the sum of (A) 100 % and (B) the Participation Factor multiplied by the difference between the performance of the Underlying or the performance of the worst and/or best performing Basket Component and 1, whereby the Redemption Amount is at least zero. If provided for in the applicable Final Terms the Redemption Amount equals the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Minimum Redemption Factor and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier.

Furthermore, Express Certificates and/or Express Notes with Cash Settlement and with par value have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying and/or Basket Components (e.g. the Underlying reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the early redemption date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 14. Explanation of mechanism of Tracker Certificates with Cash Settlement

In the case of these Products, Holders receive a Redemption Amount in the Settlement Currency on the Redemption Date, the amount of which depends on the performance of the Underlying and/or the Basket Components. The Redemption Amount equals the Final Fixing Level taking into account the Conversion Ratio and, as the case may be, the Management Factor and/or the Basket Performance taking into account the Conversion Ratio and, as the case may be, the Management Factor and, as the case may be, the performance of the relevant exchange rate.

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Basket Performance is the total of the Performances of the Basket Components contained in the Basket.

If provided for in the Final Terms, the Issuer has the right of ordinary termination of the Products. Furthermore the Final Terms may provide that the Holder is entitled to exercise the Products on Exercise Dates specified in the applicable Final Terms.

If the applicable Final Terms provide for a participation in dividend payments, this occurs only in the amount of net dividends actually received by the Issuer.

Product No. 15. Explanation of mechanism of Open End Tracker Certificates with Cash Settlement

Open End Tracker Certificates do not have a specified limited term. The term of the Products ends either (i) on the exercise of the Products by the Holders or (ii) on ordinary termination by the Issuer or (iii) on extraordinary termination by the Issuer.

In the case of these Products, Holders receive a Redemption Amount in the Settlement Currency on the Redemption Date, the amount of which depends on the performance of the Underlying. The Redemption Amount equals the Final Fixing Level taking into account the Conversion Ratio and, as the case may be, the Management Factor and/or the Basket Performance taking into account the Conversion Ratio and, as the case may be, the Management Factor and, as the case may be, the performance of the relevant exchange rate.

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms. The Basket Performance is the total of the Performances of the Basket Components contained in the Basket.

If the applicable Final Terms provide for a participation in dividend payments, this occurs only in the amount of net dividends actually received by the Issuer.

Product No. 16. Explanation of mechanism of Express Certificates with potential Physical Settlement and with par value

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount equals the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

An Autocall Event occurs if on an Autocall Observation Date the Reference Price of the Underlying exceeds the Autocall Trigger Level or, in the case of a Basket as Underlying, if the Reference Price of all Basket Components exceed the Autocall Trigger Level.

If an early redemption does not occur, the performance of the Underlying and/or the Basket Components determines the level of the Redemption Amount and/or the type of settlement (cash settlement or physical delivery):

(i) If no Barrier Event has occurred or, if provided for in the Final Terms, a Barrier Event has occurred and the Final Fixing Level is above the Strike Level and/or the Initial Fixing Level or, if provided for in the Final Terms, the Final Fixing Level is above the Strike Level the Redemption Amount is equal to the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

(ii) Otherwise, the Holder receives delivery of a certain number of the Underlying or, in the case of a Basket as Underlying, of the Basket Component with the Worst Performance, expressed by the Conversion Ratio. Fractions of the Underlying or the Basket Component are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional the occurrence of on a certain event in relation to the Underlying and/or Basket Components (e.g. reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. If provided for in the applicable Final Terms, the

amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the early redemption date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 17. Explanation of mechanism of Express Certificates with potential Physical Settlement and without par value

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount equals the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

An Autocall Event occurs if on an Autocall Observation Date the Reference Price of the Underlying exceeds the Autocall Trigger Level or, in the case of a Basket as Underlying, if the Reference Price of all Basket Components exceed the Autocall Trigger Level.

If an early redemption does not occur, the performance of the Underlying and/or the Basket Components determines the level of the Redemption Amount and/or the type of settlement (cash settlement or physical delivery):

(i) If no Barrier Event has occurred or, if provided for in the Final Terms, a Barrier Event has occurred and the Final Fixing Level is above the Strike Level and/or the Initial Fixing Level or, if provided for in the Final Terms, the Final Fixing Level is above the Strike Level the Redemption Amount is equal to the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

(ii) Otherwise, the Holder receives delivery of a certain number of the Underlying or, in the case of a Basket as Underlying, of the Basket Component with the Worst Performance, expressed by the Conversion Ratio. Fractions of the Underlying or the Basket Component are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier. The Final Fixing Level is the closing price of the Underlying and/or the respective Basket Component at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying and/or Basket Components (e.g. reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the early redemption date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 18. Explanation of mechanism of Inverse Discount Certificates with Cash Settlement

In the case of these Products, on the Redemption Date investors receive a Redemption Amount, the amount of which is inversely dependent on the performance of the Underlying. The following cases may be distinguished:

(i) If the Final Fixing Level is above the Cap Level, the investor receives on the Redemption Date payment of the difference between the Inverse Level and the Final Fixing Level taking into account the Conversion Ratio and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate. However, the Redemption Amount equals in this case at least zero (0). **Investors should note that they bear the risk of an unfavourable performance of the Underlying, i.e. an increase in the Underlying. In this scenario the investor may incur losses. In the worst case, the investor may suffer a total loss of the invested capital including related transaction costs, which arises if the Final Fixing Level is at or above the Inverse Level.**

(ii) If the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Maximum Redemption Amount (which equals the difference between the Inverse Level and the Cap Level taking into account the Conversion Ratio and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate).

The Final Fixing Level is the closing price of the Underlying at the end of the term of the Product or any other value of the Underlying as defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

The investors do not have any claim to or arising out of the Underlying (e.g. voting rights, dividends).

Product No. 19. Explanation of mechanism of Master Discount Certificates with Cash Settlement

On the Redemption Date, the investor receives the total of the Proportionate Redemption Amounts calculated on the basis of the individual Basket Components. The Basket Components are considered individually and are included (with the number of Basket Components specified on the Initial Fixing Date) in the calculation of the Proportionate Redemption Amount and the Redemption Amount. The number of the Basket Component is a factor by means of which an equal weighting of the respective Basket Component, based on the value of the Product, is reproduced.

The possibilities for redemption of the Products are as follows (in each case the result of the calculation is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms):

(i) if the Final Fixing Level of the respective Basket Component is equal to or falls below the respective Cap Level, the Proportionate Redemption Amount equals the Final Fixing Level multiplied by the number of the Basket Component;

(ii) if the Final Fixing Level of the respective Basket Component exceeds the respective Cap Level, the Proportionate Redemption Amount equals the respective Cap Level multiplied by the number of Basket Component; and

(iii) in the case where the Final Fixing Levels of all Basket Components are above their individual Cap Levels, the investor receives the Maximum Redemption Amount.

If the Final Fixing Level of a Basket Component falls to zero, the investor suffers a loss in the amount of the total value of the Basket Component taking into account the number of the Basket Component. Since the Basket Components and the applicable Cap Levels are considered individually, such a loss may not necessarily be compensated by the performance of the other Basket Components. There is the risk of a total loss, which arises if the Final Fixing Levels of all Basket Components are zero. It should also be noted that at present the Cap Level lies below the Initial Fixing Level, i.e. there is no possibility of the investor participating in an increase in value of the Basket Component, and the Redemption Amount is limited to the Maximum Redemption Amount – in contrast the Proportionate Redemption Amount of the respective Basket Component only lies below the greatest possible Proportionate Redemption Amount if the applicable Final Fixing Level falls below the relevant Cap Level.

Product No. 20. Explanation of mechanism of Express Certificates with Cash Settlement and with par value and/or issue price and unconditional minimum redemption

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount equals the Denomination and/or Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate. If provided for in the applicable Final Terms, the Redemption Amount may also be equal to the Denomination and/or the Issue Price plus, if provided for in the applicable Final Terms, the Early Redemption Coupon Amount allocated to the Autocall Observation Date on which the Autocall Event has occurred. If provided for in the applicable Final Terms the Early Redemption Coupon Amount is multiplied by the performance of the relevant exchange rate.

An Autocall Event occurs if on an Autocall Observation Date the Reference Price of the Underlying or the Reference Prices of all Basket Components reach or exceed the relevant Autocall Trigger Level.

If an early redemption does not occur, the performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components determines the level of the Redemption Amount, if provided for in the applicable Final Terms.

The investor receives the Denomination and/or the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate, which simultaneously equals the Maximum Redemption, if the Final Fixing Level of the Underlying or the Final Fixing Levels of all Basket Components are at or above the Autocall Trigger Level specified in the Final Terms. If this is not the case, the Products are redeemed for a Minimum Redemption Amount that takes into account the performance of the relevant exchange rate if provided for in the applicable Final Terms, which may, however, also be below the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price.

The applicable Final Terms may stipulate that in the case that an early redemption does not occur, the Redemption Amount equals the Minimum Redemption Amount (which equals the Minimum Redemption Factor multiplied by the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price and that takes into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) in any case.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying or, in the case of a Basket as Underlying, the Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying or, in the case of a Basket as Underlying, the Basket Components

(e.g. reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there will be no coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there are no catch-up payments of the Coupon Amount. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Underlying or, in the case of a Basket as Underlying, the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 21. Explanation of mechanism of Express Certificates with Cash Settlement and with par value and with Downside Participation Factor

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount equals the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

An Autocall Event occurs if on an Autocall Observation Date the Reference Price of all Basket Components exceed the respective Autocall Trigger Level.

If there has been no early redemption of the Products, the level of the Redemption Amount is dependent on the price performance of the Basket Component with the Worst Performance. Furthermore, the Downside Participation Factor determines the ratio in which the Holder participates disproportionately in the loss in value of the Basket Component with the Worst Performance. The Redemption Amount equals the Denomination taking into account the development of the Basket Component with the Worst Performance and taking into account the Downside Participation Factor. If provided for in the applicable Final Terms the performance of the relevant exchange rate is taken into account when determining the respective Redemption Amount. The Redemption Amount may fall below the Denomination.

Furthermore, the Products have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Basket Components (e.g. reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there

would be no coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the Early Redemption Date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 22. Explanation of mechanism of Certificates with Cash Settlement and with par value and with unconditional minimum redemption and Partial Redemption Amounts

The Products have the characteristic such that on various Partial Redemption Dates spread over the term an Partial Redemption is made in the amount of the Denomination, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate and further multiplied by the Partial Redemption Factor, where the payment is independent of the performance of the Basket Components. The total of the Partial Redemption Amounts paid on all Partial Redemption Dates equals at the end of the term the Denomination multiplied by the Minimum Redemption Factor. The total of the Partial Redemption Amounts also equals simultaneously the Maximum Redemption Amount.

This Product offers the investor the further chance to receive a coupon payment, if - as specified in the applicable Final Terms - the Reference Price of all Basket Components on the respective Coupon Observation Date reaches and/or exceeds its respective Coupon Trigger Level (so-called "**Coupon Trigger Event**"). The Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) is determined by multiplying the Denomination by (i) the applicable Coupon Rate for the respective Coupon Payment Date and by (ii) $N \cdot N$ equals, where:

- before the respective Coupon Observation Date no Coupon Trigger Event has occurred, the number of Coupon Observation Dates from the first Coupon Observation Date (inclusive) until the relevant Coupon Observation Date (inclusive) and where
- before the respective Coupon Observation Date a Coupon Trigger Event has already occurred, the number of Coupon Observation Dates between the Coupon Observation Date (exclusive) on which the last Coupon Trigger Event has occurred and the respective relevant Coupon Observation Date (inclusive).

If a Coupon Trigger Event has not occurred on any Coupon Observation Date, the investor does not receive a coupon payment.

Alternatively, if provided for in the applicable Final Terms, the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the

Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

Product No. 23. Explanation of mechanism of Certificates with Cash Settlement and with unconditional minimum redemption

Principally, the Products have the characteristic such that the level of the Redemption Amount at the end of the term depends on the price performance of the Basket Components. However, the applicable Final Terms may also provide for a Redemption Amount that is in any case equal to the Issue Price multiplied by the Minimum Redemption Factor and, if provided for in the applicable Final Terms, taking into account the performance of the relevant exchange rate.

The Redemption Amount can be determined as follows as provided for in the applicable Final Terms:

- The investor receives on the Redemption Date a cash payment specified at issuance, the level of which depends on the performance of the Underlying and/or the relevant Basket Component and, if provided for in the applicable Final Terms, taking into account the performance of the relevant exchange rate.
- The applicable Final Terms may also provide for a Redemption Amount that equals the Denomination and/or, if provided for in the applicable Final Terms and in the case that the Final Basket Performance is positive, the Issue Price multiplied by the sum of (A) the Minimum Redemption Factor and (B) the Participation Factor multiplied by the Final Basket Performance, whereby, if provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate. The Final Basket Performance equals the sum of the performances of all Basket Components.
- The applicable Final Terms may stipulate that the Redemption Amount is equal to the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the sum of (A) the Minimum Redemption Factor and (B) the Participation Factor multiplied by the difference between the Strike Level and the performance of the Underlying or the performance of the worst and/or best performing Basket Component whereby the result, if provided for in the applicable Final Terms, is multiplied by the performance of the relevant exchange rate.
- The applicable Final Terms may also provide for a Redemption Amount that equals the Issue Price multiplied by the sum of (i) the Minimum Redemption Factor and (ii) the Participation Factor multiplied by performance of the Underlying and/or the worst or best performing Basket Component (whereby the result, if provided for in the applicable Final Terms, is multiplied by the performance of the relevant exchange rate) in the case that the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best performing Basket Component is above its Strike Level.

IV. INFORMATION ABOUT THE PRODUCTS

- If provided for in the applicable Final Terms, the Redemption Amount equals
 - (i) - in the case that the Final Fixing Level of the Underlying, the Final Fixing Level of the worst and/or best performing Basket Component or the Final Basket Value is above its Initial Fixing Level or the Initial Basket Value - the Issue Price, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate; or
 - (ii) - in the case that the Final Fixing Level of the Underlying, the Final Fixing Level of the worst and/or best performing Basket Component or the Final Basket Value is above its Strike Level, but at or below its Initial Fixing Level or the Initial Basket Value – the Issue Price multiplied by the performance of the Underlying, the performance of the worst and/or best performing Basket Component or the performance of the Basket, whereby, if provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate.

- The applicable Final Terms may also provide for the determination of the Redemption Amount as follows:
 - (i) - in the case that a Barrier Event has not occurred and the Final Fixing Level of the Underlying, the Final Fixing Level of the worst and/or best performing Basket Component or the Final Basket Value is at or above its Initial Fixing Level or the Initial Basket Value - the Denomination or the Issue Price multiplied by the performance of the Underlying and/or the performance of the worst and/or best performing Basket Component and/or the performance of the Basket. If provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate; or
 - (ii) - in the case that a Barrier Event has not occurred and the Final Fixing Level of the Underlying, the Final Fixing Level of the worst and/or best performing Basket Component or the Final Basket Value is below its Initial Fixing Level or the Initial Basket Value - the Denomination or the Issue Price multiplied by the difference between (A) 200% and (B) the performance of the Underlying and/or the performance of the worst and/or best performing Basket Component and/or the performance of the Basket. If provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate.

- The applicable Final Terms may also provide that the Redemption Amount equals
 - (i) - in the case that a Barrier Event has not occurred and the performance of the Underlying, the performance of the Basket Component with the worst and/or best performance or the Final Basket Performance is positive – the Issue Price multiplied by the sum of (A) the Minimum Redemption Factor and (B) the product of the Participation Factor and the performance of the Underlying, the performance of the Basket Component with the worst

and/or best performance or the Final Basket Performance, whereby, if provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate.

(ii) - in the case that a Barrier Event has occurred, the Issue Price multiplied by the Minimum Redemption Factor plus the Rebate Coupon Amount, whereby, if provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if the Basket Level is at or, as the case may be, above the Barrier Level.

However, in any case the investor receives a minimum of the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Minimum Redemption Factor and, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate. **Investors should note that the Minimum Redemption Amount may be lower than the capital invested for the purchase of the Product (including related transaction costs).**

If provided for in the applicable Final Terms, the Certificates have the further characteristic such that the level of the Redemption Amount is limited to the Maximum Redemption Amount, which equals the Denomination and/or, if provided for in the applicable Final Terms, the Issue Price taking into account the Maximum Redemption Factor and, if provided for in the applicable Final Terms, taking into account the performance of the relevant exchange rate.

If provided for in the applicable Final Terms, the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

Product No. 24. Explanation of mechanism of Capped Certificates with Cash Settlement and with unconditional minimum redemption

The Product entitles the investor to receive a cash payment on the Redemption Date, which equals the Minimum Redemption Factor multiplied by the Denomination and/or Issue Price, whereby the result is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms. **Investors should note that the Minimum Redemption Amount may be lower than the capital invested for the purchase of the Product (including, as the case may be, the Issue Surcharge and related transaction costs).** If the Final Fixing Level exceeds the Initial Fixing Level or, in the case of a basket as Underlying, the Final Fixing Level of the Basket Component with the Worst Performance exceeds its Initial Fixing Level, the investor participates up to the Cap Level in the increase in value of the Underly-

ing or the Basket Component with the Worst Performance taking into account the Participation Factor and, if provided for in the applicable Final Terms, the performance of the relevant exchange rate. If the Final Fixing Level exceeds the Initial Fixing Level multiplied by the Cap Level or, in the case of a basket as Underlying, if the Final Fixing Level of the Basket Component with the Worst Performance exceeds its Initial Fixing Level multiplied by the Cap Level, the investor receives the Maximum Redemption Amount that, if provided for in the applicable Final Terms, takes also into account the performance of the relevant exchange rate. **Investors therefore do not participate beyond the Cap Level in an increase in value of the Underlying or the Basket Component with the Worst Performance.**

If provided for in the applicable Final Terms, the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms). If provided for in the applicable Final Terms, the payment of the relevant Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) may also be dependent on whether a Coupon Trigger Event has occurred on a Coupon Observation Date. **If a Coupon Trigger Event has not occurred on any Coupon Observation Date, the investor does not receive a coupon payment.**

Product No. 25. Explanation of mechanism of Inverse Bonus Certificates with Cash Settlement

In the case of these Products, investors receive a cash payment on the Redemption Date the amount of which depends on the performance of the Underlying and/or Basket Components. A particular feature is that the participation of the Holders is **inverse** to the performance of the Underlying and/or Basket Component with the worst and/or best performance. The Redemption Amount is calculated as follows:

In the case that the redemption is dependent on the development of one Underlying:

(i) If no Barrier Event has occurred

- and the Final Fixing Level is below the Strike Level, the Redemption Amount equals the product of the Issue Price and the quotient of (i) the difference between the Cap Level and the Final Fixing Level and (ii) the Initial Fixing Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate; or
- and the Final Fixing Level is equal to or above the Strike Level, the Redemption Amount equals the Issue Price multiplied by the Bonus Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

(ii) If a Barrier Event has occurred, the Redemption Amount equals the product of the Issue Price and the quotient of (i) the difference between the Cap Level and the Final Fixing Level and (ii) the Initial Fixing Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

In the case that the redemption is dependent on the development of individual Basket Components:

(i) If no Barrier Event has occurred

- and the Final Fixing Level of the Basket Component with the worst and/or best performance is below the Strike Level of the Basket Component with the worst and/or best performance, the Redemption Amount equals the product of the Issue Price and the quotient of (i) the difference between the Cap Level and the Final Fixing Level of the Basket Component with the worst and/or best performance and (ii) the Initial Fixing Level of the Basket Component with the worst and/or best performance, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate; and/or
- and the Final Fixing Level of the Basket Component with the worst and/or best performance is equal to or above the Strike Level of the Basket Component with the worst and/or best performance, the Redemption Amount equals the Issue Price multiplied by the Bonus Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

(ii) If a Barrier Event has occurred, the Redemption Amount equals the product of the Issue Price and the quotient of (i) the difference between the Cap Level and the Final Fixing Level of the Basket Component with the worst and/or best performance and (ii) the Initial Fixing Level of the Basket Component with the worst and/or best performance, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

If provided for in the applicable Final Terms, the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms exceeds or, as the case may be, reaches the Barrier.

The investors do not have any claim to or arising out of the Underlying (e.g. voting rights, dividends).

Product No. 26. Explanation of mechanism of Capped Inverse Bonus Certificates with Cash Settlement

In the case of these Products, investors receive a cash payment on the Redemption Date the amount of which depends on the performance of the Underlying. A particular feature is that the participation of the Holders is **inverse** to the performance of the Underlying. The Redemption Amount is calculated as follows:

In the case that the redemption is dependent on the development of one Underlying:

(i) If no Barrier Event has occurred the Redemption Amount equals the Initial Fixing Level multiplied by the Bonus Level or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Bonus Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

(ii) If a Barrier Event has occurred

- and the Final Fixing Level is equal to or above the Strike Level, the Redemption Amount equals the product of the Initial Fixing Level and/or the Issue Price (as provided for in the applicable Final Terms) and the quotient of (i) the difference between the Cap Level and the Final Fixing Level and (ii) the Initial Fixing Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate;
- and the Final Fixing Level is equal to or above the Strike Level, the Redemption Amount equals the Initial Fixing Level and/or the Issue Price (as provided for in the applicable Final Terms) multiplied by the Bonus Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

The respective Final Terms may also provide that the Redemption Amount is equal to the product of the Initial Fixing Level and/or the Issue Price (as provided for in the applicable Final Terms) and the quotient of (i) the difference between the Cap Level and the Final Fixing Level and (ii) the Initial Fixing Level in any case that a Barrier Event has occurred, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

In the case that the redemption is dependent on the development of individual Basket Components:

(i) If no Barrier Event has occurred the Redemption Amount equals the Initial Fixing Level of the Basket Component with the worst and/or best performance multiplied by the Bonus Level or, if provided for in the applicable Final Terms, the Issue Price multiplied by the Bonus Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

(ii) If a Barrier Event has occurred

- and the Final Fixing Level of the Basket Component with the worst and/or best performance is equal to or above the Strike Level of the Basket Component with the worst and/or best performance, the Redemption Amount equals the product of the Initial Fixing Level of the Basket Component with the worst and/or best performance and/or the Issue Price (as provided for in the applicable Final Terms) and the quotient of (i) the difference between the Cap Level and the Final Fixing Level of the Basket Component with the worst and/or best performance and (ii) the Initial Fixing Level of the Basket Component with the worst and/or best performance, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate;
- and the Final Fixing Level of the Basket Component with the worst and/or best performance is equal to or above the Strike Level of the Basket Component with the worst and/or best perfor-

IV. INFORMATION ABOUT THE PRODUCTS

mance, the Redemption Amount equals the Initial Fixing Level of the Basket Component with the worst and/or best performance and/or the Issue Price (as provided for in the applicable Final Terms) multiplied by the Bonus Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

The respective Final Terms may also provide that the Redemption Amount is equal to the product of the Initial Fixing Level of the Basket Component with the worst and/or best performance and/or the Issue Price (as provided for in the applicable Final Terms) and the quotient of (i) the difference between the Cap Level and the Final Fixing Level of the Basket Component with the worst and/or best performance and (ii) the Initial Fixing Level of the Basket Component with the worst and/or best performance, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate, in any case that a Barrier Event has occurred.

If provided for in the applicable Final Terms, the Holder receives a coupon payment on the respective Coupon Payment Date. The amount of the coupon payment depends on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms exceeds or, as the case may be, reaches the Barrier.

The investors do not have any claim to or arising out of the Underlying (e.g. voting rights, dividends).

Product No. 27. Explanation of mechanism of Mini Future Certificates with Cash Settlement

Holders of Mini Future Certificates with Cash Settlement expect the market price of the Underlying to rise.

The Products have a fixed term. Subject to the occurrence of a Stop-Loss Event, investors receive a cash payment on the Redemption Date the amount of which depends on the performance of the Underlying. The Redemption Amount equals (in the case of Mini Future Long Certificates) the product of (i) the Conversion Ratio and (ii) the difference between the Final Fixing Level and the (Current) Strike Level or (in the case of Mini Future Short Certificates) the product of (i) the Conversion Ratio and (ii) the difference between the (Current) Strike Level and the Final Fixing Level, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate.

A Stop-Loss Event occurs if the Underlying is (in the case of Mini Future Long Certificates) equal to or below the (Current) Stop-Loss Level or (in the case of Mini Future Short Certificates) equal to or above the (Current) Stop-Loss Level. In the event that a Stop-Loss Event has occurred, the term of the Products shall end automatically on the day of the occurrence of the Stop-Loss Event without the need for a separate termination of the Products by the Issuer. In this case the Redemption Amount to be paid by the Issu-

er equals (in the case of Mini Future Long Certificates) the product of (i) the Conversion Ratio and (ii) the difference between the Stop-Loss Price and the (Current) Strike Level or (in the case of Mini Future Short Certificates) the product of (i) the Conversion Ratio and (ii) the difference between the (Current) Strike Level and the Stop-Loss Price, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate. The Redemption Amount is at least zero. The investor can suffer a total loss of the invested capital if (in the case of Mini Future Long Certificates) the Stop-Loss Price is equal to or below the (Current) Strike Level or (in the case of Mini Future Short Certificates) the Stop-Loss Price is equal to or above the (Current) Strike Level.

The leverage effect is one of the main characteristics of Mini Future Certificates. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

Product No. 28. Explanation of mechanism of Inverse Express Certificates with Cash Settlement

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether an Autocall Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the Autocall Observation Date on which the Autocall Event occurred. In this case, the Redemption Amount in the Settlement Currency equals the Issue Price and/or the Redemption Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

An Autocall Event occurs if on an Autocall Observation Date the Reference Price falls below the Autocall Trigger Level or, in the case of a Basket as Underlying and if provided for in the applicable Final Terms, if the Reference Price of all Basket Components fall below the Autocall Trigger Level.

If an early redemption does not occur, the performance of the Underlying and/or the Basket Components determines the level of the Redemption Amount.

(i) If no Barrier Event occurred the Redemption Amount is equal to the Issue Price and/or the Redemption Amount, if provided for in the applicable Final Terms, multiplied by the performance of the relevant exchange rate.

(ii) If the preconditions set out under (i) above are not satisfied the Redemption Amount equals the Issue Price and/or the Redemption Amount multiplied by the difference between 200% and, as specified in the applicable Final Terms, the Performance of the Underlying and/or the Performance of the Basket Component with the worst and/or best performance, if provided for in the applicable Final Terms, further multiplied by the performance of the relevant exchange rate. The Redemption Amount is at least zero.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms exceeds or, as the case may be, reaches the Barrier.

Furthermore, Inverse Express Certificates with Cash Settlement have the characteristic such that the Holder may receive a Coupon Amount (that takes also into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms) on certain dates specified in the applicable Final Terms. The payment of the applicable Coupon Amount may be independent of the price performance of the Underlying and/or Basket Components. Where provided in the applicable Final Terms, the coupon payment may also be structured in such a way that the payment is conditional on the occurrence of a certain event in relation to the Underlying and/or Basket Components (e.g. the Underlying reaching or exceeding a certain threshold (e.g. Coupon Trigger Level)). Should such event not occur, there would be no coupon payment for the applicable Coupon Payment Date. Unless provided otherwise in the Final Terms, each relevant date is considered separately and there can be no catch-up payments of Coupon Amounts. If provided for in the applicable Final Terms, the amount of the coupon payment may depend on the development of the Basket Components (taking into account the performance of the relevant exchange rate, if provided for in the applicable Final Terms).

With regard to coupon payments, it should also be noted that, in the case of an early redemption of the Products, the Holder will still receive the Coupon Amount for the Coupon Payment Date in respect of the early redemption date. However, he has no right to demand coupon payments for future Coupon Payment Dates.

Product No. 29. Explanation of mechanism of Warrants with Cash Settlement

(i) Description of Call Warrants

- *Call Warrants where the performance of the Underlying is relevant for the determination of the Redemption Amount pursuant to the applicable Final Terms*

Holders of Call Warrants expect the price of the Underlying to rise.

Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Warrants during the term.

The Holders will receive a Redemption Amount on the Redemption Date if the Final Fixing Level and/or the Performance of the Underlying exceeds the Strike Level and/or the Initial Fixing Level if provided for in the applicable Final Terms.

The Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Final Fixing Level and the Strike Level and (B) the Initial Fixing Level. Alternatively, the respective Final Terms may stipulate that the Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Performance of the Underlying (quotient of the Final Fixing Level and the Initial Fixing Level and/or the Strike Level) and (B) the Initial Fixing Level and/or the Strike Level.

IV. INFORMATION ABOUT THE PRODUCTS

The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms. The Redemption Amount is at least zero.

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit. The Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Cap Level and the Initial Fixing Level and/or the Strike Level and (B) the Initial Fixing Level and/or the Strike Level. Alternatively, the respective Final Terms may stipulate that the Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Cap Level and (B) the Initial Fixing Level and/or the Strike Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

- *Call Warrants where the performance of the worst performing Basket Component is relevant for the determination of the Redemption Amount pursuant to the applicable Final Terms*

Holders of Call Warrants expect the price of the Basket Components to rise.

Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Warrants during the term.

The Holders will receive a Redemption Amount on the Redemption Date if the Final Fixing Level of the worst performing Basket Component and/or the performance of the worst performing Basket Component exceeds the Strike Level and/or the Initial Fixing Level if provided for in the applicable Final Terms.

The Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Final Fixing Level of the worst performing Basket Component and the Strike Level and (B) the Initial Fixing Level of the worst performing Basket Component. Alternatively, the respective Final Terms may stipulate that the Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the performance of the worst performing Basket Component (quotient of the Final Fixing Level and the Initial Fixing Level and/or the Strike Level of the worst performing Basket Component) and (B) the Initial Fixing Level and/or the Strike Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms. The Redemption Amount is at least zero.

IV. INFORMATION ABOUT THE PRODUCTS

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit. The Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Cap Level and the Initial Fixing Level and/or the Strike Level and (B) the Initial Fixing Level and/or the Strike Level of the worst performing Basket Component. Alternatively, the respective Final Terms may stipulate that the Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Cap Level and (B) the Initial Fixing Level and/or the Strike Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

- *Call Warrants where the performance of the Basket is relevant for the determination of the Redemption Amount pursuant to the applicable Final Terms*

Holders of Call Warrants expect the price of the Basket to rise.

Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Warrants during the term.

The Holders will receive a Redemption Amount on the Redemption Date if the Final Basket Value and/or the performance of the Basket exceeds the Strike Level and/or the Initial Fixing Level if provided for in the applicable Final Terms.

The Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Final Basket Value and the Strike Level and (B) the Initial Basket Value. Alternatively, the respective Final Terms may stipulate that the Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the performance of the Basket (quotient of the Final Basket Value and the Initial Fixing Level and/or the Strike Level) and (B) the Initial Fixing Level and/or the Strike Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms. The Redemption Amount is at least zero.

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit. The Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of

(A) the difference between the Cap Level and the Initial Fixing Level and/or the Strike Level and (B) the Initial Basket Value. Alternatively, the respective Final Terms may stipulate that the Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Cap Level and (B) the Initial Fixing Level and/or the Strike Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

(ii) Description of Put Warrants

- *Put Warrants where the performance of the Underlying is relevant for the determination of the Redemption Amount pursuant to the applicable Final Terms*

Holders of Put Warrants expect the price of the Underlying to fall.

Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Warrants during the term.

The Holders will receive a Redemption Amount on the Redemption Date if the Final Fixing Level and/or the Performance of the Underlying falls below the Strike Level and/or the Initial Fixing Level if provided for in the applicable Final Terms.

The Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Initial Fixing Level and/or the Strike Level and the Final Fixing Level and (B) the Initial Fixing Level and/or the Strike Level. Alternatively, the respective Final Terms may stipulate that the Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Initial Fixing Level and/or the Strike Level and (B) the Performance of the Underlying (quotient of the Final Fixing Level and the Initial Fixing Level and/or the Strike Level). The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms. The Redemption Amount is at least zero.

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit. The Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Strike Level and/or the Initial Fixing Level and the Cap Level and (B) the Initial Fixing Level. Alternatively, the respective Final Terms may stipulate that the Max-

imum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Strike Level and/or the Initial Fixing Level and (B) the Cap Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

- *Put Warrants where the performance of the worst performing Basket Component is relevant for the determination of the Redemption Amount pursuant to the applicable Final Terms*

Holders of Put Warrants expect the price of the Basket Components to fall.

Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Warrants during the term.

The Holders will receive a Redemption Amount on the Redemption Date if the Final Fixing Level of the worst performing Basket Component and/or the performance of the worst performing Basket Component falls below the Strike Level and/or the Initial Fixing Level if provided for in the applicable Final Terms.

The Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Initial Fixing Level and/or the Strike Level and the Final Fixing Level of the worst performing Basket Component and (B) the Initial Fixing Level and/or the Strike Level of the worst performing Basket Component. Alternatively, the respective Final Terms may stipulate that the Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Initial Fixing Level and/or the Strike Level and (B) the performance of the worst performing Basket Component (quotient of the Final Fixing Level and the Initial Fixing Level and/or the Strike Level of the worst performing Basket Component). The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms. The Redemption Amount is at least zero.

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit. The Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Strike Level and/or the Initial Fixing Level and the Cap Level and (B) the Initial Fixing Level of the worst performing Basket Component. Alternatively, the respective Final Terms may stipulate that the Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference be-

tween (A) the Strike Level and/or the Initial Fixing Level and (B) the Cap Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

- *Put Warrants where the performance of the Basket is relevant for the determination of the Redemption Amount pursuant to the applicable Final Terms*

Holders of Put Warrants expect the price of the Basket to fall.

Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Warrants during the term.

The Holders will receive a Redemption Amount on the Redemption Date if the Final Basket Value and/or the performance of the Basket falls below the Strike Level and/or the Initial Fixing Level if provided for in the applicable Final Terms.

The Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Initial Fixing Level and/or the Strike Level and the Final Basket Value and (B) the Initial Basket Value. Alternatively, the respective Final Terms may stipulate that the Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Initial Fixing Level and/or the Strike Level and (B) the performance of the Basket (quotient of the Final Basket Value and the Initial Basket Value). The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms. The Redemption Amount is at least zero.

If the respective Final Terms provide for a Maximum Redemption Amount the Redemption Amount will not exceed the Maximum Redemption Amount, with the result that the possible yield on the Warrants has an upper limit. The Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the quotient of (A) the difference between the Strike Level and/or the Initial Fixing Level and the Cap Level and (B) the Initial Basket Value. Alternatively, the respective Final Terms may stipulate that the Maximum Redemption Amount equals the product of (i) the Conversion Ratio and/or the Denomination and/or the Issue Price and (ii) the difference between (A) the Strike Level and/or the Initial Fixing Level and (B) the Cap Level. The respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying. Accordingly, a Holder may earn significant profits or incur significant losses.

Product No. 30. Explanation of mechanism of Participation Certificates

(i) Participation Certificates that provide for cash settlement in any case

In the case of Participation Certificates the level of the Redemption Amount is linked to the performance of the Underlying and/or the performance of the Basket Components and/or the Basket if provided for in the applicable Final Terms. The following cases are to be distinguished:

Participation Certificates with Barrier:

Provided that no Barrier Event has occurred the Redemption Amount will be determined as follows (whereby the respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms):

- if the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best performing Basket Component and/or the Final Basket Value is at or below the Initial Fixing Level of the Underlying and/or the Initial Fixing Level of the worst or best performing Basket Component and/or Initial Basket Value the Redemption Amount equals the Issue Price and/or the Denomination multiplied by the difference between 200 % and the performance of the Underlying and/or the worst or best performing Basket Component and/or the performance of the Basket. The applicable Final Terms may also provide that the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the sum of (A) 100 % and (B) the difference between 100 % and the performance of the Underlying and/or the worst or best performing Basket Component and/or the performance of the Basket whereby such difference is multiplied by the Participation Factor.
- if the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best performing Basket Component and/or the Final Basket Value is above the Initial Fixing Level of the Underlying and/or the Initial Fixing Level of the worst or best performing Basket Component and/or the Initial Basket Value the Redemption Amount is equal to the Issue Price and/or Denomination multiplied by the performance of the Underlying and/or worst or best performing Basket Component and/or the performance of the Basket. The applicable Final Terms may also provide that the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the sum of (A) 100 % and (B) the difference between 100 % and the performance of the Underlying and/or the worst or best performing Basket Component and/or the performance of the Basket whereby such difference is multiplied by the Participation Factor. If provided for in the applicable Final Terms the Redemption Amount is limited to a Maximum Redemption Amount.

Provided that a Barrier Event has occurred, the Redemption Amount equals the Issue Price and/or the Denomination multiplied by the performance of the Underlying and/or the worst or best performing Basket Component. If provided for in the applicable Final Terms the Redemption Amount is limited to a Maximum Redemption Amount.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier.

Participation Certificates without Barrier:

The Redemption Amount will be determined as follows (whereby the respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms):

- If the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best performing Basket Component and/or the Final Basket Value is at or below the Initial Fixing Level of the Underlying and/or the Initial Fixing Level of the worst or best performing Basket Component and/or Initial Basket Value the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the sum of (A) 100 % and (B) the Downside Participation Factor that is multiplied by the performance of the Underlying, the performance of the worst or best performing Basket Component and/or the performance of the Basket.
- If the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best performing Basket Component and/or the Final Basket Value is above the Initial Fixing Level of the Underlying and/or the Initial Fixing Level of the worst or best performing Basket Component and/or Initial Basket Value the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the sum of (A) 100 % and (B) the Participation Factor that is multiplied by the performance of the Underlying, the performance of the worst or best performing Basket Component and/or the performance of the Basket.

(ii) Participation Certificates that provide for a potential physical delivery

In the case of Participation Certificates the level of the Redemption Amount and/or the type of settlement (cash settlement or physical delivery) are linked to the performance of the Underlying and/or the performance of the Basket Components and/or the Basket if provided for in the applicable Final Terms. The following cases are to be distinguished:

Provided that no Barrier Event has occurred the Redemption Amount will be determined as follows (whereby the respective result is multiplied by the performance of the relevant exchange rate if provided for in the applicable Final Terms):

- if the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best per-

forming Basket Component and/or the Final Basket Value is at or below the Initial Fixing Level of the Underlying and/or the Initial Fixing Level of the worst or best performing Basket Component and/or Initial Basket Value the Redemption Amount equals the Issue Price and/or the Denomination and/or the Issue Price multiplied by the difference between 200 % and the performance of the Underlying and/or the worst or best performing Basket Component and/or the performance of the Basket. The applicable Final Terms may also provide that the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the sum of (A) 100 % and (B) the difference between 100 % and the performance of the Underlying and/or the worst or best performing Basket Component and/or the performance of the Basket whereby such difference is multiplied by the Participation Factor.

- if the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst or best performing Basket Component and/or the Final Basket Value is above the Initial Fixing Level of the Underlying and/or the Initial Fixing Level of the worst or best performing Basket Component and/or the Initial Basket Value the Redemption Amount is equal to the Issue Price and/or Denomination multiplied by the performance of the Underlying and/or worst or best performing Basket Component and/or the performance of the Basket. The applicable Final Terms may also provide that the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the sum of (A) 100 % and (B) the difference between 100 % and the performance of the Underlying and/or the worst or best performing Basket Component and/or the performance of the Basket whereby such difference is multiplied by the Participation Factor. If provided for in the applicable Final Terms the Redemption Amount is limited to a Maximum Redemption Amount.

Provided that a Barrier Event has occurred, the Holder receives delivery of a certain number of the Underlying or, in the case of a Basket as Underlying, of the worst or best performing Basket Component, expressed by the Conversion Ratio. Fractions of the Underlying or the Basket Component are not delivered, but are compensated by a cash payment, the so-called Cash Payment Amount for Fractions.

A Barrier Event occurs if a price of the Underlying and/or the respective Basket Component and/or the Basket specified in the applicable Final Terms falls below or, as the case may be, reaches the (relevant) Barrier.

Participation Certificate with rainbow structure

In the case of Participation Certificates with a rainbow structure the level of the Redemption Amount is linked to the performance of the Basket Components.

The Redemption Amount equals the Issue Price multiplied by the the sum of (A) 100 %, (B) the Participation Factor 1 multiplied by the Performance of the Basket Component with the Best Performance minus 100 %, (C) the Participation Factor 2 multiplied by the Performance of the Basket Component with the Middle Performance minus 100 % and (D) the Participation Factor 3 multiplied by the Performance of the Basket Component with the Worst Performance minus 100 %. If provided for in the applicable Final Terms, the result is multiplied by the performance of the relevant exchange rate. The Participation Factor

1 is the highest participation factor, the Participation Factor 2 is the second highest participation factor and the Participation Factor 3 is the lowest participation factor.

Product No. 31. Explanation of mechanism of Spread Certificates with Cash Settlement

Holders of Spread Certificates with Cash Settlement expect that the performance of Basket Component 1 will outperform the performance of Basket Component 2.

The Products have a fixed term. Subject to the occurrence of a Stop-Loss Event, investors receive a cash payment on the Redemption Date the amount of which depends on the performance of the Basket Components. The Redemption Amount equals the product of (i) the Denomination and/or the Issue Price and (ii) the sum of the Adjustment Factor and the Outperformance minus the Management Factor. If provided for in the applicable Final Terms, the result is further multiplied by the performance of the relevant exchange rate.

A Stop-Loss Event occurs, for example, if a price of the Product is equal to or below the Stop-Loss Level. In the event that a Stop-Loss Event has occurred, the term of the Products shall end automatically on the day of the occurrence of the Stop-Loss Event without the need for a separate termination of the Products by the Issuer. In this case the Redemption Amount to be paid by the Issuer equals the Stop-Loss Redemption Amount that is specified in the applicable Final Terms and that is determined by the Calculation Agent in its reasonable discretion on the basis of the price of the Product. The Stop-Loss Redemption Amount is at least zero.

Product No. 32. Explanation of mechanism of Short Participation Certificates with Cash Settlement and with unconditional minimum redemption

The Product entitles the investor to receive a cash payment on the Redemption Date. Investors in Short Participation Certificates expect price decreases of the Underlying or, in the case of a basket as Underlying, of the Basket Components. The Redemption Amount is determined as follows:

(a) If a Barrier Event has not occurred and the Final Fixing Level, or in the case of a basket as Underlying (depending on what is provided for in the applicable Final Terms), the Final Fixing Level of the worst or best performing Basket Component or the Final Basket Value is at or below the Initial Fixing Level and/or the Strike Level of the worst or best performing Basket Component and/or the Initial Basket Value, the Redemption Amount equals the Issue Price or the Denomination multiplied by the sum of (i) the Minimum Redemption Factor and (ii) the Participation Factor multiplied by the difference between 100 % or the Strike Level (in%) and (depending on what is provided for in the applicable Final Terms) the Performance of the Underlying, the Performance of the worst or best performing Basket Component or the Performance of the Basket. The result is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms.

IV. INFORMATION ABOUT THE PRODUCTS

(b) If a Barrier Event has not occurred and the Final Fixing Level, or in the case of a basket as Underlying (depending on what is provided for in the applicable Final Terms), the Final Fixing Level of the worst or best performing Basket Component or the Final Basket Value is above the Initial Fixing Level and/or the Strike Level of the worst or best performing Basket Component and/or the Initial Basket Value, the Redemption Amount equals the Issue Price or the Denomination multiplied by the Minimum Redemption Factor (the "**Minimum Redemption Amount**"). The result is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms. **Investors should note that the Minimum Redemption Amount may be lower than the capital invested for the purchase of the Product (including, as the case may be, the Issue Surcharge and related transaction costs).**

(c) If a Barrier Event has occurred, the Redemption Amount equals the Issue Price or the Denomination multiplied by the sum of the Minimum Redemption Factor and the Rebate Coupon Rate. The result is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms.

The relevant Barrier Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs, for example, if a Price of the Underlying specified in the applicable Final Terms falls below or, as the case may be, reaches the Barrier.

If provided for in the applicable Final Terms, the Redemption Amount may also be determined as follows:

(a) In the case that the Final Fixing Level, or in the case of a basket as Underlying (depending on what is provided for in the applicable Final Terms), the Final Fixing Level of the worst or best performing Basket Component or the Final Basket Value is (at or) below the Initial Fixing Level and/or the Strike Level of the worst or best performing Basket Component and/or the Initial Basket Value (if provided for in the applicable Final Terms, multiplied by the Strike Level) and, in the case that the applicable Final Terms provide for a Maximum Redemption Amount, the preconditions for a redemption at the Maximum Redemption Amount are not fulfilled, the Redemption Amount equals the Denomination or the Issue Price multiplied by the sum of (i) the Minimum Redemption Factor and (ii) the Participation Factor multiplied by (if provided for in the applicable Final Terms) the difference between 100 % and (depending on what is provided for in the applicable Final Terms) the Performance of the Underlying, the Performance of the worst or best performing Basket Component or the Performance of the Basket or (if provided for in the applicable Final Terms), the difference between the Strike Level (in%) of the Underlying, the worst or best performing Basket Component and/or the Basket and its Final Fixing Level and/or Final Basket Value whereby this difference is divided by the Initial Fixing Level of the Underlying and/or worst or best performing Basket Component and/or the Initial Basket Value. The result is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms. If provided for in the applicable Final Terms, the Redemption Amount will not exceed the Maximum Redemption Amount that, if provided for in the applicable Final Terms, takes also into account the performance of the relevant exchange rate. The Maximum Redemption Amount is paid in the case that the Final Fixing Level, or in the case of a basket as Underlying (depending on what is provided for in the applicable Final Terms), the

Final Fixing Level of the worst or best performing Basket Component or the Final Basket Value is below the Initial Fixing Level and/or the Initial Fixing Level of the worst or best performing Basket Component and/or the Initial Basket Value multiplied by the Cap Level (if provided for in the applicable Final Terms (in%)).

(b) In the case that the Final Fixing Level, or in the case of a basket as Underlying (depending on what is provided for in the applicable Final Terms), the Final Fixing Level of the worst or best performing Basket Component or the Final Basket Value is (at or) above the Initial Fixing Level of the worst or best performing Basket Component and/or the Initial Basket Value (if provided for in the applicable Final Terms, multiplied by the Strike Level), the Redemption Amount equals the Denomination or the Issue Price multiplied by the Minimum Redemption Factor (the "**Minimum Redemption Amount**"). The result is multiplied by the performance of the relevant exchange rate, if provided for in the applicable Final Terms. **Investors should note that the Minimum Redemption Amount may be lower than the capital invested for the purchase of the Product (including, as the case may be, the Issue Surcharge and related transaction costs).**

Product No. 33. Explanation of mechanism of Knock-Out Warrants with Cash Settlement

(i) Description of Knock-Out Call Warrants

Holders of Knock-Out Call Warrants expect the price of the Underlying and/or Basket Components and/or the value of the Basket to rise. Knock-Out Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Knock-Out Warrants during the term.

In the case of Knock-Out Call Warrants the level of the Redemption Amount is linked to the performance of the Underlying and/or the performance of the best or worst performing Basket Components and/or the performance of the Basket as provided for in the applicable Final Terms.

The leverage effect is one of the main characteristics of the Knock-Out Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying and/or the relevant Basket Components and/or the Basket. Accordingly, a Holder may earn significant profits or incur significant losses.

The Redemption Amount is determined as follows:

(a) in the case that a Knock-Out Event has not occurred and, if provided for in the applicable Final Terms, the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value is above the relevant Strike Level – the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the product of (i) the Participation Factor and (ii) the difference between (A) the quotient of the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Com-

ponent and/or the Final Basket Value and its Initial Fixing Level and/or the Initial Basket Value and (B) the relevant Strike Level.

(b) in the case that a Knock-Out Event has not occurred and, if provided for in the applicable Final Terms, the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value is at or below the relevant Strike Level – the Redemption Amount is zero (0), i.e. no payments will be made and the Product will expire worthless.

(c) in the case that a Knock-Out Event has occurred, the Redemption Amount equals, if provided for in the applicable Final Terms, zero (0), i.e. no payments will be made and the Product will expire worthless or the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the Rebate.

The relevant Knock-Out Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

If provided for in the applicable Final Terms the Redemption Amount can also be determined as follows:

(a) in the case that a Knock-Out Event has not occurred, the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the difference between (A) the quotient of the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value and its Initial Fixing Level and/or the Initial Basket Value and (B) the Strike Level.

(b) in the case that a Knock-Out Event has occurred, the Redemption Amount equals, if provided for in the applicable Final Terms, zero (0), i.e. no payments will be made and the Product will expire worthless or the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the Rebate.

The relevant Knock-Out Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

(ii) Description of Knock-Out Put Warrants

Holders of Knock-Out Put Warrants expect the price of the Underlying and/or Basket Components and/or the value of the Basket to fall. Knock-Out Warrants have a fixed term and will automatically be exercised on the Final Fixing Date (European exercise style). The Holders do not have the right to exercise the Knock-Out Warrants during the term.

In the case of Knock-Out Put Warrants the level of the Redemption Amount is linked to the performance of the Underlying and/or the performance of the best or worst performing Basket Components and/or the performance of the Basket as provided for in the applicable Final Terms.

IV. INFORMATION ABOUT THE PRODUCTS

The leverage effect is one of the main characteristics of the Knock-Out Warrants. Holders will participate disproportionately (with leverage) in the performance of the Underlying and/or the relevant Basket Components and/or the Basket. Accordingly, a Holder may earn significant profits or incur significant losses.

The Redemption Amount is determined as follows:

(a) in the case that a Knock-Out Event has not occurred and, if provided for in the applicable Final Terms, the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value is at or below the relevant Strike Level – the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the product of (i) the Participation Factor and (ii) the difference between (A) the relevant Strike Level and (B) the quotient of the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value and its Initial Fixing Level and/or the Initial Basket Value.

(b) in the case that a Knock-Out Event has not occurred and, if provided for in the applicable Final Terms, the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value is above the relevant Strike Level – the Redemption Amount is zero (0), i.e. no payments will be made and the Product will expire worthless.

(c) in the case that a Knock-Out Event has occurred, the Redemption Amount equals, if provided for in the applicable Final Terms, zero (0), i.e. no payments will be made and the Product will expire worthless or the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the Rebate.

The relevant Knock-Out Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

If provided for in the applicable Final Terms the Redemption Amount can also be determined as follows:

(a) in the case that a Knock-Out Event has not occurred, the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the difference between (A) the relevant Strike Level and (B) the quotient of the Final Fixing Level of the Underlying and/or the Final Fixing Level of the worst performing Basket Performance and/or the Final Fixing Level of the best performing Basket Component and/or the Final Basket Value and its Initial Fixing Level and/or the Initial Basket Value.

(b) in the case that a Knock-Out Event has occurred, the Redemption Amount equals, if provided for in the applicable Final Terms, zero (0), i.e. no payments will be made and the Product will expire worthless or the Redemption Amount equals the Denomination and/or the Issue Price multiplied by the Rebate.

The relevant Knock-Out Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms.

Product No. 34. Explanation of mechanism of Dual Currency Notes

In the case of Dual Currency Notes, the level of the Redemption Amount is determined as follows:

- (i) If the Final Fixing Level is at or below the Strike Level, the Redemption Amount equals the Denomination multiplied by the sum of one (1) and the Coupon Rate taking into account the Coupon Day Count Fraction, whereby the result is converted from the Settlement Currency into the Alternative Currency using the Strike Level. In this case, the investor will accordingly receive a Redemption Amount in the Alternative Currency.
- (ii) If the Final Fixing Level is above the Strike Level, the Redemption Amount in the Settlement Currency equals the Denomination multiplied by the sum of one (1) and the Coupon Rate taking into account the Coupon Day Count Fraction.

Product No. 35. Explanation of mechanism of Stability Notes

The Products have the characteristic such that the level of the Redemption Amount and the time for redemption of the Products depend on whether a Gap Event has occurred. If this is the case, the term of the Products ends early and the Products are redeemed early following the date on which the Gap Event has occurred. If a Gap Event has occurred the Redemption Amount is determined as follows:

- (a) If the Gap is equal to or below the Gap Level, the Redemption Amount is zero (0).
- (b) If the Gap is above the Gap Level, the Redemption Amount equals the Denomination or the Issue Price multiplied by the difference between (A) 100 % and (B) the difference between the Strike Level and the Gap that is multiplied by the Leverage. However, the Redemption Amount is at least zero (0).

If a Gap Event has not occurred during the term of the Product the Redemption Amount on the Redemption Date is equal to the Denomination or the Issue Price.

The relevant Gap Event is defined in § 3 of the Issue Specific Conditions in the applicable Final Terms and occurs if the Reference Price of the Underlying on any Exchange Business Day is equal to or below the Reference Price of the Underlying on the preceding Exchange Business Day multiplied by the Strike Level.

Provided that no Gap Event has occurred, the Holder receives a Coupon Amount on the relevant Coupon Payment Date(s) that is determined on the basis of the Coupon Rate and the Denomination. The coupon payment is independent of the performance of the Underlying. In the case that a Gap Event has occurred the Holder will not receive any accrued coupon payments on the date on which the Gap Event has oc-

curred or on the date when the potential Redemption Amount following the occurrence of a Gap Event is redeemed.

3. Collateralisation (COSI)

Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange AG «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange AG in the form of a regular right of lien under Swiss law. The collateral is booked to a SIX Swiss Exchange AG account with SIX SIS AG. Holders do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day in Zurich (the "**Banking Day**"). The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange AG on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange AG a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX¹ at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 («Framework Agreement»). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58

¹ "SSX" means SIX Swiss Exchange AG.

800 1000, fax +41 58 800 1010 or via e-mail termsheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange AG. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange AG. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange AG. The Current Value of Product shall be determined according to either Method A: Fair Value Method or Method B: Bond Floor Method of these Special Conditions of SIX Swiss Exchange AG, as specified in the relevant Final Terms.

Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange AG or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS AG ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

Determination of a Liquidation Event

SIX Swiss Exchange AG is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange AG determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange AG is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange AG website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liq-

liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange AG and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange AG shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange AG website (www.six-swiss-exchange.com under the section „News“). Investors' claims against SIX Swiss Exchange AG for the payment of their pro-rata share of the net liquidation proceeds arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange AG are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange AG, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange AG and SIX SIS AG, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange AG will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. Investors' claims against the issuer will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange AG shall make public the applicable Current Values of the COSI Products.

Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange AG shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange AG shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange AG will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS AG participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX

IV. INFORMATION ABOUT THE PRODUCTS

SISAG. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS AG participant, then SIX Swiss Exchange AG and SIX SIS AG shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange AG may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS AG participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange AG is released from all further obligations. SIX Swiss Exchange AG may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS AG participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange AG is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange AG shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS AG on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange AG to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange AG shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange AG, SIX SIS AG or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange AG the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange AG is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange AG shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS AG participants to the extent these participants hold the COSI Products in accounts at SIX SIS AG, SIX Swiss Exchange AG and SIX SIS AG are liable only for the careful instruction of these SIX SIS AG participants. If the payment is made via third parties or via SIX SIS AG participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS AG, then SIX Swiss Exchange AG and SIX SIS AG are liable only for the careful selection and instruction.

No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

4. Collateralisation of the Products, which are secured by TCM (Triparty Collateral Management

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provi-

sions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to

meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("FISA") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

V. TERMS AND CONDITIONS

The Terms and Conditions consist of the following parts (referred to together as the "**Terms and Conditions**"):

- (a) the Issue Specific Conditions as set out under V.1 (the "**Issue Specific Conditions**"), which comprise
 - (i) Part A. Product Specific Conditions; and
 - (ii) Part B. Underlying Specific Conditions; together with
- (b) the General Conditions as set out under V.2 a) and b) (the "**General Conditions**").

*The respective Final Terms will (A) (i) replicate the applicable optional Issue Specific Conditions and (ii) contain new issue specific information in connection with these applicable Issue Specific Conditions (the "**Replication Conditions**") or (B) (i) specify and complete the relevant Product Specific Conditions and Underlying Specific Conditions and (ii) contain new issue specific information (the "**Reference Conditions**"). New information shall be included in the Final Terms solely in compliance with the requirements for Category B and Category C information items in Annex XX of the Prospectus Regulation. With respect to each individual series of Products, the Issue Specific Conditions, (A) in the form in which they are replicated in the Final Terms (in the case of Replication Conditions) and/or (B) in the form in which they are specified and completed (in the case of Reference Conditions), and the General Conditions shall contain the Terms and Conditions applicable to the respective series of Products (the "**Conditions**"). The Issue Specific Conditions, in the form in which they are (A) replicated in the Final Terms (in the case of Replication Conditions) or (B) specified and completed in the Final Terms (in the case of Reference Conditions), must be read together with the General Conditions.*

1. Issue Specific Conditions

Part A. Product Specific Conditions

[in the case of Bonus Certificates with Cash Settlement (Product No. 1), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") [issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.] [issues

products (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The total nominal amount (the "**Total Nominal Amount**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.]

(2) *Form*

[insert in the case of Swiss Uncertificated Securities:

(a) **Uncertificated Securities, Holders**

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will

immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the

Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities ac-

count.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or simi-

lar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated**

Securities") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends

on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2

Status of the Products

[insert in the case neither COSI nor TCM is applicable:

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, pari passu with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[insert in the case either COSI or TCM is applicable:

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, pari passu with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3

Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

"Current Exchange Rate Performance" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). **"Exchange Rate_(t)"** means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. **"Exchange Rate_(Initial)"** means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the ba-

sis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

["**Initial Fixing Period**" means the initial fixing period as specified in **Table 1** in the Annex.]

["**Initial Basket Value**" means the initial basket value as specified in **Table 1** in the Annex.]

["**Number of Basket Component_(i)**" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = \frac{[\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)}}{\text{Initial Fixing Level}_{(i)}}$.] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

["**Business Day**" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in *[insert principal financial centre for such currency: ●].*]

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: •]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

"Issue Price" means the issue price as specified in **Table 1** in the Annex.]

"Issue Surcharge" means the issue surcharge as specified in **Table 1** in the Annex.]

"Issue Date" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

"Conversion Ratio" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] *[insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]]*

"Barrier Observation Period" means the barrier observation period as specified in **Table 1** in the Annex.]

"Barrier Event" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] [[of at least one][a] Basket Component] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] *[insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is [equal to or] below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price][Final Fixing Level] of [a][at least one] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table [1][2]** in the Annex at any time during the Barrier Observation Period]], as determined by the Calculation Agent.]*

"Barrier Level" means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

"Underlying" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the **"In-**

dex"] ["Share"] ["Participation Certificate (*Genussschein*)"] ["Security representing Shares"] ["Commodity"] ["Currency Exchange Rate"] ["Futures Contract"] ["Fixed Rate Instrument"] ["Derivative Instrument"] ["Fund Unit"] ["Interest Rate"] ["Reference Rate"]) [*insert in the case of a share as Underlying or Basket Component*], as issued by the Share Issuer.].]

["**Underlying Valuation Date**"] means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Best Performance**"] means the best performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**Basket**"] means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**"] means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**"] means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**"] means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Bonus Level**"] means the bonus level as specified in **Table 1** in the Annex.]

["**Coupon Observation Date**"] means each of the coupon observation dates as specified in **Table 1**[3] in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Rate**"] equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the

Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1**[**3**] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.]]

["**Final Basket Value**" means the sum of the Final Levels of all Basket Components.]

["**Final Level of a Basket Component**" means the Final Fixing Level of the Basket Component multiplied by the [Number of Basket Component][Initial Weighting_(i)]. Accordingly, the Final Level of a Basket Component will be calculated as follows:

$$\text{Final Level of a Basket Component} = Ff_{(i)} * W_{(i)}$$

whereby

"Ff_(i)" means the Final Fixing Level of the Basket Component_(i) and

"W_(i)" means the [Number of Basket Component][Initial Weighting_(i)].]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period:* In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[*insert in the case of an index as Underlying or Basket Component:* "**Index Sponsor**" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site: ●*] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Participation Factor**" means the participation factor as specified in **Table 1** in the Annex.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irre-

spective of whether the Redemption Date is postponed for one or more Basket Components.]] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly].]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:]

(1) **Redemption Amount**

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) or subject to the occurrence of a Liquidation Event according

to § 10 of the Issue Specific Conditions the $\frac{[\text{Denomination}][\text{Issue Price}]}{[\text{Performance of the Underlying}]}$ multiplied by the $\frac{[\text{Final Fixing Level of the Basket Component with the Worst Performance}]}{[\text{Final Basket Value}]}$ and the $\frac{[\text{Initial Fixing Level of the Basket Component with the Worst Performance}]}{[\text{Initial Basket Value}]}$ multiplied by the Conversion Ratio $\frac{[\text{Final Fixing Level multiplied by the Conversion Ratio}]}{[\text{Issue Price multiplied by the Performance of the Underlying}]}$ multiplied by the $\frac{[\text{Final Basket Value (dividend)}]}{[\text{on the Final Fixing Date}]}$ and the Initial Basket Value (divisor)].

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).] [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be *[insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (3), as the case may be, and]* commercially rounded to two (2) decimal places.

(2) Minimum Redemption

[Provided that (i) no Barrier Event has occurred [and (ii) the Final Basket Value is equal to or below the Initial Basket Value multiplied by the Bonus Level], the Redemption Amount equals at least the Bonus Level multiplied by the $\frac{[\text{Denomination}][\text{Issue Price}]}{[\text{Conversion Ratio}]}$ (the "**Minimum Redemption Amount**"). The Minimum Redemption Amount will be *[insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (3) and]* commercially rounded to two (2) decimal places.] [Provided that no Barrier Event has occurred the Redemption Amount is determined as follows:

- (a) If the $\frac{[\text{Final Fixing Level [of the Basket Component with the [Worst][Best] Performance]}]}{[\text{Final Basket Value}]}$ is equal to or below the $\frac{[\text{Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance]}]}{[\text{Initial Basket Value}]}$ multiplied by the Bonus Level, the Redemption Amount equals the Bonus Level multiplied by the $\frac{[\text{Denomination}][\text{Issue Price}]}{[\text{Conversion Ratio}]}$ (the "**Minimum Redemption Amount**").
- (b) If the $\frac{[\text{Final Fixing Level [of the Basket Component with the [Worst][Best] Performance]}]}{[\text{Final Basket Value}]}$ is above the $\frac{[\text{Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance]}]}{[\text{Initial Basket Value}]}$ multiplied by the Bonus Level, the Redemption Amount equals the $\frac{[\text{Denomination}][\text{Issue Price}]}{[\text{Conversion Ratio}]}$ multiplied by the sum of (A) the Bonus Level and (B) the Participation Factor multiplied by the difference between (i) the quotient of the $\frac{[\text{Final Fixing Level [of the Basket Component with the [Worst][Best] Performance]}]}{[\text{Final Basket Value}]}$ and the $\frac{[\text{Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance]}]}{[\text{Initial Basket Value}]}$ and (ii) the Bonus Level.

[The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be *[insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (3) and]* commercially rounded to two (2) decimal places.]

[insert if Currency Conversion is applicable:

(3) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent *[insert if Quanto is not applicable: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.]**[insert if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("Quanto").]*

[insert if neither COSI nor TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) the $\frac{[\text{Denomination}][\text{Issue Price}]}{[\text{Performance of the Underlying}]}$ multiplied by the $\frac{[\text{Final Fixing Level of the Basket Component with the Worst Performance}]}{[\text{Final Basket Value}]}$ and the $\frac{[\text{Initial Fixing Level of the Basket Component with the Worst Performance}]}{[\text{Initial Basket Value}]}$ multiplied by the Conversion Ratio $\frac{[\text{Final Fixing Level multiplied by the Conversion Ratio}][\text{Issue Price multiplied by the Performance of the Underlying}]}{[\text{Issue Price multiplied by the quotient of the Final Basket Value (dividend) [on the Final Fixing Date] and the Initial Basket Value (divisor)}]}$.

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).] [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be *[insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (3), as the case may be, and]* commercially rounded to two (2) decimal places.

(2) Minimum Redemption

[Provided that (i) no Barrier Event has occurred [and (ii) the Final Basket Value is equal to or below the Initial Basket Value multiplied by the Bonus Level], the Redemption Amount equals at least the Bonus Level multiplied by the [Denomination] [Issue Price] [Conversion Ratio] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be *[insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (3) and]* commercially rounded to two (2) decimal places.] [Provided that no Barrier Event has occurred the Redemption Amount is determined

as follows:

- (a) If the [Final Fixing Level [of the Basket Component with the [Worst][Best] Performance]] [Final Basket Value] is equal to or below the [Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance]] [Initial Basket Value] multiplied by the Bonus Level, the Redemption Amount equals the Bonus Level multiplied by the [Denomination][Issue Price] (the "**Minimum Redemption Amount**").
- (b) If the [Final Fixing Level [of the Basket Component with the [Worst][Best] Performance]] [Final Basket Value] is above the [Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance]] [Initial Basket Value] multiplied by the Bonus Level, the Redemption Amount equals the [Denomination][Issue Price] multiplied by the sum of (A) the Bonus Level and (B) the Participation Factor multiplied by the difference between (i) the quotient of the [Final Fixing Level [of the Basket Component with the [Worst][Best] Performance]] [Final Basket Value] and the [Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance]] [Initial Basket Value] and (ii) the Bonus Level.

[The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (3) and] commercially rounded to two (2) decimal places.]

[*insert if Currency Conversion is applicable*:

(3) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

§ 5

Interest, Coupon Payments

[The Products bear no interest.] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance] (the "**Coupon Amount**").]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. [The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders.]

If the Redemption Date [and/or Coupon Payment Date] falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated]

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case either COSI or TCM is applicable:]

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral

is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail termsheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange

AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of

net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) *Secondary Listing*

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current

Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instruments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding

TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("FISA") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

§ 10
(intentionally left blank)]

[in the case of Bonus Certificates with potential Physical Settlement (Product No. 2), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art.

973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2**Status of the Products**

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): Number of Basket Component_(i)= [Denomination][Initial Basket Value] * Initial Weighting_(i) / Initial Fixing Level_(i).] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

the payments in *[insert principal financial centre for such currency: •].*

[insert in the case of Products with Euro as Settlement Currency: (in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: (in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: •]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

"Issue Price" means the issue price as specified in **Table 1** in the Annex.]

"Issue Surcharge" means the issue surcharge as specified in **Table 1** in the Annex.]

"Issue Date" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

"Conversion Ratio" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] *[insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]]*

"Barrier Observation Period" means the barrier observation period as specified in **Table 1 in the Annex.**]

"Barrier Event" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] *[insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is equal to or below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price][Final Fixing Level] of [a][at least one] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table 1][2]** in the Annex at any time during the Barrier Observation Period], as determined by*

the Calculation Agent.]]]

["**Barrier Level**" means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"]["**Share**"]["**Participation Certificate (Genussschein)**"]["**Security representing Shares**"]["**Commodity**"]["**Currency Exchange Rate**"] ["**Futures Contract**"]["**Fixed Rate Instrument**"]["**Derivative Instrument**"]["**Fund Unit**"]["**Interest Rate**"]["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component*], as issued by the Share Issuer].]

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Bonus Level**" means the bonus level as specified in **Table 1** in the Annex.]

["**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table 1**[3] in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Rate**" equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket

Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1**[**3**] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.]]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period:* In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[*insert in the case of an index as Underlying or Basket Component:* "**Index Sponsor**" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site:* ●] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing

Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]] [the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [*●*] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical delivery of the Underlying and subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Minimum Redemption Amount pursuant to paragraph (2).

(2) Minimum Redemption

Provided that no Barrier Event has occurred and the Final Fixing Level of the Underlying is equal to or below the Initial Fixing Price multiplied by the Bonus Level, the Redemption Amount equals the Bonus Level multiplied by the Issue Price [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (4) and]* commercially rounded to two (2) decimal places.

(3) Physical Delivery

Provided that (i) a Barrier Event has occurred or (ii) no Barrier Event has occurred and the Final Fixing Level of the Underlying is above the Initial Fixing Level multiplied by the Bonus Level, the Issuer will redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. The Cash Payment Amount for Fractions or the Compensation Amount shall be calculated by multiplying the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]]] by the fractions of the Underlying (in the case of the Cash Payment Amount for Fractions) or by the Conversion Ratio (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.

[insert if Currency Conversion is applicable:

(4) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent *[insert if Quanto is not applicable: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.]**[insert if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]*

[insert if neither COSI nor TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical delivery of the Underlying, the Minimum Redemption Amount pursuant to paragraph (2).

(2) Minimum Redemption

Provided that no Barrier Event has occurred and the Final Fixing Level of the Underlying is equal to or below the Initial Fixing Price multiplied by the Bonus Level, the Redemption Amount equals the Bonus Level multiplied by the Issue Price [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

(3) Physical Delivery

Provided that (i) a Barrier Event has occurred or (ii) no Barrier Event has occurred and the Final Fixing Level of the Underlying is above the Initial Fixing Level multiplied by the Bonus Level, the Issuer will redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. The Cash Payment Amount for Fractions or the Compensation Amount shall be calculated by multiplying the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]]] by the fractions of the Underlying (in the case of the Cash Payment Amount for Fractions) or by the Conversion Ratio (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable*:

(1) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Set-

tlement Currency ("Quanto").]

§ 5

Interest, Coupon Payments

[The Products bear no interest.] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance] (the "Coupon Amount").]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments, Physical Delivery

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, or the delivery of the Underlying or any other amount to be paid pursuant to § 4 of the Issue Specific Conditions to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. [The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders.]

If the Redemption Date [and/or Coupon Payment Date] falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated]

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case either COSI or TCM is applicable:]

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral

is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange

AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of

net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current

Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instruments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding

TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("FISA") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

§ 10
(intentionally left blank)]

[in the case of Capped Bonus Certificates with Cash Settlement and with par value (Product No. 3), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "Issuer") issues products (each a "Certificate" or a "Product" and together the "Certificates" or the "Products"). The total nominal amount (the "Total Nominal Amount") and the settlement currency (the "Settlement Currency") of the Products are specified in Table 1 in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("Uncertificated Securities").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "Register of Uncertificated Securities"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "Main Register of the Custody Agent"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("Intermediated Securities") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "Security Papers").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their

own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:]

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:]

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer.

The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products

created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"Clearing System" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2

Status of the Products

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3

Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance]

[●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "**Share Issuer**" means the company that has issued the [Underlying][Basket Component].]

["**Initial Fixing Level**" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

["**Initial Fixing Period**" means the initial fixing period as specified in **Table 1** in the Annex.]

["**Initial Basket Value**" means the initial basket value as specified in **Table 1** in the Annex.]

["**Number of Basket Component_(i)**" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): Number of Basket Component_(i)= [Denomination][Initial Basket Value] * Initial Weighting_(i) / Initial Fixing Level_(i).] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

["**Business Day**" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in [insert principal financial centre for such currency: ●].]

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: ●]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

["Issue Price" means the issue price as specified in **Table 1** in the Annex.]

["Issue Surcharge" means the issue surcharge as specified in **Table 1** in the Annex.]

["Issue Date" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["Barrier Observation Period" means the barrier observation period as specified in **Table 1** in the Annex.]

["Barrier Event" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] *[insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is equal to or below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price][Final Fixing Level] of [a][at least one] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table 1**[**2**] in the Annex at any time during the Barrier Observation Period], as determined by the Calculation Agent.]]]*

["Barrier Level" means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["Underlying" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"]["**Share**"]["**Participation Certificate (Genussschein)**"]["**Security representing Shares**"]["**Commodity**"]["**Currency Exchange Rate**"] ["**Futures Contract**"]["**Fixed Rate Instru-**

ment][**Derivative Instrument**][**Fund Unit**][**Interest Rate**][**Reference Rate**]) [*insert in the case of a share as Underlying or Basket Component*., as issued by the Share Issuer].]

[**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

[**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

[**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

[**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

[**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: **Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

[**Bonus Level**" means the bonus level as specified in **Table 1** in the Annex.]

[**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table [1][3]** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

[**Coupon Rate**" equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

[**Coupon Payment Date**" means the coupon payment date as specified in **Table [1][3]** in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postpone-

ment of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Cap Level**" means the Cap Level as specified in **Table 1** in the Annex.]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.)]

["**Final Basket Value**" means the sum of the Final Levels of all Basket Components.]

["**Final Level of a Basket Component**" means the Final Fixing Level of the Basket Component multiplied by the [Number of Basket Component][Initial Weighting_(i)]. Accordingly, the Final Level of a Basket Component will be calculated as follows:

$$\text{Final Level of a Basket Component} = Ff_{(i)} * W_{(i)}$$

whereby

"Ff_(i)" means the Final Fixing Level of the Basket Component_(i) and

"W_(i)" means the [Number of Basket Component][Initial Weighting_(i)].]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. *[insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]*

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

*[insert in the case of an index as Underlying or Basket Component: "Index Sponsor" **means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]***

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [dis-

played on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site: ●*] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in Table 1 in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the Denomination multiplied by the quotient of the Final Basket Value (dividend) and the Initial Basket Value (divisor). [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be *[insert if Currency Conversion is applicable:* converted into the Set-

tlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that (i) no Barrier Event has occurred and (ii) the Final Basket Value is equal to or below the Initial Basket Value multiplied by the Bonus Level, the Redemption Amount equals at least the Bonus Level multiplied by the Denomination [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination multiplied by the Cap Level [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable*:

(4) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

[*insert if neither COSI nor TCM is applicable*:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum

Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3) the Denomination multiplied by the quotient of the Final Basket Value (dividend) and the Initial Basket Value (divisor). [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that (i) no Barrier Event has occurred and (ii) the Final Basket Value is equal to or below the Initial Basket Value multiplied by the Bonus Level, the Redemption Amount equals at least the Bonus Level multiplied by the Denomination [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination multiplied by the Cap Level [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable*:

(4) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

§ 5

Interest, Coupon Payments

[The Products bear no interest.] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance] (the "**Coupon Amount**").]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. [The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders.]

If the Redemption Date [and/or Coupon Payment Date] falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10**Collateral Secured Instruments (COSI)*****(1) Collateralization of the Product***

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 («Framework Agreement»). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at "www.six-swiss-exchange.com".

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the

trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated

with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collat-

eral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on

which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) *Secondary Listing*

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) *Liability*

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) *No authorisation*

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) *Congruence with the Conditions*

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instru-	

ments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**").

The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current

Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up

proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Prod-

V. TERMS AND CONDITIONS

uct will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

[insert in the case neither COSI nor TCM is applicable:]

§ 10
(intentionally left blank)]

[in the case of Capped Bonus Certificates with Cash Settlement and without par value (Product No. 4), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their

own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"Clearing System" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2

Status of the Products

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3

Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): Number of Basket Component_(i)= [Denomination][Initial Basket Value] * Initial Weighting_(i) / Initial Fixing Level_(i).] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

tle payments in [*insert principal financial centre for such currency: ●*].]

[*insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[*insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[*insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [*insert currency: ●*]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]*]

["**Issue Price**"] means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**"] means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**"] means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Barrier Observation Period**"] means the barrier observation period as specified in **Table 1** in the Annex.]

["**Barrier Event**"] has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] [*insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is equal to or below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price][Final Fixing Level] of [all][a][at least one] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table [1][2]** in the Annex at any time during the Barrier Observation Period], as determined by the Calculation Agent.]]]*]

["**Barrier Level**"] means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**"] means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"] ["**Share**"] ["**Participation Certificate (Genussschein)**"] ["**Security representing Shares**"] ["**Commodity**"] ["**Currency Exchange Rate**"] ["**Futures Contract**"] ["**Fixed Rate Instrument**"] ["**Derivative Instrument**"] ["**Fund Unit**"] ["**Interest Rate**"] ["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component: , as issued by the Share Issuer.*]

["**Underlying Valuation Date**"] means [each of the dates] [the date] as specified in **Table 1** in the An-

nex.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

*[insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component: "Exchange" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]*

["**Bonus Level**" means the bonus level as specified in **Table 1** in the Annex.]

["**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table [1][3]** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Rate**" equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table [1][3]** in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Cap Level**" means the Cap Level as specified in **Table 1** in the Annex.]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.)]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.*]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[*insert in the case of an index as Underlying or Basket Component: "Index Sponsor"* means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site: ●*] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component] means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any re-

placement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]] [the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding [Initial Fixing Level][Strike Level].]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [*●*] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[*insert if either COSI or TCM is applicable:*

(1) *Redemption Amount*

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Issue Price multiplied by the Performance of the [Underlying][Basket Component with the Worst Performance]. [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

The Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.

(2) *Minimum Redemption*

Provided that [(i)] no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level [of the Basket Component with the Worst Performance] is above the Initial Fixing Level multiplied by the Bonus Level], the Redemption Amount equals [at least] the Bonus Level multiplied by the Issue Price [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Issue Price multiplied by the Cap Level [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable*:

(4) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]

[*insert if neither COSI nor TCM is applicable*:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3), the Issue Price multiplied by the Performance of the [Underlying][Basket Component with the Worst Performance]. [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that [(i)] no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final

Fixing Level [of the Basket Component with the Worst Performance] is above the Initial Fixing Level multiplied by the Bonus Level], the Redemption Amount equals [at least] the Bonus Level multiplied by the Issue Price [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Issue Price multiplied by the Cap Level [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable*:

(4) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]

§ 5

Interest, Coupon Payments

[The Products bear no interest.] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance] (the "**Coupon Amount**").]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. [The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders.]

If the Redemption Date [and/or Coupon Payment Date] falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date

on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the

two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 let-

ter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a

COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) *Costs of liquidation and payout for the benefit of the investors*

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current

Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper

selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instruments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product

and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recov-

ery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entire-

ly until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation

Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

[insert in the case neither COSI nor TCM is applicable:]

§ 10
(intentionally left blank)]

[in the case of Capped Bonus Certificates with potential Physical Settlement (Product No. 5), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"Custody Agent" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"Clearing System" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2

Status of the Products

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3

Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = \frac{[\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)}}{\text{Initial Fixing Level}_{(i)}}$ [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

the payments in *[insert principal financial centre for such currency: •].*

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: •]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

"Issue Price" means the issue price as specified in **Table 1** in the Annex.]

"Issue Surcharge" means the issue surcharge as specified in **Table 1** in the Annex.]

"Issue Date" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

"Conversion Ratio" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] *[insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]]*

"Barrier Observation Period" means the barrier observation period as specified in **Table 1** in the Annex.]

"Barrier Event" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] *[insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is equal to or falls below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price][Final Fixing Level] of [a][at least one] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table [1][2]** in the Annex at any time during the Barrier Observation Peri-*

od], as determined by the Calculation Agent.]]]

["**Barrier Level**" means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"]["**Share**"]["**Participation Certificate (Genussschein)**"]["**Security representing Shares**"]["**Commodity**"]["**Currency Exchange Rate**"] ["**Futures Contract**"]["**Fixed Rate Instrument**"]["**Derivative Instrument**"]["**Fund Unit**"]["**Interest Rate**"]["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component*], as issued by the Share Issuer].]

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Bonus Level**" means the bonus level as specified in **Table 1** in the Annex.]

["**Cap Level**" means the Cap Level as specified in **Table 1** in the Annex.]

["**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table 1**[**3**] in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]]

["**Coupon Rate**" equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket

Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1**[**3**] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.]]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period:* In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[*insert in the case of an index as Underlying or Basket Component:* "**Index Sponsor**" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site:* ●] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [*●*] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical delivery of the Underlying and subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Minimum Redemption Amount pursuant to paragraph (2) which is equal to the Maximum Redemption Amount pursuant to paragraph (3).

(2) Minimum Redemption

Provided that [(i)] no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level of the Underlying is above the Issue Price multiplied by the Bonus Level], the Redemption Amount equals the Bonus Level multiplied by the Issue Price [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (5) and]* commercially rounded to two (2)

decimal places.

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Issue Price multiplied by the Cap Level [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable: converted into the Settlement Currency in accordance with paragraph (5) and*] commercially rounded to two (2) decimal places.

(4) Physical Delivery

Provided that a Barrier Event has occurred [and the Final Fixing Level of the Underlying is equal to or below the Issue Price multiplied by the Bonus Level], the Issuer will redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]], which considering the Conversion Ratio is either related to the fraction of the Underlying (in the case of the Cash Payment Amount for Fractions) or to the number of the Underlying (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable:*

(5) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.*][*insert*

if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]

[*insert if neither COSI nor TCM is applicable:*

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical delivery of the Underlying, the Minimum Redemption Amount pursuant to paragraph (2) which is equal to the Maximum Redemption Amount pursuant to paragraph (3).

(2) Minimum Redemption

Provided that [(i)] no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level of the Underlying is above the Issue Price multiplied by the Bonus Level], the Redemption Amount equals the Bonus Level multiplied by the Issue Price [whereby the result is multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (5) and] commercially rounded to two (2) decimal places.

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Issue Price multiplied by the Cap Level [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (5) and] commercially rounded to two (2) decimal places.

(4) Physical Delivery

Provided that a Barrier Event has occurred [and the Final Fixing Level of the Underlying is equal to or below the Issue Price multiplied by the Bonus Level], the Issuer will redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]], which considering the Conversion Ratio is either related to the fraction of the Underlying (in the case of the Cash Payment Amount for Fractions) or to the number of the Underlying (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash

Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.

[insert if Currency Conversion is applicable:

(5) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent *[insert if Quanto is not applicable: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][insert if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("Quanto").]*

§ 5

Interest, Coupon Payments

[The Products bear no interest.] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance] (the "Coupon Amount").]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments, Physical Delivery

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, or the delivery of the Underlying or any other amount to be paid pursuant to § 4 of the Issue Specific Conditions to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. [The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders.]

If the Redemption Date [and/or Coupon Payment Date] falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10**Collateral Secured Instruments (COSI)****(1) Collateralization of the Product**

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich,

Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at "www.six-swiss-exchange.com".

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) *Costs of liquidation and payout for the benefit of the investors*

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of

the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) *Secondary Listing*

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) *Liability*

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) *No authorisation*

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this § 10 "Collateral Secured Instruments (COSI)"	Corresponding definition in these Conditions
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10**Triparty Collateral Management (TCM)**

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the

TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the pro-

ceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

§ 10
(intentionally left blank)]

[in the case of Notes (Reverse Convertibles) with Cash Settlement (Product No. 6), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products (each a "**Note**" or a "**Product**" and together the "**Notes**" or the "**Products**"). The total nominal amount (the "**Total Nominal Amount**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"Custody Agent" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2**Status of the Products**

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = \frac{[\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)}}{\text{Initial Fixing Level}_{(i)}}$.] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

tle payments in [*insert principal financial centre for such currency: ●*].]

[*insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[*insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[*insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [*insert currency: ●*]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]*]

["**Issue Price**"] means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**"] means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**"] means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Strike Level**"] means the strike level as specified in **Table 1** in the Annex.]

["**Underlying**"] means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"] ["**Share**"] ["**Participation Certificate (Genussschein)**"] ["**Security representing Shares**"] ["**Commodity**"] ["**Currency Exchange Rate**"] ["**Futures Contract**"] ["**Fixed Rate Instrument**"] ["**Derivative Instrument**"] ["**Fund Unit**"] ["**Interest Rate**"] ["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component, as issued by the Share Issuer.*]

["**Underlying Valuation Date**"] means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**"] means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**"] means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**"] means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**"] means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component: "**Exchange**"* means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component]

has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1** in the Annex or, if this date is not a Business Day, the next following Business Day.]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.)]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. *[insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]*

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

*[insert in the case of an index as Underlying or Basket Component: "Index Sponsor"**"** means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]*

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] *[insert Internet site: ●]* [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]] [the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following

day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:]

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3), or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Denomination multiplied by the Performance of the Underlying. [The result is multiplied by the Exchange Rate Performance.]

The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Strike Level (divisor).

The Redemption Amount will be commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that the Final Fixing Level of the Underlying is above the Strike Level, the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").]

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

[insert if neither COSI nor TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3), the Denomination multiplied by the Performance of the Underlying. [The result is multiplied by the Exchange Rate Performance.]

The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Strike Level (divisor).

The Redemption Amount will be commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that the Final Fixing Level of the Underlying is above the Strike Level, the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").]

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

§ 5

Interest, Coupon Payments

For the Product a coupon payment shall be made in the Settlement Currency on the Coupon Payment Date in the amount (the "**Coupon Amount**") specified for the Coupon Payment Date in **Table 1** in the Annex [whereby the amount is multiplied by the Current Exchange Rate Performance]. Any postponement of the Coupon Payment Date has no effect on the Coupon Amount (see § 8 (1) of the Issue Specific Conditions).

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders. If the Redemption Date or Coupon Payment Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of

at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) *Transfer of the Redemption Amount in case of termination*

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) *Taxes, fees or other duties*

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) *Collateralization of the Product*

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a

Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to

ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings

Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right

under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio

between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the

COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instruments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Prod-

uct. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value

(determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will deter-

mine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

**§ 10
(intentionally left blank)]**

[in the case of Notes (Reverse Convertibles) with potential Physical Settlement (Product No. 7), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products (each a "**Note**" or a "**Product**" and together the "**Notes**" or the "**Products**"). The total nominal amount (the "**Total Nominal Amount**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"Custody Agent" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2**Status of the Products**

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = [\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)} / \text{Initial Fixing Level}_{(i)}$.] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

tle payments in [*insert principal financial centre for such currency: •*].]

[*insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[*insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[*insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [*insert currency: •*]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]*]

["**Issue Price**" means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**" means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Strike Level**" means the strike level as specified in **Table 1** in the Annex.]

["**Conversion Ratio**" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].]][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] [*insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]*]

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"]["**Share**"]["**Participation Certificate (Genussschein)**"]["**Security representing Shares**"]["**Commodity**"]["**Currency Exchange Rate**"] ["**Futures Contract**"]["**Fixed Rate Instrument**"]["**Derivative Instrument**"]["**Fund Unit**"]["**Interest Rate**"]["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component, as issued by the Share Issuer.*]

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component: "Exchange" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1** in the Annex or, if this date is not a Business Day, the next following Business Day.]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component).]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. *[insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]*

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[insert in the case of an index as Underlying or Basket Component: "Index Sponsor" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site: ●*] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to §

9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption, Physical Delivery

[insert if either COSI or TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical settlement pursuant to paragraph (4) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Minimum Redemption Amount pursuant to paragraph (2) which equals the Maximum Redemption Amount pursuant to paragraph (3).

(2) Minimum Redemption

Provided that the Final Fixing Level is above the Strike Level, the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

(4) Settlement by delivery

If the Final Fixing Level is equal to or below the Strike Level, the Issuer will redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]], which considering the Conversion Ratio is either related to the fraction of the Underlying (in the case of the Cash Payment Amount for Fractions) or to the number of the Underlying (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.]

[insert if neither COSI nor TCM is applicable:]

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical settlement pursuant to paragraph (4), the Minimum Redemption Amount pursuant to paragraph (2) which equals the Maximum Redemption Amount pursuant to paragraph (3).

(2) Minimum Redemption

Provided that the Final Fixing Level is above the Strike Level, the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

(4) Settlement by delivery

If the Final Fixing Level is equal to or below the Strike Level, the Issuer will redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]], which considering the Conversion Ratio is either related to the fraction of the Underlying (in the case of the Cash Payment Amount for Fractions) or to the number of the Underlying (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.]

§ 5

Interest, Coupon Payments

For the Product a coupon payment shall be made in the Settlement Currency on the Coupon Payment Date in the amount (the "**Coupon Amount**") specified for the Coupon Payment Date in **Table 1** in the Annex [whereby the amount is multiplied by the Current Exchange Rate Performance]. Any postponement of the Coupon Payment Date has no effect on the Coupon Amount (see § 8 (1) of the Issue Specific Conditions).

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments, Physical Delivery

(1) Payments, Physical Delivery

The Issuer shall cause the delivery of the Underlying or the claimed Redemption Amount, if any, or any other amount to be paid pursuant to § 4 of the Issue Specific Conditions to be transferred via the

Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders. If the Redemption Date or Coupon Payment Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific

Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Frame-

work Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at "www.six-swiss-exchange.com".

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) *Costs of liquidation and payout for the benefit of the investors*

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of

the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) *Secondary Listing*

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) *Liability*

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) *No authorisation*

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this § 10 "Collateral Secured Instruments (COSI)"	Corresponding definition in these Conditions
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10**Triparty Collateral Management (TCM)**

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four busi-

ness days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in

particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against

the Collateral Provider under the terms of the TCM Security Agreement The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

[insert in the case neither COSI nor TCM is applicable:

§ 10
(intentionally left blank)]

[in the case of Notes (Barrier Reverse Convertibles) with Cash Settlement (Product No. 8), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products (each a "**Note**" or a "**Product**" and together the "**Notes**" or the "**Products**"). The total nominal amount (the "**Total Nominal Amount**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2**Status of the Products**

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = \frac{[\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)}}{\text{Initial Fixing Level}_{(i)}}$.] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex.]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

tle payments in [*insert principal financial centre for such currency: •*].]

[*insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[*insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[*insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [*insert currency: •*]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]*]

["**Issue Price**" means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**" means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Barrier Observation Period**" means the barrier observation period as specified in **Table 1** in the Annex.]

["**Barrier Event**" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] [*insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is equal to or below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the Reference Price of [a][at least one] Basket Component is [equal to or] below the Barrier Level specified in **Table [1][2]** in the Annex, as determined by the Calculation Agent] [the [Price][Reference Price] of [at least] [a][two or more] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table [1][2]** in the Annex at any time during the Barrier Observation Period], as determined by the Calculation Agent.] [the [Price][Reference Price] [Final Fixing Level] of [a][two or more] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table [1][2]** in the Annex [at any time during the Barrier Observation Period]], as determined by the Calculation Agent.]]]*

["**Barrier Level**" means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"] ["**Share**"] ["**Participation Certificate (Genussschein)**"] ["**Security representing**

Shares["Commodity"]["Currency Exchange Rate"] ["Futures Contract"]["Fixed Rate Instrument"]["Derivative Instrument"]["Fund Unit"]["Interest Rate"]["Reference Rate"]) [*insert in the case of a share as Underlying or Basket Component*., as issued by the Share Issuer.].]

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table 1**[**3**] in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Rate**" equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1**[**3**] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed

accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.)]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.*]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[*insert in the case of an index as Underlying or Basket Component: "Index Sponsor"* means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site: ●*] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Ex-

change Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]] [the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component]] [all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:]

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Denomination multiplied by the [Performance of the Underlying][Worst Performance]. [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

The Redemption Amount will be commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that [(i) no Barrier Event has occurred or (ii) a Barrier Event has occurred and the Final Fixing Level of the Underlying is above the Initial Fixing Level][no Barrier Event has occurred], the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Ex-

change Rate Performance] (the "**Maximum Redemption Amount**").]

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

[insert if neither COSI nor TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Minimum Redemption pursuant to paragraph (2) and a Maximum Redemption pursuant to paragraph (3), the Denomination multiplied by the [Performance of the Underlying][Worst Performance]. [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

The Redemption Amount will be commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that [(i) no Barrier Event has occurred or (ii) a Barrier Event has occurred and the Final Fixing Level of the Underlying is above the Initial Fixing Level][no Barrier Event has occurred], the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").]

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

§ 5

Interest, Coupon Payments

[For the Product a coupon payment shall be made in the Settlement Currency on the Coupon Payment Date in the amount (the "**Coupon Amount**") specified for the Coupon Payment Date in **Table 1** in the Annex [whereby the amount is multiplied by the Current Exchange Rate Performance]. Any postponement of the Coupon Payment Date has no effect on the Coupon Amount (see § 8 (1) of the Issue Specific Conditions).] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance].]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders. If the Redemption Date or Coupon Payment Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of

at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a

Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to

ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings

Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right

under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio

between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the

COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instruments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Prod-

uct. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value

(determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will deter-

mine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

**§ 10
(intentionally left blank)]**

[in the case of Notes (Barrier Reverse Convertibles) with potential Physical Settlement (Product No. 9), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products (each a "**Note**" or a "**Product**" and together the "**Notes**" or the "**Products**"). The total nominal amount (the "**Total Nominal Amount**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their

own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"Custody Agent" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:]

(c) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(d) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:]

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:]

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the **"Permanent Global Note"**) without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the **"Minimum Trading Lot"**) or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the **"Permanent Global Note"**) without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2**Status of the Products**

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the Reference Currency [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the Settlement Currency which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = \frac{[\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)}}{\text{Initial Fixing Level}_{(i)}}$ [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex].]

"Business Day" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets set-

tle payments in [*insert principal financial centre for such currency: ●*].]

[*insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[*insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)]* a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[*insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [*insert currency: ●*]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]*]

["**Issue Price**" means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**" means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Conversion Ratio**" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] [*insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted ● Business Days after the receipt of the dividend payment by the Issuer.]]*]

["**Barrier Observation Period**" means the barrier observation period as specified in **Table 1** in the Annex.]

["**Barrier Event**" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] [*insert in the case of a Basket as Underlying if appropriate: [the Final Basket Value is equal to or below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price] [Final Fixing Level] of [a][two or more] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table 1**][2] in the Annex at any time during the Barrier Observation Period], as determined by*]

the Calculation Agent.] [the [Price[s]][Reference Price[s]] [Final Fixing Level[s]] of [a][two or more] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table 1**[**2**] in the Annex [at any time during the Barrier Observation Period]], as determined by the Calculation Agent.]]

["**Barrier Level**"] means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**"] means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"]["**Share**"]["**Participation Certificate (Genussschein)**"]["**Security representing Shares**"]["**Commodity**"]["**Currency Exchange Rate**"] ["**Futures Contract**"]["**Fixed Rate Instrument**"]["**Derivative Instrument**"]["**Fund Unit**"]["**Interest Rate**"]["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component*., as issued by the Share Issuer].]

["**Underlying Valuation Date**"] means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**"] means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**"] means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**"] means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**"] means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Coupon Observation Date**"] means each of the coupon observation dates as specified in **Table 1**[**3**] in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Rate**"] equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Perfor-**

mance of a Basket Component" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1**[**3**] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.]]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period:* In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[*insert in the case of an index as Underlying or Basket Component:* "**Index Sponsor**" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site:* ●] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [*●*] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption, Physical Delivery

[insert if either COSI or TCM is applicable:]

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical settlement pursuant to paragraph (4) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, the Minimum Redemption Amount pursuant to paragraph (2) which equals the Maximum Redemption Amount pursuant to paragraph (3).

(2) Minimum Redemption

Provided that [(i)] no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level is above the Initial Fixing Level], the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

(4) Settlement by delivery

If a Barrier Event has occurred [and the Final Fixing Level reaches or falls below the Initial Fixing Level], the Issuer will redeem the Products by way of delivery of a number of the [Underlying][Basket Component with the Worst Performance] expressed by the Conversion Ratio, with fractions of the [Underlying][relevant Basket Component] not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the [Underlying][relevant Basket Component], for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the [Underlying][relevant Basket Component]. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level of the [Underlying][relevant Basket Component] [converted into the Settlement Currency [on the basis of [●]]], which considering the Conversion Ratio is either related to the fraction of the [Underlying][relevant Basket Component] (in the case of the Cash Payment Amount for Fractions) or to the number of the [Underlying][relevant Basket Component] (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the [Underlyings][relevant Basket Components] to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.]

[insert if neither COSI nor TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a physical settlement pursuant to paragraph (4), the Minimum Redemption Amount pursuant to paragraph (2) which equals the Maximum Redemption Amount pursuant to paragraph (3).

(2) Minimum Redemption

Provided that [(i) no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level is above the Initial Fixing Level], the Redemption Amount equals the Denomination [multiplied by the Exchange Rate Performance] (the "**Minimum Redemption Amount**").

[The Minimum Redemption Amount will be commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the Denomination [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be commercially rounded to two (2) decimal places.]

(4) Settlement by delivery

If a Barrier Event has occurred [and the Final Fixing Level reaches or falls below the Initial Fixing Level], the Issuer will redeem the Products by way of delivery of a number of the [Underlying][Basket Component with the Worst Performance] expressed by the Conversion Ratio, with fractions of the [Underlying][relevant Basket Component] not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the [Underlying][relevant Basket Component], for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the [Underlying][relevant Basket Component]. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level of the [Underlying][relevant Basket Component] [converted into the Settlement Currency [on the basis of [●]]], which considering the Conversion Ratio is either related to the fraction of the [Underlying][relevant Basket Component] (in the case of the Cash Payment Amount for Fractions) or to the number of the [Underlying][relevant Basket Component] (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the [Underlyings][relevant Basket Components] to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.]

§ 5**Interest, Coupon Payments**

[For the Product a coupon payment shall be made in the Settlement Currency on the Coupon Payment Date in the amount (the "**Coupon Amount**") specified for the Coupon Payment Date in **Table 1** in the Annex [whereby the amount is multiplied by the Current Exchange Rate Performance]. Any postponement of the Coupon Payment Date has no effect on the Coupon Amount (see § 8 (1) of the Issue Specific Conditions).] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance].]

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8**Payments, Physical Delivery*****(1) Payments, Physical Delivery***

The Issuer shall cause the delivery of the Underlying or Basket Component, as the case may be, or the claimed Redemption Amount, if any, or any other amount to be paid pursuant to § 4 of the Issue Specific Conditions to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. The Issuer shall transfer the Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders. If the Redemption Date or Coupon Payment Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated]

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral

is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange

AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of

net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) *Secondary Listing*

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current

Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this	Corresponding definition in these Conditions
§ 10 "Collateral Secured Instruments (COSI)"	
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding

TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("FISA") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

[insert in the case neither COSI nor TCM is applicable:]

§ 10
(intentionally left blank)]

[in the case of Discount Certificates with Cash Settlement (Product No. 10), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the

respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art.

973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"Clearing System" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2

Status of the Products

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3

Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

[*insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].*]

["**Initial Fixing Level**" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying]

[Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

["**Initial Fixing Period**" means the initial fixing period as specified in **Table 1** in the Annex.]

["**Initial Basket Value**" means the initial basket value as specified in **Table 1** in the Annex.]

["**Number of Basket Component_(i)**" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): Number of Basket Component_(i)= [Denomination][Initial Basket Value] * Initial Weighting_(i) / Initial Fixing Level_(i).] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex].]

["**Business Day**" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in *[insert principal financial centre for such currency: ●]*.)]

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in

New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: •]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

["**Issue Price**"] means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**"] means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**"] means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Conversion Ratio**"] means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].]] [the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] *[insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]]*

["**Underlying**"] means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"] ["**Share**"] ["**Participation Certificate (Genussschein)**] ["**Security representing Shares**] ["**Commodity**] ["**Currency Exchange Rate**] ["**Futures Contract**] ["**Fixed Rate Instrument**] ["**Derivative Instrument**] ["**Fund Unit**] ["**Interest Rate**] ["**Reference Rate**"]) *[insert in the case of a share as Underlying or Basket Component, as issued by the Share Issuer].]*

["**Underlying Valuation Date**"] means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**"] means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**"] means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**"] means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**"] means the screen page as specified in **Table 2** in the Annex.]

*[insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substi-*

tute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Cap Level**"] means the Cap Level as specified in **Table 1** in the Annex.]

["**Fiscal Agent**"] means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**"] means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**"] means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.)]

["**Initial Fixing Date**"] means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. *[insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]*

["**Business Centre**"] means the business centre as specified in **Table 1** in the Annex.]

*[insert in the case of an index as Underlying or Basket Component: "Index Sponsor"**"]** means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]*

["**Initial Weighting_(i)**"] means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**"] [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] *[insert Internet site: ●]* [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**"] [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**"] [of a Basket Component] means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]] [the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to

the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Maximum Redemption pursuant to paragraph (2) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the Final Fixing Level multiplied by the Conversion Ratio. [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (3), as the case may be, and] commercially rounded to two (2) decimal places.

(2) Maximum Redemption

Provided that the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Cap Level multiplied by the Conversion Ratio [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (3) and] commercially rounded to two (2) decimal places.

[insert if Currency Conversion is applicable:

(3) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent *[insert if Quanto is not applicable:* on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion. *][insert if Quanto is applicable:* at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").*]]*

[insert if neither COSI nor TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to a Maximum Redemption pursuant to paragraph (2) the Final Fixing Level multiplied by the Conversion Ratio. *[The result is multiplied by the Exchange Rate Performance.]*

The Redemption Amount will be *[insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (3), as the case may be, and] commercially rounded to two (2) decimal places.

(2) Maximum Redemption

Provided that the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Cap Level multiplied by the Conversion Ratio *[whereby the result is multiplied by the Exchange Rate Performance]* (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be *[insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph (3) and] commercially rounded to two (2) decimal places.

[insert if Currency Conversion is applicable:

(3) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent *[insert if Quanto is not applicable:* on the basis of the exchange rate expressed in the Reference Cur-

rency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion. *[[insert if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("Quanto").]]*

§ 5

Interest, Coupon Payments

The Products bear no interest.

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date.

If the Redemption Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption

Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time

as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail termsheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a

COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of

the investors in COSI Product.

(6) Liquidation of collateral

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v) the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended,

and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifically the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors

who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) *Secondary Listing*

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the CO-

SI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this § 10 "Collateral Secured Instruments (COSI)"	Corresponding definition in these Conditions
investor	Holder
issuer	Issuer
issuing conditions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:]

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day. The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neutral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("FISA") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors' claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"Holder" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the **"Permanent Global Note"**) without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the **"Minimum Trading Lot"**) or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the **"Permanent Global Note"**) without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"Holder" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"Clearing System" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer [*insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated*] [*insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions*].

§ 2

Status of the Products

[*insert in the case neither COSI nor TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[*insert in the case either COSI or TCM is applicable:*

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3

Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

[*insert in the case of a share as Underlying or Basket Component: "Share Issuer" means the company that has issued the [Underlying][Basket Component].*]

["**Initial Fixing Level**" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying]

[Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.]

["**Initial Fixing Period**" means the initial fixing period as specified in **Table 1** in the Annex.]

["**Initial Basket Value**" means the initial basket value as specified in **Table 1** in the Annex.]

["**Number of Basket Component_(i)**" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): Number of Basket Component_(i)= [Denomination][Initial Basket Value] * Initial Weighting_(i) / Initial Fixing Level_(i).] [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex].]

["**Business Day**" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in *[insert principal financial centre for such currency: ●]*.)]

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in

New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: •]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

["**Issue Price**" means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**" means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Conversion Ratio**" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].]][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] *[insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]]*

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"]["**Share**"]["**Participation Certificate (Genussschein)**"]["**Security representing Shares**"]["**Commodity**"]["**Currency Exchange Rate**"] ["**Futures Contract**"]["**Fixed Rate Instrument**"]["**Derivative Instrument**"]["**Fund Unit**"]["**Interest Rate**"]["**Reference Rate**"]) *[insert in the case of a share as Underlying or Basket Component, as issued by the Share Issuer].]*

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

*[insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substi-*

tute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Cap Level**"] means the Cap Level as specified in **Table 1** in the Annex.]

["**Fiscal Agent**"] means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**"] means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**"] means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.)]

["**Initial Fixing Date**"] means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. *[insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]*

["**Business Centre**"] means the business centre as specified in **Table 1** in the Annex.]

*[insert in the case of an index as Underlying or Basket Component: "**Index Sponsor**" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]*

["**Initial Weighting_(i)**"] means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**"] [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] *[insert Internet site: ●]* [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]

["**Relevant Performance**"] [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**"] [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [*insert currency: ●*]] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg]] [the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**" means, subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding Initial Fixing Level.]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to

the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][insert other currency: ●] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][insert other currency: ●] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][insert other currency: ●] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][insert other currency: ●] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption, Physical Delivery

[insert if either COSI or TCM is applicable:

(1) Physical Delivery

The Issuer will, subject to a Maximum Redemption pursuant to paragraph (2) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions, redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]]], which considering the Conversion Ratio is either related to the fraction of the Underlying (in the case of the Cash Payment Amount for Fractions) or to the number of the Underlying (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be commercially rounded to two (2) decimal places.

(2) Maximum Redemption

Provided that the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Cap Level multiplied by the Conversion Ratio [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable: converted to the Settlement Currency in accordance with paragraph (3) and]* commercially rounded to two (2) decimal places.

[insert if Currency Conversion is applicable:

(3) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.*]*[insert if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]*

[insert if neither COSI nor TCM is applicable:

(1) Physical Delivery

The Issuer will, subject to a Maximum Redemption pursuant to paragraph (2), redeem the Products by way of delivery of a number of the Underlying expressed by the Conversion Ratio, with fractions of the Underlying not being delivered but redeemed by way of payment of a cash payment amount for fractions (the "**Cash Payment Amount for Fractions**"). Should the delivery of the Underlying, for whatever reason, be economically or actually impeded or not possible, then the Issuer shall have the right to pay a compensation amount (the "**Compensation Amount**") in lieu of delivery of the Underlying. For the calculation of the Cash Payment Amount for Fractions or the Compensation Amount the Final Fixing Level [converted into the Settlement Currency [on the basis of [●]]], which considering the Conversion Ratio is either related to the fraction of the Underlying (in the case of the Cash Payment Amount for Fractions) or to the number of the Underlying (in the case of the Compensation Amount). If the Holder holds several Products, there shall be no aggregation of the Cash Payment Amounts for Fractions in such a way that the number of the Underlyings to be settled would increase. The Cash Payment Amount for Fractions or the Compensation Amount, as the case may be, shall be

commercially rounded to two (2) decimal places.

(2) Maximum Redemption

Provided that the Final Fixing Level is above the Cap Level, the Redemption Amount equals the Cap Level multiplied by the Conversion Ratio [whereby the result is multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (3) and] commercially rounded to two (2) decimal places.

[*insert if Currency Conversion is applicable*:

(3) Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

§ 5

Interest, Coupon Payments

The Products bear no interest.

§ 6

(intentionally left blank)

§ 7

(intentionally left blank)

§ 8

Payments, Physical Delivery

(1) Payments

The Issuer shall cause the delivery of the Underlying or the claimed Redemption Amount, if any, or any other amount to be paid pursuant to § 4 of the Issue Specific Conditions to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Redemption Date. If the Redemption Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the

Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10

Collateral Secured Instruments (COSI)

(1) Collateralization of the Product

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX

at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) *Risks*

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) *Liquidation of collateral*

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v)

the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifi-

cally the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS

participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this § 10 "Collateral Secured Instru- ments (COSI)"	Corresponding definition in these Conditions
investor	Holder
issuer	Issuer
issuing condi- tions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day.

The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neu-

tral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim

against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors'

claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

[insert in the case neither COSI nor TCM is applicable:

**§ 10
(intentionally left blank)]**

[in the case of Express Certificates with Cash Settlement and without par value (Product No. 12), insert:

§ 1

Form and Issue Size; Definitions; Term of the Products

(1) Currency; Issue Size

Leonteq Securities AG[, acting through its Guernsey branch: Leonteq Securities AG, Guernsey Branch] [, acting through its Amsterdam branch: Leonteq Securities AG, Amsterdam Branch] (the "**Issuer**") issues products without par value (each a "**Certificate**" or a "**Product**" and together the "**Certificates**" or the "**Products**"). The number (the "**Number of Products**") and the settlement currency (the "**Settlement Currency**") of the Products are specified in **Table 1** in the Annex.

(2) Form

[insert in the case of Swiss Uncertificated Securities:

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or

transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depositary on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer or an early redemption [insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated] [insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions].

§ 2**Status of the Products**

[insert in the case neither COSI nor TCM is applicable:

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[insert in the case either COSI or TCM is applicable:

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][insert other currency: ●] [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the [Reference Currency][Settlement Currency][insert other currency: ●] which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [and/or] [the respective Autocall Observation Date allocated to the relevant Early Redemption Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the [weighted average] exchange rate [executed in duly discretion from [●] to the Initial Fixing Date] as specified in **Table 2** in the Annex expressed

in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.][*insert in the case of a share as Underlying or Basket Component: "Share Issuer"*] means the company that has issued the [Underlying][Basket Component].]

"Initial Fixing Level" means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [the lowest Reference Price of the [Underlying][respective Basket Component] during the Initial Fixing Observation Dates, as determined by the Calculation Agent] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.] [the weighted average [Price][Reference Price] of the [Underlying][Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.]

"Initial Fixing Observation Dates" means the initial fixing observation dates as specified in **Table 1** in the Annex.]

"Initial Fixing Period" means the initial fixing period as specified in **Table 1** in the Annex.]

"Initial Basket Value" means the initial basket value as specified in **Table 1** in the Annex.]

"Final Basket Value" means the sum of the Final Levels of all Basket Components.]

"Final Level of a Basket Component" means the Final Fixing Level of the Basket Component multiplied by the [Number of Basket Component][Initial Weighting_(i)]. Accordingly, the Final Level of a Basket Component will be calculated as follows:

$$\text{Final Level of a Basket Component} = Ff_{(i)} * W_{(i)}$$

whereby

"Ff_(i)" means the Final Fixing Level of the Basket Component_(i) and

"W_(i)" means the [Number of Basket Component][Initial Weighting_(i)].]

"Number of Basket Component_(i)" [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the

respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): $\text{Number of Basket Component}_{(i)} = \frac{[\text{Denomination}][\text{Initial Basket Value}] * \text{Initial Weighting}_{(i)}}{\text{Initial Fixing Level}_{(i)}}$ [Initial Weighting means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex].]

["**Business Day**" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in *[insert principal financial centre for such currency: ●].*]

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in *[insert currency: ●]*] [in the Business Centre[s]] *[if no currency is indicated, insert: in each of the Business Centres].*]

["**Issue Price**" means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**" means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Strike Level**" means the strike level as specified in **Table 1** in the Annex.]

["**Conversion Ratio**" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conver-

sion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.] [*insert for Quanto products:* [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted • Business Days after the receipt of the dividend payment by the Issuer.]]

["**Autocall Observation Date**" means [each of the autocall observation dates as specified in **Table 3** in the Annex or, if such date is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in relation to the relevant Basket Component]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Autocall Observation Date [in respect of one or more Basket Components], the relevant Autocall Observation Date [in relation to the relevant Basket Component] shall be postponed accordingly.]]

["**Autocall Event**" has occurred if on an Autocall Observation Date the Reference Price [of all Basket Components] [of [the][a][at least one] Basket Component [with the [Best][Worst] Performance] [(regardless of the Target One Underlying)] is [equal to or]] exceeds the [respective] Autocall Trigger Level relevant for such date.]

["**Early Redemption Coupon Amount**" means the Early Redemption Coupon Amount allocated to the respective Autocall Observation Date in **Table 3** in the Annex.]

["**Autocall Trigger Level**" means the Autocall Trigger Level in respect of the relevant Autocall Observation Date [with respect to the relevant Basket Component] as specified in **Table 3** in the Annex.]

["**Barrier Observation Period**" means the barrier observation period as specified in **Table 1** in the Annex.]

["**Barrier Event**" has occurred if [the Final Fixing Level [of [the][a][at least [one][two or more] Basket Component[s] [(regardless of the Target One Underlying)] [with the [Best][Worst] Performance] is [equal to or] below the [Barrier Level][Strike Level][Target One Level]] [the [Price][Reference Price] [and none of the Final Fixing Levels of the Basket Components is above the respective Target Level] [of [the][a][at least [one][two or more]] Basket Component[s] [(regardless of the Target One Underlying)] is [equal to or] below the [Barrier Level] [Strike Level] [Target One Level] at any time during the Barrier Observation Period] [*insert in the case of a Basket as Underlying if appropriate:* [the Final Basket Value equals or falls below the [Barrier Level] [Strike Level] [Target One Level] as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the [Barrier Level] [Strike Level] [Target One Level] during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price] [Final Fixing Level] of [a][at least [one][two or more]] Basket Component[s] is [equal to or] below the [Barrier Level] [Strike Level] [Target One Level] for this Basket Component as specified in **Table [1][2]** in the Annex [(regardless

of the Target One Underlying) [at any time during the Barrier Observation Period]], as determined by the Calculation Agent.]]]

["**Barrier Level**" means the barrier level as specified in **Table [1][2]** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"] [and/or] ["**Share**"] [and/or] ["**Participation Certificate (Genussschein)**"] [and/or] ["**Security representing Shares**"] [and/or] ["**Commodity**"] [and/or] ["**Currency Exchange Rate**"] [and/or] ["**Futures Contract**"] [and/or] ["**Fixed Rate Instrument**"] [and/or] ["**Derivative Instrument**"] [and/or] ["**Fund Unit**"] [and/or] ["**Interest Rate**"] [and/or] ["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component:*, as issued by the Share Issuer].]

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Best Performance**" means the best performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding [Initial Fixing Level] [Strike Level].]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Basket Performance**" means the quotient of the sum of the Relevant Performances and the Initial Basket Value.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component:* "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Coupon Amount**" means the coupon amount as specified in **Table [1][3]** in the Annex.]

["**Coupon Day Count Fraction**" means the actual number of days in the Coupon Period divided by 360 (Actual/360).]

["**Coupon Determination Date**" means [two Business Days prior to the Issue Date and each Coupon

Payment Date, respectively] [●].]

["**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table [1][3]** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Period**" means the period commencing on (and including) the Issue Date to (but excluding) the first Coupon Payment Date and (where there is more than one Coupon Period) each period commencing on (and including) a Coupon Payment Date to (but excluding) the next following Coupon Payment Date and, if any Coupon Amount is required to be calculated for a period ending other than on (but excluding) a relevant Coupon Payment Date, the period commencing on and including the most recent Coupon Payment Date (or if none the Issue Date) to but excluding the relevant payment date.] [●].]

["**Coupon Rate**" [equals the sum of [*insert relevant rate: ●*]]% and the Reference Rate as determined by the Calculation Agent on the relevant Coupon Determination Date that is multiplied by a factor of [●]. [The Coupon Rate is at least zero (0).]] [equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Performance of a Basket Component**" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]] [means the coupon rate as specified in **Table [1][3]** in the Annex.] [means [*insert relevant rate: ●*] multiplied by the Factor, whereby "**Factor**" means the number of Basket Components included in the Basket for which the respective [Price][closing price of the Basket Component] [●] is equal to or above the respective Coupon Trigger Level on the respective Coupon Observation Date allocated to the relevant Coupon Payment Date.] [is the sum of the Partial Coupon Rates 1 to [*insert number of Partial Coupon Rates: ●*]]. The respective Partial Coupon Rate is determined as follows:

The "**Partial Coupon Rate 1**" is the Partial Coupon Rate 1 as specified in **Table [1] [3]** in the Annex, if on a Coupon Observation Date the Reference Price [of all Basket Components] [is equal to or] exceeds the [respective] Trigger Level for Partial Coupon Rate 1 relevant for such date. Otherwise, the Partial Coupon Rate 1 for such date is zero (0) %. The "**Trigger Level for Partial Coupon Rate 1**" is the relevant Trigger Level for Partial Coupon Rate 1 as specified in **Table [1] [3]** in the Annex.

[The "**Partial Coupon Rate 2**" is the Partial Coupon Rate 2 as specified in Table [1] [3] in the Annex, if on a Coupon Observation Date the Reference Price [of all Basket Components] [is equal to or] exceeds the [respective] Trigger Level for Partial Coupon Rate 2 relevant for such date. Otherwise, the Partial Coupon Rate 2 for such date is zero (0) %. The "**Trigger Level for Partial Coupon Rate 2**" is the relevant Trigger Level for Partial Coupon Rate 2 as specified in Table [1] [3] in the Annex.] *[insert corresponding information for additional partial coupon rates: •]*

["**Coupon Trigger Event**" has occurred if on a Coupon Observation Date the Reference Price [of all Basket Components][of [•] Basket Components] [(regardless of the Target One Underlying)] exceeds the [respective] Coupon Trigger Level relevant for such date.]

["**Coupon Trigger Level**" means the coupon trigger level as specified in Table [1][3] in the Annex [with respect to the relevant Basket Component].]

["**Coupon Payment Date**" means the coupon payment date as specified in Table [1][3] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in Table 1 in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.] [the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component).]]

["**Initial Fixing Date**" means [the initial fixing date as specified in Table 1 in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. *[insert in the case of Products with subscription period: In the event of the postponement of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]]*

["**Business Centre**" means the business centre as specified in Table 1 in the Annex.]

*[insert in the case of an index as Underlying or Basket Component: "Index Sponsor"**"** means the index sponsor as specified in Table 2 in the Annex [for the relevant Basket Component].]*

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in Table 2 in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Lock-In Coupon Amount**" is the Lock-In Coupon Amount as specified in **Table 1** in the Annex.]

["**Lock-In Event**" occurs if on any Lock-In Observation Date the [Reference Price of the Underlying on such date] [Reference Prices of all Basket Components on such date] is at or above the Lock-In Level.]

["**Lock-In Level**" is the Lock-In Level as specified in **Table [1][3]** in the Annex.]

["**Lock-In Observation Date**" means each of the Lock-In Observation Dates as specified in **Table [1][3]** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].]

["**Price**" [means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [*insert Internet site: ●*] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [[of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).] [[of the relevant Basket Component] means the Reference Price of such Basket Component on the relevant Autocall Observation Date multiplied by the Number of Basket Component_(i).]]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [*insert other method for determining Relevant Exchange Rate: ●*]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Minimum Redemption Factor**" means the minimum redemption factor specified in **Table 2** in the Annex.]

["**Minimum Early Redemption Amount**" means the minimum early redemption amount specified in **Table 1** in the Annex.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Reference Amount**" means the reference amount as specified in **Table 1** in the Annex.]

["**Reference Price**" means [the [closing level] [and/or] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in *insert currency: ●*] [as determined [and published] on the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**" means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Reference Rate**" [means the reference rate specified in **Table 1** in the Annex] [●]. The Reference Rate is published on [●]. [If the Reference Rate is not available on the relevant screen page, the Calculation Agent will request at least three Reference Banks (as defined below) to provide a quotation for the Reference Rate. If two or more of the Reference Banks provide the Calculation Agent with such quotation, the Reference Rate shall be the arithmetic mean of such quotations as determined by the Calculation Agent. If fewer than two such quotations are provided as requested above, then the Reference Rate shall be determined by the Calculation Agent in its reasonable discretion. "**Reference Banks**" are major banks in the interbank market.] [●]]

["**Redemption Date**" means, subject to an Early Redemption pursuant to § 7 of the Issue Specific Conditions or subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**" means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding [Initial Fixing Level] [Strike Level].]

["**TARGET2 System**" means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Target One Event**" has occurred if on the Final Fixing Date the [closing price] [●] of the Target One Underlying] is [equal to or]] exceeds the [respective] Target One Level.]

["**Target One Level**" means the target one level [with respect to the relevant Basket Component] as specified in **Table 2** in the Annex.]

["**Target One Underlying**" means the Basket Component specified as such in **Table 2** in the Annex.]

["**Final Fixing Date**" means [the final fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]].] [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**" has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Early Redemption Date**" means each of the early redemption dates as specified in **Table 3** in the Annex or, if an Early Redemption Date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Autocall Observation Date, the relevant Early Redemption Date shall be postponed accordingly.]]

["**Website**" means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**" means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**" means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][insert other currency: ●] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][insert other currency: ●] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the [weighted average] exchange rate [executed in duly discretion from [●] to the Initial Fixing Date] as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][insert other currency: ●] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][insert other currency: ●] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

§ 4

Redemption

[insert if either COSI or TCM is applicable:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to an Early Redemption pursuant to § 7 of the Issue Specific Conditions [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the following amount: (a) If a Lock-In Event has occurred, the Redemption Amount equals the Issue Price plus the Lock-In Coupon Amount. (b) If neither a Lock-In Event nor a Barrier Event has occurred, the Redemption Amount equals the Issue Price. (c) If a Lock-In Event has not occurred, but a Barrier Event has occurred, the Redemption

Amount equals the Issue Price multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]].] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the following amount: (a) If a Barrier Event has occurred, the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]. (b) If no Barrier Event has occurred the Redemption Amount is determined as follows: (i) If the Final Fixing Level [of the Basket Component with the Worst Performance] is equal to or below [the][its] Initial Fixing Level, the Redemption Amount equals the [Issue Price][Reference Amount] multiplied by the difference between 200 % and the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]. (ii) If the Final Fixing Level [of the Basket Component with the Worst Performance] is above [the][its] Initial Fixing Level, the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]. [The result is multiplied by the Exchange Rate Performance.] [The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the [Initial Fixing Level][Strike Level] (divisor).] The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.] [and a Minimum Redemption pursuant to paragraph (2) which simultaneously equals the Maximum Redemption Amount pursuant to paragraph (3) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]] [above the Strike Level][Minimum Redemption Factor] [and a Minimum Redemption pursuant to paragraph (2) which simultaneously equals the Maximum Redemption Amount pursuant to paragraph (3) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the following amount: (a) If neither a Target One Event nor a Barrier Event has occurred the Redemption Amount equals the [Issue Price] [Reference Amount]. (b) If a Target One Event has not occurred, but a Barrier Event has occurred the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the [Worst][Best] Performance and its [Initial Fixing Level][Strike Level]]. [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the Issue Price multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]], whereby the result will equal at least the Issue Price multiplied by the Minimum Redemption Factor.][The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the [Initial Fixing Level] [Strike Level] (divisor).]

The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded

to two (2) decimal places.

(2) Minimum Redemption

Provided that [(i) no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level [of the Basket Component with the Worst Performance] is above [the][its] [Initial Fixing Level][Strike Level]] the Redemption Amount equals the [Issue Price] [Reference Amount] [multiplied by the quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]] [a Target One Event has occurred the Redemption Amount equals the [Issue Price] [Reference Amount]] [multiplied by the Exchange Rate Performance].

[The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the [Issue Price] [Reference Amount] [multiplied by the quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]] [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.]]

[*insert if Currency Conversion is applicable*:

[(2)][(4)] Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.]] [*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

[insert if neither COSI nor TCM is applicable:]

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to an Early Redemption pursuant to § 7 of the Issue Specific Conditions [the following amount: (a) If a Lock-In Event has occurred, the Redemption Amount equals the Issue Price plus the Lock-In Coupon Amount. (b) If neither a Lock-In Event nor a Barrier Event has occurred, the Redemption Amount equals the Issue Price. (c) If a Lock-In Event has not occurred, but a Barrier Event has occurred, the Redemption Amount equals the Issue Price multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]].] [the following amount: (a) If a Barrier Event has occurred, the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]. (b) If no Barrier Event has occurred the Redemption Amount is determined as follows: (i) If the Final Fixing Level [of the Basket Component with the Worst Performance] is equal to or below [the][its] Initial Fixing Level, the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the difference between 200 % and the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]. (ii) If the Final Fixing Level [of the Basket Component with the Worst Performance] is above [the][its] Initial Fixing Level, the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]]. [The result is multiplied by the Exchange Rate Performance.] [The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the [Initial Fixing Level][Strike Level] (divisor).] The Redemption Amount will be *[insert if Currency Conversion is applicable:]* converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.] [and a Minimum Redemption pursuant to paragraph (2) which simultaneously equals the Maximum Redemption Amount pursuant to paragraph (3), the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]] [above the Strike Level] [Minimum Redemption Factor] [and a Minimum Redemption pursuant to paragraph (2) which simultaneously equals the Maximum Redemption Amount pursuant to paragraph (3) the following amount: (a) If a Target One Event has not occurred and no Barrier Event has occurred the Redemption Amount equals the [Issue Price] [Reference Amount]. (b) If a Target One Event has not occurred, but a Barrier Event has occurred the Redemption Amount equals the [Issue Price] [Reference Amount] multiplied by the [Performance of the Underlying] [quotient of the Final Fixing Level of the Basket Component with the [Worst][Best] Performance and its [Initial Fixing Level][Strike Level]]. [or the Issue Price multiplied by the [Performance of the Underlying][quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]], whereby the result will equal at least the Issue Price multiplied by the Minimum Redemption Factor.]] [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the [Initial Fixing Level][Strike Level] (divisor).]

The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.

(2) Minimum Redemption

Provided that [(i)] no Barrier Event has occurred [or (ii) a Barrier Event has occurred and the Final Fixing Level [of the Basket Component with the Worst Performance] is above [the][its] [Initial Fixing Level] [Strike Level]] the Redemption Amount equals the [Issue Price] [Reference Amount] [multiplied by the quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]] [a Target One Event has occurred the Redemption Amount equals the [Issue Price] [Reference Amount]] [multiplied by the Exchange Rate Performance].

[The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.]

(3) Maximum Redemption

The Redemption Amount per Product equals no more than the [Issue Price] [Reference Amount] [multiplied by the quotient of the Final Fixing Level of the Basket Component with the Worst Performance and its [Initial Fixing Level][Strike Level]] [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.]]

[*insert if Currency Conversion is applicable*:

[(2)][(4)] Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.]]*insert*

if Quanto is applicable: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

§ 5

Interest, Coupon Payments

[[*(1) Coupon Payments*]

[[If a Coupon Trigger Event has occurred on a Coupon Observation Date [and the Reference Price is above the Initial Fixing Level], a coupon payment is made in the Settlement Currency for the products on the applicable Coupon Payment Date [in the amount of the Coupon Amount specified for the applicable Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance]] [which is equal to the product of (i) the [Issue Price] [Reference Amount] and (ii) the difference between (x) the quotient of the Reference Price on the respective Coupon Observation Date (dividend) and the Initial Fixing Level (divisor) and (y) 1, whereby the [result is multiplied by the Current Exchange Rate Performance and the] coupon payment is at least zero]. [If a Coupon Trigger Event has not occurred on a Coupon Observation Date, a coupon payment is not made for the Products on the applicable Coupon Payment Date.]] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the [Issue Price] [Reference Amount] [whereby the result is multiplied by the Current Exchange Rate Performance].] [Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon payments are made.] [If a Coupon Trigger Event has not occurred [and no Barrier Event has occurred] [and the Final Fixing Level of the Underlying is above the Initial Fixing Level], the Holder receives a coupon payment on the final Coupon Payment Date in the amount of the Coupon Amount specified for the final Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance.]] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount specified for the applicable Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance].] [Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon payments are made.] In the case of a redemption at the end of the term, the Holder receives a coupon payment on the final Coupon Payment Date in the amount of the Coupon Amount specified for the final Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance.]] [Provided that on the relevant Coupon Observation Date a Coupon Trigger Event has occurred, a Coupon payment shall be made for the Products on the relevant Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance]. The coupon rate (the "**Coupon Rate**") relevant for the respective Coupon Observation Date is the Coupon Rate for the relevant Coupon Payment Date specified in **Table 3** in the Annex.] [If a Coupon Trigger Event has not occurred on a Coupon Observation Date, a coupon payment is not made for the Products on the applicable Coupon Payment Date.]] [The Holder receives a Coupon Amount on each Coupon Payment Date. The Coupon Amount (the "**Coupon Amount**") is determined by multiplying [Issue Price][Denomination] [Reference Amount] by the Coupon Rate [and further multiplied by the Coupon Day Count Fraction] [whereby the result is [also] multiplied by the Current Exchange Rate Performance.]] The Coupon Amount will be commercially rounded to two (2) decimal places. [Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon pay-

ments are made.]

[(2) *Coupon Amount*

The Coupon Amount (the "**Coupon Amount**") is determined by multiplying the [Issue Price] [Reference Amount] by (i) the applicable Coupon Rate for the relevant Coupon Payment Date [and by (ii) N [whereby the result is multiplied by the Current Exchange Rate Performance].

"N" means in the case that

(a) before the applicable Coupon Observation Date_(t) no Coupon Trigger Event has occurred, the number of Coupon Observation Dates_(t) from Coupon Observation Date_(t) (inclusive) to, in each case, the applicable Coupon Observation Date_(t) (inclusive), and in the case that

(b) before the applicable Coupon Observation Date_(t) a Coupon Trigger Event has already occurred, the number of Coupon Observation Dates_(t) between the Coupon Observation Date_(t) (exclusive) on which the last Coupon Trigger Event has occurred and the applicable Coupon Observation Date_(t) (inclusive) in each case].

[Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon payments are made. The Coupon Amount will be commercially rounded to two (2) decimal places.]]

§ 6

(intentionally left blank)

§ 7

Early Redemption

(1) Conditions precedent for Early Redemption

In the event that on any Autocall Observation Date an Autocall Event has occurred, the term of the Products shall end automatically on this Autocall Observation Date without the need for a separate termination of the Products by the Issuer (the "**Early Redemption**"). In this case the Redemption Amount to be paid by the Issuer equals the [Issue Price] [Reference Amount] [multiplied by the Basket Performance, whereby the Redemption Amount will not be lower than the Minimum Early Redemption Amount] [and] [multiplied by the Current Exchange Rate Performance] [plus the Early Redemption Coupon Amount allocated to the Autocall Observation Date on which the Autocall Event has occurred [multiplied by the Current Exchange Rate Performance]].

(2) Notification of Early Redemption

Notice of the occurrence of Early Redemption and the value of the Redemption Amount to be paid per Product in this case shall be published in accordance with § 4 of the General Conditions.

§ 8
Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Early Redemption Date (in the case of an Early Redemption pursuant to § 7 of the Issue Specific Conditions) and/or the Redemption Date (in the case that no Early Redemption has occurred). The Issuer shall transfer the respective Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders. If the Early Redemption Date[,] [or] the Redemption Date or a Coupon Payment Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment. [With respect to the coupon payment(s) the Holder is entitled to further coupon payments for each additional day the scheduled Coupon Payment Date is postponed.]

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated]

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an

amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) *Transfer of the Redemption Amount in case of termination*

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) *Taxes, fees or other duties*

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:]

§ 10

Collateral Secured Instruments (COSI)

(1) *Collateralization of the Product*

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two

Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich, Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at “www.six-swiss-exchange.com”.

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) *Risks*

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) *Liquidation of collateral*

If the Collateral Provider fails to fulfil its obligations, the collateral will be liquidated by SIX Swiss Exchange or a liquidator under the terms of the applicable legal regulations. The collateral may be liquidated («Liquidation Events») if (i) the Collateral Provider fails to furnish the required collateral, fails to do so in due time, or if the collateral that is provided is not free from defects, unless any such defect is remedied within three (3) banking days; (ii) the issuer fails to fulfil a payment or delivery obligation under a COSI Product upon maturity according to the issuing conditions, fails to do so in due time, or if its fulfilment of such obligations is defective, unless any such defect is remedied within three (3) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under Article 26 paragraph 1 letter (f) to (h) of the Federal Act on Banks and Savings Banks, or restructuring measures or the liquidation (winding-up proceedings) under Article 25 et seq. of the Federal Act on Banks and Savings Banks; (iv) a foreign financial market supervisory authority, another competent foreign authority or a competent foreign court orders an action that is comparable with that described in item (iii) above; (v)

the market making obligation is breached for ten (10) consecutive banking days; (vi) the Collateral Provider's participation at SIX SIS ceases; (vii) the provisional admission of the COSI Product to trading lapses or is cancelled and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the lapse or cancellation of the provisional admission; or (viii) the COSI Product are delisted upon application by the issuer or for any other reason, and the issuer fails to satisfy investors' claims according to the issuing conditions of the COSI Product within thirty (30) banking days of the last trading day. The Framework Agreement provides for the exact time at which each Liquidation Event occurs. The remedy of a Liquidation Event is not possible.

(7) Determination of a Liquidation Event

SIX Swiss Exchange is not required to undertake investigations with regard to the occurrence of a Liquidation Event. In determining the occurrence of a Liquidation Event, it bases its decision on reliable sources of information only. SIX Swiss Exchange determines with binding effect for the investors that an incident qualifies as a Liquidation Event and at what point in time the Liquidation Event occurred.

(8) Procedure in case of a Liquidation Event

If a Liquidation Event occurs, SIX Swiss Exchange is at its own discretion entitled: (i) to make public the occurrence of a Liquidation Event immediately or at a later stage in suitable form, specifically in a newspaper with a national distribution and on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation). Once a Liquidation Event has occurred, trading in all COSI Products of the issuer may be suspended, and the COSI Products of the issuer may be delisted.

(9) Maturity of the COSI Products as well as investors' claims against SIX Swiss Exchange and the issuer

All of the issuer's COSI Products under the Framework Agreement shall fall due for redemption thirty (30) banking days after a Liquidation Event has occurred. SIX Swiss Exchange shall make public the due date in a newspaper with a national distribution, as well as on the SIX Swiss Exchange website (www.six-swiss-exchange.com under the section „News“); **Investors' claims against SIX Swiss Exchange for the payment of their pro-rata share of the net liquidation proceeds** arise automatically only once the COSI Products have fallen due for redemption. Investors' claims against SIX Swiss Exchange are based on a genuine contract in favour of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations) which is irrevocable on the part of the Collateral Provider. The acquisition of a COSI Product by an investor automatically entails the declaration vis-à-vis SIX Swiss Exchange, as described in Art. 112 paragraph 3 of the Swiss Code of Obligations, that he wishes to enforce his right under the Framework Agreement at maturity of the COSI Product. In dealings with SIX Swiss Exchange and SIX SIS, the investors are bound by the provisions of the Framework Agreement, specifi-

cally the **choice of Swiss law and the exclusive jurisdiction of the Commercial Court of Canton Zurich (Switzerland)**.

If a Liquidation Event has occurred, SIX Swiss Exchange will determine the Current Values of all COSI Products of the issuer in the respective trading currency with binding effect for the issuer, the Collateral Provider and the investors. **Investors' claims against the issuer** will be based on these Current Values when the COSI Products mature in accordance with the Framework Agreement. The Current Values of the COSI Products on the banking day immediately preceding the date on which the Liquidation Event occurred shall be applicable. SIX Swiss Exchange shall make public the applicable Current Values of the COSI Products.

(10) Costs of liquidation and payout for the benefit of the investors

The costs incurred in connection with the liquidation and payout (including taxes and duties, as well as consulting fees) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. For this purpose, SIX Swiss Exchange shall deduct a flatrate fee of 0.1 percent from the entire liquidation proceeds for its own expenses and for the expenses of third parties. In addition, SIX Swiss Exchange shall be entitled to satisfy, in advance out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider and the issuer under the terms of the Framework Agreement. The remaining net liquidation proceeds are available for payout to the investors in COSI Products of the issuer.

SIX Swiss Exchange will transfer the pro-rata share of net liquidation proceeds due to investors to SIX SIS participants. In doing so, it is released from all further obligations. The amounts transferred are determined by the holdings of COSI Products that are booked to participant accounts with SIX SIS. If the issuer which, according to the Framework Agreement, is affected by the maturity of its COSI Products, is a SIX SIS participant, then SIX Swiss Exchange and SIX SIS shall decide on a separate procedure for the payment of the pro-rata share of net liquidation proceeds to those investors who hold their COSI Product via the issuer. SIX Swiss Exchange may transfer the pro-rata share of net liquidation proceeds for these investors to one or more other SIX SIS participants or to one or more third parties, which will attend to the payment to investors in COSI Products either directly or indirectly. In doing so, SIX Swiss Exchange is released from all further obligations. SIX Swiss Exchange may decide at its own discretion to have the payment of the pro-rata share of net liquidation proceeds for other or all investors in COSI Products conducted by one or more other SIX SIS participants or by one or more third parties.

The payouts to investors are made exclusively in Swiss francs. The claim of the investors is non-interest-bearing. SIX Swiss Exchange is not liable to pay either default interest or damages should the payout be delayed for any reason.

The maximum claim of an investor to satisfaction from the net liquidation proceeds of collateral is determined by the sum of the Current Values of his COSI Products. Should the combined Current Values of all investors in the issuer's COSI Products exceed the net liquidation proceeds, payment of pro-rata shares of net liquidation proceeds to individual investors will be made according to the ratio between the total Current Values held by individual investors and the total Current Values accruing to all investors in COSI Products of the issuer.

In the case of COSI Products in a different trading currency than the Swiss franc, SIX Swiss Exchange shall, with binding effect for the parties to the Framework Agreement and the investors, convert the Current Values into Swiss francs in order to determine the pro-rata share of net liquidation proceeds. The exchange rates according to the rules and regulations of SIX SIS on the banking day immediately preceding the date on which the Liquidation Event occurred, shall be applicable. The conversion of the Current Values of COSI Products of a different trading currency than the Swiss franc pertains only to the amount and the effect of the payout of pro-rata net liquidation proceeds by SIX Swiss Exchange to investors in such COSI Products and shall have no further effect on the relationship between the investor and the issuer. SIX Swiss Exchange shall make public these values of the COSI Products as well as the applicable exchange rates.

The investors' claims against the issuer arising from the COSI Products are reduced by the amount of the payment of the pro-rata net liquidation proceeds. In the case of COSI Products of a different trading currency than the Swiss franc the reduction amount of the claim of the investor against the issuer shall be determined in accordance with the conversion rate of the particular trading currency of the COSI Products to the Swiss franc applicable on the banking day immediately preceding the date on which the Liquidation Event occurred.

No further investor claims exist against SIX Swiss Exchange, SIX SIS or other persons which are involved in the collateralization service for COSI Products under the terms of the Framework Agreement.

(11) Secondary Listing

Apart from the primary listing of the COSI Products on SIX Swiss Exchange the issuer may apply for a secondary listing on further exchanges. All aspects and events related to a secondary listing of the COSI Products shall be disregarded under the Framework Agreement. In particular, prices of the COSI Products on secondary exchanges are not taken into consideration for the calculation of the Current Value and events which are related to a listing or admission to trading of the COSI Products on a secondary exchange, such as the suspension of the market making at a secondary exchange or the delisting of the COSI Products from a secondary exchange, shall not be deemed a liquidation event under the Framework Agreement. SIX Swiss Exchange is at its own discretion entitled to make public the occurrence of a liquidation event and the maturity of the COSI Products pursuant to the Framework Agreement in the countries where a secondary listing is maintained as well as to inform the secondary exchanges or any other bodies about such occurrences.

(12) Liability

The liability of parties to the Framework Agreement to pay damages exists only in cases of gross negligence or intentional misconduct. Further liability is excluded. SIX Swiss Exchange shall only be liable for third parties, which are mandated with the valuation of COSI Products, in case of improper selection and instruction of such third parties. Where the payment of pro-rata shares of net liquidation proceeds of COSI Products is made via SIX SIS participants to the extent these participants hold the COSI Products in accounts at SIX SIS, SIX Swiss Exchange and SIX SIS are liable only for the careful instruction of these SIX SIS participants. If the payment is made via third parties or via SIX SIS

participants in respect of COSI Products that are not booked to these participants' accounts at SIX SIS, then SIX Swiss Exchange and SIX SIS are liable only for the careful selection and instruction.

(13) No authorisation

COSI Products do not constitute collective investment schemes pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA). They do not require authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA.

(14) Congruence with the Conditions

This section "Collateral Secured Instruments (COSI)" corresponds to the SIX Swiss Exchange standard text. The terms contained herein are incorporated as follows in the Conditions:

Term used in this § 10 "Collateral Secured Instru- ments (COSI)"	Corresponding definition in these Conditions
investor	Holder
issuer	Issuer
issuing condi- tions	Terms and Conditions, Conditions
maturity	Redemption, Redemption Date, Final Fixing Date]

[insert in the case TCM is applicable:

§ 10

Triparty Collateral Management (TCM)

The TCM Secured Structured Product (the "**TCM Secured Product**") is secured in accordance with the terms of the TCM Security Agreement (as defined below). Leonteq Securities AG ("Collateral Provider") undertakes to secure the value of the TCM Secured Products at any given time.

The Investor in the TCM Secured Product ("**Collateral Taker**") represented by SIX Repo AG ("**Collateral Agent**") (defined in detail below in "**Documentation**"), has a surety right to the collateral. Security must be provided to the Collateral Taker in the form of a right of lien. The collateral is booked to an account of the Collateral Provider with SIX SIS AG (the "**collateral account**"). The TCM Secured Product and the collateral shall be valued on each banking day. SIX SIS AG, acting as an independent third party, manages both the collateral account and the collateral assignment for the individual TCM Secured Product. The Collateral Provider has no right to dispose of the collateral in the collateral account or to close or transfer the collateral account. The TCM secured products and collateral are valued on each business day.

The collateral required for the TCM Secured Products is valued by SIX SIS AG on the basis of the price information provided by the Issuer and published in the market information system of SIX Financial Information AG. The Collateral Provider shall be obliged to adjust the collateral to any changes in value of the TCM Secured Product (refer to the section below "**Collateralisation method**"). Permitted types of collateral shall be selected by SIX SIS AG on an ongoing basis. For example, as permitted types of collateral, the TCM Security Agreement provides cash deposits in specified currencies (e.g. in CHF, EUR, USD, GBP, or JPY) and certain types of securities (e.g. securities that directly or indirectly aggregate the TCM Secured Product), securities may only be used as collateral, if the price is not older than four business days. The Collateral Provider shall, upon request at any given time, inform investors about the collateral that is eligible. The costs for the collateralisation of the TCM Secured Products will be included in the issue price and will not be billed separately to investors.

Documentation

The collateralization in favour of the Collateral Taker with regard to the TCM Secured Product issued by the Issuer is based on the Security Agreement between the issuer (who is also the Collateral Provider), the Collateral Taker, represented by the Collateral Agent, and SIX SIS AG ("**TCM Security Agreement**"). The issuer shall, upon request, provide the TCM Security Agreement to investors free of charge. Additionally, the TCM Security Agreement may be obtained from Leonteq Securities AG, Europaallee 39, CH-8004 Zurich, via telephone (+41-(0)58-800 1000), fax (+41-(0)58-800 1010) or e-mail (termsheet@leonteq.com).

Under the terms of the TCM Security Agreement, the relevant Issuer is responsible for issuing and pricing the product. The Issuer is at the same time the Collateral Provider and, to that extent, is responsible for selecting the collateral actually available for a deposit from the eligible types of collateral. Furthermore, the Collateral Provider provides collateral to the custodian, i.e. SIX SIS AG, and grants a lien in favour of the Collateral Taker with regard to the collateral.

The Collateral Taker is the holder or investor in the TCM Secured Product under the TCM Security Agreement. The collateral taker is the beneficiary for any proceeds from the sale of the corresponding TCM Secured Product, if a liquidation event occurs. By purchasing the TCM Secured Product, the Collateral Taker agrees to exercise its rights under the TCM Security Agreement solely through the TCM Collateral Agent, i.e. the acquisition of a TCM Secured Product by an investor is automatically accompanied by a declaration to the TCM Collateral Agent as its representative may exercise the rights under the TCM Security Agreement in the event of the Realisation Events listed herein. Investors are bound by the provisions of the TCM Security Agreement and particularly the choice of Swiss law and the exclusive jurisdiction of the courts of the Canton of Zurich (Switzerland) vis-à-vis the TCM Collateral Agent and SIX SIS AG.

The Collateral Agent, i.e. SIX Repo AG, acts in accordance with the TCM Security Agreement as the direct representative of the Collateral Taker and acts on behalf of and in its name. In the case of a recovery case, the Collateral Agent will use the collateral in favour of the Collateral Taker (see below under "**Liquidation of collateral**").

SIX SIS AG acts as custodian under the TCM Security Agreement, and is responsible for the administration of the collateral account on which the collateral is booked. SIX SIS AG acts, in this regard, as a neu-

tral and independent service provider and is not subject to the directions of the Collateral Provider as the account holder. Furthermore, SIX SIS AG shall act as an administrator under the TCM Security Agreement, i.e. the company monitors and manages the collateral assigned to the individual TCM Secured Product. The administrator calculates the collateral requirements for a TCM Secured Product several times throughout the day, and automatically assigns additional collateral to each product, if necessary. If additional security is required, the administrator informs the guarantor. Furthermore, the administrator will inform the Collateral Agent, if Realisation Event has occurred.

Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the TCM Secured Product at any given time (hereinafter "**Current Value**"). The Current Value of the TCM Secured Product is calculated exclusively by, and with full responsibility of, the Collateral Provider in accordance with acknowledged accounting principles. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG recalculates or otherwise reviews the calculation of the Current Value. The Current Value is communicated by the Collateral Provider to SIX Financial Information AG which publishes it. SIX SIS AG calculates whether the Coverage Requirements for the collateral on the basis of the Current Value as published by SIX Financial Information AG are met. Neither the Collateral Agent, nor SIX SIS AG nor SIX Financial Information AG shall be liable for any losses or damages suffered by any Collateral Taker as a consequence of an inaccurate calculation of the Current Value or of an inaccurate communication of such value to SIX Financial Information AG. The Collateral Provider can act as the Calculation Agent. The Calculation Agent shall provide upon demand the method used to calculate the Current Value. The calculation method shall be determined for each TCM Secured Product upon its issuance and shall remain unchanged for its entire term. The collateral provided for a Product will be earmarked for this product and will not secure any other TCM Secured Structured Product.

Distribution and market making

The distribution of the Product shall be the responsibility of the issuer. The bid price published by the Calculation Agent on the respective page of SIX Financial Information AG does neither constitute an offer nor an invitation for an offer to purchase the Product.

Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Realization Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the TCM Secured Product rises or the value of the collateral decreases; (ii) in a Realization Event, the collateral cannot be liquidated immediately by the Collateral Agent because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation; (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of the TCM Secured Product in a foreign currency according to the TCM Security Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim

against the issuer is satisfied) may be made in a different currency; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the TCM Security Agreement. The collateralization does not eliminate the risk that there might not be a buyer for the TCM Secured Product during its lifetime and that the investor might have to hold the TCM Secured Product until maturity.

Liquidation of collateral

If the Collateral Provider fails to fulfill its obligations, the collateral will be liquidated by the Collateral Agent or a liquidator under the terms of the applicable legal regulations. Collateral may be liquidated in particular if (i) the Collateral Provider fails to furnish the required collateral or fails to do so in due time, unless this is remedied within five (5) banking days; (ii) the issuer fails to fulfill a payment or delivery obligation under the TCM Secured Product upon maturity according to the issuing conditions or fails to do so in due time, unless this is remedied within five (5) banking days; (iii) the Swiss Financial Market Supervisory Authority FINMA orders protective measures with regard to the issuer or the Collateral Provider under article 26 paragraph 1 letter (f) or (h) of the Federal Act on Banks and Savings Banks ("**Banking Act**"), or restructuring proceedings under article 28 et seq. of Banking Act or liquidation (winding-up proceedings) under article 33 et seq. of the Banking Act ("**Realization Events**"). The Security Agreement provides for the exact time at which each Realization Event occurs. The remedy of a Realization Event is not possible.

Determination of a Realization Event

The Collateral Agent is not required to undertake investigations with regard to the occurrence of a Realization Event. In determining the occurrence of a Realization Event, it bases its decision on reliable sources of information only. The Collateral Agent determines with binding effect for the investors whether an incident qualifies as a Realization Event and at what point in time the Realization Event occurred.

Procedure in case of a Realization Event

If a Realization Event occurs, the Collateral Agent is at its discretion entitled: (i) to make public the occurrence of a Realization Event immediately or at a later stage in suitable form; as well as (ii) to liquidate immediately or at a later stage – without regard to the amount of unsatisfied claims – all existing collateral on a private basis, provided the applicable legal regulations or regulatory orders do not prohibit such private liquidation (and, if a private liquidation is not possible, hand the collateral over to the competent person for liquidation).

Maturity of the TCM Secured Product as well as investor claims against the Issuer

The Collateral Taker shall have a security interest in accordance with article 25 paragraph 2(b) of the Swiss Federal Intermediated Securities Act ("**FISA**") over the securities and a lien according to article 899 et seq. of the Swiss Code of Obligations over the cash provided as collateral to secure the TCM Secured Product. The Realisation Event with regard to a TCM Secured Product only triggers the Realisation Event for this particular TCM Secured Product (and not other TCM Secured Products of the Issuer). If a Realisation Event with regard to a TCM Secured Product has occurred, the Collateral Agent will determine as Liquidation Value of such product the last Current Value available prior to the occurrence of the Realisation Event. This value shall be binding on the Collateral Provider and the investors. Investors'

claims against the Issuer will be based on these Current Values when the TCM Secured Products mature in accordance with the TCM Security Agreement.

Costs of liquidation and payout for the benefit of the investors

Any costs of the Collateral Agent and in connection with the liquidation of the collateral (including fees, taxes and duties that arise in conjunction with liquidation) shall, in advance, be covered out of the proceeds of the liquidation of the collateral. In addition, the Collateral Agent shall be entitled to satisfy, in advance and out of the proceeds of the liquidation of the collateral, any outstanding claims it holds against the Collateral Provider under the terms of the TCM Security Agreement. The remaining liquidation proceeds are available for payout to the investors in the TCM Secured Product.

The pro-rata share of the net liquidation proceeds due to investors will be paid to investors via the banks' securities processing system on a delivery versus payment basis. The Collateral Agent defines whether payment shall be made in the currency of the product or in Swiss francs. The Collateral Agent is thus released from all further obligations. The claim of the investors is non-interest-bearing. Payment to investors may be delayed for factual or legal reasons. If the payout is delayed for any reason, the Collateral Agent and SIX SIS AG are not liable to pay either default interest or damages. Each TCM Secured Product will only be secured by the collateral assigned on the collateral account to the respective TCM Secured Product. The investors' claims against the Issuer arising from the TCM Secured Product are reduced by the amount of the payment of the net liquidation proceeds. No further investors' claims exist against the Collateral Agent, SIX SIS AG or other persons which are involved in the collateralisation service for the TCM Secured Product under the terms of the TCM Security Agreement.

(a) Uncertificated Securities, Holders

The Products are issued in uncertificated form in accordance with art. 973c of the Swiss Code of Obligations as uncertificated securities (*Wertrechte*) ("**Uncertificated Securities**").

Uncertificated Securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*) (the "**Register of Uncertificated Securities**"). Such Uncertificated Securities will then be entered into the main register (*Hauptregister*) of the Custody Agent (the "**Main Register of the Custody Agent**"). Once the Uncertificated Securities are registered in the Main Register of the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Products constituting intermediated securities (*Bucheffekten*) may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e. by the entry of the transferred Products in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Uncertificated Securities into, or the delivery of, a permanent global note (*Dauerglobalurkunde*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant with the Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their

own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

No physical delivery of the Products shall be made unless and until definitive Security Papers (*Wertpapiere*) shall have been printed. Products may only be printed, in whole, but not in part, if the Paying Agent determines, in its sole discretion, that the printing of the Security Papers is necessary or useful.

Should the Paying Agent so determine, it shall provide for the printing of definitive Security Papers without cost to the Holders. Upon delivery of the Security Papers, the Uncertificated Securities will immediately be cancelled by the Issuer and the Security Papers shall be delivered to the Holders against cancellation of the Intermediated Securities in the Holder's securities accounts.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.

(b) Custody Agent

"**Custody Agent**" is the custody agent as specified in **Table 1** in the Annex, a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).]

[insert in the case of Swiss Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form ("**Bearer Securities**").

(b) Permanent Global Note, Holder

[insert in the case of Swiss CBF Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss Euroclear Bearer Securities:

During their term the Products are represented by a permanent global note in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**"). The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of Swiss SIX SIS Bearer Securities:

During their term the Products are represented by a permanent global note (*Dauerglobalurkunde*) in accordance with art. 973b of the Swiss Code of Obligations (the "**Permanent Global Note**") in bearer form which shall be deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex ("**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). Once the Permanent Global Note is deposited with the Custody Agent and entered into the securities accounts of one or more participants of the Custody Agent, the Products will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*)

Each Holder shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Custody Agent the co-ownership interest shall be suspended and the Products may only be transferred by the entry of the transferred Products in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*) regarding the transfer of Intermediated Securities.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note into, or the delivery of, uncertificated securities (*Wertrechte*) or definitive security papers (*Wertpapiere*) (the "**Security Papers**").

The records of the Custody Agent will determine the number of Products held through each participant in that Custody Agent. In respect of the Products held in the form of Intermediated Securities, the holders of the Products will be the Holders, i.e. (i) the persons, other than custody agents (*Verwahrungsstellen*), holding the Products in a securities account (*Effektenkonto*) with a custody agent (*Verwahrungsstelle*) and (ii) the custody agents (*Verwahrungsstellen*) holding the Products for their own account. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the securities delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means the person holding the Products in a securities account in its own name and for its own account.]

[insert in the case of German Bearer Securities:

(a) Bearer Securities

The Products are issued in bearer form.

[insert in the case of German CBF Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons. The Permanent Global Note will be kept in custody by or on behalf of a Clearing System until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive securities are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will as of the Issue Date be represented by a Permanent Global Note:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which shall be signed manually by two authorised signatories of the Issuer. The Permanent Global Note will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer aris-

ing from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Permanent Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German Euroclear Bearer Securities which will initially be represented by a Temporary Global Note:

(b) Temporary Global Note, Holder

(i) At issuance the Products are initially represented by a temporary global note (the "**Temporary Global Note**") without coupons which will be exchangeable for a permanent global global note (the "**Permanent Global Note**" and, together with the Temporary Global Note, each a "**Global Note**") without coupons against certification of non-U.S. beneficial ownership.

(ii) The Temporary Global Note shall be exchanged for the Permanent Global Note on a date (the "**Exchange Date**") not earlier than 40 days after the Issue Date. Such exchange and any payment of interest on Products represented by a Temporary Global Note shall only be made upon delivery of certifications to the effect that the beneficial owner or owners of the Products represented by the Temporary Global Note is not a U.S. person as defined by the U.S. Securities Act of 1933. Any such certification received by *[insert relevant institution: ●]* on or after the 40th day after the Issue Date will be treated as a request to exchange such Temporary Global Note as described above. Any Products delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States.

The Global Notes will be deposited with a common depository on behalf of the Clearing System in accordance with the applicable rules and regulations until all obligations of the Issuer arising from the Products have been satisfied. Claims for delivery of definitive Products are precluded. The Holders are entitled to co-ownership interests, economic ownership rights or similar rights in the Global Note which are transferable in accordance with the rules and regulations of the Clearing System and in accordance with all applicable legal provisions. Within the collective securities settlement procedure the Products may be transferred solely in units of the minimum trading lot as specified in **Table 1** in the Annex (the "**Minimum Trading Lot**") or in a whole-number multiple thereof.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law.]

[insert in the case of German SIX SIS Bearer Securities:

(b) Permanent Global Note, Holder

During their term the Products are represented by a permanent global note (the "**Permanent Global Note**") without coupons which is deposited by the Paying Agent with the custody agent as specified in **Table 1** in the Annex (the "**Custody Agent**"), a custody agent pursuant to the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*). As soon as the Permanent Global Note has been deposited with the Custody Agent and credited to the securities accounts of one or more participants of the Custody Agent, the Products shall constitute intermediated securities ("**Intermediated Securities**") pursuant to the provisions of the Swiss Federal Intermediated Securities Act (*Bundesgesetz über Bucheffekten*).

Within the scope of his claim against the Issuer, each Holder of Products shall be entitled to a co-ownership share, existing under property law, in the Permanent Global Note. For as long as the Permanent Global Note is deposited with the Custody Agent, the co-ownership share shall be suspended and the Products may be disposed of only subject to the provisions of the Swiss Intermediated Securities Act (*Bundesgesetz über Bucheffekten*), i.e. by crediting the Products to be transferred in a securities account of the recipient.

Neither the Issuer nor the Holders have the right to demand or arrange for the conversion of the Permanent Global Note into uncertificated securities (the "**Uncertificated Securities**") (*Wertrechte*) or security papers (*Wertpapiere*) (the "**Security Papers**"), or to demand or arrange for the delivery of Uncertificated Securities or Securities Papers.

The records of the Custody Agent determine the number of Products held by each participant of the Custody Agent. For the Products which constitute Intermediated Securities, (i) those persons, with the exception of the Custody Agent itself, who hold the Products in a securities account kept with a Custody Agent and (ii) Custody Agents which hold the Products for their own account shall be deemed Holders of the Products. The Paying Agent may assume that a bank or financial intermediary submitting or transmitting to it a notice of the Holder pursuant to these Conditions has been duly authorised by the respective Holder for these purposes.

Products may be delivered physically only if they are represented by definitive Security Papers. The Paying Agent alone has the right to decide on the printing of definitive Security Papers for the Products, in whole, but not in part, if the Paying Agent judges this to be necessary or useful. If the Paying Agent decides to print and deliver Security Papers, this shall not result in any costs being incurred by the Holder. If Security Papers are printed, copies of the signatures of two authorised signatories of the Issuer shall be affixed to printed Security Papers. Without undue delay upon delivery of the Security Papers, the Permanent Global Note shall be invalidated by the Paying Agent and the Security Papers delivered to the Holders in return for cancellation of the Intermediated Securities in their securities account.

"**Holder**" means any holder of a co-ownership interest or right, an economic ownership right or similar right in the Permanent Global Note, which is in each case transferable in accordance with the terms and regulations of the relevant Clearing System and applicable law. The Holder of Products created as Intermediated Securities (*Bucheffekten*) shall be determined in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).]

(c) Clearing System

"**Clearing System**" in each case is the clearing system as specified in Table 1 in the Annex.

(3) Term of the Products

The Products are issued with a limited term, i.e. they have a predetermined limited term which ends on the Redemption Date, subject to an extraordinary termination by the Issuer or an early redemption [insert in the case that the applicable Final Terms provide for a termination in accordance with § 9 of the Issue Specific Conditions: or a termination by the Issuer in case that the TCM Security Agreement is terminated] [insert in the case either COSI or TCM is applicable: or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions].

§ 2**Status of the Products**

[insert in the case neither COSI nor TCM is applicable:

The Products constitute general contractual obligations of the Issuer and are not secured by any property of the Issuer. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, but excluding any debts for the time being preferred by applicable law and any subordinated obligations.]

[insert in the case either COSI or TCM is applicable:

The Products constitute general contractual obligations of the Issuer and are collateralized in accordance with § 10 of the Issue Specific Conditions. The Products shall rank equally among themselves and, save for such exceptions as may be provided by applicable law, *pari passu* with all other collateralized and unsubordinated obligations of the Issuer.]

§ 3**Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

["**Current Exchange Rate Performance**" means the quotient of the Exchange Rate_(t) and the Exchange Rate_(Initial). "**Exchange Rate_(t)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][insert other currency: ●] [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the [Reference Currency][Settlement Currency][insert other currency: ●] which is published on [the respective Coupon Observation Date allocated to the relevant Coupon Payment Date] [and/or] [the respective Autocall Observation Date allocated to the relevant Early Redemption Date] [●] on the Exchange Rate Page or on any replacement page. "**Exchange Rate_(Initial)**" means the [weighted average] exchange rate [executed in duly discretion from [●] to the Initial Fixing Date] as specified in **Table 2** in the Annex ex-

pressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] [●] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: ●*] which is published on the [Initial Fixing Date] [●] on the Exchange Rate Page or on any replacement page.]

[*insert in the case of a share as Underlying or Basket Component: "Share Issuer"*] means the company that has issued the [Underlying][Basket Component].]

["**Initial Fixing Level**"] means [the initial fixing level of the [Underlying] [Basket Component] as specified in **Table 1** in the Annex [which corresponds to the Price of the [Underlying] [Basket Component] on the Initial Fixing Date as determined by the Calculation Agent][which corresponds to the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date] [and] [on the basis of which the Issue Price was determined.]] [[an observed value] [the arithmetic mean of the [official closing prices] [Reference Prices]] of the [Underlying] [Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.] [the Reference Price of the [Underlying] [Basket Component] on the Initial Fixing Date, as determined by the Calculation Agent.] [a Price of the [Underlying] [Basket Component] as determined by the Calculation Agent on the Initial Fixing Date.] [the arithmetic mean of the Reference Prices of the Underlying during the Initial Fixing Period.] [the arithmetic mean of the Reference Prices of all Basket Components on the Initial Fixing Date.] [the lowest Reference Price of the [Underlying][respective Basket Component] during the Initial Fixing Observation Dates, as determined by the Calculation Agent] [is an observed value of the relevant Basket Component on the relevant Exchange on the Initial Fixing Date, defined by the Calculation Agent. The Initial Fixing Level of the relevant Basket Component is specified in **Table 2** in the Annex.] [the weighted average [Price][Reference Price] of the [Underlying][Basket Component] during the Initial Fixing Period as determined by the Calculation Agent.]

["**Initial Fixing Observation Dates**"] means the initial fixing observation dates as specified in **Table 1** in the Annex.]

["**Initial Fixing Period**"] means the initial fixing period as specified in **Table 1** in the Annex.]

["**Initial Basket Value**"] means the initial basket value as specified in **Table 1** in the Annex.]

["**Number of Basket Component_(i)**"] [means the relevant Number of Basket Component_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex which is determined by the Issuer and/or the Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i) [and the [EUR][●]/Reference Currency_(i) exchange rate] and takes into account the Initial Weighting_(i) of the respective Basket Component_(i), corresponding to the weighted share of the respective Basket Component_(i) in the Initial Basket Value on the Initial Fixing Date.] [means the weighted share of the respective Basket Component_(i) in the Initial Basket Value as determined by the Issuer and/or Calculation Agent on the Initial Fixing Date based on the Initial Fixing Level_(i), and taking into account the Initial Weighting_(i) of the respective Basket Component_(i). The relevant Number of Basket Component_(i) corresponds to the [Denomination][Initial Basket Value] multiplied by the quotient of the Initial Weighting_(i) (dividend) and the Initial Fixing Level_(i) (converted into the Settlement Currency, if applicable) (divisor): Number of Basket Component_(i)= [Denomination][Initial Basket Value] * Initial Weighting_(i) / Initial Fixing Level_(i).] [Initial Weighting means the Initial Weighting_(i) of the respective

Basket Component⁽ⁱ⁾ as specified in **Table 2** in the Annex.].

["**Business Day**" means

[insert in the case of Products with Swiss Francs as Settlement Currency: [(in the case of Products with Swiss Francs as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with neither Swiss Francs nor Euro as Settlement Currency: [(in the case of Products with [●] as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in [insert principal financial centre for such currency: ●].]

[insert in the case of Products with Euro as Settlement Currency: [(in the case of Products with Euro as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) payments are settled via the TARGET2 System and (iii) commercial banks and foreign exchange markets settle payments in Zurich.]

[insert in the case of Products with US Dollar as Settlement Currency: [(in the case of Products with US Dollar as Settlement Currency)] a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments in New York and Zurich.]

[insert in the case of a currency and/or one or more Business Centres: a day (other than a Saturday or Sunday) on which (i) the Clearing System settles payments and (ii) commercial banks and foreign exchange markets settle payments [in [insert currency: ●]] [in the Business Centre[s]] [if no currency is indicated, insert: in each of the Business Centres].]

["**Issue Price**" means the issue price as specified in **Table 1** in the Annex.]

["**Issue Surcharge**" means the issue surcharge as specified in **Table 1** in the Annex.]

["**Issue Date**" means the issue date as specified in **Table 1** in the Annex [or in the event of the subscription period ending prematurely [or being extended], the day as published by the Issuer pursuant to § 4 of the General Conditions].]

["**Strike Level**" means the strike level as specified in **Table 1** in the Annex.]

["**Conversion Ratio**" means [the conversion ratio as specified in **Table 1** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level].]][the conversion ratio in respect of the relevant Basket Component as specified in **Table 2** in the Annex. [The Conversion Ratio is calculated by dividing the Issue Price with the [Initial Fixing Level][Strike Level] of the respective Basket Component.]] *[insert for Quanto products: [the conversion ratio which is calculated on the Final Fixing Date by dividing the Issue Price with the Final Fixing Level [of the respective Basket Component].] [If the Issuer has received ordinary dividend payments between the Initial Fixing Date (exclusive) and the Final Fixing Date [(exclusive)] [(inclusive)] in respect of the Underlying, the applicable net dividend (i.e. the dividend amount minus taxes) is reinvested, whereby the Conversion Ratio is adjusted ● Business Days after the receipt of the dividend*

payment by the Issuer.]]

["**Autocall Observation Date**" means [each of the autocall observation dates as specified in **Table 3** in the Annex or, if such date is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in relation to the relevant Basket Component]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Autocall Observation Date [in respect of one or more Basket Components], the relevant Autocall Observation Date [in relation to the relevant Basket Component] shall be postponed accordingly.]]

["**Autocall Event**" has occurred if on an Autocall Observation Date the Reference Price [of all Basket Components] exceeds the [respective] Autocall Trigger Level relevant for such date.]

["**Early Redemption Coupon Amount**" means the Early Redemption Coupon Amount allocated to the respective Autocall Observation Date in **Table 3** in the Annex.]

["**Autocall Trigger Level**" means the Autocall Trigger Level in respect of the relevant Autocall Observation Date [with respect to the relevant Basket Component] as specified in **Table 3** in the Annex.]

["**Barrier Observation Period**" means the barrier observation period as specified in **Table 1** in the Annex.]

["**Barrier Event**" has occurred if [the Final Fixing Level is [equal to or] below the Barrier Level] [the [Price][Reference Price] is [equal to or] below the Barrier Level at any time during the Barrier Observation Period] [*insert in the case of a Basket as Underlying if appropriate:* [the Final Basket Value is equal to or below the Barrier Level as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the Barrier Level during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price] [Final Fixing Level] of [a][at least one] Basket Component is [equal to or] below the Barrier Level for this Basket Component as specified in **Table [1][2]** in the Annex [at any time during the Barrier Observation Period]], as determined by the Calculation Agent.]]]

["**Barrier Event**" has occurred if [the Final Fixing Level [of [the][a][at least [one][two or more] Basket Component[s] [(regardless of the Target One Underlying)) [with the [Best][Worst] Performance] is [equal to or] below the [Barrier Level][Strike Level][Target One Level]] [the [Price][Reference Price] [and none of the Final Fixing Levels of the Basket Components is above the respective Target Level] [of [the][a][at least [one][two or more]] Basket Component[s] [(regardless of the Target One Underlying)) is [equal to or] below the [Barrier Level] [Strike Level] [Target One Level] at any time during the Barrier Observation Period] [*insert in the case of a Basket as Underlying if appropriate:* [the Final Basket Value equals or falls below the [Barrier Level] [Strike Level] [Target One Level] as determined by the Calculation Agent] [the [Price][Reference Price] of the Basket is equal to or below the [Barrier Level] [Strike Level] [Target One Level] during the Barrier Observation Period, as determined by the Calculation Agent] [the [Price][Reference Price] [Final Fixing Level] of [a][at least [one][two or more]] Basket Component[s] is [equal to or] below the [Barrier Level] [Strike Level] [Target One Level] for this Basket Component as specified in **Table [1][2]** in the Annex [(regardless of the Target One Underlying)) [at any time during the Barrier Observation Period]], as determined by the Calculation Agent.]]]

["**Barrier Level**" means the barrier level as specified in **Table 1** in the Annex [with respect to the relevant Basket Component].]

["**Underlying**" means[, subject to a replacement in accordance with these Conditions,] the [Underlying] [Basket] as specified in **Table 1** and **2** in the Annex [(also referred to as the ["**Index**"] ["**Share**"] ["**Participation Certificate (Genussschein)**] ["**Security representing Shares**] ["**Commodity**] ["**Currency Exchange Rate**] ["**Futures Contract**] ["**Fixed Rate Instrument**] ["**Derivative Instrument**] ["**Fund Unit**] ["**Interest Rate**] ["**Reference Rate**"]) [*insert in the case of a share as Underlying or Basket Component*., as issued by the Share Issuer].]

["**Underlying Valuation Date**" means [each of the dates] [the date] as specified in **Table 1** in the Annex.]

["**Best Performance**" means the best performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding [Initial Fixing][Strike] Level.]

["**Basket**" means the Basket comprising the basket components as specified in **Tables 1** and **2** in the Annex.]

["**Basket Component**" means, subject to an adjustment, each basket component as specified in **Table 2** in the Annex.]

["**Calculation Agent**" means the calculation agent as specified in **Table 1** in the Annex.]

["**Screen Page**" means the screen page as specified in **Table 2** in the Annex.]

[*insert in the case of shares and participation certificates (Genussscheine) as Underlying or Basket Component*: "**Exchange**" means[, in respect of the Share] the exchange or the quotation system as specified in **Table 2** in the Annex, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the [Share][Underlying][Basket Component] has temporarily relocated (provided that the Issuer and/or Calculation Agent have determined in its reasonable discretion that there is comparable liquidity relative to the [Share][Underlying][Basket Component] on such temporary substitute exchange or quotation system as on the original Exchange).]

["**Coupon Amount**" means the coupon amount as specified in **Table [1][3]** in the Annex.]

["**Coupon Observation Date**" means each of the coupon observation dates as specified in **Table [1][3]** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. In the event of the postponement of the Underlying Valuation Date corresponding to the relevant Coupon Observation Date [in respect of one or more Basket Components], the relevant Coupon Observation Date [in relation to [the relevant Basket Component][all Basket Components]] shall be postponed accordingly.]]

["**Coupon Rate**" equals the Average Performance on the Coupon Observation Date allocated to the respective Coupon Payment Date. The "**Average Performance**" on a Coupon Observation Date equals the sum of the Recorded Performances of all Basket Components. The "**Recorded Perform-**

mance of a Basket Component" equals – in the case that the Performance of the respective Basket Component is negative - the Performance of the Basket Component divided by the number of Basket Components in the Basket or – in the case that the Performance of the respective Basket Component is zero or positive the Maximum Performance divided by the number of Basket Components in the Basket. The "**Maximum Performance**" equals [●]. The "**Performance of a Basket Component**" equals the Reference Price of the respective Basket Component on the respective Coupon Observation Date divided by its Initial Fixing Level minus 1. [The Coupon Rate is at least zero.]]

["**Coupon Trigger Event**" has occurred if on a Coupon Observation Date the Reference Price [of all Basket Components] exceeds the [respective] Coupon Trigger Level relevant for such date.]

["**Coupon Trigger Level**" means the coupon trigger level as specified in **Table 1**[3] in the Annex [with respect to the relevant Basket Component].]

["**Coupon Payment Date**" means the coupon payment date as specified in **Table 1**[3] in the Annex or, if this date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Coupon Observation Date, the relevant Coupon Payment Date shall be postponed accordingly.]]

["**Fiscal Agent**" means the fiscal agent as specified in **Table 1** in the Annex.]

["**Final Fixing Period**" means the period from (and including) the fifth (5th) Exchange Business Day immediately prior to the Final Fixing Date up to (and including) the Final Fixing Date.]

["**Final Fixing Level**" means [the Reference Price [of the [Underlying][respective Basket Component] on the Final Fixing Date.][the arithmetic mean of the Reference Prices of the Underlying during the Final Fixing Period.][the arithmetic mean of the Reference Prices of all Basket Components on the Final Fixing Date.][the sum of the Reference Prices of all Basket Components on the Final Fixing Date (taking into account the Initial Weighting_(i) of the respective Basket Component.]]

["**Final Basket Value**" means the sum of the Final Levels of all Basket Components.]

["**Final Level of a Basket Component**" means the Final Fixing Level of the Basket Component multiplied by the [Number of Basket Component][Initial Weighting_(i)]. Accordingly, the Final Level of a Basket Component will be calculated as follows:

$$\text{Final Level of a Basket Component} = Ff_{(i)} * W_{(i)}$$

whereby

"Ff_(i)" means the Final Fixing Level of the Basket Component_(i) and

"W_(i)" means the [Number of Basket Component][Initial Weighting_(i)].]

["**Initial Fixing Date**" means [the initial fixing date as specified in **Table 1** in the Annex [or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]] [or in the event of the subscription period ending prematurely [or being extended], the day on which the subscription period ends, as published by the Issuer pursuant to § 4 of the General Conditions]. [*insert in the case of Products with subscription period:* In the event of the postpone-

ment of the Underlying Valuation Date corresponding to the Initial Fixing Date, the Initial Fixing Date shall be postponed accordingly.]]

["**Business Centre**" means the business centre as specified in **Table 1** in the Annex.]

[insert in the case of an index as Underlying or Basket Component: "**Index Sponsor**" means the index sponsor as specified in **Table 2** in the Annex [for the relevant Basket Component].]

["**Initial Weighting_(i)**" means the Initial Weighting_(i) of the respective Basket Component_(i) as specified in **Table 2** in the Annex[, as determined on the Initial Fixing Date by the Issuer and/or the Calculation Agent].]

["**Price**" means the [[offer] [mid] [bid] price] [●] of the Underlying] as continuously [determined [and published] on the relevant Exchange] [[calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [[relevant Reuters] [relevant Bloomberg] page] [Screen Page] [●] [insert Internet site: ●] [or as specified in **Table 2** in the Annex or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Relevant Performance**" [of the relevant Basket Component] means the quotient of the Final Fixing Level (dividend) and the Initial Fixing Level (divisor).]

["**Relevant Reference Price**" [of a Basket Component means the [lowest] [highest] Reference Price of such Basket Component [on the Final Fixing Date] [on every Valuation Date (t)].]

["**Relevant Exchange Rate**" of the Reference Currency means [[with respect to [●]] the [●] [mid]rate [of the Reference Currency to the Settlement Currency], which is published [by the Exchange Rate sponsor on the designated Exchange Rate Page] [on the [Reuters page]] [●] or on any replacement page, or, if such rate is not published on any other [Reuters page] [●], the rate published on the page of another screen service] [as determined by the Calculation Agent on basis of the [designated Exchange Rate Page published by the Exchange Rate Sponsor] on the [Reuters page]] [●] or on any replacement page. If such rate is not published on another [Reuters page] [●], the Relevant Exchange Rate means the [●] [mid]rate [of the Reference Currency to Euro], as determined by the Calculation Agent on the basis of the page of another screen service] [insert other method for determining Relevant Exchange Rate: ●]. If the abovementioned Exchange Rate can no longer be determined in the way described above or any other way mentioned above, the Calculation Agent may determine the Relevant Exchange Rate on the basis of applicable market practice and considering the prevailing market conditions.]

["**Minimum Redemption Factor**" means the minimum redemption factor specified in **Table [2][1]** in the Annex.]

["**Denomination**" means the denomination as specified in **Table 1** in the Annex (as expressed in the Settlement Currency).]

["**Participation Factor**" means the participation factor as specified in **Table 1** in the Annex.]

["**Reference Price**" means [the [closing level] [closing price] [Price] [[offer] [mid] [bid] price] [●] [of the Underlying] [of a Basket Component] [in [insert currency: ●]] [as determined [and published] on

the relevant Exchange] [as [calculated and published by the Index Sponsor] [determined on the relevant Reference Market] [determined by the relevant Reference Agent] [and] [displayed on [Reuters] [Bloomberg][the Screen Page] [●] [*insert Internet site: ●*] [or any replacement page] on a Scheduled Trading Day, as determined by the Calculation Agent.]]

["**Reference Currency**"] means the Reference Currency as specified in **Table 2** in the Annex [in respect of the relevant Basket Component].]

["**Redemption Date**"] means, subject to an Early Redemption pursuant to § 7 of the Issue Specific Conditions or subject to an extraordinary termination [or subject to a termination according to § 9 of the Issue Specific Conditions] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions] [the redemption date as specified in **Table 1** in the Annex] [or, if that date is not a Business Day, the next following Business Day.]] [In the event of the postponement of the Final Fixing Date, the Redemption Date shall be postponed accordingly [irrespective of whether the Redemption Date is postponed for one or more Basket Components].] [the fifth (5th) Business Day following the Final Fixing Date.] [In the event of a termination pursuant to § 9 of the Issue Specific Conditions, the Redemption Date shall be [●] Business Day after the Termination Date.]]

["**Worst Performance**"] means the worst performance of the relevant Basket Components as determined by the Calculation Agent, with the performance of each Basket Component being calculated by division of the corresponding Final Fixing Level by the corresponding [Initial Fixing Level][Strike Level].]

["**TARGET2 System**"] means the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007, or any successor thereto.]

["**Final Fixing Date**"] means the final fixing date as specified in **Table 1** in the Annex or, if such day is not a Scheduled Trading Day [in respect of one or more Basket Components], the next following day which is a Scheduled Trading Day [in respect of [the relevant Basket Component][all Basket Components]]. [In the event of the postponement of the Underlying Valuation Date corresponding to the Final Fixing Date, the relevant Final Fixing Date shall be postponed accordingly.]]

["**Scheduled Trading Day**"] has the meaning ascribed in § 11 (3) of the Issue Specific Conditions.]

["**Early Redemption Date**"] means each of the early redemption dates as specified in **Table 3** in the Annex or, if an Early Redemption Date is not a Business Day, the next following Business Day. [In the event of the postponement of the relevant Autocall Observation Date, the relevant Early Redemption Date shall be postponed accordingly.]]

["**Website**"] means the Website as specified in **Table 1** in the Annex.]

["**Exchange Rate Page**"] means the exchange rate page as specified in **Table 2** in the Annex.]

["**Exchange Rate Performance**"] means the quotient of the Exchange Rate_(Final) and the Exchange Rate_(Initial). "**Exchange Rate_(Final)**" means the exchange rate as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: ●*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement

Currency][*insert other currency: •*] which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. "**Exchange Rate**_(Initial)" means the [weighted average] exchange rate [executed in duly discretion from [•] to the Initial Fixing Date] as specified in **Table 2** in the Annex expressed in the [Reference Currency][Settlement Currency][*insert other currency: •*] [of the Basket Component with the [Worst][Best] Performance] for 1 unit of the [Reference Currency][Settlement Currency][*insert other currency: •*] which is published on the [Initial Fixing Date] [•] on the Exchange Rate Page or on any replacement page.]

["**Exchange Rate Sponsor**" means the exchange rate sponsor as specified in **Table 2** in the Annex.]

["**Paying Agent**" means the paying agent as specified in **Table 1** in the Annex.]

["**Target One Level**" means the target one level [with respect to the relevant Basket Component] as specified in **Table 2** in the Annex.]

§ 4

Redemption

[*insert if either COSI or TCM is applicable:*

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to an Early Redemption pursuant to § 7 of the Issue Specific Conditions [and a Minimum Redemption pursuant to paragraph (2) which simultaneously equals the Maximum Redemption Amount pursuant to paragraph (3) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the [Denomination][Issue Price] multiplied by the [Performance of the Underlying][Worst Performance] [Minimum Redemption Factor]. [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the [Initial Fixing Level][Strike Level] (divisor).]

[and subject to a Minimum Redemption pursuant to paragraph (2) or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the [Denomination][Issue Price] multiplied by the sum of (A) 100 % and (B) the Participation Factor multiplied by the difference between the Final Fixing Level [of the Basket Component with the [Worst][Best] Performance] divided by the Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance] and 1.] [or subject to the occurrence of a Liquidation Event according to § 10 of the Issue Specific Conditions the [Denomination][Issue Price] multiplied by the Minimum Redemption Factor.] [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be [*insert if Currency Conversion is applicable:* converted into the Settlement Currency in accordance with paragraph [(2)][(3)][(4)], as the case may be, and] commercially rounded to two (2) decimal places.

[(2) Minimum Redemption

[Provided that no Barrier Event has occurred the Redemption Amount equals the [Denomination][Issue Price].][Provided that the Final Fixing Level is above the Strike Level, the Redemption Amount equals the [Denomination][Issue Price] [multiplied by the Exchange Rate Performance].] [The Redemption Amount is at least zero.]]

[The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.]

[(3) Maximum Redemption

The Redemption Amount per Product equals no more than the [Denomination][Issue Price] [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.]]

[*insert if Currency Conversion is applicable*:

[(2)][(3)][(4)] Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.][*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

[*insert if neither COSI nor TCM is applicable*:

(1) Redemption Amount

The "**Redemption Amount**" in the Settlement Currency per Product equals, subject to an Early Redemption pursuant to § 7 of the Issue Specific Conditions [and a Minimum Redemption pursuant to paragraph (2) which simultaneously equals the Maximum Redemption Amount pursuant to paragraph (3), the [Denomination][Issue Price] multiplied by the [Performance of the Underlying][Worst Per-

formance] [Minimum Redemption Factor]. [The result is multiplied by the Exchange Rate Performance.]

[The "**Performance of the Underlying**" equals the quotient of the Final Fixing Level (dividend) and the [Initial Fixing Level][Strike Level] (divisor).]

[and subject to a Minimum Redemption pursuant to paragraph (2) the [Denomination][Issue Price] multiplied by the sum of (A) 100 % and (B) the Participation Factor multiplied by the difference between the Final Fixing Level [of the Basket Component with the [Worst][Best] Performance] divided by the Initial Fixing Level [of the Basket Component with the [Worst][Best] Performance] and 1.] [the [Denomination][Issue Price] multiplied by the Minimum Redemption Factor.] [The result is multiplied by the Exchange Rate Performance.]

The Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph [(2)][(3)][(4)], as the case may be, and] commercially rounded to two (2) decimal places.

[(2) Minimum Redemption]

[Provided that no Barrier Event has occurred the Redemption Amount equals the [Denomination] [Issue Price].][Provided that the Final Fixing Level is above the Strike Level, the Redemption Amount equals the [Denomination] [Issue Price] [multiplied by the Exchange Rate Performance].] [The Redemption Amount is at least zero.]]

[The Minimum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4), as the case may be, and] commercially rounded to two (2) decimal places.]

[(3) Maximum Redemption]

The Redemption Amount per Product equals no more than the [Denomination] [Issue Price] [multiplied by the Exchange Rate Performance] (the "**Maximum Redemption Amount**").

[The Maximum Redemption Amount will be [*insert if Currency Conversion is applicable*: converted into the Settlement Currency in accordance with paragraph (4) and] commercially rounded to two (2) decimal places.]]

[*insert if Currency Conversion is applicable*:

[(2)][(3)][(4)] Currency exchange

The Reference Currency shall be converted into the Settlement Currency by the Calculation Agent [*insert if Quanto is not applicable*: on the basis of the exchange rate expressed in the Reference Currency for 1 unit of the Settlement Currency which is published on the Final Fixing Date on the Exchange Rate Page or on any replacement page. If the conversion is performed at a time on the relevant day when an updated exchange rate is not yet published on the Exchange Rate Page, the Calculation Agent shall perform the conversion on the basis of the exchange rate last published on the Exchange Rate Page. If the Exchange Rate Page is not available on the designated date or if the exchange rate is

not published, the exchange rate shall be the exchange rate which is published on the corresponding page of another business information service. If the exchange rate is no longer published in any way mentioned above, the Calculation Agent may determine the exchange rate on the basis of applicable market practice and considering the prevailing market conditions in its reasonable discretion.]]*insert if Quanto is applicable*: at an exchange rate of 1 unit of the Reference Currency to 1 unit of the Settlement Currency ("**Quanto**").]]

§ 5

Interest, Coupon Payments

[(1) Coupon Payments]

[[If a Coupon Trigger Event has occurred on a Coupon Observation Date, a coupon payment is made in the Settlement Currency for the products on the applicable Coupon Payment Date in the amount of the Coupon Amount specified for the applicable Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance]. [If a Coupon Trigger Event has not occurred on a Coupon Observation Date, a coupon payment is not made for the Products on the applicable Coupon Payment Date.]] [The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount. The Coupon Amount equals the Coupon Rate multiplied by the Issue Price [whereby the result is multiplied by the Current Exchange Rate Performance].] [Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon payments are made.] [If a Coupon Trigger Event has not occurred and [no Barrier Event has occurred][the Final Fixing Level is above [the Strike Level][●% of the Initial Fixing Level]], the Holder receives a coupon payment on the final Coupon Payment Date in the amount of the Coupon Amount specified for the final Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance].][The Holder receives a coupon payment on the respective Coupon Payment Date in the amount of the Coupon Amount specified for the applicable Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance]. [Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon payments are made.] In the case of a redemption at the end of the term, the Holder receives a coupon payment on the final Coupon Payment Date in the amount of the Coupon Amount specified for the final Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance].][Provided that on the relevant Coupon Observation Date a Coupon Trigger Event has occurred, a Coupon payment shall be made for the Products on the relevant Coupon Payment Date [whereby the amount is multiplied by the Current Exchange Rate Performance]. The coupon rate (the "**Coupon Rate**") relevant for the respective Coupon Observation Date is the Coupon Rate for the relevant Coupon Payment Date specified in **Table 3** in the Annex. [If a Coupon Trigger Event has not occurred on a Coupon Observation Date, a coupon payment is not made for the Products on the applicable Coupon Payment Date.]]

[(2) Coupon Amount]

The Coupon Amount (the "**Coupon Amount**") is determined by multiplying the Denomination by (i) the applicable Coupon Rate for the relevant Coupon Payment Date and by (ii) N [whereby the result is multiplied by the Current Exchange Rate Performance].

"N" means [in the case that

- (a) before the applicable Coupon Observation Date_(t) no Coupon Trigger Event has occurred, the number of Coupon Observation Dates_(t) from Coupon Observation Date₍₁₎ (inclusive) to, in each case, the applicable Coupon Observation Date_(t) (inclusive), and in the case that
- (b) before the applicable Coupon Observation Date_(t) a Coupon Trigger Event has already occurred, the number of Coupon Observation Dates_(t) between the Coupon Observation Date_(t) (exclusive) on which the last Coupon Trigger Event has occurred and the applicable Coupon Observation Date_(t) (inclusive) in each case.] [the number of Coupon Observation Dates_(t) from Coupon Observation Date₍₁₎ (inclusive) to the relevant Coupon Observation Date on which a Coupon Trigger Event has occurred.]

[Following an Early Redemption pursuant to § 7 of the Issue Specific Conditions, no further coupon payments are made.] The Coupon Amount will be commercially rounded to two (2) decimal places.]

§ 6

(intentionally left blank)

§ 7

Early Redemption

(1) Conditions precedent for Early Redemption

In the event that on any Autocall Observation Date an Autocall Event has occurred, the term of the Products shall end automatically on this Autocall Observation Date without the need for a separate termination of the Products by the Issuer (the "**Early Redemption**"). In this case the Redemption Amount to be paid by the Issuer equals the Denomination [multiplied by the Current Exchange Rate Performance] [plus the Early Redemption Coupon Amount allocated to the Autocall Observation Date on which the Autocall Event has occurred [multiplied by the Current Exchange Rate Performance]].

(2) Notification of Early Redemption

Notice of the occurrence of Early Redemption and the value of the Redemption Amount to be paid per Product in this case shall be published in accordance with § 4 of the General Conditions.

§ 8

Payments

(1) Payments

The Issuer shall cause the claimed Redemption Amount, if any, to be transferred via the Paying Agent to the Clearing System for transmitting to the Holders by the Early Redemption Date (in the case of an Early Redemption pursuant to § 7 of the Issue Specific Conditions) and/or the Redemption Date (in the case that no Early Redemption has occurred). The Issuer shall transfer the respective Coupon Amount in arrears by the Coupon Payment Date via the Paying Agent to the Clearing System for transmitting to the Holders. If the Early Redemption Date, the Redemption Date or a Coupon Pay-

ment Date falls on a day which is not a Business Day and is deferred in accordance with § 3 of the Issue Specific Conditions, the Holder is neither entitled to request further interest or other payments due to the deferment, nor must they accept a reduction in interest due to the deferment.

(2) Declaration on Regulation S

A declaration that neither the Holder nor the beneficial owner of the Products is a US person is deemed to have been made automatically. The terms used in this paragraph have the meanings attached to them by Regulation S of the United States Securities Act of 1933 as amended from time to time.

(3) Taxes, Fees and Duties

All taxes, fees and other duties incurred in connection with the exercise of the Products rights shall be borne and paid by the Holder. The Issuer and/or or Paying Agent may withhold from the Redemption Amount or any other amounts payable to the Holder any taxes, fees or duties which are to be paid by the Holder according to the above sentence.

§ 9

[(not applicable)][insert in the case of TCM Secured Products (if applicable) : Termination right of the Issuer in the case that the TCM Security Agreement is terminated

(1) Termination Right of Issuer

In the case that the TCM Security Agreement (as defined in § 10 of the Issue Specific Conditions) is terminated and that due to the the termination of the TCM Security Agreement it is not possible to secure the Products in accordance with the provisions of the TCM Security Agreement until the scheduled maturity, the Issuer is entitled at any time to terminate all, but not individual, Products during their term via publication in accordance with § 4 of the General Conditions, stating the calendar date on which the termination will take effect (the "**Termination Date**") and observing a notice period of at least one month before the relevant Termination Date. In the event of such a termination of the Products, the Issuer will cause to be paid to each Holder in respect of each such Product held by it an amount determined by the Issuer and/or the Calculation Agent in its/their reasonable discretion as the reasonable market price of a Product at the time when bid and ask prices for the Product are last quoted immediately prior to the end of the securitization pursuant to the TCM Security Agreement on the Termination Date.

(2) Transfer of the Redemption Amount in case of termination

The Issuer shall by the Redemption Date cause the Redemption Amount to be transferred to the Clearing System for crediting to the accounts of the Products depositors at the Clearing System. In the event of a termination according to paragraph (1), the notice referred to in § 8 (2) of the Issue Specific Conditions shall be deemed to have been made automatically.

(3) Taxes, fees or other duties

All taxes, fees and other duties incurred in connection with the payment of the Redemption Amount in case of termination shall be borne and paid by the Holder. The Issuer and/or Paying Agent may withhold from the relevant amount any taxes, fees or duties that have to be paid by the Holder in accordance with the above sentence.]

[insert in the case COSI is applicable:

§ 10**Collateral Secured Instruments (COSI)****(1) Collateralization of the Product**

COSI-Product (hereinafter «COSI Product» or «Product») is collateralized in accordance with the terms of the SIX Swiss Exchange «Framework Agreement for Collateral Secured Instruments». The Issuer («Collateral Provider») undertakes to secure the value of the COSI Product at any given time as well as the further claims listed in the Framework Agreement.

Security must be provided to SIX Swiss Exchange in the form of a regular right of lien. The collateral is booked to a SIX Swiss Exchange account with SIX SIS. Investors do not themselves have a surety right to the collateral. The COSI Product and the collateral shall be valued on each banking day. The Collateral Provider shall be obliged to adjust the collateral to any changes in value. Permitted forms of collateral shall be selected by SIX Swiss Exchange on an ongoing basis from various categories of securities. The issuer shall, upon enquiry, inform investors about the collateral that is permitted as security for the COSI Product at any given time. The Collateral Provider shall pay SIX Swiss Exchange a fee for the service regarding the collateralization of the COSI Products. A change of Collateral Provider shall be notified in accordance with the provisions of these Conditions.

If FINMA orders the liquidation (bankruptcy) regarding SIX Swiss Exchange or SIX SIS, the collateralization shall continue during two Banking Days which follow such order. After expiration of the two Banking Days without occurrence of a Realization Event the collateralization shall stop and a Realization Event cannot occur anymore; the Collateral is transferred back from the account of SSX at SIX SIS to the account of the Guarantor at SIX SIS. If a Realization Event occurs during these two Banking Days, clause 11 shall be applicable. SSX and SIX SIS shall notify the public, by announcement on their websites, of the order of FINMA and the stop of collateralization.

(2) Documentation

The collateralization in favor of SIX Swiss Exchange is based on the «Framework Agreement for Collateral Secured Instruments» between SIX Swiss Exchange, SIX SIS, and the Issuer (also as the Collateral Provider) valid from 01 January 2019 (“Framework Agreement”). The investor is not party to the Framework Agreement. The issuer shall, upon request, provide the Framework Agreement to investors free of charge in the original German version or in an English translation. The Framework Agreement may be obtained from Leonteq Securities AG at Europaallee 39, 8004 Zurich,

Switzerland via telephone +41 58 800 1000, fax +41 58 800 1010 or via e-mail term-sheet@leonteq.com. The core elements of collateralization of the COSI Products are summarized in a SIX Swiss Exchange information sheet, which is available at "www.six-swiss-exchange.com".

(3) Collateralization method

The collateral that must be furnished by the Collateral Provider is determined by the value of the COSI at any given time (hereinafter «Current Value»). The Current Values shall be determined in the trading currency of the COSI Product and converted into Swiss francs for the purpose of calculating the required collateral. The method for calculating the Current Value shall be determined for each COSI Product upon application for (provisional) admission to trading and shall remain unchanged for the entire term of the COSI Product. If prices for the COSI Product calculated by third parties are available (so-called «Fair Values»), they are taken into account when determining the Current Value in accordance with the provisions of the rules and regulations of SIX Swiss Exchange. Otherwise, the determination of the Current Value will take into account the «bond floor pricing», as defined by the Swiss Federal Tax Administration, Berne (Switzerland). For as long as no bond floor is available for a COSI Product that is subject to bond floor pricing, the Current Value shall correspond at least to the capital protection laid down in the redemption terms for the COSI Product. If the final bid-side purchase price of the COSI Product on the previous trading day on SIX Structured Products Exchange AG is higher, the collateral requirement shall always be based on this latter price. If the aforementioned prices for COSI Products are unavailable at any given time, then other prices shall be used to calculate the required collateral, in accordance with the rules and regulations of SIX Swiss Exchange. The Current Values required for the collateralization of the COSI Product shall be determined exclusively in accordance with the provisions of the «Special Conditions for Collateral Secured Instruments» of SIX Swiss Exchange. The Current Value of Product shall be determined according to [Method A: Fair Value Method] [Method B: Bond Floor Method] (the "**Value Determination Method**") of these Special Conditions of SIX Swiss Exchange.

(4) Distribution and market making

The distribution of the COSI Product shall be the responsibility of the issuer. The issuer undertakes to ensure that market making for the COSI Product is in place.

If FINMA orders the liquidation (bankruptcy, regarding SIX Swiss Exchange or SIX SIS, trading in all COSIs under this Framework Agreement shall be suspended immediately and the COSIs shall be delisted. The obligation for market making shall expire with this suspension of trading. The Issuer is obliged to ensure an over-the-counter (OTC) market making for the certificates for their remaining duration and to repurchase the certificates from the Investors at their corresponding market value. This right of reselling of the Investors vis-à-vis the Issuer is based on a genuine contract in favor of third parties (Article 112 paragraph 2 of the Swiss Code of Obligations). SIX Swiss Exchange and SIX SIS shall notify the public, by announcement on their websites, of the obligations of the Issuer regarding over-the-counter market making and repurchasing of the certificates.

(5) Risks

Collateralization eliminates the issuer default risk only to the extent that the proceeds from the liquidation of collateral upon occurrence of a Liquidation Event (less the costs of liquidation and payout) are able to meet the investors' claims. The investor bears the following risks, among others: (i) the Collateral Provider is unable to supply the additionally required collateral if the value of the COSI Product rises or the value of the collateral decreases; (ii) in a Liquidation Event, the collateral cannot be liquidated immediately by SIX Swiss Exchange because of factual hindrances or because the collateral must be handed over to the executory authorities for liquidation (iii) the market risk associated with the collateral results in insufficient liquidation proceeds or, in extreme circumstances, the collateral might lose its value entirely until the liquidation can take place; (iv) the maturity of COSI Product in a foreign currency according to the Framework Agreement may result in losses for the investor because the Current Value (determinant for the investor's claim against the issuer) is set in the foreign currency, while payment of the pro-rata share of net liquidation proceeds (determinant for the extent to which the investor's claim against the issuer is satisfied) is made in Swiss francs; (v) the collateralization is challenged according to the laws governing debt enforcement and bankruptcy, so that the collateral cannot be liquidated according to the terms of the Framework Agreement for the benefit of the investors in COSI Product.

(6) Liquidation of collateral
